A Law Book for the Diaspora - John Van Seters 2003

The foundation for all scholarly study in biblical law is the shared assumption that the Covenant Code, as contained in Exodus 20:23-22:33 is the oldest code of laws in the Hebrew Bible, and that all other laws are later revisions of that code. The author of this text strikes that foundation.

Sounding Sensory Profiles in the Ancient Near East - Annette Schellenberg 2019

"For several decades sociologists and cultural anthropologists have intensively researched the role of the senses in a variety of cultures, and their studies reveal how different cultures understand and evaluate the five or more senses in unique ways. In this collection of eighteen essays, biblical and ancient Near Eastern scholars apply the questions and methods raised by cultural anthropologists to Israel, Mesopotamia, and Egypt. Experts offer insights into the meaning of the senses in ancient texts and images, examining the classical senses (seeing, hearing, touching, smelling, tasting) as well as other senses (such as kinesthesia and the sense of balance) and sense-related issues (such as disgust, sensory imagination, and disabilities)."

Protest Or Propaganda - Aarnoud van der Deijl 2008

In this study, the war stories from the Old Testament book of Kings are compared to ten extrabiblical texts. Narratological analysis is applied to deconstruct the ideology of the respective literary compositions. The Old Testament ideology of war seems to be neither typically Israelite, as Gerhard von Rad put it, nor commonly Ancient Near Eastern, as Manfred Weippert thought it to be. This poses the question whether the reading experience of biblical war stories is so very different from, for instance, Assyrian royal inscriptions, both in terms of its literary value and its ideological bias. Narratological analysis turns out to be a strong tool for explaining the

similarities and distinctive features of the respective texts. Book jacket.

Thinking of Water in the Early Second Temple Period - Ehud Ben Zvi 2014-10-14

Swallowing the Scroll - Ellen F. Davis 1989-06-01

In this original study, Dr Davis argues that Ezekiel's place in the history of prophecy is overdue for reassessment. As against current views that Ezekiel represents the collapse of prophetism into priestly and scribal forms, she argues that something radically different in prophecy begins with Ezekiel. Ezekiel represents the creation of a new literary idiom for prophecy. He develops an archival speech form oriented less toward current events than to reshaping the tradition. He has taken a step backward from direct confrontation with an audience as the basic dynamic of communication, and has made the medium of prophecy not the person of the prophet but the text. Like the postexilic prophets, Ezekiel participated in the transformation of the social role of prophecy, and thereby saved himself from oblivion.

Priests and Cults in the Book of the Twelve - Lena-Sofia Tiemeyer 2016

This book discusses the depictions of the cult and its personnel in the twelve prophetic books commonly referred to as "The Book of the Twelve" or "The Minor Prophets." The articles in the volume explore the following questions: How did these prophetic writers envision the priests and the Levites? What did they think about the ritual aspects of ancient Israelite faith, including not only the official temple cult in Jerusalem but also cultic expressions outside the capital? What, in their views, characterized a faithful priest and what should the relationship be between his cultic performance and the ways in which he lived his life? How does the message of each individual author fit in with the wider Israelite traditions? Finally, who were these prophetic authors, in which historical contexts did they live and work, and what stylistic tools did they use to communicate their message?

Building Competencies for Organizational Success: Emerging Research and Opportunities - Harper, Donta S. 2021-06-25

Competencies historically have been vital for skill building, and competency-based approaches have demonstrated their impact on business performance and organizational effectiveness in today's marketplace. However, this has been discussed exclusively in chapters and books as separate propositions. It is essential to understand the two as linked together, building upon the other, merging individual and organizational perspectives of competencies development. *Building Competencies for Organizational Success: Emerging Research and Opportunities* presents a narrowly focused discussion of competency-based approaches and performance management and examines how these concepts align with business processes and procedures, management systems, and business objectives. It brings to light a new era of business performance management that complements the collaborative working of individuals and organizations to achieve business desires and addresses such topics as competent organization, knowledge management, and performance management systems. This book helps leaders, managers, executives, consultants, practitioners, academicians, researchers, and students with the understanding of how to utilize intellectual assets as well as how to develop a better future and outcomes for business and people management.

Jesus the Bridegroom - Phillip J. Long 2013-11-06

Did Jesus claim to be the "bridegroom"? If so, what did he mean by this claim? When Jesus says that the wedding

guests should not fast "while the bridegroom is with them" (Mark 2:19), he is claiming to be a bridegroom by intentionally alluding to a rich tradition from the Hebrew Bible. By eating and drinking with "tax collectors and other sinners," Jesus was inviting people to join him in celebrating the eschatological banquet. While there is no single text in the Hebrew Bible or the literature of the Second Temple Period which states the "messiah is like a bridegroom," the elements for such a claim are present in several texts in Isaiah, Jeremiah, and Hosea. By claiming that his ministry was an ongoing wedding celebration he signaled the end of the Exile and the restoration of Israel to her position as the Lord's beloved wife. This book argues that Jesus combined the tradition of an eschatological banquet with a marriage metaphor in order to describe the end of the Exile as a wedding banquet.

Divine Scapegoats - Andrei A. Orlov 2015-02-10

Explores the paradoxical symmetry between the divine and demonic in early Jewish mystical texts. *Divine Scapegoats* is a wide-ranging exploration of the parallels between the heavenly and the demonic in early Jewish apocalyptic accounts. In these materials, antagonists often mirror features of angelic figures, and even those of the Deity himself, an inverse correspondence that implies a belief that the demonic realm is maintained by imitating divine reality. Andrei A. Orlov examines the sacerdotal, messianic, and creational aspects of this mimetic imagery, focusing primarily on two texts from the Slavonic pseudepigrapha: 2 Enoch and the Apocalypse of Abraham. These two works are part of a very special cluster of Jewish apocalyptic texts that exhibit features not only of the apocalyptic worldview but also of the symbolic universe of early Jewish mysticism. The Yom Kippur ritual in the Apocalypse of Abraham, the divine light and darkness of 2 Enoch, and the similarity of mimetic motifs to later developments in the Zohar are of particular importance in Orlov's consideration.

Critical Care Study Guide - Gerard J. Criner 2010-06-27

Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up-to-date clinical information. An extensive knowledge of basic pathophysiology, as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential. Since our first edition 7 years ago, new information crucial to the care and understanding of the critically ill patient has rapidly accumulated. Because this knowledge base crosses many different disciplines, a comprehensive multidisciplinary approach presenting the information is essential, similar to the multidisciplinary approach that is used to care for the critically ill patient. We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention. To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses, we have substantially revised the

prior topics in the first edition with updated information. We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome, an expanded discussion of the physiology and operation of mechanical ventilation, obstetrical care in the ICU, neurosurgical emergencies, acute co- nary syndromes, cardiac arrhythmias, role of whole body rehabilitation in the ICU, ethical conduct of human research in the ICU, and nursing care of the ICU patient.

"In expounding the text, Baldwin produces evidence of balanced scholarship and a high degree of spiritual insight."

Messianism and the Septuagint - Johan Lust 2004

The essays reproduced in this volume have been selected on the basis of their common theme: Messianism in the Septuagint. The aim of the papers is to answer the following basic questions: Does the Septuagint enhance the messianic hope developed in the Masoretic text? Does it reflect a stage in the development of Israel's messianic expectations, perhaps preparing for Christianity and its Messiah? Questioning a theory accepted by many scholars, the author argues that the Septuagint as a whole does not exhibit an increased interest in royal messianism. While some texts offer literal translations, others display a weakening of the royal messianic character of the translated passages, or perhaps more correctly, several relevant passages in the Septuagint are witnesses to an earlier Hebrew version in which the messianic accents were less pronounced than in the final Masoretic text.

Identity and Ethics in the Book of Ruth - Peter H. W. Lau 2011

This study demonstrates the importance of including narrative ethics in a construction of Old Testament ethics, as a correction for the current state of marginalisation of narrative in this discipline. To this end, the concept of identity is used as a lens through which to understand and derive ethics. Since self-conception in ancient Israel is generally held to be predominantly collectivist in orientation, social identity theory is used to understand ancient Israelite

identity. Although collectivist sensitivities are important, a social identity approach also incorporates an understanding of individuality. This approach highlights the social emphases of a biblical text, and consequently assists in understanding a text's original ethical message. The book of Ruth is used as a test case, employing a social identity approach for understanding the narrative, but also to model the approach so that it can be implemented more widely in study of the Old Testament and narrative ethics. Each of the protagonists in the book of Ruth is examined in regards to their personal and social self-components. This study reveals that the narrative functions to shape or reinforce the identity of an ancient Israelite implied reader. Since behavioural norms are an aspect of identity, narrative also influences behaviour. A social identity approach can also highlight the social processes within a society. The social processes taking place in the two most commonly proposed provenances for the book of Ruth are discussed: the Monarchic and Persian Periods. It is found that the social emphases of the book of Ruth most closely correspond to the social undercurrents of the Persian Period. On this basis, a composition for the book of Ruth in the Restoration period is proposed.

Social Inequality in the World of the Text - Saul M. Olyan 2011-09-14

This volume consists of fifteen of the author's essays, including two that have never been published before. The essays date to the last decade and a half, and all reflect in some manner the author's ongoing interest in literary operations of classification and their social implications, particularly the production of distinctions which create social inequality in the world of the text, and have the potential to generate hierarchical social relationships in contexts where biblical texts might have had an impact on real people. In these essays, the author explores themes such as gender, sexuality, purity and pollution, sanctification, death and afterlife, foreignness, and disability with particular attention to the roles distinctions such as honored/shamed, feminine/masculine, mourning/rejoicing, unclean/clean, alien/native play in creating and perpetuating social differences in texts. Rites of status change such as circumcision, shaving, purification, burial or disinterment, sanctification and profanation of holiness are a focus of interest in a number of these essays, reflecting the author's on going interest in the textual representation of ritual. Most of the essays examine texts in their historical setting, but several also engage the early history of the

interpretation of biblical texts, including the phenomenon of inner biblical exegesis. The essays are divided into five sections: Rites and Social Status; Gender and Sexuality; Disability; Holiness, Purity, the Alien; Death, Burial, Afterlife and their Metaphorical Uses. The author introduces each of the sections, contextualizing each essay in his larger scholarly project, reflecting on its development and reception and, in some cases, responding to his critics.

Wisdom in Israel - Gerhard von Rad 1972

Weep, O Daughter of Zion - F. W. Dobbs-Allsopp 1993

The present study seeks to call attention to a literary genre whose existence in the Hebrew Bible, until recently, has gone largely unnoticed, or at least not fully appreciated. The city-lament is a well-known genre from ancient Mesopotamia. The biblical book of Lamentations has periodically been compared to some of the Mesopotamian city-laments. This study proposes that the resemblances (as well as the differences) between Lamentations and these Mesopotamian city-laments result because the texts are related at the level of genre.

The Formation of the Book of the Twelve - Barry Alan Jones 1995

In antiquity, the twelve books of the Minor Prophets were transmitted as a single volume known as the Book of the Twelve. This 1994 Duke dissertation uses manuscript discoveries from the Judean Desert and a fresh re-appraisal of the Greek translation of the Minor Prophets to argue for the existence of three versions of the Book of the Twelve in ancient Judaism. The differences between these versions illustrate the role that ancient biblical interpretation played in the shaping of the canonical prophetic literature. Among its other contributions, the book marshalls textual evidence for the integrity and chronological priority of the Hebrew text of the Septuagint Minor Prophets as compared to the Masoretic textual tradition. -- Back Cover.
