Sharp Sports Betting - Stanford Wong 2001

Advice on betting sports for beginners to experts.

How to Make \$100,000 a Year Gambling for a Living -

David Sklansky 1997

Is there really such a thing as a professional gambler?

The answer is an unequivocal, "Yes!" This book's authors are but two examples. Many thousands of people around the country make a good living exclusively from gambling. It is not easy, but it can be done. The key is to understand which games are beatable and know how to beat them. David Sklansky and Mason Malmuth have spent many years writing about the finer points of poker, blackjack, and other beatable games. As you will see in the book, those other "games" are horses, sports, progressive slots and video poker, casino tournaments, and special promotions. They don't include craps, roulette, keno, or baccarat for reasons they'll explain. This book, was written for the not quite as experienced aspiring gambler. It shows you everything you need to learn and do if you want to gamble for a living from both the practical and the technical standpoints. The rest is up to you.

The Logic Of Sports Betting - Matthew Davidow 2019-05-17

How do sportsbooks make their lines? Which types of bets are the best? Can you beat the house? The Logic Of Sports Betting answers all these questions and more with a dash of humor and a whole lot of real talk about how it all works. Peek behind the counter and learn how sportsbooks operate. Combine that insider knowledge with why-didn't-I-think-of-that sports betting logic, and you have the winning formula. Ed Miller is a best-selling (over 300,000 copies sold) author of books on poker and gambling. This is his first book on sports betting, but maybe his favorite book to write so far. Matthew Davidow is a sports modeler, using proprietary methods to beat major sports betting markets for over 15 years, and co-founding two leading private sports analytics firms along the way. What people are saying about The Logic Of Sports Betting "Matt and Ed are two of the smartest minds in sports betting." - Rufus Peabody, professional sports bettor "As a sportsbook employee for 30-plus years, I find it difficult to read or watch anything about sports betting. But I could not put The Logic Of Sports Betting down. It's that good." - Robert Walker, Las Vegas bookmaker

Head First Statistics - Dawn Griffiths 2008-08-26

A comprehensive introduction to statistics that teaches the fundamentals with real-life scenarios, and covers histograms, quartiles, probability, Bayes' theorem, predictions, approximations, random samples, and related topics.

Sports Betting - Nicolae Sfetcu 2014-05-04

Sports betting is the general activity of predicting sports results by making a wager on the outcome of a sporting event. Aside from simple wagers--betting a friend that one's favorite baseball team will win its division, for instance, or buying a football "square" for the Super Bowl--sports betting is commonly done through a bookmaker. Bookmakers generally offer two types of wagers on the winner of a sporting event: a straight-up or money line bet, or a point spread wager. Moneylines and straight-up prices are used to set odds on sports such as soccer, baseball and hockey (the scoring nature of which renders point spreads impractical) as well as individual vs. individual matches, like boxing.

Sports Betting For Dummies - Swain Scheps 2020-06-16

The sports gambling book you can bet on Sports betting combines America's national pastime (sports) with its national passion (gambling). In the U.S., more than a third of the population bets on at least one sporting event every year. With the recent lifting of the federal ban on sports gambling, states are pushing legislation to take advantage of the new potential source of revenue. The best sports betting books are data driven, statistically honest, and offer ways to take action. Sports Betting For Dummies will cover the basics, as well as delving into more nuanced topics. Casino Gambling: The Complete Guide to Gambling Strategies - Gillian Stang 2015-09-07

Gambling in its various forms has been popular for centuries in different cultures all over the entire world. Whether through the national lottery, in horse racing tracks or in casino table games, people are

wagering their money hoping to win big time. Although the number of people who go home with life changing winnings is much smaller than the number of people who have left their money in the casinos, race tracks or bingo halls, the popularity of the pastime has not been reduced through the years. Football Hackers - Christoph Biermann 2019-05-30

The future of football is now. Football's data revolution has only just begun. The arrival of advanced metrics and detailed analysis is already reshaping the modern game. We can now fully assess player performance, analyse the role of luck and measure what really leads to victory. There is no turning back. Now the race is on between football's wealthiest clubs and a group of outsiders, nerds and rule-breakers, who are turning the game on its head with their staggering innovations. Winning is no longer just about what happens out on the pitch, it's now a battle taking place in boardrooms and on screens across international borders with the world's brightest minds driving for an edge over their fiercest rivals. Christoph Biermann has moved in the midst of these disruptive upheavals, talking to scientists, coaches, managers, scouts and psychologists in the world's major clubs, traveling across Europe and the US and revealing the hidden - and often jaw-dropping - truths behind the beautiful game. 'A book full of exciting ideas and inside views on modern football. The most exciting book in an exciting time for football.'

Thomas Hitzlsperger

Winning Strategies for Lotteries & Sports Pools - A. D. Sacher 1992

Inverting The Pyramid - Jonathan Wilson 2018-08-14

"An outstanding work ... the [soccer] book of the decade." -Sunday Business Post Inverting the Pyramid is a pioneering soccer book that chronicles the evolution of soccer tactics and the lives of the itinerant coaching geniuses who have spread their distinctive styles across the globe. Through Jonathan Wilson's brilliant historical detective work we learn how the South Americans shrugged off the British colonial order to add their own finesse to the game; how the Europeans harnessed individual technique and built it into a team structure; how the game once featured five forwards up front, while now a lone striker is not uncommon. Inverting the Pyramid provides a definitive understanding of the tactical genius of modern-day Barcelona, for the first time showing how their style of

play developed from Dutch "Total Football," which itself was an evolution of the Scottish passing game invented by Queens Park in the 1870s and taken on by Tottenham Hotspur in the 1930s. Inverting the Pyramid has been called the "Big Daddy" (Zonal Marking) of soccer tactics books; it is essential for any coach, fan, player, or fantasy manager of the beautiful game

How to Win at Sports Betting - Edward Allen 1999-03-01

Sports betting generates hundreds of millions in bets on the Superbowl alone, to say nothing of pro and college football, prizefights, baseball, basketball, and hockey. In this book, players learn the techniques of beating the bookie at all these sports.

The Moneymaker Effect - Eric Raskin 2014-06-01

This is the story behind the most dramatic World Series of Poker ever and its lasting effects, told by the players, the TV execs, the tournament directors, techs, writers, and the 2003 WSOP champ himself, Chris Moneymaker. Moneymaker, an amateur poker player with a name too good to be true, defied the odds to win the 2003 WSOP main event, just as the twin inventions of online poker and the hole-card camera simultaneously arrived to revolutionize a game long-relegated to smoky bars and living rooms. More than a decade later, with the online-poker world in an ongoing state of flux, the "Moneymaker effect" continues to reverberate while the recollections and insights of the more than 30 eye-witness contributors remain as relevant and insightful as ever, whether you're a player yourself or simply interested in a great real-life narrative.

Secrets of Winning Baccarat - Brian Kayser 2003-04-22

The good news: For the average player, baccarat offers the best odds in the house, giving the house barely a 1 per cent edge without using any winning strategies.

How to Win at Sports Betting - J. Edward Allen 1990

This compendium aims to provide the gambler with all he needs to know about winning at professional football, college football, baseball, professional basketball, college basketball and boxing. It explains how the lines are made and the factors that go into the making of the line, so that by analyzing the hidden factors presented here the reader can find the creases.

Sports Betting to Win - Steve Ward 2011-03-03

Thinking, and betting, like the pros "Most people in sports betting are looking at things the wrong way." - Peter Webb, founder of Bet Angel "Some people only ever seem to want to hit the sexy six, and not take the singles" - Compton Hellyer, founder of Sporting Index This is a book that teaches you how to bet on sports with the same discipline and mindset as the professionals. Lots of books and websites give advice on profitable strategies - and tipsters and systems proliferate. But this is the only guide that helps you make your trades and bank your wins for the long term, avoiding the perennial dangers of overconfidence, irrationality and emotion. However successful your selections, you are never safe from crippling losses until you know how to bet with the clear head and calm approach of the masters. The simple fact is that most people betting on sports lose over the long term. Performance errors currently hamper the majority of bettors: they lose their bets because they first lose their heads. The only answer is to think differently.

With chapters ranging across motivation, performance analysis, the betting process and going pro, this book is the definitive guide to achieving this: - Use dozens of exercises to sharpen your thinking and refine your betting processes. - Share in the exclusive insights of professional sports bettors, who reveal for the first time how they have built successful gambling careers. - Benefit in every chapter from one-to-one training from the author, a professional sports and trading performance coach. Sports Betting to Win is your own personal course for establishing a firm psychological foundation for long-term betting success.

Casino Gambling For Dummies - Kevin Blackwood 2022-04-26

Maximize your odds on the casino floor Casinos are designed for distraction, so it helps to know a bit about when the odds are in your favor and when they're not before you push a stack of chips onto a table. They also show you the most common mistakes made by players, helping you avoid gambling risks while you enjoy what the gaming industry has to offer. Learn to see past the flashing lights, decide how much you're willing to wager, and find out how to enjoy yourself. In this book, you'll also discover: Step-by-step walkthroughs of casino etiquette and the rules of common casino games, including poker and blackjack Explanations of video poker and slots and ways to avoid losing more than you're comfortable with Explorations of online gambling, so you can enjoy the fun of a casino from the comfort of your home The perfect guide for anyone looking for an easy introduction to the world of casino gaming, Casino Gambling For Dummies is also an essential resource for those seeking to improve their odds at blackjack, craps, video poker, slots, and other games.

The Perfect Bet - Adam Kucharski 2016-02-23

"An elegant and amusing account" of how gambling has been reshaped by the application of science and revealed the truth behind a lucky bet (Wall Street Journal). For the past 500 years, gamblers-led by mathematicians and scientists-have been trying to figure out how to pull the rug out from under Lady Luck. In The Perfect Bet, mathematician and award-winning writer Adam Kucharski tells the astonishing story of how the experts have succeeded, revolutionizing mathematics and science in the process. The house can seem unbeatable. Kucharski shows us just why it isn't. Even better, he demonstrates how the search for the perfect bet has been crucial for the scientific pursuit of a better world.

Calculated Bets - Steven S. Skiena 2001-08-06

This is a book about a gambling system that works. It tells the story of how the author used computer simulations and mathematical modeling techniques to predict the outcome of jai-alai matches and bet on them successfully - increasing his initial stake by over 500% in one year! His results can work for anyone: at the end of the book he tells the best way to watch jai-alai, and how to bet on it. With humour and enthusiasm, Skiena details a life-long fascination with computer predictions and sporting events. Along the way, he discusses other gambling systems, both successful and unsuccessful, for such games as lotto, roulette, blackjack, and the stock market. Indeed, he shows how his jai-alai system functions just like a miniature stock trading system. Do you want to learn about program trading systems, the future of Internet gambling, and the real reason brokerage houses don't offer mutual funds that invest at racetracks and frontons? How mathematical models are used in political polling? The difference between correlation and causation? If you are curious about gambling and mathematics, odds are this book is for you!

Betfair Trading Made Simple: the Ultimate Guide to Getting Started - Caan Berry 2018-04-27

Looking for a reliable resource to help you get started? This is why Betfair trading made simple was created. Betfair trading made simple is an entry level book designed to assist anybody that is interested in learning to trade on Betfair's Exchange, regardless of ability or sport. Promoted by Betfair themselves, Caan explains all that you will need to consider as an aspiring exchange trader. You will learn: - What is required to make money betting - The basic principles behind Betfair trading (step by step) - Factors behind gaining an unfair advantage - Simple start-up process (including tools) - How to strategically build a winning approach. Primarily, Betfair trading made simple is not a strategy based book. However, there are a collection of strong hints and tips as to where the reader should be looking if they are to succeed. Also, several strategic approaches are broken down and explained. Prerequisites: for beginners, doesn't require prior trading knowledge. Learning to trade Betfair can be an arduous task. Particularly when you don't understand what's going on behind the scenes. All the moving numbers, charts, percentages and information. Nonetheless, on the other side, should you succeed - there are some massive benefits. Being your own boss, flexible working conditions and financial freedom to name a few... But where do you even start? These were the initial problems that we set out to solve within this book. Starting from nothing, we wanted to offer readers a quick, efficient and reliable starting resource that they can return to time and again. Making the process of learning to trade Betfair simple and convenient. For an entry level trader this book is worth far more than the listed cost. Providing a logical path and examples on route, Betfair trading made simple is the ideal solution in one neatly packaged book.

Exotic Betting At The Racetrack - William T Ziemba 2018-12-21

Exotic Betting at the Racetrack is unique as it covers the efficient-inefficient strategy to price and find profitable racetrack bets, along with handicapping that provides actual bets made by the author on essentially all of the major wagers offered at US racetracks. The book starts with efficiency, accuracy of the win odds, arbitrage, and optimal betting strategies. Examples and actual bets are shown for various wagers including win, place and show, exacta, quinella, double, trifecta, superfecta, Pick 3, 4 and 6 and rainbow pick 5 and 6. There are discussions of major races including the Breeders' Cup, Pegasus, Dubai World Cup and the US Triple Crown from 2012-2018. Dosage analysis is also described and used. An additional feature concerns great horses such as the great mares Rachel Alexandra, Zenyatta, Goldikova, Treve, Beholder and Song Bird. There is a discussion of horse ownership and a tour through arguably the world's top trainer Federico Tesio and his stables and horses in Italy. Related Link(s)

In no time, you'll be a gambling pro-and cash in on some major wins!

The Ultimate Sports Betting Secrets - A. B. Lawal 2019-02-14

Imagine if you had an Almanac with tomorrow's sports results and events? Imagine what you could do if you knew the outcome before it actually happened. Impossible? This book teaches you how sports investing works and how you can win consistently from sports betting. Sports has been my life since childhood. I was trying to crunch the code to predict tomorrow's games. In fact, this may sound a little bit like a back to the future fairytale, but I've come as close as I can to the results of Tomorrow's Almanac. During the last 13 years, I've been gathering sports data for Major League sports like Major League Baseball, NHL Hockey, the NFL football and NBA basketball. I'm crunching the numbers and I'm comparing the stats. I'm analyzing and back testing everything for years and years to crack the sports code and to find those repeating patterns and trends. This makes me understand what makes teams win and what makes teams lose. And you know what I found? I found that history always repeats itself. This is true, especially in sports where the rules are strictly defined. The outcomes in these situations are very predictable. Of course there are lucky strikes and conditions that are impossible to put into perspective. However, those are very small percentages. If you know the past outcome of an event, you can predict the results for the game in similar circumstances with a high degree of probability. As I said before, the past is never a full indication of what will happen in the future and there is always room for surprises, but again, this is what makes sports fun to watch. Am I right? However, what is the chance that a

team with similar power and player statistics will produce a similar outcome in a similar game in similar circumstances? What's that percentage? 86.5% that's right. An 86.5% of the cases there will be no surprises and the prediction will come absolutely. The Zcode investing software is the best system in the market because it keeps making investors consistent gains each and every month. Truth is we love sports, but we hate to gamble and that's why we call this sports investing, which is similar to any other trading like stocks, stock options, and forex trades. This is just way more predictable than today's flawed economic models with crisis's and bankruptcy events. Every day the software is gathering thousands and thousands of sports data and results: every single event, every single detail, every single player and every single team. I start the simulation with over 80 parameters in the zcode formula to come up with a precise and easy to use prediction and not only tell you who is going to win, but also and most importantly, where the value is, which means more money can be made guessing. To learn more about how you can create a consistent \$1500 monthly from sports betting following our guide, just order this book right now! *This Sic Bo Strategy Worth More Than Any System* - Minh Ng 2015-12-04

- Question: You are losing money on Sicbo and you want to earn them back? Or you want make money from playing Sicbo online? Answer: This strategy is all you need to know to grow your money. It is simple and I will show you how. You will not need to buy any Sicbo systems from me or anyone. If you follow a step further, I will show you how to make money and to enjoy betting.

The Economics of Sports Betting - Plácido Rodríguez
This unique book delves into a number of intriguing issues and addresses several pertinent questions including, should gambling markets be privatized? Is the 'hot hand' hypothesis real or a myth? Are the 'many' smarter than the 'few' in estimating betting odds? How are prices set in fixed odds betting markets? The book also explores the informational efficiency of betting markets and the prevalence of corruption and illegal betting in sports.

Mensa Guide to Casino Gambling - Andrew Brisman 2004
"The runaway winner as the best overall gambling encyclopedia written in the past 20 years."--Detroit Free Press
Walk away from every casino a winner! Take it from Mensa, the society for people with high IQs: you don't have to be a genius to triumph at the tables. Here's the inside line on the games and bets that give the best advantage. Do you know whether to split a pair of aces in blackjack, which slot machines carry the worst payback for the player, and why losses are more significant at video than "live" keno? Beat the bank by understanding all this and more, including odds and probability, the "house edge," money management, and gambling psychology. The chips will just pile up. The author lives in New York, NY.

Weighing the Odds in Sports Betting - King Yao 2007
This book by King Yao, author of the widely-acclaimed *Weighing the Odds in Hold 'em Poker*, should be used as a guideline to sports betting rather than a blueprint. The sports betting market changes and adapts quickly. The underlying principles shown in this book should help the reader adapt and continue to make good bets even when the market changes.

Racetrack Betting - Peter Asch 1991
A day at the races, with its colorful variety and fast-paced action, appeals to people from all walks of life. Not surprisingly, the idea of going home with a few more dollars than when one arrived is part of horseracing's charm. In this entertaining but substantive volume, two distinguished economists, who happen to be horseracing buffs, outline a tested strategy for placing bets that will increase the reader's chances of a happy outcome at the track. The authors are the first to point out that

getting rich at the racetrack is unlikely. They do maintain, however, that with attention to their systematic approach, the racing fan can achieve the best possible chance at winning. In the process, the reader learns some of the most important measurement techniques in the social sciences, as well as the basic methods of market analysis.

26+ Mind Hacks In American Football Betting: Must Read to Win Bets - Minh A.F. 2016-06-22

And some things that might stop you from ever gambling again. So, please read these words carefully. Every word is true and it has taken me the better part of my life to discover what I am about to reveal to you. As you probably already know, sports betting is a game in which you are either a winner or a loser. There are no in-betweens, right? But did you know that 99% of people lose their money in the long run? And this of course does not mean that you will not win any money. You probably already have. What it means is that in the end, you are bound to lose all the money you've won plus much more of your own. You see, the 99% of people who lose their money do so because they bet on sports relying on two things alone. First, it's the "knowledge" they have of a particular sports game. And secondly, they hope to get lucky by relying on that knowledge. But... "HOPE IS NOT A STRATEGY." In fact, there is nothing more difficult to acquire than the image that hope places in one's mind. The truth is, while you hope to get lucky (usually by betting on your favorite teams), the gambling industry on the other hand strategizes by using psychological techniques to fuel you to continue hoping and dreaming. And why is that? Actually, the answer is simple: As long as you maintain this attitude, they will always take your money. A good example is the use of a psychological technique known as priming, in which the betting companies only advertise the people who win. By constantly seeing this, most people will think that there are so many winners out there. And because of the natural self-centeredness, most seeing these ads will be deceived to think that they too stand a chance to win. While in truth, the odds of winning are really stacked against them. In fact, if we required that the television stations run a thirty-seconds interview with each loser every time, they interviewed a winner. The hundreds of millions of losers in a single game would require more than nine years of your undivided attention just to watch them say that they've lost. That's the bad news. The good news is that there are ways to win. And the most famous one being the use of sports betting systems and strategies. They are everywhere and have been sold for as little as £ 10 to as much as £ 5,000. I know it because I have purchased them all. Many of these systems are extremely complex. They have been developed by scientists, mathematicians, and college professors with high tech computer-like minds. In practice and research, I have found that to successfully use these systems you need to have a sophisticated analytical framework to perform the constant calculations required. And for the average

person, many of these systems are not even worth the hype they have been given. That's why I developed my own simple sports betting system. Actually, it took me several years and a lot of money to make it into a sure-fire winner, but it was worth it. I took all the expensive and complex systems available on today's market and created a simple, easy-to-follow system that quite honestly wins like crazy! There are no weird hair-brained formulas to use and no mathematical theories to apply. It is simple and straight-forward. It tells you how to play, how to bet, and how to win. Would you like to try out this amazing money-making sports betting secret? Would you like to see for yourself if it is as easy and as profitable as I say it is? Sure, you would. Your decision to purchase this manual will probably turn out to be the smartest move you've ever made.

Thinking in Bets - Annie Duke 2019-05-07

A Wall Street Journal bestseller, now in paperback. Poker champion turned decision strategist Annie Duke teaches you how to get comfortable with uncertainty and make better decisions. Even the best decision doesn't yield the best outcome every time. There's always an element of luck that you can't control, and there's always information hidden from view. So the key to long-term success (and avoiding worrying yourself to death) is to think in bets: How sure am I? What are the possible ways things could turn out? What decision has

the highest odds of success? Did I land in the unlucky 10% on the strategy that works 90% of the time? Or is my success attributable to dumb luck rather than great decision making? Annie Duke, a former World Series of Poker champion turned consultant, draws on examples from business, sports, politics, and (of course) poker to share tools anyone can use to embrace uncertainty and make better decisions. For most people, it's difficult to say "I'm not sure" in a world that values and, even, rewards the appearance of certainty. But professional poker players are comfortable with the fact that great decisions don't always lead to great outcomes, and bad decisions don't always lead to bad outcomes. By shifting your thinking from a need for certainty to a goal of accurately assessing what you know and what you don't, you'll be less vulnerable to reactive emotions, knee-jerk biases, and destructive habits in your decision making. You'll become more confident, calm, compassionate, and successful in the long run.

Only One Roulette Strategy You Need to Know - Minh Ng 2015-11-28

- Question: You are losing money on Roulette and you want to earn them back? Or you want make money from playing Roulette online? Answer: I have one strategy you need to know to keep your money safe.
