Positively Fifth Street - James McManus 2007-04-01

Rough sex, black magic, murder, and the science-and eros-of gambling meet in the ultimate book about Las Vegas James McManus was sent to Las Vegas by Harper's to cover the World Series of Poker in 2000, especially the mushrooming progress of women in the \$23 million event, and the murder of Ted Binion, the tournament's prodigal host, purportedly done in by a stripper and her boyfriend with a technique so outré it took a Manhattan pathologist to identify it. Whether a jury would convict the attractive young couple was another story altogether. McManus risks his entire Harper's advance in a long-shot attempt to play in the tournament himself. Only with actual table experience, he tells his skeptical wife, can he capture the hair-raising brand of poker that determines the world champion. The heart of the book is his deliciously suspenseful account of the tournament itself—the players, the hand-to-hand combat, and his own unlikely progress in it. Written in the tradition of *The Gambler* and *The Biggest Game in Town*, *Positively Fifth Street* is a high-stakes adventure, a penetrating study of America's card game, and a terrifying but often hilarious account of one man's effort to understand what Edward O. Wilson has called "Pleistocene exigencies"—the eros and logistics of our primary competitive instincts.

Teaching Crowds - John Dron 2014-09-01

Within the rapidly expanding field of educational technology, learners and educators must confront a seemingly overwhelming selection of tools designed to deliver and facilitate both online and blended learning. Many of these tools assume that learning is configured and delivered in closed contexts, through learning management systems (LMS). However, while traditional "classroom" learning is by no means obsolete, networked learning is in the ascendant. A foundational method in online and blended education, as well as the most common means of informal and self-directed learning, networked learning is rapidly becoming the dominant mode of teaching as well as learning. In *Teaching Crowds*, Dron and Anderson introduce a new model for understanding and exploiting the pedagogical potential of Web-based technologies, one that rests on connections — on networks and collectives — rather than on separations. Recognizing that online learning both demands and affords new models of teaching

and learning, the authors show how learners can engage with social media platforms to create an unbounded field of emergent connections. These connections empower learners, allowing them to draw from one another's expertise to formulate and fulfill their own educational goals. In an increasingly networked world, developing such skills will, they argue, better prepare students to become self-directed, lifelong learners.

Everywhere she goes, she sees something worth gawking at and Katie is afraid she's a little too normal to make a splash in the big city. Working for an ogre of a boss doesn't help. Then, seemingly out of the blue, Katie gets a job offer from Magic, Spells, and Illusions, Inc., a company that tricks of the trade to the magic community. For MSI, Katie's ordinariness is an asset. Lacking any bit of magic, she can easily spot a fake spell, catch hidden clauses in competitor's contracts, and detect magically disguised intruders. Suddenly, average Katie is very special indeed. She quickly learns that office politics are even more complicated when your new boss is a real ogre, and you have a crush on the sexy, shy, ultra powerful head of the R&D department, who is so busy fighting an evil competitor threatening to sell black magic on the street that he seems barely to notice Katie. The Hookup - Erin McCarthy 2018-05-08

Is there an equation for the perfect hookup? Turns out it's a lot more complicated than one plus one. . . . Sophie: Numbers are my comfort zone, which explains why my sex life is a big fat zero. Then again, if I'm smart enough to earn a PhD, why can't I calculate a way to get a guy into bed, just to see what all the fuss is about? With my prima donna sister, Bella, getting married in Maine, I figure her wedding is the perfect opportunity for my little experiment. And Cain Jordan seems hot enough—he's certainly drunk enough—to show me what I've been missing. Judging by the body of evidence, it's a lot. . . . Cain: Being stuck in the same town as my lying SOB twin brother, Christian—who

may or may not be the father of the son I'm not allowed to see—is a hell of a reason to drink myself silly after the lobster boat docks each day. Any port in a storm . . . But Sophie's different. She doesn't play around. And she's becoming a habit I don't want to break. Because the smartest woman I've ever met is also the sexiest—and the only one who makes me want to change. So what's a bride to do when she learns that Prince Charming is a cheating snake just a few days before her fairy-tale wedding? With my fiancé begging for another chance, the only way to save the wedding is to even things out with a little revenge sex—and local bartender Christian Jordan seems like the right man for the job. Christian: If gorgeous Bella Bigelow thinks sleeping with me will somehow lead to happily ever after, I'm not going to turn her down. The guy she wants to marry is a jerk, and her sister is fooling around with my estranged twin brother, Cain. So what's the problem—besides falling for a woman who doesn't know what she wants out of life? All I want to do is whisk her away from that church, take her to a cabin in the woods, and act out all our naughtiest fantasies. And I may just get the chance. . . .
