Legacies of Violence: Eastern Europe's First World War - Jochen Böhrer 2014-02-27

The First World War began in the Balkans, and it was fought as fiercely in the East as it was in the West. Fighting persisted in the East for almost a

decade, radically transforming the political and social order of the entire continent. The specifics of the Eastern war such as mass deportations, ethnic cleansing, and the radicalization of military, paramilitary and revolutionary violence

have only recently become the focus of historical research. This volume situates the 'Long First World War' on the Eastern Front (1912-1923) in the hundred years from the mid-19th to the mid-20th century and explores the legacies of violence within this context. Content Jochen Böehler/Włodzimierz Borodziej/Joachim von Puttkamer: Introduction I. A World in Transition Joachim von Puttkamer: Collapse and Restoration. Politics and the Strains of War in Eastern Europe Mark Biondich: Eastern Borderlands and Prospective Shatter Zones. Identity and Conflict in East Central and Southeastern Europe on the Eve of the First World War Jochen Böehler: Generals and Warlords, Revolutionaries and Nation-State Builders. The First World War and its Aftermath in Central and Eastern Europe II. Occupation Jonathan E. Gumz: Losing Control. The Norm of Occupation in Eastern Europe during the First World War Stephan Lehnstaedt: Fluctuating between 'Utilisation' and Exploitation. Occupied

East Central Europe during the First World War Robert L. Nelson: Utopias of Open Space. Forced Population Transfer Fantasies during the First World War III. Radicalization Maciej Górny: War on Paper? Physical Anthropology in the Service of States and Nations Piotr J. Wróbel: Foreshadowing the Holocaust. The Wars of 1914-1921 and Anti-Jewish Violence in Central and Eastern Europe Robert Gerwarth: Fighting the Red Beast. Counter-Revolutionary Violence in the Defeated States of Central Europe IV. Aftermath Julia Eichenberg: Consent, Coercion and Endurance in Eastern Europe. Poland and the Fluidity of War Experiences Philipp Ther: Pre-negotiated Violence. Ethnic Cleansing in the 'Long' First World War Dietrich Beyrau: The Long Shadow of the Revolution. Violence in War and Peace in the Soviet Union Commentary Jörn Leonhard: Legacies of Violence: Eastern Europe's First World War - A Commentary from a Comparative Perspective [The Longman Companion to European](#)

Nationalism 1789-1920 - Raymond Pearson

2014-09-25

A highly topical analysis of European Nationalism from the French Revolution through to the aftermath of the First World War, when the nationalist issues and problems that dominate the political landscape of our own time were already fully established. Covering an enormous range of peoples -- from the Icelanders to the Gypsies, from Brittany to Wallachia -- the book presents a wealth of historical geopolitical information unavailable elsewhere. Essential as a reference work, it also provides a unique opportunity to survey systematically a crucial but fragmented subject in its full European context. For historians, political scientists, departments of European studies, and general readers.

Rivalry in Southern Africa 1893-99 - M.

Seligmann 1998-08-10

Seligmann focuses on the development of German policy towards the Transvaal and

southern Africa in the 1890s. During this time Germany's flirtation with President Kruger and her confrontational approach to Britain threatened war. How did this come to pass? The author examines the roots of German policy and explores consequent rivalries and tensions. The conclusions show the importance of South Africa to German imperialism and the role it played in widening German imperial ambitions before the First World War.

Western Civilization - Jackson J. Spielvogel

2014-01-01

Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. WESTERN CIVILIZATION includes 155 maps and excerpts of more than 250 primary sources that enliven the past while introducing students

to the source material of historical scholarship. Additionally, the text is illustrated with 430 photographs that add visual context. A variety of pedagogical tools, including features on relevant films and end-of-chapter study aids, make this edition accessible to any learning style. The book is available in a variety of split options.

Barricades and Borders - Robert Gildea
2003-03-06

This is a comprehensive survey of European history from the coup d'etat of Napoleon Bonaparte in France to the assassination of the Archduke Ferdinand at Sarajevo, which led to the First World War. It concentrates on the twin themes of revolution and nationalism, which often combined in the early part of the century but which increasingly became rival creeds. Going beyond traditional political and diplomatic history, the book incorporates the results of

recent research on population movements, the expansion of markets, the accumulation of capital, social mobility, education, changing patterns of leisure, religious practices, and intellectual and artistic developments. The work falls into three chronological sections. The first, starting in 1800 (rather than the more usual 1815) follows the build-up of the revolutionary currents which were eventually going to erupt in the 'Year of Revolutions' 1848. The second, from 1850 to 1880, deals with the golden age of capitalism, the successful culmination of struggles for national unification, and the threat of anarchism. The concluding chapters look at the social and political stresses caused by socialism and national minorities, at new attempts by government to order society, imperial rivalry, and the descent into a war which was to mark the end of nineteenth-century Europe. For this third edition, Dr Gildea has substantially revised the text and maps, and completely updated the bibliography. Newly-

added introductory sections guide the reader through the wealth of material in each chapter. The new edition also includes for the first time a full Chronology of the period, a list of leading state ministers, and family trees for all the major dynasties.

Europe 1783-1914 - William Simpson

2013-09-13

Providing a comprehensive overview of Europe from the background of the French Revolution to the origins of the First World War, this book combines accounts of the most important countries with the wider political, economic, social and cultural themes which affected Europe as a whole.

Western Civilization, Alternate Volume: Since 1300 - Jackson J. Spielvogel 2014-01-01

Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural,

and military aspects of history into a gripping story that is as memorable as it is instructive. WESTERN CIVILIZATION includes 155 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical scholarship. Additionally, the text is illustrated with 430 photographs that add visual context. Barricades and Borders - Robert Gildea 1996
The author has added new information to some of the first edition's chapters, and there is an entirely new section on feminism that reflects new research, making this a very comprehensive reference work on modern European history.
European Legal History - Randall Lesaffer

2009-06-25

This historical introduction to the civil law tradition considers the political and cultural context of Europe's legal history from its Roman roots. Political, diplomatic and constitutional developments are discussed, and the impacts of major cultural movements, such as scholasticism, humanism, the Enlightenment and Romanticism, on law and jurisprudence are highlighted.

Hitler and Nazi Germany - Jackson J.

Spielvogel 2016-09-16

This text is based on current research findings and is written for students and general readers who want a deeper understanding of this period in German history. It provides a balanced approach in examining Hitler's role in the history of the Third Reich and includes coverage of the economic, social, and political forces that made the rise and growth of Nazism possible; the institutional, cultural, and social life of the Third Reich; the Second World War; and the

Holocaust.

[A History of World Societies, Volume C: 1775 to the Present](#) - John P. McKay 2011-10-05

A History of World Societies introduces students to the global past through social history and the stories and voices of the people who lived it. Now published by Bedford/St. Martin's, and informed by the latest scholarship, the book has been thoroughly revised with students in mind to meet the needs of the evolving course. Proven to work in the classroom, the book's regional and comparative approach helps students understand the connections of global history while providing a manageable organization. With more global connections and comparisons, more documents, special features and activities that teach historical analysis, and an entirely new look, the ninth edition is the most teachable and accessible edition yet. Test drive a chapter today. Find out how.

Nationalism in Europe, 1890-1940 - Oliver Zimmer 2017-04-29

While nationalism had become politically significant well before the late nineteenth century, it was between 1890 and 1940 that it revealed its political explosiveness and destructive potential. Organised around specific themes, many of which are currently hotly debated among experts in the field, Oliver Zimmer's study discusses such key issues as: the modernity of nations and nationalism, the formation of the nationalising state and the significance of national ritual for modern mass-nations, the ways in which nationalism shaped the treatment of minorities, the relationship between nationalism and fascism, and the perception of nationalism by liberals and socialists. Zimmer's account is more explicitly focused on conceptual issues than most textbooks on the subject, and also more historical and historiographical than many of the existing theoretical overviews. The result is an incisive examination of the most powerful ideology of modern times.

Barricades and Borders [sound Recording] :
Europe 1800-1914 - Gildea, Robert 1991

The Routledge Companion to Modern European History since 1763 - Chris Cook 2004-11-10
The Routledge Companion to Modern European History since 1763 is a compact and highly accessible work of reference covering the broad sweep of events from the last days of the ancient regime to the ending of the Cold War, and from the reshaping of Eastern Europe to the radical expansion of the European Union in 2004. Within the broad coverage of this outstanding volume, particular attention is given to subjects such as: the era of the Enlightened Despots the Revolutionary and Napoleonic era in France, and the revolutions of 1848 nationalism and imperialism, and the retreat from Empire the First World War, the rise of the European dictators, the coming of the Second World War, the Holocaust, and the post-war development of Europe the Cold War, the Soviet Union and its

break up the protest and upheavals of the 1960s, as well as social issues such as the rise of the welfare state, and the changing place of women in society throughout the period. With a fully comprehensive glossary, a biographical section, a thorough bibliography and informative maps, this volume is the indispensable companion for all those who study modern European history.

Western Civilization: Volume C: Since 1789 - Jackson J. Spielvogel 2014-01-01

Best-selling author Jackson Spielvogel has helped over one million students learn about the present by exploring the past. Spielvogel's engaging narrative weaves the political, economic, social, religious, intellectual, cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. WESTERN CIVILIZATION includes 155 maps and excerpts of more than 250 primary sources that enliven the past while introducing students to the source material of historical scholarship. This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth-century Europe. Brings together contributions from a distinguished group of international scholars. Provides an overview of current thinking on the period. Traces the great political, social and economic upheavals of the time. Illuminates perennial themes, as well as new areas of enquiry. Takes a pan-European approach, highlighting similarities and differences across nations and regions.

The Origins of the First World War - William Mulligan 2010-03-04

Providing a new interpretation of the origins of the First World War, this textbook synthesises recent scholarship and introduces the major historiographical and political debates surrounding the outbreak of the war. William Mulligan argues that the war was a far from inevitable outcome of international politics in the early twentieth century and suggests instead that there were powerful forces operating in favour of the maintenance of peace. His fresh perspective on the pre-war international system takes account of new approaches to the study of international politics since the end of the Cold War and the acceleration of globalisation.

Thematic chapters examine key issues, including the military, public opinion, economics, diplomacy and geopolitics, and analyse relations between the great powers, the role of smaller states, the disintegrating empires and the July crisis. This compelling account will significantly

revise our understanding of diplomacy, political culture, and economic history from 1870 to 1914.

Europe 1880-1945 - J.M. Roberts 2013-09-13
Suitable for 19th and 20th century Europe/modern Europe undergraduate courses. This well-established and immensely successful book provides a standard introduction to the subject by one of Britain's most popular historians. Social, economic and social history are skillfully integrated within a framework of political narrative history.

Western Civilization: A Brief History, Volume II: Since 1500 - Jackson J. Spielvogel 2016-01-01

This brief, best-selling Western Civilization text has helped thousands of students learn about the world they live in by exploring the story of its past. Jackson Spielvogel's engaging chronological narrative and extensive inclusion of primary source documents weave the political, economic, social, religious, intellectual,

cultural, and military aspects of history into a gripping story that is as memorable as it is instructive. This edition includes new historiographical sections along with updated scholarship and new images. The textbook is available in the following split options: WESTERN CIVILIZATION: A BRIEF HISTORY, 9th EDITION COMPLETE, VOLUME I: TO 1715, and VOLUME II: SINCE 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Themes in Modern European History,

1890-1945 - Nicholas Atkin 2008-11-26

Themes in Modern European History, 1890-1945 brings together an international team of scholars to address an eclectic range of developments and issues in European history in the period between 1890 and the end of the Second World War. This lively collection of essays adopts a thematic approach, in order to explore comprehensively a period of great

change and upheaval in Europe. Concentrating on the main powers in Europe, from Germany, Italy and Russia, to the UK and France, the book links together developments in society, the economy, politics and culture, and establishes them in their political framework. Specially commissioned chapters discuss key issues such as: popular culture the relationship between East and West intellectual and cultural trends the origins and impact of two world wars communism, dictatorship and liberal democracy the relationship of Europe with the wider world. Including a chronology, maps and a glossary, as well as suggestions for further reading, this comprehensive volume is an invaluable and authoritative resource for students of modern European history.

The Transformation of the World - Jürgen Osterhammel 2015-09-15

A panoramic global history of the nineteenth century A monumental history of the nineteenth century, *The Transformation of the World* offers

a panoramic and multifaceted portrait of a world in transition. Jürgen Osterhammel, an eminent scholar who has been called the Braudel of the nineteenth century, moves beyond conventional Eurocentric and chronological accounts of the era, presenting instead a truly global history of breathtaking scope and towering erudition. He examines the powerful and complex forces that drove global change during the "long nineteenth century," taking readers from New York to New Delhi, from the Latin American revolutions to the Taiping Rebellion, from the perils and promise of Europe's transatlantic labor markets to the hardships endured by nomadic, tribal peoples across the planet. Osterhammel describes a world increasingly networked by the telegraph, the steamship, and the railways. He explores the changing relationship between human beings and nature, looks at the importance of cities, explains the role slavery and its abolition played in the emergence of new nations, challenges the widely held belief that

the nineteenth century witnessed the triumph of the nation-state, and much more. This is the highly anticipated English edition of the spectacularly successful and critically acclaimed German book, which is also being translated into Chinese, Polish, Russian, and French.

Indispensable for any historian, *The Transformation of the World* sheds important new light on this momentous epoch, showing how the nineteenth century paved the way for the global catastrophes of the twentieth century, yet how it also gave rise to pacifism, liberalism, the trade union, and a host of other crucial developments.

A Cultural History of Work in the Age of

Empire - Victoria E. Thompson 2020-09-17

Winner of the 2020 PROSE Award for
Multivolume Reference/Humanities The period
1800-1920 was one in which work processes

were dramatically transformed by mechanization, factory system, the abolition of the guilds, the integration of national markets and expansion into overseas colonies. While some continued to work in trades that were similar to those of their parents and grandparents, increasing numbers of workers found their workplace and work processes changed, often in ways that were beyond their control. Workers employed a variety of means to protest these changes, from machine-breaking to strikes to migration. This period saw the rise of the labor union and the working-class political party. It was also a time during which ideas about work changed dramatically. Work came to be seen as a source of pride, progress and even liberation, and workers garnered increased interest from writers and artists. This volume explores the multi-faceted experience of workers during the Age of Empire. A Cultural History of Work in the Age of Empire presents an overview of the period with essays on economies,

representations of work, workplaces, work cultures, technology, mobility, society, politics and leisure.

The Oxford History of Modern Europe - T. C. W. Blanning 2000

Insightful, provocative, and intellectually rewarding, this book offers an unparalleled perspective on the history of the continent.

Civil Society Before Democracy - Nancy Bermeo 2000-11-15

Bringing together historians and political scientists, this unique collaboration compares nineteenth-century civil societies that failed to develop lasting democracies with civil societies that succeeded. Much of the current literature on the connection between civil society and consolidating democracy focuses exclusively on single, contemporary polities that are ever-changing and uncertain. By studying historical cases, the authors are able to demonstrate which civil societies developed in tandem with lasting democracies and which did not.

Contrasting these two sets of cases, the book both enlightens readers about individual countries and extracts lessons about the connections between civil society and democracy in contemporary times. Above all, the authors ask the vital but under-researched question, OHow and why does democratic civil society develop?O

Rebellions and Revolutions - Jack Gray 1990

An accessible analysis of China from the 1800s to the present day, focusing on its problems of development, and including the recent events in Tiananmen Square. The author addresses crucial questions about the collapse of Imperial China and the emergence of the Chinese Communist Party.

A History of World Societies, Volume 2: Since 1450 - John P. McKay 2011-10-05

A History of World Societies introduces students to the global past through social history and the stories and voices of the people who lived it. Now published by Bedford/St. Martin's, and

informed by the latest scholarship, the book has been thoroughly revised with students in mind to meet the needs of the evolving course. Proven to work in the classroom, the book's regional and comparative approach helps students understand the connections of global history while providing a manageable organization. With more global connections and comparisons, more documents, special features and activities that teach historical analysis, and an entirely new look, the ninth edition is the most teachable and accessible edition yet. Test drive a chapter today. Find out how.

[The age of internationalism and Belgium, 1880-1930](#) - Daniel Laqua 2015-07-01

Belgium was a major hub for transnational movements. By taking this small and yet significant European country as a focal point, the book critically examines major issues in modern history, including nationalism, colonial expansion, debates on the nature of international relations and campaigns for

political and social equality. Now available in paperback, this study explores an age in which many groups and communities – from socialists to scientists – organised themselves across national borders. The timeframe covers the rise of international movements and associations before the First World War, the conflagration of 1914 and the emergence of new actors such as the League of Nations. The book acknowledges the changing framework for transnational activism, including its interplay with domestic politics and international institutions. By tracing international movements and ideas, the book aims to reveal and explain the multifarious and sometimes contradictory nature of internationalism.

[The Routledge Companion to European History Since 1763](#) - Chris Cook 2005

The Routledge Companion to European History since 1763 is a compact and highly accessible work of reference, with a fully comprehensive glossary, a biographical section, a thorough

bibliography and informative maps.

European Media Law - Oliver Castendyk

2008-01-01

Supplies an in-depth commentary on EU media law, with detailed analysis of all important legislation and court decisions. It leads European lawyers with vast knowledge and practical experience of media law provide detailed expert commentary.

International History of the Twentieth Century - Antony Best 2004

Using their thematic and regional expertise, four prominent authors have produced an authoritative yet accessible account of the history of international relations in the last century, covering events in Europe, Asia, the Middle East, Africa and the Americas.

Europe's Uncertain Path 1814-1914 - R. S. Alexander 2012-01-30

Europe's Uncertain Path is an introduction to Europe's turbulent history from 1814 to 1914. It presents a clear narrative of the major political

events, set against the backdrop of social, economic, and cultural change. An introduction to Europe's turbulent history from 1814 to 1914 Provides students with a solid grounding in the main political events and social changes of the period Explains the causes and outcomes of major events: the effect of the emergence of mass politics; the evolution of political ideologies; and the link between foreign and domestic policy Offers balanced coverage of Eastern, Western, and Central Europe Illustrations, maps, and figures enhance student understanding

Terrorism and the Politics of Social Change - James Dingley 2010

In this up-to-the-moment and politically relevant work, James Dingley dissects the role of social relations, culture and religion in impelling men and women to behave violently in defence of their own known socio-cultural context when challenged by external forces. It is a decisive contribution to our understanding of the political

and social relevance of terrorism as we know and experience it today.

France Since 1945 - Robert Gildea 1997

In the fifty years since the end of the Second World War, France has had to deal with the legacy of the German occupation, the effects of the Algerian war and the rise of Islam, and more recently the loss of French domination of Europe following the reunification of Germany. Robert Gildeasets these and other issues within their economic, social, and political context, and focuses upon France's various attempts to recover and establish national greatness, a national identity, and stability in both the economic and political systems of France.

A Short History of Western Political Thought - W. M. Spellman 2017-09-16

This brief narrative survey of political thought over the past two millennia explores key ideas that have shaped Western political traditions. Beginning with the Ancient Greeks' classical emphasis on politics as an independent sphere of

activity, the book goes on to consider the medieval and early modern Christian views of politics and its central role in providing spiritual leadership. Concluding with a discussion of present-day political thought, W. M. Spellman explores the return to the ancient understanding of political life as a more autonomous sphere, and one that doesn't relate to anything beyond the physical world. Setting the work of major and lesser-known political philosophers within its historical context, the book offers a balanced and considered overview of the topic, taking into account the religious values, inherited ideas and social settings of the writers. Assuming no prior knowledge and written in a highly accessible style, *A Short History of Western Political Thought* is ideal for those seeking to develop an understanding of this fascinating and important subject.

Borders and Territories - Manet van Montfrans 1993

The Insurgent Barricade - Mark Traugott 2010

A case study in how techniques of protest originate and evolve this book tells how the French perfected a repertoire of revolution over three centuries, and how students, exiles, and itinerant workers helped it spread across Europe.

Eurocentrism - Michael Wintle 2020-09-02

This book raises awareness of Eurocentrism's enormous impact and shows how, over the course of five centuries, Eurocentrism has extended its power across the globe. In the twenty-first century, Eurocentrism's hegemony remains powerful. By exploring a wide range of sources including Eurocentric maps and images, historiography, and Rudyard Kipling's *White Man's Burden*, Wintle uncovers Eurocentrism's gradual evolution and reveals the ways in which it functions at both seen and unseen levels.

Taking a thematic and then empirical approach, *Eurocentrism* offers a detailed and comprehensive discussion of Eurocentrism's

problems and dangers, pays special attention to the work of Samir Amin and James Blaut and applies notions garnered in the book to discuss Eurocentrism within the context of the twenty-first-century European Union. This study questions Eurocentrism's function, its history, and its importance, providing a fresh insight into one of the world's most complex and powerful cultural phenomena. With its multi- and interdisciplinary analysis, this book is an indispensable tool for both scholars and students concerned with modern history, politics, visual culture and political geography.

From Vienna to Versailles - L.C.B. Seaman
2002-11-01

This classic text examines the story of European affairs and international relations from 1850 to 1920. Authoritative and concise, it emphasizes interpretation rather than the chronological narrative of the facts.

Marianne in Chains - Robert Gildea 2002-05-01
For the last fifty years, the German Occupation

of France has been regarded as a period characterised by four things: cold, hunger, the absence of freedom and above all fear; a time when the indigenous population was cruelly and consistently oppressed by the army of occupation. The people of France were either

bold members of the Resistance or craven collaborators. In this riveting and provocative study, Robert Gildea reveals a rather different story, a story which shows that the truth lies - as so often - somewhere in between.
