Advancements in the Philosophy of Design -

Pieter E. Vermaas 2018-03-02

This volume presents 25 essays on the philosophy of design. With contributions originating from philosophy and design research, and from product design to architecture, it gives a rich spectrum of state of the art research and brings together studies on

philosophical topics in which design plays a key role and design research to which philosophy contributes. Coverage zooms in on specific and more well-known design disciplines but also includes less-studied disciplines, such as graphic design, interior architecture and exhibition design. In addition, contributors take up traditional philosophical issues, such as

epistemology, politics, phenomenology and philosophy of science. Some essays cover philosophical issues that emerge in design, for instance what design can do in addressing societal problems, while other essays analyze main-stream philosophical issues in which design is part of the argument, as for instance abduction and aesthetics. Readers will discover new research with insightful analyses of design research, design thinking and the specificity of design. Overall, this comprehensive overview of an emerging topic in philosophy will be of great interest to researchers and students.

THEO VAN DOESBURG, CONSTRUCTOR OF THE NEW LIFE. - Evert van Straaten 1994

Doing the Double - Alan Durant 2007

Dale and Joe are the twins sons of fallen football legend Nicky Green. They've always laughed about doing the double—swapping identities for the day. It's always been a joke before, but this time it's serious—really serious. Dale wants Joe

to take his place on the football pitch and to do the double for real. Joe isn't at all sure he wants to help, but how can he refuse his twin? This new series features popular stories from the "Shades" series that have been reduced in length and complexity to provide a gripping, achievable read for less able or reluctant readers.

Electrical Power System Essentials - Pieter Schavemaker 2017-05-08

The electrical power supply is about to change; future generation will increasingly take place in and near local neighborhoods with diminishing reliance on distant power plants. The existing grid is not adapted for this purpose as it is largely a remnant from the 20th century. Can the grid be transformed into an intelligent and flexible grid that is future proof? This revised edition of Electrical Power System Essentials contains not only an accessible, broad and up-to-date overview of alternating current (AC) power systems, but also end-of-chapter exercises in

every chapter, aiding readers in their understanding of the material introduced. With an original approach the book covers the generation of electric energy from thermal power plants as from renewable energy sources and treats the incorporation of power electronic devices and FACTS. Throughout there are examples and case studies that back up the theory or techniques presented. The authors set out information on mathematical modelling and equations in appendices rather than integrated in the main text. This unique approach distinguishes it from other text books on Electrical Power Systems and makes the resource highly accessible for undergraduate students and readers without a technical background directly related to power engineering. After laying out the basics for a steady-state analysis of the three-phase power system, the book examines: generation, transmission, distribution, and utilization of electric energy wind energy, solar energy and

hydro power power system protection and circuit breakers power system control and operation the organization of electricity markets and the changes currently taking place system blackouts future developments in power systems, HVDC connections and smart grids The book is supplemented by a companion website from which teaching materials can be downloaded.

The House of the Mosque - Kader Abdolah
2011

Iran, 1969. In the house of the mosque, the family of Aqa Jaan has lived for eight centuries. The house teems with life, played out under the watchful eyes of the storks that nest on the minarets above. But this family will experience upheaval unknown to previous generations. For in Iran, political unrest is brewing. The shah is losing his hold on power; the ayatollah incites rebellion from his exile in France; and one day the ayatollah returns. The consequences will be felt in every corner of Aqa Jaan's family.

Tow-Truck Pluck - Annie M. G. Schmidt
2017-01-10

Pluck has a little red tow truck. He drives it all over town looking for a place to live. Then Dolly the pigeon tells him that the tower of the Pill Building is empty. In the Pill Building, Pluck meets Mr. Penn and Zaza the cockroach. Pluck makes lots more friends and solves all kinds of problems. But the biggest problem is Dove Grove. It used to be a garden with tall trees, but it has been neglected and gone wild. Grown-ups never go there, but the kids from the Pill Building love playing there. But now the Park Superintendent has decided to chop down the trees to make a paved square. Pluck and his

friends try to save Dove Grove. But first he has to rescue Longmount from the canal.

Practical Language Testing - Glenn Fulcher
2013-11-26

Practical Language Testing equips you with the skills, knowledge and principles necessary to understand and construct language tests. This intensely practical book gives guidelines on the design of assessments within the classroom, and provides the necessary tools to analyse and improve assessments, as well as deal with alignment to externally imposed standards. Testing is situated both within the classroom and within the larger social context, and readers are provided the knowledge necessary to make realistic and fair decisions about the use and implementation of tests. The book explains the normative role of large scale testing and provides alternatives that the reader can adapt to their own context. This fulfils the dual purpose of providing the reader with the knowledge they need to prepare learners for

tests, and the practical skills for using assessment for learning. Practical Language Testing is the ideal introduction for students of applied linguistics, TESOL and modern foreign language teaching as well as practicing teachers required to design or implement language testing programmes. The book is supported by frequently updated online resources at <http://languageTesting.info/> including sets of scenarios providing resources to study aviation English assessment, call centre assessment, military language assessment, and medical language assessment. The materials can be used to structure debates and seminars, with pre-reading and video activities. Practical Language Testing was commended as a 2012 runner-up of the prestigious SAGE/ILTA Award for Best Book on Language Testing.

A Guide to the Birds of East Africa - Nicholas Drayson 2009-03-05

For lovers of Alexander McCall Smith, Nicholas Drayson introduces the charming Mr Malik and

the East African Ornithological Society in A Guide to the Birds of East Africa. Reserved, honourable Mr Malik. You wouldn't notice him in a Nairobi street - except, perhaps, to comment on his carefully sculpted comb-over - but beneath his unprepossessing exterior lie a warm heart and a secret passion. Not even his closest friends know it, but Mr Malik is head-over-heels in love with the leader of the local Tuesday-morning bird walk, Rose Mbikwa. Little can he imagine the hurdles that lie before him. Even as he plucks up the courage to ask for Rose's hand, thieves, potential kidnappers and corrupt officials, not to mention one particularly determined love rival, seem destined to thwart Mr Malik's chances. Will an Indian gentleman in the heart of Africa be defeated by the many obstacles that stand between him and his heart's desire? Or will honour and decency prevail? 'A funny, ingenious and touching love story' Joanne Harris, The Times 'A delightful comedy... It invites comparison to The No.1 Ladies' Detective

A gency books, but it's original and, if anything, has more depth' Daily Mail 'Sweet, charming and utterly wonderful on the subject of birds' Metro Nicholas Drayson was born in England and has lived in Australia since 1982, where he studied zoology and a PhD in 19th century Australian natural history writing. He has worked as a journalist in the UK, Kenya and Australia, writing for publications such as the Daily Telegraph and Australian Geographic. He is the author of three other novels, Confessing a Murder, Love and the Platypus and A Guide to the Beasts of East Africa.

Engaging content and a strong focus on grammar and vocabulary combine to make this course a hit with both teachers and students. Popular course features have been refreshed with new content, including the imaginative reading and listening topics, 'Culture in Mind', and 'Everyday English' sections. New for the second edition is a DVD-ROM with the Level 1 Student's Book containing games, extra exercises and videos featuring the photostories' characters as well as a 'Videoke' record-yourself function. There is a full 'Vocabulary bank' at the back of the book which expands upon lexical sets learned in the units.

The Kaddu Wasswa Archive - Andrea Stultiens 2010

The Kaddu Wasswa archive by photographer

Andrea Stultiens is the visual biography of Ugandan John Kaddu Wasswa, born in 1933, who played an important role in his community as a teacher and social worker. What is exceptional about the now 77-year old Kaddu Wasswa is that he has always documented his activities. He wrote novels, plays and essays, took photographs and collected photos. Additionally, his extensive archive contains letters and newspaper clippings, often with added commentary. Andrea Stultiens met Kaddu Wasswa in 2008 through his grandson, photographer Arthur C. Kisitu. Together, Stultiens and Kisitu set out to explore Kaddu Wasswa's archive. She took photographs of the documents to which she added her and Kisitu's own photos which were taken during their meetings. The result is a unique biography in which the author is personally visible as well. Exhibition: Nederlands Fotomuseum, Rotterdam (30.10.2010-2.01.2011).

No and Me - Delphine de Vigan 2010-08-02

Lou Bertignac has an IQ of 160 and a good friend called Lucas, who gets her through the school day. At home her father cries in secret in the bathroom and her mother hasn't been out of the house properly for years. But Lou is about to change her life - and that of her parents - for good, all because of a school project she decides to do about the homeless. Through the project Lou meets No, a teenage girl living on the streets. As their friendship grows, Lou cannot bear that No is still on the streets when she goes back home - even if it is to a home that is saddened and desolate. So she asks her parents if No can come to live with them. To her astonishment, her parents - eventually - agree. No's presence forces Lou and her parents to finally face the sadness that has enveloped them. But No has disruptive as well as positive effects. Can this shaky newfound family continue to live together? A tense, brilliant novel tackling the true meaning of home and homelessness. [Aeronautical Emergency Communications](#)

Shifting Solidarities - Ine Van Hoyweghen
2020-06-23

Shifting Solidarities offers a comprehensive analysis of solidarity at a time when major social transformations have penetrated the heart of European societies, disrupting markets and labour relations, transforming social practices, and affecting the moral infrastructure of European welfare states. Factors such as the economic crisis, migration, digitalisation, and climate change all contribute to a sense of emergency. This volume considers how, in times of crisis, there are calls for solidarity by various new social and political actors and movements. The contributions present a broad array of empirical work and critical scholarship, zooming in on shifting solidarities in various domains of social life, including work, social policy, health care, religion, family, gender and migration. This

compelling volume provides a unique resource for understanding solidarity in contemporary Europe, and will be a vital text for students and scholars across sociology, social policy, cultural studies, employment/labour markets and organisation studies, migration studies and European studies.

Designing Digital Products for Kids - Rubens Cantuni 2020-12-03

Childhood learning is now more screen-based than ever before, and app developers are flocking in droves to this lucrative and exciting market. The younger generation deserves the best, and growing up in a digital world has made them discerning and demanding customers. Creating a valuable user experience for a child is as complex and involved as when designing a typical app for an adult, if not more, and Designing Digital Products for Kids is here to be your guide. Author and designer Rubens Cantuni recognizes the societal importance of a high-quality and ethical app experience for children.

There is room for significant improvement in this space, and Cantuni helps you optimize it. *Designing Digital Products for Kids* walks hopeful developers through digital product design—including research, concept, design, release, marketing, testing, analyzing, and iterating—all while aiming to build specifically for children. Industry experts and their real-world advice are showcased in this book, along with careful advice for the ethics that go along with this unique market. These tips include complex needs regarding mental development, accessibility, conscious screen time limits, and content sensitivity. Children, parents, and teachers alike are hungry for more thoughtful players in the kids' app space, and *Designing Digital Products for Kids* is your ticket to successfully developing and educating for the future. What You Will Learn Design platforms specifically for children, to entertain and educate them Work with a complex audience of parents, teachers and kids Understand how

different monetization strategies work in this industry and why Who This Book Is For User experience designers, UI designers, product owners, teachers and educators, startup founders. The range of topics is so wide that anyone interested or involved in digital products could find something interesting to learn.

Designerly Ways of Knowing - Nigel Cross
2007-10-05

The concept "Designerly Ways of Knowing" emerged in the late 1970s alongside new approaches in design education. This book is a unique insight into expanding discipline area with important implications for design research, education and practice.

The Critical Makers - Loes Bogers 2019

The Design Way, second edition - Harold G. Nelson 2012-07-27

A book that lays out the fundamental concepts of design culture and outlines a design-driven way to approach the world. Humans did not discover

fire—they designed it. Design is not defined by software programs, blueprints, or font choice. When we create new things—technologies, organizations, processes, systems, environments, ways of thinking—we engage in design. With this expansive view of design as their premise, in *The Design Way* Harold Nelson and Erik Stolterman make the case for design as its own culture of inquiry and action. They offer not a recipe for design practice or theorizing but a formulation of design culture's fundamental core of ideas. These ideas—which form “the design way”—are applicable to an infinite variety of design domains, from such traditional fields as architecture and graphic design to such nontraditional design areas as organizational, educational, interaction, and healthcare design. The text of this second edition is accompanied by new detailed images, “schemas” that visualize, conceptualize, and structure the authors' understanding of design inquiry. The text itself has been revised and expanded throughout, in

part in response to reader feedback.

Experiences of Adults Following an Autism

Diagnosis - Kristien Hens 2018-09-29

This book explores adult experiences of autism diagnosis. Focusing on the experiences of 21 interviewees, the structure of the book mirrors the seven stages undergone upon diagnosis, and raises important questions about modern society and the self, amidst this life-changing news. Analysing a broad range of empirical interview data including adults who had experiences of other diagnoses, and adults who seemed to function normally before their autism diagnosis, the authors use these stories to examine how

autism diagnosis can be extremely important and helpful, but also generate a great deal of negativity. Illuminating a range of testimonies that have previously been kept in the shadows, this book will not only appeal to students and scholars of autism in adults, but also to practitioners as well as adults who have been diagnosed with autism.

Disorientation and Moral Life - Ami Harbin

2016-04-01

This book is a philosophical exploration of disorientation and its significance for action. Disorientations are human experiences of losing one's bearings, such that life is disrupted and it is not clear how to go on. In the face of life experiences like trauma, grief, illness, migration, education, queer identification, and consciousness raising, individuals can be deeply disoriented. These and other disorientations are not rare. Although disorientations can be common and powerful parts of individuals' lives, they remain uncharacterized by Western

philosophers, and overlooked by ethicists. Disorientations can paralyze, overwhelm, embitter, and misdirect moral agents, and moral philosophy and motivational psychology have important insights to offer into why this is. More perplexing are the ways disorientations may prompt improved moral action. Ami Harbin draws on first person accounts, philosophical texts, and qualitative and quantitative research to show that in some cases of disorientation, individuals gain new forms of awareness of political complexity and social norms, and new habits of relating to others and an unpredictable moral landscape. She then argues for the moral and political promise of these gains. A major contention of the book is that disorientations have 'non-resolutionary effects': they can help us act without first helping us resolve what to do. In exploring these possibilities, *Disorientation and Moral Life* contributes to philosophy of emotions, moral philosophy, and political thought from a distinctly feminist perspective. It

makes the case for seeing disorientations as having the power to motivate profound and long-term shifts in moral and political action. A feminist re-envisioning of moral psychology provides the framework for understanding how they do so.

The Art of Drawing and Painting - 1892

The Rise of the Dutch New Right - Merijn Oudenampsen 2020-09-14

In the past 20 years, a wave of right-wing populist movements has swept over Europe, changing the face of European politics. The Netherlands has been one of the more iconic countries to partake in this shift. Known internationally as an emblem of progressivism and tolerance, the country soon became a frontrunner in the revival of nationalist and anti-immigrant sentiment. This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right. The emergence of Dutch populism, this book shows,

formed an integral part of a broader conservative tendency, identified as the Dutch New Right. In the US and the UK, the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s. The Dutch swing to the right, this book argues, formed a belated iteration of the New Right backlash that occurred overseas. This text will be essential reading for students and scholars in the fields of European Studies and Political Science, and Dutch politics and society more specifically.

Alternative Fees for Litigators and Their Clients - Patrick J. Lamb 2014

The use of non-hourly fee arrangements by lawyers and the demand for those arrangements by clients is increasing. How are you and your law firm addressing this threat to the billable hour? Are you prepared for the systemic changes needed when value is not measured in six minute increments? *Alternative Fees for*

Litigators and Their Clients addresses how attorneys can implement and evaluate alternative fee arrangements in litigation matters. Written by a trial lawyer with over 30 years of experience, this essential guide offers lessons, insights, and practical tips that the author has learned during his firm's long-term experiment with alternative fee arrangements. The Culturalization of Citizenship - Jan Willem Duyvendak 2016-06-30

The notion of citizenship has gradually evolved from being simply a legal status or practice to a deep sentiment. Belonging, or feeling at home, has become a requirement. This groundbreaking book analyzes how 'feeling rules' are developed and applied to migrants, who are increasingly expected to express feelings of attachment, belonging, connectedness and loyalty to their new country. More than this, however, it demonstrates how this culturalization of citizenship is a global trend with local variations, which develop in relation to each other. The

authors pay particular attention to the intersection between sexuality, race and ethnicity, spurred on by their awareness of the dialectical construction of homosexuality, held up as representative of liberal Western values by both those in the West and by African leaders, who use such claims as proof that homosexuality is un-African.

Little Red Riding Hood - Ruth Hobart 2006

Duel - David Grossman 2004-08-07

David is a twelve-year-old boy living in Jerusalem in 1966. His best friend just happens to be seventy-year-old Heinrich Rosenthal, who lives at the Beit Hakerem Home for the Aged. Their friendship takes an unexpected turn when Mr. Rosenthal receives a threatening letter from the man he once knew as "the bully of Heidelberg University." The letter accuses Mr. Rosenthal of stealing a priceless painting and challenges him to a duel if it is not returned immediately. But Mr. Rosenthal didn't steal the painting. Who did?

Determined to find some answers and prevent the duel, David plays detective and ultimately uncovers the story of two beautiful paintings, one of a woman's eyes and the other of her mouth, given by the artist to the two men who are now willing to kill one another over them. With some brilliant sleuthing and a bit of luck, David manages to pull together the strings of a story that began more than thirty years before, preventing a tragedy by bringing a long-dead memory to back to life.

Wicked Arts Assignments - Emiel Heijnen

2021-01-12

Wicked Arts Assignments are bold, unusual, contrary, funny, poetical, inspiring, socially committed, or otherwise challenging. Everyone who teaches art knows them: the assignment that is seemingly simple but which challenges participants, students and pupils to the max. Many artists and arts teachers have that singular, personal, often-used assignment in which everything comes together: their artistic vision, their pedagogical approach and their love for certain techniques or methods.00The almost hundred arts assignments collected here connect to the visual arts, performance, theatre, music and design, but more importantly: they encourage cross-disciplinarity. They reflect themes and ways of working in contemporary arts, offering opportunities to learn about ourselves, the arts and the world.00The first part of this book provides a theoretical view on arts assignments from historical, artistic and educational perspectives, complemented by

interviews with experts in contemporary arts and education. The second part consists of the actual wicked arts assignments. These can be carried out in various contexts: from primary schools to higher education, from home to the (online) community, and from Bogotá to Istanbul. They are meant to spark the imagination of both teachers and students, contributing to new, topical educational and artistic practices.

Almost Like a Whale - Steve Jones 2000-09-01

In his new book, Steve Jones takes on the challenge of going back to the book of the millennium, Charles Darwin's *The Origin of Species*. Before *The Origin*, biology was a set of unconnected facts. Darwin made it into a science, linked by the theory of evolution, the grammar of the living world. It reveals ties between cancer and the genetics of fish, between brewing and inherited disease, between the sex lives of crocodiles and the politics of Brazil. Darwin used the biology of the nineteenth

century to prove his case. Now, that science has been revolutionized and his case can be reargued using the twentieth century's astonishing advances. From AIDS to dinosaurs, from conservation to cloned sheep, bursting with anecdotes, jokes and irresistible facts, *Almost Like a Whale* is a popular account of the science that makes biology make sense. It will catch the millennial mood and tell all those for whom Darwin is merely a familiar name what he really meant. It exposes the Darwinian delusions which try (and fail) to explain human behaviour in evolutionary terms, and, while giving an up-to-date account of our own past, shows how humans are the first species to step beyond the constraints of biology.

Rembrandt and the Golden Age of Dutch Art
- Ruud Priem 2006

Rembrandt and the Golden Age of Dutch Art celebrates an unprecedented era in the history of art. Drawn from the superb collections of Amsterdam's famed Rijksmuseum, the works of

art featured here are a testament to the richness and variety of the paintings, prints, and decorative arts produced in the Netherlands in the 17th century. In a unique approach, Ruud Priem leads the viewer through the highlights of the Golden Age, beginning with the artists themselves and their studios, emerging into busy

city streets and the bucolic Dutch countryside, and sampling the variety of 17th-century life and culture. Featured are ninety dazzling works by preeminent Dutch artists--Rembrandt van Rijn, Frans Hals, Jacob van Ruisdael, Pieter de Hooch, and Jan Steen, among them.
