In this fascinating book, entrepreneur and business consultant Eric Douglas draws on his work with corporations, government agencies, and nonprofit organizations to paint a clear picture of what happens inside high-performing organizations. He reveals a simple but profound equation: Trust + Spark = Leadership Culture. Leaders and managers are most successful when they focus on building trust and sparking innovation. In *The Leadership Equation*, Douglas expands the equation into the 10 most important practices for building trust and spark. As the author shares these practices, he reveals both the fundamental systems at work in high-performing companies and the specific day-to-day things that today's leaders must do to sustain high levels of success. As Douglas clearly shows, when trust and spark combine, leaders improve the performance of their team, their business unit, and the entire organization—and, ultimately, reach their own full potential.

Dare to Lead - Brené Brown 2018-10-09

#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and

the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

Building a High Performance Team With Disc Profiling - Craig D Robinson 2015-09-27

This book looks at tools and techniques to build high performing teams in businesses experiencing rapid growth. Jim Collins found that leaders of great companies get 'the right people on the bus, the wrong people off the bus, and the right people in the right seat.' That's a difficult task, even when you have time to consider it carefully and you fully understand the roles and responsibilities of each 'seat'. Ever managed a business through explosive growth? When you rapidly grow the size of your 'bus' you need to figure out what the new seats are, then find the right people to go in them.....quickly. You have to sort out existing personalities and roles, bring on large numbers of new people, find which roles to split, where to create new positions and which staff are best suited to each job. This book looks at a tool that can help you sort out the roles and the personalities in a compressed timeframe - DISC. Proven to get the right people in the right seats.

The Wisdom of Teams - Jon R. Katzenbach 2015-09-22

The definitive classic on high-performance teams *The Wisdom of Teams* is the definitive work on how to create high-performance teams in any organization. Having sold nearly a half million copies and been translated into more than fifteen languages, the authors' clarion call that teams should be the basic unit of organization for most businesses has permanently shaped the way companies reach the highest levels of performance. Using engaging case studies and testimonials from both successful and failed teams—ranging from Fortune 500 companies to the U.S. Army to high school sports—the authors explain the dynamics of teams both in great detail and with a broad view. Their conclusions and prescriptions span the familiar to the counterintuitive:

- Commitment to performance goals and common purpose is more important to team success than team building.
- Opportunities for teams exist in all parts of the organization.
- Real teams are the most successful spearheads of change at all levels.
- Working in teams naturally integrates performance and learning.
- Team “endings” can be as important to manage as team “beginnings.”

Wisdom lies in recognizing a team's unique potential to deliver results and in understanding its many benefits—development of individual members, team accomplishments, and stronger companywide performance.

Katzenbach and Smith's comprehensive classic is the essential guide to unlocking the potential of teams in your organization.
