What is Nature - Kate Soper 1995-09-06

'This is an excellent book. It addresses what, in both conceptual and political terms, is arguably the most important source of tension and confusion in current arguments about the environment, namely the concept of nature; and it does so in a way that is both sensitive to, and critical of, the two antithetical ways of understanding this that dominate existing discussions.' Russell Keat, University of Edinburgh

Leonardo Pisano (Fibonacci) - L. E. Sigler 2014-06-28

The *Book of Squares* by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.

Good Night, Mr. Tom - Michelle Magorian 1986-11-13

London is poised on the brink of World War II. Timid, scrawny Willie Beech -- the abused child of a single mother -- is evacuated to the English countryside. At first, he is terrified of everything, of the country sounds and sights, even of Mr. Tom, the gruff, kindly old man who has taken him in. But gradually Willie forgets the hate and despair of his past. He learns to love a world he never knew existed, a world of friendship and affection in which harsh words and daily beatings have no place. Then a telegram comes. Willie must return to his mother in London. When weeks pass by with no word from Willie, Mr. Tom sets out for London to look for the young boy he has come to love as a son.

Rethinking Journalism - Chris Peters 2013-05-07

There is no doubt, journalism faces challenging times. Since the turn of the millennium, the financial health of the news industry is failing, mainstream audiences are on the decline, and professional authority, credibility and autonomy are eroding. The outlook is bleak and it's understandable that many are pessimistic. But this book argues that we have to rethink journalism fundamentally. Rather than just focus on the symptoms of the 'crisis of journalism', this collection tries to understand the structural transformation journalism is undergoing. It explores how the news media attempts to combat decreasing levels of trust, how emerging forms of news affect the established journalistic field, and how participatory culture creates new dialogues between journalists and audiences. Crucially, it does not treat these developments as distinct transformations. Instead, it considers how their interrelation accounts for both the tribulations of the news media and the need for contemporary journalism to redefine itself.

The Whole World in a Book - Sarah Ogilvie 2019-11-01

Nineteenth-century readers had an appetite for books so big they seemed to contain the whole world: immense novels, series of novels, encyclopaedias. Especially in Eurasia and North America, especially among the middle and upper classes, people had the space, time, and energy for very long books. More than other multi-volume nineteenth-century collections, the dictionaries, or their descendants of the same name, remain with us in the

twenty-first century. Online or on paper, people still consult Oxford for British English, Webster for American, Grimm for German, Littré for French, Dahl for Russian. Even in spaces whose literary languages already had long philological and lexicographic traditions-Chinese, Japanese, Arabic, Persian, Greek, Latin-the burgeoning imperialisms and nationalisms of the nineteenth century generated new dictionaries. *The Whole World in a Book* explores a period in which globalization, industrialization, and social mobility were changing language in unimaginable ways. Newly automated technologies and systems of communication expanded the international reach of dictionaries, while rising literacy rates, book consumption, and advertising led to their unprecedented popularization. Dictionaries in the nineteenth century became more than dictionaries: they were battlefields between prestige languages and lower-status dialects; national icons celebrating the language and literature of the nation-state; and sites of innovative authorship where middle and lower classes, volunteers, women, colonial subjects, the deaf, and missionaries joined the ranks of educated white men in defining how people communicated and understood the world around them. In this volume, eighteen of the world's leading scholars investigate these lexicographers asking how the world within which they lived supported their projects? What did language itself mean for them? What goals did they try to accomplish in their dictionaries?

Varieties of Sovereignty and Citizenship - Sigal R. Ben-Porath 2012-11-29

In *Varieties of Sovereignty and Citizenship*, scholars from a wide range of disciplines reflect on the transformation of the world away from the absolute sovereignty of independent nation-states and on the proliferation of varieties of plural citizenship. The emergence of possible new forms of allegiance and their effect on citizens and on political processes underlie the essays in this volume. The essays reflect widespread acceptance that we cannot grasp either the empirical realities or the important normative issues today by focusing only on sovereign states and their actions, interests, and aspirations. All the contributors accept that we need to take into account a great variety of globalizing forces, but they draw very different conclusions about those realities. For some, the challenges to the sovereignty of nation-states are on the whole to be regretted and resisted. These transformations are seen as endangering both state capacity and state willingness to promote stability and security internationally. Moreover, they worry that declining senses of national solidarity may lead to cutbacks in the social support systems many states provide to all those who reside legally within their national borders. Others view the system of sovereign nation-states as the aspiration of a particular historical epoch that always involved substantial problems and that is now appropriately giving way to new, more globally beneficial forms of political association. Some contributors to this volume display little sympathy for the claims on behalf of sovereign states, though they are just as wary of emerging forms of cosmopolitanism, which may perpetuate older practices of economic exploitation, displacement of indigenous communities, and military technologies of domination. Collectively, the contributors to this volume require us to rethink deeply entrenched assumptions about what varieties of sovereignty and citizenship are politically possible and desirable today, and they provide illuminating insights into the alternative directions we might choose to pursue.

Doing Theology in Context - John W. De Gruchy 1994

Bloedlelie - Jeanette Ferreira 2019-02-20

Die bloedlelie bloei soos 'n mens wat liefhet of ly In die somer van 1838 vertrek die Voortrekkerleier Piet Retief en sowat 100 man na die Zoeloekoning Dingaan om oor grond vir die trekkers te onderhandel. In die laer by Doornkop wag sy vrou Magdalena op hulle terugkeer. Die afloop van hierdie sending na Dingaan is wyd opgeteken as die Slag van Bloedrivier. Byna 180 jaar later is Hanna op soek na wat ook al Magdalena nagelaat het. Vroeg in hierdie soektog loop Hanna haar vas in 'n plaasmoord waarvoor sy nie antwoorde het nie. Bitter min is bekend oor Magdalena en haar lewe na 1838, buiten haar brief in 1841 aan haar skoonfamilie. In Pietermaritzburg staan haar huisie vandag nog, nou 'n klerewinkel. Kort voor haar dood in 1854 besoek 'n handelaar haar in Potchefstroom en staan in sy boek 'n paragraaf aan haar af. Al wat ons het, is vandag en elke mens vertel 'n storie anders. Van ver af is niks soos dit vir ons lyk nie. "e;Bloedlelie is 'n merkwaardige en belangrike roman uit die pen van 'n vaardige, gesoute skrywer. Verskriklike en weersinwekkende gebeure sowel as hedendaagse politieke kompleksiteite en strydpunte word met 'n seker hand uitgebeeld. Tegelykertyd is hierdie roman die verhaal van Magdalena Retief, die grootliks onbesonge vrou van Pieter Mauritz Retief."e; - Helene de Kock

Body Bereft - Antjie Krog 2011-05-13

Antjie Krog's iconic status as one of South Africa's most popular and critically-acclaimed poets began when she was eighteen, with her first collection, *Dogter van Jefta* (1970). Almost four decades later, this very different collection will confirm her reputation with poems that blur and ravage the boundaries between the lyrical and confessional, the private and public. *Body Bereft* is a fearless and ecstatic exploration of consciousness on the edge of decay and dissolution. The taboos within the tidal moods of the menopause are described with anger and verbal intensity in a voice that is uniquely Krog's. Close relationships are searingly explored, occasionally seeking conflict, often searching for resolution. In the final meditative section, the personal intensity is tempered, fantastically almost, by contemplations of Table Mountain as a looming, symbolic and androgynous godhead, echoing Adamastor, an abiding presence that endures as it suffers witness - an ostensibly inscrutable, ironically nurturing mirror to self and personal despair. These dramatic, even reckless poems, translated from the simultaneously published Afrikaans Collection, *Veweerskrif*, bring an altogether new and unique energy to South African English-language poetry.

Newspaper Journalism - Peter Cole 2009-12-01

Are newspapers faced with an existential threat or are they changing to meet the challenges of a digital world? With the newspaper's role in a state of fundamental redefinition, *Newspaper Journalism* offers a timely and up to the minute analysis of newspapers today, in the context of their historical importance to society. Drawing on their extensive experience in academia and also across local, national, mainstream and alternative newspapers, Cole and Harcup write clearly and engagingly from both industry and scholarly perspectives, and contend that, far from dying, newspapers are doing what they have always done: adapting to a changing environment. This text is essential reading for all students of the press, with comprehensive and critical coverage of the most important debates in the study of newspaper journalism - from ethics and investigative journalism to political economy and the future of the industry. Given the shifting boundaries and central importance of newspapers, it will be of interest to all students of journalism and the media. Praise for the Journalism Studies: Key Texts series: 'It is easy to describe a good textbook for a specific journalistic format... The ideal book has to satisfy a list of requirements that are also bullet-pointed in journalism assignment outlines. A text has to: synthesize the existing body of knowledge; explain concepts clearly; have a logical order of topics; and provide enough information and directions to pursue further study. One may also hope it would include real life examples and be lucid, vivid and a pleasure to read. Hard to find? Not anymore. The new SAGE series Journalism Studies: Key Texts satisfies the main requirements on the list. Carefully planned and meticulously edited by Martin Conboy, David Finkelstein and Bob Franklin, the textbook series is a welcome contribution to the literature of journalism

studies... All three books follow the same structural template: an overview of historical development; explication of the political and economic frameworks within particular types of journalism; a review of contemporary practices; social demographics; a comparative analysis of practices around the world; a summary of main conceptual approaches; an indication of future directions; recommendations for further reading. This strong organization resembles a template for a course outline. This is intentional because the series is aimed both at students and their practice-based lecturers, who often come straight from industry and need time to adjust to the academic environment... [The series] achieves its aim to bridge the sometimes too evident dissonance between journalism theory and practice... They successfully situate discussions about journalism in social and historical contexts. We see the faces of individual journalists, the circumstances of news production, the relationship with owners, the battle between the public service and the profit nature of news, the relevance of journalism work. The detailed account of the conditions under which newspaper, radio and alternative journalism is produced and performed make the Journalism Studies: Key Texts series mandatory reading for both journalism students and their lecturers' - Verica Rupar, Journalism Studies

Basic Concepts in the Methodology of the Social Sciences - Johann Mouton 1988

This book consists of three major sections. In the first, which includes chapters 1 to 7, the basic concepts of the methodology of the social sciences are discussed. In the second, chapters 8 and 9, the most important concepts of part one are integrated in discussions on the writing of research proposals and research reports. The third section (appendices) consists of three "case studies" in which the most important methodological principles which were discussed in the preceding sections are illustrated.

Historical Dictionary of Namibia - Victor Tonchi 2012

The crisis in Asia has caused economic hardship and brought an end to the 'economic miracle' of fast economic growth in the region. This book asks whether the 1997/8 crisis marks a break with the past and signals an end to 'Asian' ways of running economies. The book examines the social, economic, and political modes of governance in the region and finds a shifting balance between rule by the market, rule by connections, and rule by force.

Race and Reconciliation in South Africa - William E. Van Vugt 2000

In the mid-1990s the Truth and Reconciliation Commission disclosed its findings on the awful reality of the apartheid era in South Africa. The Commission inspired scholars from Europe, North America, and South Africa to convene a group of their own, to investigate in multicultural, scholarly dialogue the history, theology, philosophy, and politics of race and reconciliation in South Africa. This volume is the product of that important dialogue. And while the focus is the particular environment of South Africa, the contributors work within a comparative perspective, using examples from other nations and cultures to explore that which makes South Africa unique. Ultimately, the book aims to offer not only a better understanding of the depth of injustice in South Africa's past, but also a deeper appreciation for the achievement of the present and the promise of the future--in South Africa and in every other multiethnic region in the world.

South Africa's transition to democracy was met by the global audience with at first, disbelief, followed later by applause. After fifteen years of democracy big questions remain: has a more democratic regime also lead to a more liberal society? And has democracy made for a more peaceful society?

Yearning - bell hooks 2014-10-10

For bell hooks, the best cultural criticism sees no need to separate politics from the pleasure of reading. Yearning collects together some of hooks's classic and early pieces of cultural criticism from the '80s. Addressing topics like pedagogy, postmodernism, and politics, hooks examines a variety of cultural artifacts, from Spike Lee's film *Do the Right Thing* and Wim Wenders's film *Wings of Desire* to the writings of Zora Neale Hurston and Toni Morrison. The result is a poignant collection of essays which, like all of hooks's work, is above all else concerned with transforming oppressive structures of domination.

Written by scholars from across the English-speaking world and scholars for whom English is not their first language.

Tangled Up in School - Jan Nesor 2013-11-26

Based on two years of ethnographic fieldwork in an urban elementary school, this volume is an examination of how school division politics, regional economic policies, parental concerns, urban development efforts, popular cultures, gender ideologies, racial politics, and university and corporate agendas come together to produce educational effects. Unlike conventional school ethnographies, the focus of this work is less on classrooms than on the webs of social relations that embed schools in neighborhoods, cities, states, and regions. Utilizing a variety of narratives and analytical styles, this volume: * explores how curriculum innovations are simultaneously made possible by and undermined by school district politics, neighborhood histories, and the spatial and temporal organizations of teachers' and parents' lives; * situates the educational discourse of administrators and teachers in the changing economic and political climates of the city; * analyzes the motivations behind an effort by school and business proponents to refashion classrooms within the school into business enterprises, and of children's efforts to make sense of the scheme; * examines the role of the school as a neighborhood institution, situating it at

the intersections of city planners' efforts to regulate city space and children's efforts to carve out live spaces through out-of-school routines; * contemplates the meaning of school as a site for bodily experience, and looks at how patterns of space and control in the school shaped children's bodies, and at how they continued to use body-based languages to construct maturity, gender, and race; and * investigates the school as a space for the deployment of symbolic resources where children learned and constructed identities through their engagements with television, comic books, movies, and sports. *Tangled Up In School* raises questions about how we draw the boundaries of the school, about how schools fit into the lives of children and cities, and about what we mean when we talk about "school."

Critical Perspectives on Bell Hooks - Maria del Guadalupe Davidson 2009-03-04

Although bell hooks has long challenged the dominant paradigms of race, class, and gender, there has never been a comprehensive book critically reflecting upon this seminal scholar's body of work. Her written works aim to transgress and disrupt those codes that exclude others as intellectually

mediocre, and hooks' challenge to various hegemonic practices has heavily influenced scholars in numerous areas of inquiry. This important resource thematically examines hooks' works across various disciplinary divides, including her critique on educational theory and practice, theorization of racial construction, dynamics of gender, and spirituality and love as correctives in postmodern life. Ultimately, this book offers a fresh perspective for scholars and students wanting to engage in the prominent work of bell hooks, and makes available to its readers the full significance of her work. Compelling and unprecedented, *Critical Perspectives on bell hooks* is a must-read for scholars, professors, and students interested in issues of race, class, and gender.
