Social Studies for Secondary Schools - Alan J. Singer 2003-04-02

Social Studies for Secondary Schools: Teaching to Learn, Learning to Teach, Second Edition integrates discussions of educational goals and the nature of history and social studies with practical ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme woven throughout the text is that what we choose to teach and the way we teach reflect our broader understanding of society, history, and the purposes of social studies education. Each chapter opens with a broad question about social studies education; provides many examples of lessons, including lesson ideas developed by new and experienced middle school and high school social studies teachers; features a rich variety of teaching, learning, and classroom activities designed to provoke discussion and illustrate different approaches to teaching social studies; and concludes with essays about related social studies topics. Part I focuses on philosophical issues, social studies goals and standards,

and the design of social studies curricula. Part II examines and offers examples of strategies for planning units and lessons. Part III explores topics, such as thematic and interdisciplinary teaching, a project approach to social studies, as well as assesses student learning and one's own performance as a teacher, and provides a guide to social studies resource materials and organizations. New in the Second Edition: *Every chapter has been updated and includes a number of new lesson ideas. *The lesson ideas are designed especially to help beginning teachers address learning standards; work in inclusive settings; and promote literacy and the use of technology in social studies classrooms. *Sample activities developed with members of the Hofstra New Teachers Network reflect the current focus on document-based instruction and assessment, and can serve as tools for assessing student learning. *Increased attention is given to project-based social studies instruction and to multicultural education. Intended as a text for undergraduate and graduate preservice social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice.

History Education 101 - Wilson J. Warren 2008-01-01

Historians and teacher educators nationwide are now engaged in discussions about the importance of history teacher preparation. Interest within the history profession about the teaching of K-12 history has increased significantly during the past two decades, particularly since the controversy over the National Standards for History's publication. This attention is evident not only in the historical professions' various publications, but also in the federal government's multi-million dollar Teaching American History Program and the No Child Left Behind Act. Professional historians are increasingly committed to improving the teaching of history at the K-12 level through many forms of collaboration. History Education 101's thirteen essays are organized into three sections: context, practice, and new directions. The essays' contributors, tenured faculty who teach history teaching methods courses in colleges and universities throughout the United States, focus on how history education has, is, and will be taught to new K-12 teachers throughout the United States. Perhaps more than ever, it is critical for Americans to understand the role of higher education in the preparation of future middle and high school history teachers. This book provides important

insights for academics in history and education departments as well as other individuals who are concerned with the status and improvement of history teaching in the schools, particularly current and future elementary and secondary teachers and administrators.

Founding Myths - Ray Raphael 2014-07-04

First published ten years ago, award-winning historian Ray Raphael's Founding Myths has since established itself as a landmark of historical myth-busting. With Raphael's trademark wit and flair, Founding Myths exposed the errors and inventions in America's most cherished tales, from Paul Revere's famous ride to Patrick Henry's "Liberty or Death" speech. For the thousands who have been captivated by Raphael's eye-opening accounts, history has never been the same. In this revised tenth-anniversary edition, Raphael revisits the original myths and further explores their evolution over time, uncovering new stories and peeling back new layers of misinformation. This new edition also examines the highly politicized debates over America's past, as well as how our approach to history in school reinforces rather than corrects historical mistakes. A book that "explores the truth behind the stories of the making of our nation" (National Public Radio), this revised edition of Founding Myths will be a welcome resource for anyone seeking to separate historical fact from fiction.

Lies My Teacher Told Me - James W. Loewen 2018-07-17

“Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself.” —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be “objective.” What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls “an extremely convincing plea for truth in education.” In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

Asian/American Curricular Epistemicide - Nicholas D. Hartlep 2016-08-18

In this important book, Nicholas Hartlep and Daniel Scott’s detailed analyses on both visual and historical representations of Asian Americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about Asian Americans. As Hartlep and Scott write. Asian Americans have once again been constructed as the “good minority” that can succeed on their own and be used as a political instrument to shame the Blacks for their underachievement and their fight for equality. Over and over again, the media has been telling “a single story” about Asian Americans to the public for the past fifty years. The consequence of this fabricated story is that it “discourages others—even Asian-Americans themselves—from believing in the validity of their struggles” (Linshi, 2014, p. 1).
