Tf it is not yet too late in the day to look up the antecedents of the famous Galloway Pict, "Billy Marshall," the results obtained from such a research would almost certainly repay the trouble of obtaining them. He is introduced by several modern writers, though he was really of " the antique world." Not only because of his way of living, but literally so on account of his great age. For, although he lived on almost to the close of last century, his birth is placed as far back as the year 1671. This fact, therefore, gives him a great value; for if, like other true "gypsies," he clung tenaciously to all the customs of his forefathers--as far as the times would let him -- then, in Billy Marshall, we have a representative of the Galloway Pict of the seventeenth century. Without attempting anything that can be dignified by the name of "research," let us see what some of these modern writers say of him. Of these, none has a better right to the first word than Scott: and this is what he tells us* of the Galloway chief: -- "Meg Merrilics is in Galloway considered as having had her origin in the traditions concerning the celebrated Flora Marshal, one of the royal consorts of Willie Marshal, more commonly called the Caird [Tinker] of Barullion, King of the Gipsies of the Western Lowlands. * Tn his "Additional Note" (o "Guy Mannering." Nature Knows No Color-Line - J. A. Rogers 2014-09-15

In *Nature Knows No Color-Line*, originally published in 1952, historian Joel Augustus Rogers examines the origins of racial hierarchy and the color problem. Rogers was a humanist who believed that there were no scientifically evident racial divisions—all humans belong to one “race.” He believed that color prejudice generally evolved from issues of domination and power between two physiologically different groups. According to Rogers, color prejudice was then used a rationale for domination, subjugation and warfare. Societies developed myths and prejudices in order to pursue their own interests at the expense of other groups. This book argues that many instances of the contributions of black people had been left out of the history books, and gives many examples.

Between Wales and England - Bethan Jenkins 2017-03-01

Between Wales and England is an exploration of eighteenth-century anglophone Welsh writing by authors for whom English-language literature was mostly a secondary concern. In its process, the work interrogates these authors' views on the newly-emerging sense of 'Britishness', finding them in many cases to be more nuanced and less resistant than has generally been considered. It looks primarily at the English-language works of Lewis Morris, Evan Evans, and Edward Williams (Iolo Morganwg) in the context of both their Welsh- and English-language influences and time spent travelling between the two countries, considering how these authors responded to and reimagined the new national identity through their poetry and prose.

A Southern Living Best New Book of Winter 2019; A Refinery29 Best Book of January 2019; A Most Anticipated Book of 2019 at The Week, Huffington Post, Nylon, and Lit Hub; An Indie Next Pick for January 2019 “Ghost Wall has subtlety, wit, and the force of a rock to the head: an instant classic.” –Emma Donoghue, author of *Room* “A worthy match for 3 a.m. disquiet, a book that evoked existential dread, but contained it, beautifully, like a shipwreck in a bottle.” –Margaret Talbot, *The New Yorker* A taut, gripping tale of a young woman and an Iron Age reenactment trip that unearths frightening behavior The light blinds you; there’s a lot you miss by gathering at the fireside. In the north of England, far from the intrusions of cities but not far from civilization, Silvie and her family are living as if they are ancient Britons, surviving by the tools and knowledge of the Iron Age. For two weeks, the length of her father’s vacation, they join an anthropology course set to reenact life in simpler times. They are surrounded by forests of birch and rowan; they make stew from foraged roots and hunted rabbit. The students are fulfilling their coursework; Silvie’s father is fulfilling his lifelong obsession. He has raised her on stories of early man, taken her to witness rare artifacts, recounted time and again their rituals and beliefs—particularly their sacrifices to the bog. Mixing with the students, Silvie begins to see, hear, and imagine another kind of life, one that might include going to university, traveling beyond England, choosing her own clothes and food, speaking her mind. The ancient Britons built ghost walls to ward off enemy invaders, rude barricades of stakes topped with ancestral skulls. When the group builds one of their own, they find a spiritual connection to the past. What comes next but human sacrifice? A story at once mythic and strikingly timely, Sarah Moss’s *Ghost Wall* urges us to wonder how far we have come from the “primitive minds” of our ancestors.

London is the Place for Me - Kennetta Hammond Perry 2015

London Is The Place for Me, Kennetta Hammond Perry explores how Afro-Caribbean migrants navigated the politics of race and citizenship in Britain and reconfigured the boundaries of what it meant to be both Black and British at a critical juncture in the history of Empire and twentieth century transnational race politics. She situates their experience within a broader context of Black imperial and diasporic political participation, and examines the pushback—both legal and physical—that the migrants' presence provoked. Bringing together a variety of sources including calypso music, photographs, migrant narratives, and records of grassroots Black political organizations, *London Is the Place for Me* positions Black Britons as part of wider public debates both at home and abroad about citizenship, the meaning of Britishness and the politics of race in the second half of the twentieth century.

Ancient and Modern Britons Vol.1 - David Mac Ritchie 2008

Whoever has gone into one of our Antiquarian Museums, and glanced with some curiosity, and perhaps with growing interest, at the withered fragments of canoes, preserved from total decay by the peat out of which they were dug, --at the stone heads of weapons whose handles have rotted long ago, --at the flint knives and arrow-heads, at the sun-dried pottery, --at the gaudy beads of amber or of coloured glass, --at the combs and ornaments curiously carved out of bone, --and all such other relics of a remote past, --has soon, in all likelihood, found himself speculating upon the nature of the people who made and used these things. The things themselves are plainly allied to the weapons and ornaments of existing savage races, and we know that the people vaguely spoken of as Ancient Britons, to whom these articles are attributed, were themselves allied to such races by community of custom. They wore little or no clothing, they tattooed their bodies and faces, they painted themselves blue or green, and some tribes smeared themselves over with iron ore; some of them are stated to have been cannibals: -- could all such resemblances have existed if the races themselves, however far separated now, had not all belonged to a common stock? Can there be community of custom, apparent in most minute details, without there being community of blood?

Ancient And Modern Britons: - David Macritchie 2020-05

Britain B.C. - Francis Pryor 2003

Based on new archaeological finds, this book introduces a novel rethinking of the whole of British history before the coming of the Romans. So many extraordinary archaeological discoveries (many of them involving the author) have been made since the early 1970s that our whole understanding of British prehistory needs to be updated. So far only the specialists have twigged on to these developments; now, Francis Pryor broadcasts them to a much wider, general audience. Aided by aerial photography, coastal erosion (which has helped expose such coastal sites as Seahenge) and new planning legislation which requires developers to excavate the land they build on, archaeologists have unearthed a far more sophisticated life among the Ancient Britons than has been previously supposed. Far from being the woaded barbarians of Roman propaganda, we Brits had our own religion, laws, crafts, arts, trade, farms, priesthood and royalty. And the Scots, English and Welsh were fundamentally one and the same people.
