The Routledge Companion to Management Information Systems - Robert D.

Galliers 2017-08-15

The field of Information Systems has been evolving since the first application of computers in organizations in the early 1950s.

Focusing on information systems analysis and design up to and including the 1980s, the field has expanded enormously, with our assumptions about information and knowledge being challenged, along with both intended and unintended consequences of information technology. This prestige reference work offers students and researchers a critical reflection on major topics and current scholarship in the evolving field of Information Systems. This single-volume survey of the field is organized into four parts. The first section deals with Disciplinary and Methodological Foundations. The second section deals with Development, Adoption and Use of MIS – topics that formed the centrepiece of the field of IS in the last century. The third section deals

with Managing Organizational IS, Knowledge and Innovation, while the final section considers emerging and continuing issues and controversies in the field – IS in Society and a Global Context. Each chapter provides a balanced overview of current knowledge, identifying issues and discussing relevant debates. This prestigious book is required reading for any student or researcher in Management Information Systems, academics and students covering the breadth of the field, and established researchers seeking a single-volume repository on the current state of knowledge, current debates and relevant literature.

Hollywood or History - Scott L. Roberts 2018-07-01
Teaching and learning through Hollywood, or commercial, film

productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic

mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small role in the larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the

Careful use of historically themed motion pictures. The book consists of K-5 and 6-12 lesson plans addressing the following historical eras (Adapted from: UCLA, National Center for History in Schools).

A Different Mirror for Young People - Ronald Takaki 2012-10-30

A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, *Publishers Weekly* called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of

the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

Gentlemen Bankers - Susie J. Pak
2013-06-01

This account of the Morgan family's social and economic circles and Wall Street's unspoken rules "greatly enriches our understanding of the entire era." –The Wall Street Journal
Gentlemen Bankers investigates the social and economic circles of one of America's most renowned and influential financiers to uncover how the Morgan family's power and prestige stemmed from its unique position within a network of local and international relationships. At the turn of the twentieth century, private banking was a personal

enterprise in which business relationships were a statement of identity and reputation. In an era when ethnic and religious differences were pronounced and anti-Semitism was prevalent, Anglo-American and German-Jewish elite bankers lived in their respective cordoned communities, seldom interacting with one another outside the business realm.

Ironically, the tacit agreement to maintain separate social spheres made it easier to cooperate in purely financial matters on Wall Street. But as Susie Pak demonstrates, the Morgans' exceptional relationship with the German-Jewish investment bank Kuhn, Loeb & Co., their strongest competitor and also an important collaborator, was entangled in ways that went far beyond the pursuit of mutual profitability.

Delving into the archives of many Morgan partners and legacies, *Gentlemen Bankers* draws on never-before published letters and testimony to tell a closely focused story of how economic and political interests intersected with personal rivalries and friendships among the Wall Street aristocracy during the first half of the twentieth century. *AP Achiever (Advanced Placement* Exam Preparation Guide) for AP US History (College Test Prep)* - Jason George 2007-01-05

Hello, Everybody! - Anthony Rudel
2008-04-01

“A lively overview” of this pre-internet mass-communication tool and “the entrepreneurs and evangelists, hucksters and opportunists” who flocked to it (Publishers Weekly). Long before the Internet, another young technology was transforming the way we connect with the world. At the dawn of the twentieth century, radio grew from an obscure hobby into a mass medium with the power to reach millions of people. When amateur enthusiasts began sending fuzzy signals from their garages and rooftops, radio broadcasting was born. Sensing the medium’s potential, snake-oil salesmen and preachers took

to the air, innovating styles of mass communication and entertainment while making bedlam of the airwaves. Into this wild new frontier stepped a young secretary of commerce, Herbert Hoover, whose passion for organization transformed radio into an even more powerful political, cultural and economic force. When a charismatic bandleader named Rudy Vallée created the first on-air variety show and America elected Franklin Delano Roosevelt, who communicated with the public through his famous fireside chats, radio had arrived. With extensive knowledge, humor, and an eye for outsized characters forgotten by history, Anthony Rudel tells the story of the boisterous years when radio took its place in the nation’s living room. “Entertaining and informative.” –The

Denver Post "Rudel, with extensive professional radio experience, revels in the enterprising personalities who set up shop on this technological frontier. . . .[And] vividly re-creates the anything-goes atmosphere of the ether's early days." –Booklist *Outside in* - Bill Silag 2001-01-01

Island on Fire - Tom Zoellner
2020-05-12

From a New York Times bestselling author, a gripping account of the slave rebellion that led to the abolition of slavery in the British

Empire. For five horrific weeks after Christmas in 1831, Jamaica was convulsed by an uprising of its enslaved people. What started as a peaceful labor strike quickly turned into a full-blown revolt, leaving hundreds of plantation houses in smoking ruins. By the time British troops had put down the rebels, more than a thousand Jamaicans lay dead from summary executions and extrajudicial murder. While the rebels lost their military gamble, their sacrifice accelerated the larger struggle for freedom in the British Atlantic. The daring and suffering of the Jamaicans galvanized public opinion throughout the empire, triggering a decisive turn against slavery. For centuries bondage had fed Britain's appetite for sugar. Within two years of the Christmas

rebellion, slavery was formally abolished. *Island on Fire* is a dramatic day-by-day account of this transformative uprising. A skillful storyteller, Tom Zoellner goes back to the primary sources to tell the intimate story of the men and women who rose up and tasted liberty for a few brief weeks. He provides the first full portrait of the rebellion's enigmatic leader, Samuel Sharpe, and gives us a poignant glimpse of the struggles and dreams of the many Jamaicans who died for liberty.

American Oracle - David W. Blight

2013-10-07

"The ghosts of the Civil War never leave us, as David Blight knows perhaps better than anyone, and in this superb book he masterfully unites two distant but inextricably

bound events."—Ken Burns Standing on the steps of the Lincoln Memorial on August 28, 1963, a century after the signing of the Emancipation Proclamation, Martin Luther King, Jr., declared, "One hundred years later, the Negro still is not free." He delivered this speech just three years after the Virginia Civil War Commission published a guide proclaiming that "the Centennial is no time for finding fault or placing blame or fighting the issues all over again." David Blight takes his readers back to the centennial celebration to determine how Americans then made sense of the suffering, loss, and liberation that had wracked the United States a century earlier. Amid cold war politics and civil rights protest, four of America's most incisive

writers explored the gulf between remembrance and reality. Robert Penn Warren, the southern-reared poet-novelist who recanted his support of segregation; Bruce Catton, the journalist and U.S. Navy officer who became a popular Civil War historian; Edmund Wilson, the century's preeminent literary critic; and James Baldwin, the searing African-American essayist and activist—each exposed America's triumphalist memory of the war. And each, in his own way, demanded a reckoning with the tragic consequences it spawned. *Blight* illuminates not only mid-twentieth-century America's sense of itself but also the dynamic, ever-changing nature of Civil War memory. On the eve of the 150th anniversary of the war, we have an invaluable perspective on how this conflict

continues to shape the country's political debates, national identity, and sense of purpose.

Additionally, the book furnishes readers with a practical guide to using music in the social studies classroom. Through explanation of four models for using music in the classroom, readers gain relevant ideas useful for a wide

variety of instructional methodologies. And finally, the authors delve into three of the most enduring themes in American history and social studies curricula: race, labor and class.
