The First Way of War - John Grenier 2005-01-31

This book explores the evolution of Americans' first way of war, to show how war waged again Indian noncombatant population and agricultural resources became the method early Americans' employed and, ultimately, defined their military heritage. The sanguinary story of the American conquest of the Indian peoples east of the Mississippi River helps demonstrate how early Americans embraced warfare shaped by extravagant violence and focused on conquest. Grenier provides a major revision in understanding the place of warfare directed on noncombatants in the American military tradition, and his conclusions are relevant to understand US "special

operations" in the War on Terror.

What Foreigners Need to Know about America from A to Z - Lance Johnson 2012

This unique book paints a revealing picture of America and its people for those foreigners who will benefit from a better understanding of America. It will also inform Americans who want to learn more about the U.S. and how it compares to other countries around the world. World traveler and teacher Lance Johnson studies cultural differences and the difficulties foreigners have understanding crazy America, as some call it. Foreigners might come to the U.S. to work for American employers, to open branch offices or factories for their homeland employers, to start their own businesses, or go to school. Others might work for American organizations in their homelands or have American teachers there. An understanding of American culture and language will contribute to their success. As the title suggests, this book is for "foreigners." Dictionaries say they are people who are not citizens of a country. For this book they are defined as anyone who is not sufficiently familiar with American culture to achieve success. This includes the multitudes of foreign-born, naturalized citizens who have lived in the U.S. for years and still struggle with the ways and the language. A foreigner could also be a first-generation American whose immigrant parents did not fully expose their children to American culture and they now pay the price in mainstream U.S. There are lots of other examples, too. **FORMAT** Each of the 26 chapters' brush strokes contributes to the final painting of what America is all about. For ease of understanding, the chapters are grouped into four sections. (The sections are available as individual books as well.) *Section I - America's Heritage. This defines the historical background of why America and its people became who and what they are today. *Section II - America's Culture. This section describes everyday life in America, ranging from customs and etiquette, to what's on the minds of Americans, to education. Practical advice is provided for the one million foreign applicants who seek and gain admission to U.S. colleges and universities each year. Pointers are provided on the cultural differences students should expect, and how to get the most from their education. *Section III - America's Business. This explains the complex business environment, operations, and people-related customs and why the U.S. is an economic juggernaut. Information is provided for starting a business of your own in the U.S. as well as how to increase the chances of your getting hired by an American firm in the U.S. or abroad. *Section IV - America's Language. These chapters discuss practical ways to improve English grammar, speech, writing, communication skills, and reducing

accents. Common English grammar and speech errors made by foreigners are identified and simple tips are provided for overcoming them. ENDORSEMENTS "I congratulate you on writing this timely work. This will promote better mutual understanding between America and Asia." - Tommy Koh, Singapore Ambassador to the U.N. and U.S. "Your book covers a broad range of topics that I am sure many...will find very useful." - Clark T. Randt, Jr., U.S. Ambassador to China. "I greatly appreciate your efforts in sharing with other people your opinion and experience on the exchanges between different peoples and cultures. It is so important for us to better understand each other while striving to build a better world for all." - Zhou Wenzhong, China Ambassador to U.S. "I found this book refreshingly different from the general run of books in this genre." - Mohammad Vazeeruddin, India journalist. "The A to Z chapters are nicely written and...the language is simple and lucid." - Jay Gajjar, India language professor. "I love this book's generous use of helpful hints. I highly recommend it for anyone who wants to learn more about America like I did." - Sarah Kim, Korean American business owner.

Today's Education - 1983

The American Heritage Dictionary of Indo-European Roots - Calvert Watkins 2000
Discusses the nature, origins, and development of language and lists the meanings and associated word for more than thirteen thousand Indo-European root words.

Alphabet Juice - Roy Blount 2008-10-14

Ali G: How many words does you know? Noam Chomsky: Normally, humans, by maturity, have tens of thousands of them. Ali G: What is some of 'em? -Da Ali G Show Did you know that both mammal and matter derive from baby talk? Have you noticed how wince makes you wince? Ever wonder why so many h-words have to do with breath? Roy Blount Jr. certainly has, and after forty years of making a living using words in every medium, print or electronic, except greeting cards, he still can't get over his ABCs. In Alphabet Juice, he celebrates the electricity, the juju, the sonic and kinetic energies, of letters and their combinations. Blount does not prescribe proper English. The franchise he claims is "over the counter." Three and a half centuries ago, Thomas Blount produced Blount's Glossographia, the first dictionary to explore derivations of English words. This Blount's Glossographia takes that pursuit to other levels, from Proto-Indo-European roots to your epiglottis. It rejects the standard linguistic notion that the connection between words and their meanings is "arbitrary." Even the word arbitrary is shown to be no more arbitrary, at its root, than go-to guy or crackerjack. From sources as venerable as the OED (in which Blount finds an inconsistency, at whisk) and as fresh as UrbanDictionary.com (to which Blount has contributed the number-one definition of alligator arm), and especially from the author's own wide-ranging experience, Alphabet Juice derives an organic take on language that is unlike, and more fun than, any other.

The American Heritage First Dictionary - Kaethe Ellis 1998

An illustrated reference book including an A to Z vocabulary listing, a section on "How to Use Your Dictionary" and a section on phonics and spelling.

American Book Publishing Record - 2005

An American Dictionary of the English Language - Noah Webster 1841

Word Histories and Mysteries - Houghton Mifflin Company 2004

Did you know that cats are related etymologically to caterpillars? Or that Thomas Edison played a key role in popularizing the use of the greeting "Hello"? Or that muscles were originally mice, since a flexed biceps looks like a little rodent scurrying under the skin? Word Histories and Mysteries provides a panoramic view of the unique richness of English, uncovering the origins of five hundred everyday words whose surprising and often amusing stories offer insights into the history of humankind. Arranged in convenient alphabetical order, the notes are written in a lively and entertaining style perfect for browsing. The reader can learn how some of the most recent words, such as the computer term wiki, were coined, or trace the origins of English back to the Indo-European language spoken long before the invention of writing. A short introduction outlines the techniques linguists use to trace the history of words, and a handy glossary explains the linguistic terms that describe the ways in which language changes over time. Photographs and drawings help familiarize the reader with the ancient objects or cultural practices from which our words have sprung. Fascinating and fun to read, Word Histories and Mysteries is an ideal gift for high school or college students interested in language and for anyone who wants to know more about the curious sounds we make to communicate every day.

El-Hi Textbooks & Serials in Print, 2005 - 2005

A Dictionary of Modern Written Arabic - Hans Wehr 1979

"An enlarged and improved version of "Arabisches Wèörterbuch fèur die Schriftsprache der Gegenwart" by Hans Wehr and includes the contents of the "Supplement zum Arabischen Wèörterbuch fèur die Schriftsprache der Gegenwart" and a collection of new additional material (about 13.000 entries) by the same author."

Thesaurus of English Words and Phrases - Peter Mark Roget 1921

Refugee - Alan Gratz 2017-07-25

A tour de force from acclaimed author Alan Gratz (Prisoner B-3087), this timely -- and timeless -- novel tells the powerful story of three different children seeking refuge. A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world . . . ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America . . . MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe . . . All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. This action-packed novel tackles topics both timely and timeless: courage, survival, and the quest for home.

The Devil's Dictionary - Ambrose Bierce 1911

The American Heritage Dictionary of Idioms, Second Edition - Christine Ammer 2013
Covering over ten thousand phrases, including "bite the bullet," "take the cake," and "buy the farm," a reference on common American vocabulary and idiomatic expressions defines each entry and provides a contextual sentence.

The Oxford Handbook of Lexicography - Philip Durkin 2016

This volume provides concise, authoritative accounts of the approaches and methodologies of modern lexicography and of the aims and qualities of its end products. Leading scholars and professional lexicographers, from all over the world and representing all the main traditions and perspectives, assess the state of the art in every aspect of research and practice. The book is divided into four parts, reflecting the main types of lexicography. Part I looks at synchronic dictionaries - those for the general public, monolingual dictionaries for second-language learners, and bilingual dictionaries. Part II and III are devoted to the distinctive methodologies and concerns of the historical dictionaries and specialist dictionaries respectively, while chapters in Part IV examine specific topics such as description and prescription; the representation of pronunciation; and the practicalities of dictionary production. The book ends with a chronology of the major events in the history of lexicography. It will be a valuable resource for students, scholars, and practitioners in the field.
