[Ancient History-Based Writing Lessons \[Student Book\] \(Sixth Edition\) - Lori Verstegen 2021](#)

[In Ancient Mesopotamia - Elizabeth Scholl 2010-12-23](#)

Did you know the wheel was invented in Mesopotamia? Thousands of years ago in the area of Asia called The Fertile Crescent, people who had been nomadic hunters and gatherers settled in Mesopotamia and began to create some of the first civilizations. Before long, Mesopotamian farming villages grew into the world's first cities, where large buildings were built, beautiful art was created, and the first system of writing was developed, leading to the earliest literature known. Mesopotamians even had "modern" things that are hard to imagine people having thousands of years ago. They cooked gourmet meals using all kinds of ingredients and cooking techniques. They even had toilets that flushed! Step back into the world of the Sumerians, the Assyrians, and the Babylonians, and learn how many of their inventions and discoveries are still used by people all over the world today.

*The History of the Ancient World: From the Earliest Accounts to the Fall of Rome* - Susan Wise Bauer 2007-03-17

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath"—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

**The Book of the Ancient World** - Dorothy Mills 2007-12

The Book of the Ancient World is an account of our common heritage from the dawn of civilization to the coming of the Greeks. It is the story of how human beings began their great adventure of learning how to live; of how they have sought to satisfy the practical needs of their bodies, the questioning of their minds, and the searching of their spirits. To this end it subordinates details of political events to the record of things that lie at the foundation of our modern civilization. Dorothy Mills had an uncanny and unique ability to write history that is interesting and at the same time based on sound scholarship. Her direct, engaging approach is valued increasingly by the many parents in our day who are looking for reliable materials for home study, as well as by many private school educators. The highly-prized six volumes of her historical works (see below) have become very scarce on the used book market, and so Dawn Chorus has undertaken to reprint them as part of its effort to offer texts ideally suited to the needs of a new generation of teachers and students. In a world where the quality of education has so deteriorated, may the reissue of this wonderful historical series shine as a beacon to a new generation of young (and not so young) scholars. Dawn Chorus publishes these

five other books by Dorothy Mills: The Book of the Ancient Greeks; The Book of the Ancient Romans; The People of Ancient Israel; The Middle Ages; and Renaissance and Reformation Times. Dawn Chorus has also republished another outstanding, and long-out-of-print historical series perfectly suited for home or school use (and highly recommended in home-school curricula), entitled The Picturesque Tale of Progress, by Olive Beaupre Miller. It is available in large format (9 volumes), or smaller, double-bound format (5 volumes).
