Extramural English in Teaching and Learning - Pia Sundqvist
2016-11-09

This book is unique in bringing together theory, research, and practice about English encountered outside the classroom - extramural English - and how it affects teaching and learning. The book investigates ways in which learners successfully develop their language skills through extramural English and provides tools for teachers to make use of free time activities in primary and secondary education. The authors demonstrate that learning from involvement in extramural English activities tends to be incidental and is currently underutilized in classroom work. A distinctive strength is that this volume is grounded in theory, builds on results from empirical studies, and manages to link theory and research with practice in a reader-friendly way. Teacher-educators, teachers and researchers of English as a foreign language and teachers of English as a second

language across the globe will find this book useful in developing their use of extramural English activities as tools for language learning.

The Road - Cormac McCarthy

2007-03-20

NATIONAL BESTSELLER •
WINNER OF THE PULITZER
PRIZE • A searing, post-
apocalyptic novel about a
father and son's fight to
survive, this "tale of survival
and the miracle of goodness
only adds to McCarthy's
stature as a living master. It's
gripping, frightening and,
ultimately, beautiful" (San
Francisco Chronicle). A father
and his son walk alone through
burned America. Nothing
moves in the ravaged
landscape save the ash on the
wind. It is cold enough to crack
stones, and when the snow falls
it is gray. The sky is dark. Their
destination is the coast,
although they don't know what,
if anything, awaits them there.
They have nothing; just a pistol
to defend themselves against
the lawless bands that stalk the
road, the clothes they are
wearing, a cart of scavenged
food—and each other. The
Road is the profoundly moving
story of a journey. It boldly
imagines a future in which no
hope remains, but in which the
father and his son, "each the

other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. Look for Cormac McCarthy's new novel, *The Passenger*.

Managerial Imperative and the Practice of Leadership

in Schools, The - Larry Cuban
1988-01-01

With this significant new work, Larry Cuban provides a unique and insightful perspective on the bridging of the long-standing and well-known gap between teachers and administrators. Drawing on the literature of the field as well as personal experience, Cuban recognizes the enduring structural relationship within school organizations inherited by teachers, principals, and superintendents, and calls for a renewal of their sense of common purpose regarding the role of schooling in a democratic society. Cuban analyzes the dominant images (moral and technical), roles (instructional, managerial, and political), and contexts (classroom, school, and district) within which teachers, principals, and superintendents have worked over the last century. He concludes that when these powerful images and roles are wedded to the structural conditions in which schooling occurs, "managerial behavior" results, thus

narrowing the potential for more thoughtful, effective, and appropriate leadership. Cuban then turns to consider this situation with respect to the contemporary movement for school reform, identifying significant concerns both for policymakers and practitioners. This honest, thought-provoking book by a leading scholar, writer, and practitioner in the field represents an invaluable resource—an insightful introduction for those just entering the field and a fresh, new perspective for those long-familiar with its complexities. Cuban's ethnographic approach to the development of his own career and viewpoint, as well as his highly readable style, make this a work of lasting value.
