An Artist of the Floating World - Kazuo Ishiguro 2012-09-05
From the winner of the Nobel Prize in Literature and author of the Booker Prize-winning novel *The Remains of the Day* In the face of the misery in his homeland, the artist Masuji Ono was unwilling to devote his art solely to the celebration of physical beauty. Instead, he put his work in the service of the imperialist

movement that led Japan into World War II. Now, as the mature Ono struggles through the aftermath of that war, his memories of his youth and of the "floating world"—the nocturnal world of pleasure, entertainment, and drink—offer him both escape and redemption, even as they punish him for betraying his early promise. Indicted by society for its defeat and reviled for his past

aesthetics, he relives the passage through his personal history that makes him both a hero and a coward but, above all, a human being.

The Future of Asian Trade Deals and IP -

Kung-Chung Liu

2019-11-28

The first part of this open access book sets out to re-examine some basic principles of trade negotiation, such as choosing the right representatives to negotiate and enhancing transparency as a cure to the public's distrust against trade talks.

Moreover, it analyses how the Comprehensive and Progressive Agreement for the Trans-Pacific Partnership (CPTPP) might impact on the Regional Comprehensive Economic Partnership's (RCEP) IP chapter and examines the possible norm setters of Asian IP. It then focuses on the People's

Republic of China's (PRC) trade and IP strategy against the backdrop of the power games between the PRC, India and the US. The second part of the book reflects on issues related to investor-state dispute settlement and its relationship with IP, such as how to recalibrate the balance in international investment arbitration, and whether compulsory license of IP constitutes expropriation in India, the PRC and select ASEAN countries. The third part of the book questions and strives to improve some of the proposed IP provisions of CPTPP and RCEP and to redefine some aspects of international IP norms, such as: pre-grant patent opposition and experimental use exception; patent term extension; patent linkage and data exclusivity for the pharmaceutical sector; plant variety protection; pre-established damages for copyright infringement;

and the restructuring of copyright limitations in the public interest. The open access edition of this book is available under a CC BY-NC-ND 3.0 licence on www.bloomsburycollection.com. Open access was funded by the Applied Research Centre for Intellectual Assets and the Law in Asia, School of Law, Singapore Management University.

Art Worlds, 25th Anniversary Edition - Howard S. Becker
2008-04-08

This classic sociological examination of art as collective action explores the cooperative network of suppliers, performers, dealers, critics, and consumers who—along with the artist—"produce" a work of art. Howard S. Becker looks at the conventions essential to this operation and, prospectively, at the extent to which art is shaped by this collective activity. The book is thoroughly illustrated and updated with a new dialogue between Becker and eminent French sociologist Alain Pessin about the extended social system in which art is created, and with a new preface in which the author talks about his own process in creating this influential work.

Female Genital Mutilation around The World: - Ngianga-Bakwin Kandala 2018-07-09

This book uses global household data to examine the prevalence, trends and geographic variation of female genital mutilation (FGM) around the world. It also addresses the underlying legal and policy aspects as well as explores the medical consequences, both immediate and long term, for those undergoing the practice. The book

analyses the position of victims of this gender-based violence both from the medical and legal perspective and adopts a largely practical approach to the study of the practices, offering a fresh thinking into one of the challenges in global health and the law. In addition, it offers some insights into how health professionals can approach this category of victims and how legal practitioners can obtain a good legal result for their clients before domestic and international forums. The book addresses fundamental issues such as state liability and defences in enforcement proceedings for actions or omission of state or non-state actors, and due diligence standard in international human rights law, the main gateways available for obtaining relief for the victims of FGM. This book goes beyond the traditional debate between zero tolerance and those who wish to see the practice

medicalised and tolerated and favours an advocacy programme standing firmly in favour of the right of FGM victims. This book offers a unique perspective likely to assist victims and their representatives to secure a remedy against perpetrators and the state. As such this book will be of interest to medical professionals, national and international lawyers, academics and policymakers in the field of public health.

The Art of Gathering - Priya Parker 2020-04-14
"Hosts of all kinds, this is a must-read!" -- Chris Anderson, owner and curator of TED From the host of the New York Times podcast Together Apart, an exciting new approach to how we gather that will transform the ways we spend our time together—at home, at work, in our communities, and beyond. In *The Art of Gathering*, Priya Parker argues that the gatherings in our lives are lackluster and

unproductive--which they don't have to be. We rely too much on routine and the conventions of gatherings when we should focus on distinctiveness and the people involved. At a time when coming together is more important than ever, Parker sets forth a human-centered approach to gathering that will help everyone create meaningful, memorable experiences, large and small, for work and for play. Drawing on her expertise as a facilitator of high-powered gatherings around the world, Parker takes us inside events of all kinds to show what works, what doesn't, and why. She investigates a wide array of gatherings--conferences, meetings, a courtroom, a flash-mob party, an Arab-Israeli summer camp--and explains how simple, specific changes can invigorate any group experience. The result is a book that's both journey and guide, full of exciting ideas with

real-world applications. The Art of Gathering will forever alter the way you look at your next meeting, industry conference, dinner party, and backyard barbecue--and how you host and attend them. *Dance Education around the World* - Charlotte Svendler Nielsen 2015-04-21 Dance has the power to change the lives of young people. Art & Fear - David Bayles 2023-02-09

Art & Fear is about the way art gets made, the reasons it often doesn't get made, and the nature of the difficulties that cause so many artists to give up along the way. Drawing on the authors' own experiences as two working artists, the book delves into the internal and external challenges to making art in the real world, and shows how they can be overcome every day. First published in 1994, Art & Fear quickly became an underground classic, and word-of-mouth has placed it among the best-selling books on artmaking and creativity. Written by artists for artists, it offers generous and wise insight into what it feels like to sit down at your easel or keyboard, in your studio

or performance space, trying to do the work you need to do. Every artist, whether a beginner or a prizewinner, a student or a teacher, faces the same fears - and this book illuminates the way through them.

Women, Art, and Society

- Whitney Chadwick

2020-09-15

A new edition of the groundbreaking book by Whitney Chadwick maps the complete history of women artists from the Middle Ages and the Renaissance to today. Art historian Whitney Chadwick's acclaimed bestselling study challenges the assumption that great women artists are exceptions to the rule who "transcended" their gender to produce major works of art. While introducing some of the many women since the Middle Ages whose contributions to visual culture have often been neglected, Chadwick's survey reexamines the works themselves and the ways in which they have been perceived as

marginal, often in direct reference to gender. In her discussion of feminism and its influence on such a reappraisal, she also addresses the closely related issues of ethnicity, class, and sexuality. This revised edition features a completely redesigned interior and full-color illustrations. With a new preface and epilogue from this emerging authority on the history of women artists, curator and professor Flavia Frigeri, this revised edition continues the project of charting the evolution of feminist art history and pedagogy, revealing how artists have responded to new strategies of feminism for the current moment. *The Art of South and Southeast Asia* - Steven Kossak 2001

Community Interests Across International Law - Eyal Benvenisti 2018-05-17
This book explores the extent to which contemporary international law expects states to take

into account the interests of others - namely third states or their citizens - when they form and implement their policies, negotiate agreements, and generally conduct their relations with other states. It systematically considers the various manifestations of what has been described as 'community interests' in many areas regulated by international law and observes how the law has evolved from a legal system based on more or less specific consent and aimed at promoting particular interests of states, to one that is more generally oriented towards collectively protecting common interests and values. Through essays by experts in the field, this book explores topics such as the sources of international law and the institutional aspects of developing the law and covers a range of areas within the law.

International Migration in Cuba - Margarita

Cervantes-Rodríguez
2015-08-26
Since the arrival of the Spanish conquerors at the beginning of the colonial period, Cuba has been hugely influenced by international migration. Between 1791 and 1810, for instance, many French people migrated to Cuba in the wake of the purchase of Louisiana by the United States and turmoil in Saint-Domingue. Between 1847 and 1874, Cuba was

the main recipient of Chinese indentured laborers in Latin America. During the nineteenth century as a whole, more Spanish people migrated to Cuba than anywhere else in the Americas, and hundreds of thousands of slaves were taken to the island. The first decades of the twentieth century saw large numbers of immigrants and temporary workers from various societies arrive in Cuba. And since the revolution of 1959, a continuous outflow of Cubans toward many countries has taken place—with lasting consequences. In this book, the most comprehensive study of international migration in Cuba ever undertaken, Margarita Cervantes-Rodríguez aims to elucidate the forces that have shaped international migration and the involvement of the migrants in transnational social fields since the beginning of the colonial period. Drawing on Fernand Braudel's

concept of *longue durée*, transnational studies, perspectives on power, and other theoretical frameworks, the author places her analysis in a much wider historical and theoretical perspective than has previously been applied to the study of international migration in Cuba, making this a work of substantial interest to social scientists as well as historians.

Things Fall Apart -

Chinua Achebe 2009-06-05
THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the immemorial conflict between the individual and society. The second story, which is as modern as the first is

ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

The Art of Mesoamerica - Mary Ellen Miller 2019-06-11

Mary Ellen Miller's rich visual and scholarly survey of pre-Hispanic art and architecture, including the most recent archaeological finds. Expanded and revised in its sixth edition, *The Art of Mesoamerica* surveys the artistic achievements of

the high pre-Hispanic civilizations of Central America—Olmec, Maya, Teotihuacan, Toltec, and Aztec—as well as those of their lesser-known contemporaries.

Providing an in-depth examination of central works, this book guides readers through the most iconic palaces, pyramids, sculptures, and paintings. From the Olmec colossal head 5 recovered from San Lorenzo to the Aztec calendar stone found in Mexico City's Zocalo in 1790, this book reveals the complexity and innovation behind the art and architecture produced in pre-Hispanic civilizations. This new edition incorporates fifty new lavish color images and extensive updates based on the latest research and dozens of recent discoveries, particularly in Maya art, where excavations at Teotihuacan, the largest city of Mesoamerica, and Tenochtitlan, the capital of the Aztecs, have yielded new

sculptures.

Exploring the intersection between these three processes, the essays are learned, deeply researched and insightful, and the comparative range is impressive. The volume

is certain to become a standard reference text for scholars and the general reader alike' - Professor Stuart Hall, Emeritus Professor of Sociology, The Open University Heritage, memory and identity are closely connected keywords of our time, each endowed with considerable rhetorical power. Different human groups define certain objects and practices as 'heritage'; they envision heritage to reflect some form of collective memory, either lived or imagined; and they combine both to construct cultural identities. Today, the three terms raise conjoined issues of practice, policy and politics in an increasingly globalized world. Bringing together a truly global range of scholars, this volume explores heritage, memory and identity through a diverse set of subjects, including heritage sites, practices of memorialization,

museums, sites of contestation, and human rights.
