Classic Scooters - Mick Walker 2008-10-15

The motor scooter, so familiar a sight on the streets of cities throughout the world, can trace its ancestry back to the early years of the Twentieth century, but it really came into its own after the Second World War. In Italy the Piaggio company launched the Vespa that quickly became a byword for quick, cheap and chic urban personal transport. The Lambretta soon followed, along with dozens of rival scooters from manufacturers all over Europe, North America and Japan, including some famous names as Ducati, Heinkel, Triumph, Puch, Honda and Harley-Davidson.

Photographing Nature - Time-Life Books 1971

Motocourse - Dennis Noyes 1999

This official history of the FIM Grand Prix motor cycle racing World Championship, since its formation in 1949, records the action from a sport that has seen massive changes during the last 50 years with Japanese manufacturers eclipsing their European rivals, purpose-built race circuits replacing true road courses and a

reduction in the number of Grand Prix classes. In other respects it has enjoyed remarkable continuity, as motor cycle racing has remained the domain of the major manufacturers anxious to promote the awareness of their road machines.

Contemporary Grand Prix designs are clearly descended from the bikes raced in the 1950s. This book traces the major trends and developments during the last 50 years and it profiles the legendary riders, teams and innovators that have dominated the sport during this period. Concluding the history is a comprehensive and detailed results section which provides an invaluable source of reference for any motor cycle enthusiast.

Vroom by the Sea - Peter Moore 2009

It was a 1972 Rally 200 in the same shade of orange as Donatella Versace with white, go-fast stripes down each side. It was bright and brash and made every other Vespa in the workshop look dull. Even sitting on its stand it had a swagger. Best-selling writer and traveller Peter Moore decides to go on an adventure through Sicily, Sardinia and the Amalfi Coast as a last fling before the onset of fatherhood. Riding his bright orange Vespa, Marcello, through some of the world's most stunning scenery, Peter meets a multitude of interesting characters and discovers a side of Italy that tourists rarely see. Eliciting free beers from barmen, swoons from young women and beeps and whistles from other drivers, Peter finds that this most Italian of machines draws him deep into the heart of this fascinating and fun-loving country.

La contabilità dei costi del personale - Andrea Sergiacomo 2013-01

La contabilizzazione dei costi del personale rappresenta, anche per gli addetti ai lavori, un'operazione non sempre facile e spesso fonte di dubbi: la presente guida ha l'obiettivo di illustrare, in maniera semplice e mediante l'ausilio di esempi pratici, come contabilizzare il costo del personale, evitando problematiche legate al non corretto appostamento delle voci nel bilancio di esercizio – soprattutto in presenza di eventi particolari, come la malattia, gli infortuni e così via – e alle conseguenti ripercussioni, in termini di imposizione fiscale. In virtù di questa considerazione, al fine di appostare correttamente tutte quelle voci di bilancio utili al calcolo delle imposte, è necessario valutare gli aspetti relativi agli oneri contributivi ed assicurativi, al fine dell'eventuale deduzione dalla base imponibile IRAP. La disamina, alle cui fondamenta soggiacciono i principi contabili, si caratterizza per il gran numero di esempi – che, di fatto, rappresentano una sintesi delle casistiche più comuni che possono incontrarsi in azienda – volti a consentire un rapido approccio al lettore, soprattutto in quelle situazioni di particolare urgenza, come nel caso di dover calcolare il costo per esigenze di budget. Viene, infine, proposto un caso concreto di contabilizzazione del costo, partendo dal cosiddetto "cedolone", vale a dire il riassunto avvenuto nel periodo di lavoro considerato. Andrea Sergiacomo Dottore commercialista, Revisore legale dei conti, Mediatore civile, componente della Commissione cooperative O.D.C.E.C. di Roma e componente della Commissione diritto societario O.D.C.E.C. di Tivoli. Svolge attività pubblicistica per riviste specializzate in materia di bilancio, fisco e operazioni straordinarie.

A History of the Italian Space Adventure - Giovanni Caprara 2020-08-27

This well-documented and fascinating book tells how, over the centuries, a series of visionaries, scientists, technologists, and politicians fostered the involvement of Italy in space exploration. The lives of these pioneers was often far from easy, yet they persevered. The fruits of their efforts can today be witnessed in Italy's success within the cutting-edge space sector. Italy's history in space started at the end of the fourteenth century and continued with the

development of fireworks. Later, the nineteenth century marked the beginning of research into rockets in a more scientific way. After World War II, rocket technology was advanced with the aid of German scientists, and in the 1960s Luigi Broglio, the father of Italian space exploration, designed the San Marco satellite. In 1979 the first Italian Space Plan was launched, but it was the foundation of the Italian Space Agency in 1988 that kick-started a program of exploration in various fields of cosmic research. The outcome was construction of the Vega launcher and collaboration in the International Space Station. Now the Italian space industry stands ready to play an important role in the Gateway orbital station. All of this history, and more, is explored in this riveting book.
