*Stanley the Dog: The First Day of School* - Bobby Bones 2022-06-14

From the award-winning radio and TV personality and beloved two-time New York Times bestselling author Bobby Bones, *Stanley the Dog: The First Day of School* is a hilarious and heartfelt new picture book about a bulldog pup named Stanley and his adventures on the first day of school. Today is Stanley's first day of school—and he really doesn't want to go. Stanley would rather dawdle in bed and dither over which collar to wear than get on the school bus. With his stomach turning into tighter knots by the minute, Stanley's worried whether a bulldog like him will ever fit in with the other pups at school. For one thing, Stanley doesn't know any of the school rules. He rolls when he's supposed to sit. Barks when he's supposed to stay. And worst of all,

he doesn't know how to make friends. But when disaster strikes, maybe all Stanley needs to do is be himself in order save the day? Illustrated with hilariously loving detail by Stephanie Laberis and inspired by Bobby Bones's own real-life bulldog puppy, Stanley the Dog: The First Day of School will remind every reader about the challenges of trying new things and the value of staying true to yourself.

[I Will Survive](#) - Gloria Gaynor 2014-03-11

I Will Survive is the story of Gloria Gaynor, America's "Queen of Disco." It is the story of riches and fame, despair, and finally salvation. Her meteoric rise to stardom in the mid-1970s was nothing short of phenomenal, and hits poured forth that pushed her to the top of the charts, including "Honey Bee," "I Got You Under My Skin," "Never Can Say Goodbye," and the song that has immortalized her, "I Will Survive," which became a #1 international gold seller. With that song, Gloria heralded the international rise of disco that became synonymous with a way of life in the fast lane - the sweaty bodies at Studio 54, the lines of cocaine, the indescribable feeling that you could always be at the top of your game and never come down. But down she came after her early stardom, and problems followed in the wake, including the death of her mother, whose love had anchored the young singer, as well as constant battles with weight, drugs, and alcohol. While her fans always imagined her to be rich, her personal finances collapsed due to poor management; and while many envied her, she felt completely empty inside. In the early 1980s, sustained by her marriage to music publisher Linwood Simon, Gloria took three years off and reflected upon her life. She visited churches and revisited her mother's old Bible. Discovering the world of gospel, she made a

commitment to Christ that sustains her to this day.

Birthing Justice - Julia Chinyere Oparah 2015-12-22

There is a global crisis in maternal health care for black women. In the United States, black women are over three times more likely to perish from pregnancy-related complications than white women; their babies are half as likely to survive the first year. Many black women experience policing, coercion, and disempowerment during pregnancy and childbirth and are disconnected from alternative birthing traditions. This book places black women's voices at the center of the debate on what should be done to fix the broken maternity system and foregrounds black women's agency in the emerging birth justice movement. Mixing scholarly, activist, and personal perspectives, the book shows readers how they too can change lives, one birth at a time.

Understanding the Dangers of Cesarean Birth: Making Informed Decisions - Nicette Jukelevics 2008-09-30

Cesarean delivery - childbirth through an incision in the mother's lower abdomen - is now the most common major surgical procedure performed in the United States. No one argues over the fact that it can be a life-saving procedure when the baby or mother is at risk. But for almost three decades in this nation, cesarean deliveries have increased, without substantially better outcomes for babies or mothers. Experts warn that up to 50 percent of the more than 1 million C-sections performed here each year are unnecessary. And that is where Nicette Jukelevics, a certified childbirth educator, researcher and writer, steps in with this book. Jukelevics aims to give women the insights they need to make an informed decision about whether natural or C-section birth is best for them and their babies. She explains when C-sections are necessary, and when they are not needed. She also addresses the overuse and misuse of medical procedures that can complicate labor and lead to C-sections, as well as reasons doctors may support or suggest C-sections,

including outdated medical information, fear of liability, and economic advantages measured in doctors' time. This work also examines midwifery practices shown to safely reduce cesarean deliveries, but ignored or resisted by hospitals. Understanding the Dangers of Cesarean Birth will interest not only expectant and future parents, but also to students and scholars of women's health, nursing, and public health.

Your Money, Your Goals - Consumer Financial Consumer Financial Protection Bureau 2015-03-18

Welcome to the Consumer Financial Protection Bureau's Your Money, Your Goals: A financial empowerment toolkit for social services programs! If you're reading this, you are probably a case manager, or you work with case managers. Finances affect nearly every aspect of life in the United States. But many people feel overwhelmed by their financial situations, and they don't know where to go for help. As a case manager, you're in a unique position to provide that help. Clients already know you and trust you, and in many cases, they're already sharing financial and other personal information with you. The financial stresses your clients face may interfere with their progress toward other goals, and providing financial empowerment information and tools is a natural extension of what you are already doing. What is "financial empowerment" and how is it different from financial education or financial

literacy? Financial education is a strategy that provides people with financial knowledge, skills, and resources so they can get, manage, and use their money to achieve their goals. Financial education is about building an individual's knowledge, skills, and capacity to use resources and tools, including financial products and services. Financial education leads to financial literacy. Financial empowerment includes financial education and financial literacy, but it is focused both on building the ability of individuals to manage money and use financial services and on providing access to products that work for them. Financially empowered individuals are informed and skilled; they know where to get help with their financial challenges. This sense of empowerment can build confidence that they can effectively use their financial knowledge, skills, and resources to reach their goals. We designed this toolkit to help you help your clients become financially empowered consumers. This financial empowerment toolkit is different from a financial education curriculum. With a curriculum, you are generally expected to work through most or all of the material in the order presented to achieve a specific set of objectives. This toolkit is a collection of important financial empowerment information and tools you can access as needed based on the client's goals. In other words, the aim is not to cover all of the information and tools in the toolkit - it is to identify and use the information and tools that are best suited to help your clients reach their goals.

**Otherhood** - Melanie Notkin 2014-02-25

More American women are childless than ever before—nearly half those of childbearing age don't have children. While our society often assumes these women are "childfree by choice," that's not always true. In reality, many of them expected to marry and have children, but it simply hasn't happened. Wrongly judged as picky or career-obsessed, they make up the "Otherhood," a growing demographic that has gone without definition or visibility until now. In *Otherhood*, author Melanie Notkin reveals her own story as well as the honest, poignant, humorous, and occasionally heartbreaking stories of women in her generation—women who expected love, marriage, and

parenthood, but instead found themselves facing a different reality. She addresses the reasons for this shift, the social and emotional impact it has on our collective culture, and how the "new normal" will affect our society in the decades to come. Notkin aims to reassure women that they are not alone and encourages them to find happiness and fulfillment no matter what the future holds. A groundbreaking exploration of an essential contemporary issue, *Otherhood* inspires thought-provoking conversation and gets at the heart of our cultural assumptions about single women and childlessness.

*The Smell of Rain on Dust* - Martín Prechtel 2015-04-14

Inspiring hope, solace, and courage in living through our losses, author Martín Prechtel, trained in the Tzutujil Maya shamanic tradition, shares profound insights on the relationship between grief and praise in our culture--how the inability that many of us have to grieve and weep properly for the dead is deeply linked with the inability to give praise for living. In modern society, grief is something that we usually experience in private, alone, and without the support of a community. Yet, as Prechtel says, "Grief expressed out loud for someone we have lost, or a country or home we have lost, is in itself the greatest praise we could ever give them. Grief is praise, because it is the natural way love honors what it misses." Prechtel explains that the unexpressed grief prevalent in our society today is the reason for many of the social, cultural, and individual maladies that we are currently experiencing. According to Prechtel, "When you have two centuries of people who have not properly grieved the things that they have lost, the grief shows up as ghosts that inhabit their grandchildren." These "ghosts," he says, can also

manifest as disease in the form of tumors, which the Maya refer to as "solidified tears," or in the form of behavioral issues and depression. He goes on to show how this collective, unexpressed energy is the long-held grief of our ancestors manifesting itself, and the work that can be done to liberate this energy so we can heal from the trauma of loss, war, and suffering. At base,
