English-Tigrinya-Amharic Dictionary - Woldu T
Debessai 2021-10-25

This trilingual book has 8,000 word entries with transliteration. It is a vocabulary powerhouse,

with the 5,000 most commonly used English words (written and/or spoken), plus a combined total of 3,000 Tigrinya and Amharic word entries. In order to

help with phonetic pronunciation, English words are written in Geez scripts (), while Tigrinya and Amharic word meanings are Romanized. Thus, it is a great reference book for ESL/ELL students to use for standardized testing. It is equipped with a concise yet informative introduction of the Tigrinya and Amharic languages. Both Tigrinya and Amharic are Semitic (Afro-Asiatic) languages derived from an ancient Ethiopian language, Geez; moreover, both languages share the same unique Geez alphabet, albeit with some pronunciation differences. Both languages are written from left to right. The quantity and uniqueness of the letters in the alphabet might be intimidating at the beginning, but there are some easy patterns that enable learning them

faster. Once you have mastered the alphabet, it is rare to misspell words of Tigrinya or Amharic Tigrinya and Amharic are official languages in Eritrea and Ethiopia respectively; Tigrinya is spoken in both countries. The total population who speak the two languages in the two countries, including those who speak them as a second language, is estimated to be about 55 million people.

Introductory Grammar of Amharic - Wolf Leslau
2000

This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not

completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Amharic cultural reader - Wolf Leslau 2001

This collection of essays has two purposes: first to give the advanced student of Amharic a sample of the Amharic writing style and secondly to provide information on Ethiopia's cultural background. The texts were written by several Ethiopian university

students some 40 years ago on subjects with which they were most familiar such as naming, christening, wedding, burial ceremony, food and drink, the manner of wearing clothes, house construction in Amhara country, daily work of an Ethiopian woman, landholding disputes, beauty, merchant, mercato, country market, artisans, elderhood, priests, dabtara, monkhood, divination,

Christmas, Easter, Addis Ababa, the City of Gondar, Harar City etc. Although some time has passed since the collection was compiled the texts convey a good picture of Ethiopian culture. Each Amharic text is given an English translation on the opposite side. The book is completed by an Amharic-English Dictionary of nearly 90 pages and an index of English words and Amharic lexemes.
