

Backpacker Tourism And Economic Development Perspectives From The Less Developed World Contemporary Geographies Of Leisure Tourism And Lity

Recognizing the pretentiousness ways to acquire this ebook **Backpacker Tourism And Economic Development Perspectives From The Less Developed World Contemporary Geographies Of Leisure Tourism And lity** is additionally useful. You have remained in right site to begin getting this info. acquire the Backpacker Tourism And Economic Development Perspectives From The Less Developed World Contemporary Geographies Of Leisure Tourism And lity member that we find the money for here and check out the link.

You could purchase lead Backpacker Tourism And Economic Development Perspectives From The Less Developed World Contemporary Geographies Of Leisure Tourism And lity or acquire it as soon as feasible. You could speedily download this Backpacker Tourism And Economic Development Perspectives From The Less Developed World Contemporary Geographies Of Leisure Tourism And lity after getting deal. So, similar to you require the book swiftly, you can straight get it. Its appropriately enormously simple and hence fats, isnt it? You have to favor to in this sky

Dark Tourism and Place Identity - Leanne White 2013

This timely book is the first to explore the physical and intangible legacies of historic and contemporary dark tourism sites, and the contribution such sites make to place identity. It achieves this by critically reviewing the marketing, management and interpretation of contemporary and historic sites associated with death, disaster, atrocity and related events from a wide range of geographical locations. In doing so the book proposes a compose model for discussing place identity and dark tourism which will provide further understanding about these increasingly popular destinations.

Peace through Tourism - Lynda-ann Blanchard 2013-08-15

Peace through tourism refers to a body of analysis which suggests tourism may contribute to cross-cultural understanding, tolerance and even peace between communities and nations. What has been largely missing to date is a sustained critique of the potential and capacities of tourism to foster global peace. This timely volume fills this void, by providing a critical look at tourism in order to ascertain its potential as a

social force to promote human rights, justice and peace. It presents an alternative characterisation of the possibilities for peace through tourism: embedding an understanding of the phenomenon in a deep grounding in multi-disciplinary perspectives and envisioning tourism in the context of human rights, social justice and ecological integrity. Such an approach engages the ambivalence and dichotomy of views held on peace tourism by relying on a pedagogy of peace. It integrates a range of perspectives from scholars from many disciplinary backgrounds, non-governmental organisations (NGOs), tourism industry operators and community, all united by an interest in critical approaches to understanding peace through tourism.

Additionally diverse geo-political contexts are represented in this book from the USA, India, Japan, Israel, Palestine, Kenya, the Koreas, Indonesia, East Timor and Indigenous Australia. Written by leading academics, this groundbreaking book will provide students, researchers and academics a sustained critique of the potential and capacities of tourism to foster global peace.

[The Global Nomad](#) - Greg Richards 2004-01-01

Backpackers have shifted from the margins of the travel industry into the global spotlight. This volume explores the international backpacker phenomenon, drawing together different disciplinary perspectives on its meaning, impact and significance. Links are drawn between theory and practice, setting backpacking in its wider social, cultural and economic context.

New Directions in South African Tourism Geographies - Jayne M. Rogerson 2019-09-26

This book provides an overview of innovative and new directions being chartered in South African tourism geographies. Within the context of global change the volume explores different facets and different geographies of tourism. Key themes under scrutiny include the sharing economy, the changing accommodation service sector, touring poverty, tourism and innovation, tourism and climate change, threats to sustainability, inclusive tourism and a number of studies which challenge the present-mindedness of much tourism geographical scholarship. The 18 chapters range across urban and rural landscapes in South Africa with sectoral studies which include adventure tourism, coastal tourism, cruise tourism, nature-based tourism, sports tourism and wine tourism. Finally, the volume raises a number of policy and planning issues in the global South in particular relating to sustainability, local economic development and poverty reduction. Outlining the impact of tourism expansion in South Africa and suggesting future research directions, this stimulating book is a valuable resource for geographers as well as researchers and students in the field of tourism studies.

Scuba Diving Tourism - Ghazali Musa 2013-06-26

This volume offers new insight into an important and largely under-examined area of marine leisure and tourism: scuba diving tourism. Knowledge of scuba diving has long been hidden among broad discussions of water-based sports and activities and this focused book aims to shed further understanding and knowledge on this popular international activity. The book examines the current issues central to research into and management of scuba diving Tourism from multidisciplinary perspectives such as health and safety, climate change, policy and regulation and the recreation/leisure context. It further reveals critical management issues of economic,

environmental and socio-cultural impacts related to scuba diving tourism which extends to the influence of climate change on the industry's operations and future. This significant volume which conceptualizes the issues surrounding scuba diving tourism now and in the future is written by leading experts in this field and will be valuable reading for all those interested in marine leisure and tourism.

Understanding and Governing Sustainable Tourism Mobility - Scott A. Cohen 2014-03-26

Despite a growing contribution to climate change, tourist and traveller behaviour is currently not acknowledged as an important sector within the development of climate policy. Whilst tourists may be increasingly aware of potential impacts on climate change there is evidence that most are unwilling to modify their actual behaviours. Influencing individual behaviour in tourism and informing effective governance is therefore an essential part of climate change mitigation. This significant volume is the first to explore the psychological and social factors that may contribute to and inhibit sustainable change in the context of tourist and traveller behaviour. It draws on a range of disciplines to offer a critical review of the psychological understandings and behavioural aspects of climate change and tourism mobilities, in addition to governance and policies based upon psychological, behavioural and social mechanisms. It therefore provides a more informed understanding of how technology, infrastructure and cost distribution can be developed in order to reach stronger mitigation goals whilst ensuring that resistance from consumers for socio-psychological reasons are minimized. Written by leading academics from a range of disciplinary backgrounds and regions this ground breaking volume is essential reading for all those interested in the effective governance of tourism's contribution to climate change now and in the future.

A Hospitable World? - David Jordhus-Lier 2014-10-30

The hospitality and tourism sector is a large and rapidly expanding industry worldwide, and can rightfully be described as a vehicle of globalisation. Hotels are among the cornerstones of the industry often drawing workers from the most vulnerable segments of multicultural labour

markets, accommodating and entertaining tourists and business travelers from around the world. This book explores the organisation of work, worker identities and worker strategies in hotel workplaces, as they are located in heterogeneous labour markets being changed by processes of globalisation. It uses an explicitly geographical approach to understand how different groups of workers experience and respond to challenges in the hospitality industry, and is based on recent theoretical debates and empirical research on hotel workplaces in cities as different as Oslo, Goa, London, Las Vegas and Toronto. A multi-scalar analysis is taken where concrete worker bodies and their physical, emotional and embodied labour are seen in relation to, among other aspects: the regulation of national and regional labour markets, city governments with global city ambitions, and global corporate actors and labour migration patterns. The book sheds light on the hotel workplace as a hierarchical and fragmented social space as well as addressing questions on worker mobility, the fragmentation of work, scales of organisation and how workers can help shape the regulation of their industry. This timely volume brings together contributions from international academics and is valuable reading for all those interested in hospitality, tourism, human geography and globalisation.

Tourism and Citizenship - Raoul Bianchi

2014-02-24

More than sixty years since the 1948 Universal Declaration of Human Rights first enshrined the right to freedom of movement in an international charter of human rights, the issue of mobility and the right to tourism itself have become increasingly significant areas of scholarly interest and political debate. However, despite the fact that cross-border travel implies certain citizenship rights as well as the material capacity to travel, the manifold intersections between tourism and citizenship have not received the attention they deserve in the literature. This book endeavours to fill this gap by being the first to fully examine the role of tourism in wider society through a critically-informed sociological reflection on the unfolding relationships between international tourism and distinct renderings of citizenship, with particular emphasis on the ideological and political alignments between the

freedom of movement and the right to travel. The text weaves its analysis of citizenship and travel in the context of addressing large-scale societal transformations engendered by globalization, neoliberalism and the geopolitical realignments between states, as well as comprehending the internal reconfiguring of the relationship between citizens and states themselves. By doing so, it focuses on key themes including: tourism and social citizenship rights; race, culture and minority rights; states, markets and the freedom of movement; tourism, peace and geo-politics; consumerism and class; and, ethical tourism, global citizenship and cosmopolitanism. The book concludes that the advancement of genuinely democratic and just forms of tourism must be commensurate with demands for distributive justice and a democratic politics of mobility encompassing all of humanity. This timely and significant contribution to the sociology and politics of international tourism through the lens of citizenship is a must read for students and scholars in both in the fields of tourism and social science. The royalties received from this book will be donated to the International Porter Protection Group.

Backpacker Tourism - Kevin Hannam 2007

Backpacker tourism has shifted from the margins of the travel industry into the mainstream. Backpacker Tourism: Concepts and profiles explores the current state of the international backpacker phenomenon, drawing together different disciplinary perspectives on its meaning, impact and significance. Links are drawn between conceptual issues and case studies, setting backpacking in its wider social, cultural and economic context.

Tourism in Iran - Siamak Seyfi 2018-09-26

Iran has long been regarded as an international pariah state in some parts of the international community. However, its negative image in many countries disguises its history of tourism and rich cultural and natural heritage. Following the July 2015 nuclear deal and the reduction in sanctions, Iran is focusing on international tourism as a means to generate economic growth in addition to its substantial domestic tourism market. Given the significance of tourism in the Middle East and in international politics, as well as restrictions on international mobility, this volume brings together the first contemporary collection of

research on tourism in Iran. Written by experts based both within and outside of Iran, the chapters engage with a number of crucial issues including the importance of religion, the role of women in society, sustaining Iran's cultural heritage, Iran's image and the resistive economy to provide a benchmark assessment of tourism and its potential future in a troubled political environment. The book will undoubtedly be of interest not only to those readers who focus specifically on Iran but also those who seek a wider understanding of Iran's role in the region and how tourism is utilised as part of national and regional economic development policies.

The Backpacker Tourist - Márcio Ribeiro Martins 2022-06-15

The Backpacker Tourist: A contemporary perspective explores the increasing number of people traveling around the world as backpackers and analyses the great diversification of this demographic and their varied experiences while traveling.

Proceedings of the First Jakarta International Conference on Multidisciplinary Studies Towards Creative Industries, JICOMS 2022, 16 November 2022, Jakarta, Indonesia - Handika Dany Rahmayanti 2022-12-21

This book is the proceeding of the International Conference Jakarta International on Multidisciplinary Studies towards Creative Industries (JICOMS 2022) that was successfully held on 16 November 2022 using an hybrid platform. The conference was Encouraging the creative industry as the alternative of a global economic backbone, the First Jakarta International on Multidisciplinary Studies towards Creative Industries (JICOMS) 2022 is hosted by Center for Research and Community Service, Politeknik Negeri Media Kreatif (Polimedia). The technical program of JICOMS 2022 consisted of 52 full papers, including 4 invited papers in oral presentation sessions at the main conference tracks. We have invited prominent speakers with expertise in the field of multidisciplinary studies. The keynote speakers was presented by Sandiaga Salahuddin Uno, B.B.A., M.B.A. as Minister of Tourism and Creative Economy of Indonesia and Benny Bandanadjaja as Deputation from Ministry of Education, Culture, Research, and Technology of Indonesia). The invited talk was presented Prof. Daniel Punday from

Mississippi State University, USA; Prof. Yuh Wen Chen from Da-Yeh University, Taiwan; Ruanni Tupas, Ph.D from University College London, UK and Indra Kesuma Nasution, P.hD from ANC Japan Co, LTd Japan). This conference will give an excellent discussion and a future insight for developing our community. Taking Collaboration of Cross-Disciplinary Research to Develop Creative Industries as its theme, the forum welcomes academia, professionals, researchers, practitioners, students, and civil society organization representatives to share ideas and current studies in the fields of sciences and social sciences. By this improvement we can increase our economic growth to compete in global arena which starts moving to society 5.0. To support above theme, JICOMS 2022 should be related to Creative Industries with sub theme Learning Technology; Publishing Technology; Tourism & Creative Economics; Humanities & Applied Linguistic; Advertising & Marketing; Film, Media and Communication; Game and Application Design; Applied Engineering; Computing Technology; Pulp & Paper Technologies; Printing process and applications and Applied Physics & Chemistry. This conference has multidisciplinary topic, it gives opportunity to make a global collaboration between academican, industry and public government. We also expect that the future JICOMS conference will be as successful and stimulating, as indicated by the contributions presented in this volume.

Challenges in Tourism Research - Tej Vir Singh 2015

In this volume leading experts from different disciplines and diverse geographic regions discuss fundamental, often controversial topics in the field of tourism studies. The debates include subjects such as the concept of the 'tourist', the long-term sustainability of tourism development, the growth of volunteer tourism and the vulnerability of tourism.

Low-Cost Aviation - Weiqiang Lin 2022-06-27
Low-Cost Aviation: Aeromobilities Culture, Politics, and Infrastructures covers critical societal issues such as labor regimes, unequal and changing flying publics, transnational dynamics of migration, tourism, business experiences, environmental challenges and shifting territorialities of LCCs at various scales. It situates LCCs holistically within a societal-

infrastructural regime rather than solely within a transport context. The book explores the changing nature of passengers' profiles and mobile cultures, new consumption patterns and Economic Re-Configurations, as well as geopolitical and sustainability challenges. Providing a research agenda for aeromobilities, the book examines the most pressing social, cultural and political impacts of LCCs on society in different global contexts. It bridges transport and mobility studies, fostering transport sustainability and mobility justice to improve air transport management. Offers empirically grounded insights on key social issues and their implications. Draws on the expertise of an international team of scholars across the social sciences, including geography, urban studies, history and economics. Utilizes case studies from Asia, America and Europe. Provides context, theoretical approaches, models and examples showing how they have been implemented.

Imagining the American West through Film and Tourism - Warwick Frost 2015-06-05

The West is one of the strongest and most enduring place images in the world and its myth is firmly rooted in popular culture - whether novels, film, television, music, clothing and even video games. The West combines myth and history, rugged natural scenery and wide open spaces, popular culture and promises of transformation. These imagined places draw in tourists, attracted by a cultural heritage that is part fictional and mediated. In turn, tourism operators and destination marketing organisations refashion what they present to fit these imagined images. This book explores this imagining of a mythic West through three key themes, travel, film and frontiers to offer new insight into how the imagination of the West and popular culture has influenced the construction of tourism. In doing so, it examines the series of paradoxes that underlie the basic appeal of the West: evocative frontier, a boundary zone between civilisation and wilderness and between order and lawlessness. It draws on a range of films and literature as well as varying places from festivals to national parks to showcase different aspects of the nexus between travel, film and frontiers in this fascinating region. Interdisciplinary in character, it includes perspectives from cultural studies, American

studies, tourism and film studies. Written by leading academics, this title will be valuable reading for students, researchers and academics in the fields of cultural studies, tourism, film studies and media studies and all those interested in film tourism.

Trust, Tourism Development and Planning - Robin Nunkoo 2014-08-07

The dynamics of trust and distrust are central to understanding modern society, social relations, and development processes. However, numerous studies suggest that societal trust and citizen's trust in government and its institutions are on the decline, challenging the legitimacy of government and leading to an undemocratic and unsustainable form of development. Recognizing its importance, the authors for the first time situate trust within the context of tourism development and planning. This volume discusses trust in tourism from different yet intrinsically connected perspectives. Chapters review how diminishing societal trust may have adversely affected tourism planning systems, the role of trust in good tourism governance and sustainable tourism, how trust can be used as a facilitator of participatory tourism planning, political trust in tourism institutions, power and how tourism development can be a basis for trust creation among society members by using social capital theory. In addition, a final section on 'Researching Trust in Tourism Development' means that readers are not only provided a thorough theoretical framework on trust and an understanding of its importance for sustainable tourism and good governance of the sector, but also methodological aspects of research on trust in the context of tourism development and planning. This significant volume is valuable reading for students, academics and researchers interested in tourism development and planning.

The Routledge Handbook of Tourism in Asia - C. Michael Hall 2016-09-13

Asia is regarded as the fastest growing area for international and domestic tourism in the world today and over the next 20 years. Given the economic, social and environmental importance of tourism in the region, there is a need for a comprehensive and readable overview of the critical debates and controversies in tourism in the region and the major factors that are affecting tourism development both now and in

the foreseeable future. This Handbook provides a contemporary survey of the region and its continued growth and development as a key destination and generator of tourism, which is marked by a high proportion of intra-regional travel. The book is divided into five sections. This first section provides an introduction to the region and context to the nationally focused chapters. The next three sections are then broadly based on the three UNWTO Asian regions: South-East Asia, South and Central Asia, and East and North-East Asia, providing readers with a valuable snapshot of tourism at various scales, and from various approaches and positions. The concluding section considers future prospects for tourism in Asia. The handbook is interdisciplinary in coverage and is also international in scope through its authorship and content. It presents a range of perspectives and understanding of the processes and forces that are shaping tourism in this fascinating and dynamic region that is one of the focal points of global tourism. This is essential reading for students, researchers and academics interested in tourism in the growth region of Asia now and in the future.

European Journal of Tourism Research - 2017-06-01

The European Journal of Tourism Research is an interdisciplinary scientific journal in the field of tourism, published by Varna University of Management, Bulgaria. Its aim is to provide a platform for discussion of theoretical and empirical problems in tourism. Publications from all fields, connected with tourism such as management, marketing, sociology, psychology, geography, political sciences, mathematics, statistics, anthropology, culture, information technologies and others are invited. The journal is open to all researchers. Young researchers and authors from Central and Eastern Europe are encouraged to submit their contributions. Regular Articles in the European Journal of Tourism Research should normally be between 4 000 and 20 000 words. Major research articles of between 10 000 and 20 000 are highly welcome. Longer or shorter papers will also be considered. The journal publishes also Research Notes of 1 500 – 2 000 words. Submitted papers must combine theoretical concepts with practical applications or empirical testing. The European

Journal of Tourism Research includes also the following sections: Book Reviews, announcements for Conferences and Seminars, abstracts of successfully defended Doctoral Dissertations in Tourism, case studies of Tourism Best Practices. The European Journal of Tourism Research is published in three Volumes per year. The full text of the European Journal of Tourism Research is available in the following databases: EBSCO Hospitality and Tourism CompleteCABI Leisure, Recreation and TourismProQuest Research Library Individual articles can be rented via journal's page at DeepDyve. The journal is indexed in Scopus and Thomson Reuters' Emerging Sources Citation Index. The editorial team welcomes your submissions to the European Journal of Tourism Research.

The Practice of Sustainable Tourism - Michael Hughes 2015-06-19

Sustainable tourism is a widely used term that has accumulated considerable attention from researchers and policy makers over the past two decades. However, there is still an apparently wide gap between theory and practice in the area. Recent scholarly research has tended to focus on niche areas of alternative tourism rather than address the broader issues and vagaries and paradoxes that appear to plague the broader notion of sustainable tourism. As such, there is a need for a new and pragmatic analysis of sustainable tourism as an overarching idea and how this manifests in practice. The Practice of Sustainable Tourism fulfils this need by offering a fresh perspective on sustainable tourism as an umbrella concept with inherent tensions. It presents a way of thinking about tourism based on the notion of finding common ground using the dialectic tradition of philosophy. Dialectics focusses on resolving opposing viewpoints by recognising they have common elements that can be combined into a rational and practical solution over time. As part of this approach, the book examines the strongly apparent tensions within alternative tourism as well as the paradox of continuing growth and other mass tourism related issues. It is divided into three parts, Part I includes chapters discussing the general concept of sustainable tourism, its history, current status and possible futures; Part II includes a range of destination case studies exploring how sustainable tourism has been applied and Part III

includes perspectives from the tourism operator view. Given the international content and challenging themes, the book will be appealing internationally to students, researchers and academics in the fields of tourism, geography, sustainability and social science.

Backpack Ambassadors - Richard Ivan Jobs
2017-05-23

Even today, in an era of cheap travel and constant connection, the image of young people backpacking across Europe remains seductively romantic. In *Backpack Ambassadors*, Richard Ivan Jobs tells the story of backpacking in Europe in its heyday, the decades after World War II, revealing that these footloose young people were doing more than just exploring for themselves. Rather, with each step, each border crossing, each friendship, they were quietly helping knit the continent together. From the Berlin Wall to the beaches of Spain, the Spanish Steps in Rome to the Pudding Shop in Istanbul, Jobs tells the stories of backpackers whose personal desire for freedom of movement brought the people and places of Europe into ever-closer contact. As greater and greater numbers of young people trekked around the continent, and a truly international youth culture began to emerge, the result was a Europe that, even in the midst of Cold War tensions, found its people more and more connected, their lives more and more integrated. Drawing on archival work in eight countries and five languages, and featuring trenchant commentary on the relevance of this period for contemporary concerns about borders and migration, *Backpack Ambassadors* brilliantly recreates a movement that was far more influential and important than its footsore travelers could ever have realized.

Contested Spatialities, Lifestyle Migration and Residential Tourism - Michael Janoschka
2013-08-22

Lifestyle Migration and Residential Tourism represent a major trend in individualized societies worldwide, which is attracting a rapidly growing interest from the academic community. This volume for the first time, critically analyses the spatial, social and political consequences of such leisure-oriented mobilities and migrations. The book approaches the topic from a multidisciplinary and international perspective, unifying different branches of research, such as

lifestyle migration, amenity migration, retirement migration, and second home tourism. By covering a variety of regions and landscapes such as mountain and coastal areas, rural and inland communities this volume productively engages with the formal and analytical variations of the phenomenon resulting in an enriching debate at the intersection of different areas of research. Amongst others, topics like political contest and civic participation of lifestyle migrants, their impacts on local communities, social tensions and inequalities induced by the phenomenon, as well as modes of transnational living, home and belonging will be thoroughly explored. This thought provoking volume will provide deep analytical and conceptual insights into the contested geographies of lifestyle migration and further knowledge into the spatial, social and political consequences of leisure-oriented mobilities. It will be valuable reading for students, researchers and academics from a plethora of academic disciplines.

Backpacking Culture and Mobilities - Michael O'Regan
2023-01-31

This book presents new contributions in backpacking research from various disciplines, capturing the diversity of backpacker contexts, motives and behaviours. It takes a fresh, critical and reflexive look at over 40 years of backpacking research and seeks to recentre backpacking research before introducing new perspectives on backpacking and global backpacker cultures from previously unexplored perspectives. The chapters examine contemporary backpacker culture and mobilities, and the value and worth of backpacking both for individuals seeking an alternative life course and transformation, and destinations and businesses who value their economic and cultural potential. The volume aims to make sense of current research in order to understand backpacking's future, and produce new directions for conceptual, theoretical and methodological development and future research. It will be useful for students and researchers in tourism, sociology and anthropology.

Affective Geographies of Transformation, Exploration and Adventure - Hayley Saul
2018-06-27

Combining critical reflections from scholars around the globe as well as experiential records

from some of the world's most tenacious explorers, this book interrogates the concept of the 'frontier' as a realm of transformation, exploration and adventure. We discover the affective power of social, physical, spiritual and political frontiers in shaping humanity's abilities to change and become. We collectively unpack the enduring conceptualization of the frontier as a site of nation-state identity formation, violent colonization, masculine prowess and the triumph of progress. In its place, this book charts a more complex and subtle emotional geography amidst an array of frontiers: the expanding human psyche that is induced under free-diving narcosis and tales of survival on one of the most technically difficult mountains in the world, 'The Ogre'. Chapters consider solitude in the Sahara, near-death experiences in Tibetan Buddhism, the aftermath of a volcanic eruption in Bali, the Spanish Imaginary, snatched moments of sexual curiosity, and many more. This book will be of upmost importance to researchers working on theories of affect, the Anthropocene, frontier theory and human geography. It will be vital supplementary reading for undergraduates and postgraduates on courses such as Heritage Studies, Human and Cultural Geography, Anthropology, Tourism Studies and History.

Contemporary Issues in Cultural Heritage Tourism - Jamie Kaminski 2013-12-13

The perceived quality of a destination's cultural offering has long been a significant factor in determining tourist choices of destination. More recently, the need to present touristic offerings that include cultural experiences and heritage has become widely recognised, that this aspect of the tourism experience is an important differentiator of destinations, as well as being amongst the most manageable. This has also led to an increase in the management of such experiences through special exhibitions, events and festivals, as well as through ensuring more routine and controlled access to heritage sites. Reflecting the increasing application of cultural heritage as a driver for tourism and development, this book provides for the first time a cohesive volume on the subject that is theoretically rich, practically applied and empirically grounded. Written by expert scholars and practitioners in the field, the book covers a broad range of theoretical perspectives of

cultural heritage tourism; regeneration, policy, stakeholders, marketing, socio-economic development, impacts, sustainability, volunteering and ICT. It takes a broad view, integrating international examples of sites, monuments as well as intangible cultural heritage, motor vehicle heritage events and modern art museums. This significant book furthers knowledge of the theory and application of tourism within the context of cultural heritage and will be of interest to students, researchers and practitioners in a range of disciplines.

Beyond Backpacker Tourism - Kevin Hannam 2010

Building on previous work on backpacking, this book takes the analysis of backpacker tourism further by engaging both with new theoretical debates into tourism experiences and mobilities as well as with new empirical phenomena such as the rise of the 'flashpacker' and alternative destinations.

Affective Tourism - Dorina Maria Buda 2015-05-15

This book brings together, explores and expands socio-spatial affect, emotion and psychoanalytic drives in tourism for the first time. Affect is to be found in visceral intensities and resonances that circulate around and shape encounters between and amongst tourists, local tourism representatives and places. When affect manifests, it can 'take shapes' in the form of emotions such as fun, joy, fear, anger and the like. When it remains a visceral force of latent bodily responses, affect overlaps with drives as expounded in psychoanalysis. The aim of the title, therefore, is to explore how and in what ways affects, emotions and drives are felt and performed in tourism encounters in places of socio-political turmoil such as Jordan, Palestine/Israel, with a detour to Iraq. Affective Tourism is highly innovative as it offers a new way of theorising tourism encounters bringing together, critically examining and expanding three areas of scholarship: affective and emotional geographies, psychoanalytic geographies and dark tourism. It has relevance for tourism industries in places in the proximity of ongoing conflicts as it provides in-depth analyses of the interconnections between tourism, danger and conflict. Such understandings can lead to more socio-culturally and politically-sustainable

approaches to planning, development and management of tourism. This ground breaking book will be of valuable reading for students and researchers from a number of fields such as tourism studies, geography, anthropology, sociology and Middle Eastern studies.

Scientific Tourism - Susan Slocum 2015-05-15

As researchers in emerging economies, scientists are often the first foreign visitors to stay in remote rural areas and, on occasion, form joint venture ecotourism and community tourism projects or poverty alleviation schemes between local agencies or NGOs, the local community, and their home institution or agency. They therefore can contribute to avenues for the conservation of natural resources and the development of rural communities as well as influencing the future tourism development through its perceived legitimacy and the destination image it promotes. This book for the first time critically reviews tourism debates surrounding this emerging market of scientific and research oriented tourism. It is divided into three inter-related sections. Section 1 sets the stage of the discourse of scientific research in tourism; Section 2 evaluates the key players of scientific tourism looking particularly at the roles of NGOs, government agencies and university academic staff and Section 3 contains case studies documenting the niche of researchers as travelers in a range of geographical locations including Tanzania, Australia, Chile, Peru and Mexico. The title's multidisciplinary approach provides an informed, interesting and stimulating addition to the existing limited literature and raises many issues and associated questions including the role of science tourism in tourism development and expansion, the impacts of scientific and research-based tourism, travel behaviors and motivations of researchers to name but a few. This significant volume will provide the reader with a better understanding of scientists as travelers, their relationship to the tourism industry, and the role they play in community development around tourism sites. It will be valuable reading for students and academics across the fields of Tourism, Geography and Development Studies as well as other social science disciplines.

Green Growth and Travelism - Terry DeLacy 2014-05-09

The green growth paradigm emerged from evolving global strategies that coherently promote a more socially inclusive, low-carbon, resource-efficient, stable economy, with decreasing poverty. Opportunities and challenges associated with the paradigm shift are expected to transform the travel and tourism (travelism) sector in all respects and on a global scale. This involves the transformation of the entire travelism value chain, as well as the communities in tourism destinations. However, there is a lack of systematic reports on wide-ranging and complex implications of the green growth paradigm for the travelism sector. This book focuses on the twin pillars – green growth and travelism – as key building blocks in exploring an essential multi-decade lifestyle change for planetary and human well-being, through the lenses of concept, policy and practice. It provides a conceptual discussion of the implications of the new development trend for key players in the travelism system, offers case studies from both developed and developing countries that highlight key issues in the transformation towards the green economy, and explores the policy settings and frameworks on both the global and national levels that underpin travelism green growth. This book offers tourism industry players, academics, students, policy makers and practitioners a comprehensive discussion of the latest progress in green growth and travelism.

The Encyclopedia of Sustainable Tourism - Carl I Cater 2015-10-01

Tourism is the world's fastest growing industry, and impacts globally upon ecology, economies, peoples, cultures and the built environment. Development, therefore, must be sustainable and sympathetic in order to preserve the environment and culture it exploits. Despite sustainable tourism being an area of considerable recent interest, there has been no synthesis of the diverse considerations of sustainable tourism, and the language and terms particular to this subject. An important resource for researchers of tourism, this reference work defines and explains terms associated with considering and preserving the environment, host peoples, communities, cultures, customs, lifestyles and social and economic systems.

Comfort Food - Michael Owen Jones 2017-04-14
With contributions by: Barbara Banks, Sheila

Bock, Susan Eleuterio, Jillian Gould, Phillis Humphries, Michael Owen Jones, Alicia Kristen, William G. Lockwood, Yvonne R. Lockwood, Lucy M. Long, LuAnne Roth, Rachelle H. Saltzman, Charlene Smith, Annie Tucker, and Diane Tye

Comfort Food explores this concept with examples taken from Atlantic Canadians, Indonesians, the English in Britain, and various ethnic, regional, and religious populations as well as rural and urban residents in the United States. This volume includes studies of particular edibles and the ways in which they comfort or in some instances cause discomfort. The contributors focus on items ranging from bologna to chocolate, including sweet and savory puddings, fried bread with an egg in the center, dairy products, fried rice, cafeteria fare, sugary fried dough, soul food, and others. Several essays consider comfort food in the context of cookbooks, films, blogs, literature, marketing, and tourism. Of course what heartens one person might put off another, so the collection also includes takes on victuals that prove problematic. All this fare is then related to identity, family, community, nationality, ethnicity, class, sense of place, tradition, stress, health, discomfort, guilt, betrayal, and loss, contributing to and deepening our understanding of comfort food. This book offers a foundation for further appreciation of comfort food. As a subject of study, the comfort food is relevant to a number of disciplines, most obviously food studies, folkloristics, and anthropology, but also American studies, cultural studies, global and international studies, tourism, marketing, and public health.

Tourism, Religion and Pilgrimage in Jerusalem -

Kobi Cohen-Hattab 2014-08-07

Jerusalem is a city with a singular nature. Home to three religions, it contains spiritual meaning for people the world over; it is at once a tourist destination and a location with a complex political reality. Tourism, therefore, is an integral part of Jerusalem's development and its political conflicts. The book traces tourism and pilgrimage to Jerusalem from the late Ottoman era, through the British Mandate, during the period of the divided city, and to the reunification of the city under Israeli rule. Throughout, the city's evolution is shown to be intertwined with its tourist industry, as tourist sites,

accommodations, infrastructure, and services transform the city's structures and open spaces. At the same time, tourism is wielded by various parties in an effort to gain political recognition, to bolster territorial control, or to garner support. The city's future and the role tourism can play in it are examined. While the construction of a "security fence" will have many implications on Jerusalem's tourist industry, steps are proposed to minimize the effects of the security fence and optimize tourism. Written by leading academics, this title will be valuable reading for students, academics, and researchers in the fields of tourism, religious studies, geography, history, cultural studies, and anthropology.

Routledge Handbook of Southeast Asian

Development - Andrew McGregor 2017-11-06

Southeast Asia is one of the most diverse regions in the world - hosting a wide range of languages, ethnicities, religions, economies, ecosystems and political systems. Amidst this diversity, however, has been a common desire to develop. This provides a unifying theme across landscapes of difference. This Handbook traces the uneven experiences that have accompanied development in Southeast Asia. The region is often considered to be a development success story; however, it is increasingly recognized that growth underpinning this development has been accompanied by patterns of inequality, violence, environmental degradation and cultural loss. In 30 chapters, written by established and emerging experts of the region, the Handbook examines development encounters through four thematic sections: • Approaching Southeast Asian development, • Institutions and economies of development, • People and development and • Environment and development. The authors draw from national or sub-national case studies to consider regional scale processes of development - tracing the uneven distribution of costs, risks and benefits. Core themes include the ongoing neoliberalization of development, issues of social and environmental justice and questions of agency and empowerment. This important reference work provides rich insights into the diverse impacts of current patterns of development and in doing so raises questions and challenges for realizing more equitable alternatives. It will be of value to students and scholars of Asian Studies, Development Studies,

Human Geography, Political Ecology and Asian Politics.

Tourism in Pacific Islands - Stephen Pratt
2015-02-20

Pacific Island Countries have been shown to be especially vulnerable to such external influences as natural disasters, political unrest and downturns in the global economy and their tourism industries have been notably affected. In particular, they typically have a narrow resource base and a fragile and often vulnerable natural environment. While there is some research on islands and small states, there is a dearth of information on the South Pacific and very little research is being undertaken in the region compared to other geographical regions in the world. This volume brings together current work in Pacific Island tourism. In this collection, three main themes arise: Images of the South Pacific; Socio-economic Impacts of Tourism; and Pacific Island Countries and the Outside World. The first focus is on the question of image, namely, stereotypes of a destination held by tourists and potential tourists, the extent to which residents, for their part, really welcome visitors, and the role tourism might play in changing pre-established images. The second theme is tourism's impacts, notably the economic and socio-cultural effects of international tourism's intrusion in the region which, though often hotly debated, have attracted relatively little empirical research. The third focus is on the challenges of how PICs articulate with their external geopolitical and physical environment. These involve existing relations with formal colonial centres, geographical isolation, the need for greater air access to the outside world and for more tourists, and the continuing threat to several PICs of global warming, which increased air travel will inevitably exacerbate. This text will be of interest to tourism students, researchers and academics in the fields of tourism, development studies and cultural studies.

Social Memory and Heritage Tourism Methodologies - Stephen P. Hanna 2015-02-11
The examination of social memory and heritage tourism has grown considerably over the past few decades as scholars have critically re-examined the relationships between past memories and present actions at international, national, and local scales. Methodological

innovation and reflection have accompanied theoretical advances as researchers strive to understand representations, experiences, thoughts, emotions and identities of the various actors involved in the reproduction of social memory and heritage landscapes. *Social Memory and Heritage Tourism Methodologies* describes and demonstrates innovations – including qualitative, quantitative, and mixed method approaches – for analysing the process and politics of remembering and touring the past through place. An introductory chapter looks at the history of social memory and heritage tourism research and the particular challenges posed by these fields of study. In subsequent chapters, the reader is led through the varying methodologies employed by presenting them in the context of an in-depth case study from range of geographical locations. The resulting volume showcases innovative research in social memory and heritage tourism and provides the reader with insights into how they can successfully conduct their own research while avoiding common pitfalls. This title will be useful reading for scholars, professionals and students in tourism, geography, anthropology and museum studies who are preparing to conduct research on the reproduction of social memory in particular landscapes and places or are interested in investigating heritage tourism practices and representations.

Backpacker Tourism and Economic Development - Mark P. Hampton 2013-07-18
There has been a phenomenal growth of backpacker tourism from the overland routes to India in the 1960s, to present-day backpacker tourism across the less developed world. As a result there has been significant economic development impacts of backpacker tourism upon local communities especially in areas with the largest concentrations of backpackers (South and South-East Asia particularly Thailand, Indonesia, Malaysia and India), as well as increasingly in Latin America. This volume provides a focused review of the economic development impacts of backpacker tourism in developing regions furthering knowledge on how backpacker tourism can play a crucial role in development strategies in these areas. First, it reviews the origins of the backpackers with a detailed examination of their "hippy"

predecessors on the overland trail, before discussing the emergence of modern backpackers including social and cultural aspects, and how new technologies are changing their experience. It then analyses the powerful economic development impacts of backpackers on local host communities in cities and rural areas with a special focus on coastal destinations. Extensive case study material is used from backpacker destinations across Asia, Latin America and Africa. In doing so the book provides original insights into how backpacker tourism is highly significant for poverty alleviation and effective local development since it has strong linkages to the local economy, and less economic leakage than conventional tourism. Written by a leading academic in this area, this volume will be of interest to students of Tourism and Development Studies.

Tourism Planning and Development - Jarkko Saarinen 2019-09-19

Academically complex and challenging to apply, development and planning are increasingly relevant to the growing tourism industry. This collection contains critical studies on tourism development and planning, and calls for proactive, holistic and responsible thinking. It addresses conceptual and contemporary issues in development and planning research including political trust, innovation networks, sustainability, moral encounters, enclavisation and evolutionary economics. It argues that recognition of the contextual and historical dimensions around tourism development and planning is essential to help both researchers and practitioners better understand destination and place-based decision-making. In addition, it will lead to improvements in stakeholder relations, and explains how tourism best works with localities and localities with tourism. This book was originally published as a special issue of *Tourism Geographies*.

Handbook of Globalisation and Tourism - Dallen J. Timothy 2019-12-27

Globalization entails the world becoming a smaller place through political, socio-cultural and economic processes. These processes have salient implications for tourism, and tourism itself is one of the driving forces behind globalization. This book is a collection of conceptual treatises by international scholars about the dynamics and reach of globalization and its relationships with

tourism. It anatomizes and deconstructs the global forces, processes and challenges that face the world of tourism. It is international in scope, encyclopedic in its conceptual depth, empirically evocative, and contemporary in its coverage. *Constructing Cultural Tourism* - Keith Hanley 2010-11-15

This book is an interdisciplinary collaboration between a literary critic and cultural historian, which examines and recovers a radical and still urgent challenge to the industrialisation of cultural tourism from the work of John Ruskin. Ruskin exerted a formative influence on the definition and development of cultural tourism which was probably as significant as that, for example, of his contemporary Thomas Cook. The book assesses Ruskin's overall influence on the development of national and international tourism in the context of pre-existing expectations about tourism flows and cultural capital and alongside parallel and intersecting trends of the time; examines Ruskin's contribution to the tourist agenda at all social levels; and discusses Ruskin's significance for current debates in tourism studies, especially questions of the place of the 'canon' of traditional European cultural tourism in a post-modern tourist setting, and the various incarnations of 'heritage tourism'.

Volunteer Tourism - Jim Butcher 2015-06-05

Just a generation ago the notion that holidays should be invested with ethical and political significance would have sounded odd. Today it is part of the lifestyle political landscape. Volunteer tourism is indicative of the growth of lifestyle strategies intended to exhibit care and responsibility towards others less fortunate, strategies aligned closely with developing one's ethical identity and sense of global responsibility. It sits alongside telethons, pay-per-click, Fair Trade and ethical consumption generally as a way to "make a difference". Volunteer tourism involves a personal mission to address the political question of development. It draws upon the private virtues of care and responsibility and disavows political narratives beyond this. Critics argue that this leaves the volunteers as unwitting carriers of damaging neoliberal or postcolonial assumptions, whilst advocates see it as offering creative and practical ways to build a new ethical politics. By contrast, this volume analyses

volunteer tourism as indicative of a retreat from public politics into the realm of private experience, and as an expression of diminished political and moral agency. This thought provoking book draws on development, political and sociological theory and is essential reading for students, researchers and academics interested in the phenomenon of volunteer tourism and the politics of lifestyle that it represents.

Mountaineering Tourism - Ghazali Musa

2015-06-05

In May 1993 the British Mountaineering Council met to discuss the future of high altitude tourism. Of concern to attendees were reports of queues on Everest and reference was made to mountaineer Peter Boardman calling Everest an 'amphitheater of the ego'. Issues raised included environmental and social responsibility and regulations to minimize impacts. In the years that have followed there has been a surge of interest in climbing Everest, with one day in 2012 seeing 234 climbers reach the summit. Participation in mountaineering tourism has surely escalated beyond the imagination of those who attended

the meeting 20 years ago. This book provides a critical and comprehensive analysis of all pertinent aspects and issues related to the development and the management of the growth area of mountaineering tourism. By doing so it explores the meaning of adventure and special reference to mountain-based adventure, the delivering of adventure experience and adventure learning and education. It further introduces examples of settings (alpine environments) where a general management framework could be applied as a baseline approach in mountaineering tourism development. Along with this general management framework, the book draws evidence from case studies derived from various mountaineering tourism development contexts worldwide, to highlight the diversity and uniqueness of management approaches, policies and practices. Written by leading academics from a range of disciplinary backgrounds, this insightful book will provide students, researchers and academics with a better understanding of the unique aspects of tourism management and development of this growing form of adventure tourism across the world.
