Pushing Cool - Keith Wailoo 2021-10-18

Spanning a century, Pushing Cool reveals how the twin deceptions of health and Black affinity for menthol were crafted—and how the industry’s disturbingly powerful narrative has endured to this day. Police put Eric Garner in a fatal chokehold for selling cigarettes on a New York City street corner. George Floyd was killed by police outside a store in Minneapolis known as “the best place to buy menthols.” Black smokers overwhelmingly prefer menthol brands such as Kool, Salem, and Newport. All of this is no coincidence. The disproportionate Black deaths and cries of “I can’t breathe” that ring out in our era—because of police violence, COVID-19, or menthol smoking—are intimately connected to a post-1960s history of race and exploitation. In Pushing Cool, Keith Wailoo tells the intricate and poignant story of menthol cigarettes for the first time. He pulls back the curtain to reveal the hidden persuaders who shaped menthol buying habits and racial markets across America: the world of tobacco marketers, consultants, psychologists, and social scientists, as well as Black lawmakers and civic groups including the NAACP. Today most Black smokers buy menthols, and calls to prohibit

their circulation hinge on a history of the industry's targeted racial marketing. In 2009, when Congress banned flavored cigarettes as criminal enticements to encourage youth smoking, menthol cigarettes were also slated to be banned. Through a detailed study of internal tobacco industry documents, Wailoo exposes why they weren't and how they remain so popular with Black smokers.

How to Build Self-Discipline - Martin Meadows 2015-06-05

How to Develop Self-Discipline, Resist Temptations and Reach Your Long-Term Goals If you want to make positive changes in your life and achieve your long-term goals, I can't think of a better way to do it than to learn how to become more self-disciplined. Science has figured out a lot of interesting aspects of self-discipline and willpower, but most of this knowledge is buried deep inside long and boring scientific papers. If you'd like to benefit from these studies without actually reading them, this book is for you. I've done the job for you and researched the most useful and viable scientific findings that will help you improve your self-discipline. Here are just a couple things you will learn from the book: - what a bank robber with lemon juice on his face can teach you about self-control. The story will make you laugh out loud, but its implications will make you think twice about your ability to control your urges. - how \$50 chocolate bars can motivate you to keep going when faced with an overwhelming temptation to give in. - why President Obama wears only gray and blue suits and what it has to do with self-control (it's also a possible reason why the poor stay poor). - why the popular way of visualization can actually prevent you from reaching your goals and destroy your self-control (and what to do instead). - what dopamine is and why it's crucial to understand its role to break your bad habits and form good ones. - 5 practical ways to train your self-discipline. Discover some of the most important techniques to increase your self-

control and become better at resisting instant gratification. - why the status quo bias will threaten your goals and what to do to reduce its effect on your resolutions. - why extreme diets help people achieve long-term results, and how to apply these findings in your own life. - why and when indulging yourself can actually help you build your self-discipline. Yes, you can stuff yourself (from time to time) and still lose weight. Instead of sharing with you the detailed "why" (with confusing and boring descriptions of studies), I will share with you the "how" – advice that will change your life if you decide to follow it. You too can master the art of self-discipline and learn how to resist temptations. Your long term goals are worth it. Scroll up and buy the book now. As a gift for buying my book, you'll get my another book, "Grit: How to Keep Going When You Want to Give Up." A Gardener's Latin - Richard Bird 2015-08-01

Every gardener needs to know their Latin names. They may look confusing at first, but once you understand what certain key words mean, impenetrable-sounding and hard-to-pronounce species names are suddenly demystified. Many Latin names hide the secrets of where the plant is found, its colour, flowering times, leaf pattern, natural habitat and all sorts of other information that's extremely useful to the gardener: if you want a plant for a shady place, choose one with a name ending in *sylvestris* ('of woods'), while if your garden is dry, look out for the suffix *epigeios* ('of dry places'). More than just a dictionary of plant names, this fascinating book explains the meaning of hundreds of Latin plant terms, grouped into handily

themed sections such as plants that are named after famous women, plants that are named after the shape of their leaves, plants that are named after their fragrance or the time of year that they flower. Within these pages you'll learn that *Digitalis purpurea* (the common foxglove) is purple, that the *sanguineum* in *Geranium sanguineum* means 'bloody' (its common name is the bloody cranesbill), and to steer clear of any plant whose Latin name ends in *infestus*.

Japanese Stories for Language Learners - Anne McNulty 2018-11-20

A great story can lead a reader on a journey of discovery--especially if it's presented in two languages! Beautifully illustrated in a traditional style, Japanese Stories for Language Learners offers five compelling stories with English and Japanese language versions appearing on facing pages.

Taking learners on an exciting cultural and linguistic journey, each story is followed by detailed translator's notes, Japanese vocabulary lists, and grammar points along with a set of discussion questions and exercises. The first two stories are very famous traditional Japanese folktales: Urashima Taro (Tale of a Fisherman) and Yuki Onna (The Snow Woman). These are followed by three short stories by notable 20th century authors: Kumo no Ito (The Spider's Thread) by Akutagawa Ryunosuke (1892-1927) Oborekaketa Kyodai (The Siblings Who Almost Drowned) by Arishima Takeo (1878-1923) Serohiki no Goshu (Gauche the Cellist) by Miyazawa Kenji (1896-1933) Reading these stories in the original Japanese script--and hearing native-speakers read them aloud in the accompanying free audio recording--helps students at every level deepen their comprehension of the beauty and subtlety of the Japanese language. Learn Japanese the fun way--through the country's rich literary history.
