Medicine and the Seven Deadly Sins in Late Medieval Literature and Culture -

Virginia Langum 2016-09-15

This book considers how scientists, theologians, priests, and poets approached the relationship of the human body and ethics in the later Middle Ages. Is medicine merely a metaphor for sin? Or can certain kinds of bodies physiologically dispose people to be angry, sad, or greedy? If so, then is it their fault? Virginia Langum offers an account of the medical imagery used to describe feelings and actions in religious and literary contexts, referencing a variety of behavioral discussions within medical contexts. The study draws upon medical and theological writing for its philosophical

basis, and upon more popular works of religion, as well as poetry, to show how these themes were articulated, explored, and questioned more widely in medieval culture.

In this thrilling novel from a #1 New York Times bestselling author, Detective Lindsay Boxer takes a vow to protect a young woman from a serial killer long enough to see her twenty-first birthday. When young wife and mother Tara Burke goes missing with her baby girl, all eyes are on her husband, Lucas. He paints her not as a missing person but a wayward wife—until a gruesome piece of evidence turns the investigation criminal. While Chronicle reporter Cindy Thomas pursues the story and M.E. Claire Washburn harbors theories that run counter to the SFPD's, ADA Yuki Castellano sizes Lucas up as a textbook domestic offender . . . who suddenly puts forward an unexpected suspect. If what

Lucas tells law enforcement has even a grain of truth, there isn't a woman in the state of California who's safe from the reach of an unspeakable threat.
