Surgery - Christian de Virgilio 2015-01-10

Surgery: A Case Based Clinical Review provides the reader with a comprehensive understanding of surgical diseases in one easy to use reference that combines multiple teaching formats. The book begins using a case based approach. The cases presented cover the diseases most commonly encountered on a surgical rotation. The cases are designed to provide the reader with the classic findings on history and physical examination. The case presentation is followed by a series of short

questions and answers, designed to provide further understanding of the important aspects of the history, physical examination, differential diagnosis, diagnostic work-up and management, as well as questions that may arise on surgical rounds. Key figures and tables visually reinforce the important elements of the disease process. A brief algorithmic flow chart is provided so the reader can quickly understand the optimal management approach. Two additional special sections further strengthen the student's comprehension. The first section covers areas of controversy in the diagnosis or management of each disease, and another section discusses pitfalls to avoid, where the inexperienced clinician might get in trouble. The text concludes with a series of multiple choice questions in a surgery shelf/USMLE format with robust explanations. Surgery: A Case Based Clinical Review is based on 20 years of Socratic medical student teaching by a nine-time Golden Apple teaching awardee from the UCLA School of Medicine and will be of great utility for medical students when they rotate on surgery, interns, physician assistant students, nursing students and nurse practitioner students.

Fix Her Up - Tessa Bailey 2019-06-11

"Fix Her Up ticks all my romance boxes. Not only is it hilarious, it's sweet, endearing, heartwarming and downright sexy. It's a recipe for the perfect love story." - Helena Hunting, New York Times bestselling author of Meet Cute A steamy, hilarious new romantic comedy from New York Times bestselling author Tessa Bailey, perfect for fans of Christina Lauren and Sally Thorne! Georgette Castle's family runs the best home renovation business in town, but she picked balloons instead of blueprints and they haven't taken her seriously since. Frankly, she's over it. Georgie loves planning children's birthday parties and making people laugh, just not at her own expense. She's determined to fix herself up into a Woman of the World... whatever that means. Phase one: new framework for her business (a website from this decade, perhaps?) Phase two: a gut-reno on her

wardrobe (fyi, leggings are pants.) Phase three: updates to her exterior (do people still wax?) Phase four: put herself on the market (and stop crushing on Travis Ford!) Living her best life means facing the truth: Georgie hasn't been on a date since, well, ever. Nobody's asking the town clown out for a night of hot sex, that's for sure. Maybe if people think she's having a steamy love affair, they'll acknowledge she's not just the "little sister" who paints faces for a living. And who better to help demolish that image than the resident sports star and tabloid favorite. Travis Ford was major league baseball's hottest rookie when an injury ended his career. Now he's flipping houses to keep busy and trying to forget his glory days. But he can't even cross the street without someone recapping his greatest hits. Or making a joke about his... bat. And then there's Georgie, his best friend's sister, who is not a kid anymore. When she proposes a wild scheme—that they pretend to date, to shock her family and help him land a new job—he agrees. What's the harm? It's not like it's real. But the girl Travis used to tease is now a funny, full-of-life woman and there's nothing fake about how much he wants her...
