Science for a Green New Deal - Eric A. Davidson 2022-07-26  
How, he asks, can we extract from the Earth's resources what we need for the prosperity, well-being, and dignity of current and future generations of billions of people without exhausting or polluting those resources? Written in clear, jargon-free prose, *Science for a Green New Deal* is a realistic and optimistic look at how we can attain a more sustainable, prosperous, and just future.

Empires Without Imperialism - Jeanne Morefield 2014  
For over two centuries, liberal apologists for empire in Britain and America have been plagued by the contradictions between political liberalism and the exclusive, anti-democratic, and violent practices of imperialism - contradictions that become particularly obvious during periods of perceived imperial crisis. This book interrogates the complicated rhetoric of several pro-imperial,

public intellectuals from both the late British Empire and contemporary America, two eras marked by intense anxiety about decline.

**Disaster Assistance** - JayEtta Z. Hecker 2013-04-01

Statement of JayEtta Z. Hecker, Dir., Physical Infrastructure Issues, GAO. The terrorist attacks of 9/11 was one of the largest catastrophes this country has ever experienced. The fed. government has been providing the N.Y. City area with funds and other forms of assistance. The magnitude of the disaster in N.Y. and the size and scope of the fed. government.'s response in aiding the city has generated significant interest in the nature and progress of this fed. assistance. This 2003 testimony focuses on: (1) how much and what types of assistance the fed. government provided to the N.Y. City area following the 9/11 terrorist attacks; (2) how the fed. government's response to this disaster differed from previous disaster response efforts; and (3) the ongoing challenges the Fed. Emergency Mngt. Agency (FEMA) faces. Figures. This is a print on demand report.

A History of Broadcasting in the United States: The Image Empire - Erik Barnouw 1970

During the iQSo's, in a frontier atmosphere of enterprise and sharp struggle, an American television system took shape. But even as it did so, its pioneers pushed beyond American borders and became programmers to scores of other nations. In its first decade United States television was already a world phenomenon. Since American radio had for some time had international ramifications, American images and sounds were radiating from transmitter towers throughout the globe. They were called entertainment or news or education but were always more. They were a reflection of a growing United States involvement in the lives of other nations an involvement of imperial scope. The role of broadcasters in this American expansion and in the era that produced it is the subject matter of *The Image Empire*, the last of three volumes comprising this study.
