The Jerusalem Diamond - Noah Gordon 2012-06-05

A man travels to Israel to uncover a diamond's remarkable past in this vivid historical saga from the New York Times—bestselling author of *The Physician*. A diamond cutter and seller from a long, respected line of precious-gem dealers, New Yorker Harry Hopeman is intrigued by the story of the so-called “Jerusalem Diamond,” a magnificent yellow jewel rumored to date back to the biblical time of King Solomon. So when he's asked to broker a deal that will return the legendary gemstone to Israel, he eagerly accepts. Arriving in the volatile Middle East, Hopeman soon discovers that his assignment will be anything but easy. Representatives of the Holy Land's three major religions—Judaism, Christianity, and Islam—are all laying claim to the priceless jewel that once adorned the miter of Pope Gregory, and they will do anything to possess it. Partnering

with Israeli government agent Tamar Strauss—a beautiful and courageous Yemenite war widow who inspires the visiting American's passion as well as his respect—Hopeman is soon entangled in a web of mystery and intrigue that crosses continents and stretches back thousands of years. As the duo follows the twisting travels of the gem and the bloody conflicts it has ignited throughout its extraordinary past—a history that intertwines with Hopeman's own family saga—the story of a breathtaking land and its people unfolds in all its drama and glory. International-bestselling author Noah Gordon—whose acclaimed historical novel *The Physician* was the inspiration for the major motion picture of the same name starring Ben Kingsley—“has packed a suspense tale with religious, historical and archeological underpinnings, along with fascinating insights into an industry whose conduct is

generally shrouded from outside scrutiny” (The Philadelphia Inquirer).

Drunk in China - Derek Sandhaus 2019-11-01
2020 Gourmand Award in Spirits Gold Medal winner in the Independent Book Publishers

Awards China is one of the world's leading producers and consumers of liquor, with alcohol infusing all aspects of its culture, from religion and literature to business and warfare. Yet to the outside world, China's most famous spirit, baijiu, remains a mystery. This is about to change, as baijiu is now being served in cocktail bars beyond its borders. *Drunk in China* follows Derek Sandhaus's journey of discovery into the world's oldest drinking culture. He travels throughout the country and around the globe to meet with distillers, brewers, snake-oil salesmen, archaeologists, and ordinary drinkers. He examines the many ways in which alcohol has shaped Chinese society and its rituals. He visits production floors, karaoke parlors, hotpot joints, and speakeasies. Along the way he uncovers a tradition spanning more than nine thousand years and explores how recent economic and political developments have

conspired to push Chinese alcohol beyond the nation's borders for the first time. As Chinese society becomes increasingly international, its drinking culture must also adapt to the times. Can the West also adapt and clink glasses with China? Read *Drunk in China* and find out.

Palinuro of Mexico - Fernando del Paso 1996

Like those writers to whom he has been compared - Fuentes, Garcia Marquez, James Joyce, and Rabelais - del Paso draws upon myth, science, and world literature to expand his particular story to universal proportions. Telling the story of a medical student who's engaged in an incestuous affair with his cousin, the novel satirizes advertising, politics, pornography, and mythology, while at the same time celebrating the body with a thoroughness that only a student of medicine could manage.

Uncorking the Past - Patrick E.

McGovern 2009-10-30

In a lively gastronomical tour around the world and through the millennia, *Uncorking the Past* tells the compelling story of humanity's ingenious, intoxicating search for booze. Following a tantalizing trail of archaeological, chemical, artistic, and textual clues, Patrick E. McGovern, the leading authority on ancient alcoholic beverages, brings us up to date on what we now know about the creation and history of alcohol, and the role of alcohol in society across cultures. Along the way, he integrates studies in food and sociology to explore a provocative hypothesis about the integral role that spirits have played in human evolution. We discover, for example, that the cereal staples of the modern world were probably domesticated in agrarian societies for their potential in fermenting large quantities of alcoholic beverages. These include the delectable rice wines of China

and Japan, the corn beers of the Americas, and the millet and sorghum drinks of Africa.

Humans also learned how to make mead from honey and wine from exotic fruits of all kinds: even from the sweet pulp of the cacao (chocolate) fruit in the New World. The perfect drink, it turns out—whether it be mind-altering, medicinal, a religious symbol, liquid courage, or artistic inspiration—has not only been a profound force in history, but may be fundamental to the human condition itself. This coffee table book will sate the curiosity of any armchair historian interested in the long history of food and wine.
