Performing the Nation - Kelly Askew 2002-07-28

Since its founding in 1964, the United Republic of Tanzania has used music, dance, and other cultural productions as ways of imagining and legitimizing the new nation. Focusing on the politics surrounding Swahili musical performance, Kelly Askew demonstrates the crucial role of popular culture in Tanzania's colonial and postcolonial history. As Askew shows, the genres of ngoma (traditional dance), dansi (urban jazz), and taarab (sung Swahili poetry) have played prominent parts in official articulations of "Tanzanian National Culture" over the years. Drawing on over a decade of research, including extensive experience as a taarab and dansi performer, Askew explores the intimate relations among musical practice, political ideology, and economic change. She reveals the processes and agents involved in the creation of Tanzania's national culture, from government elites to local musicians, poets, wedding participants, and traffic police. Throughout, Askew focuses on performance itself—musical and otherwise—as key to understanding both nation-building and interpersonal power dynamics.

Pan-Africanism or Pragmatism - G. Shivji 2008-05-15

The Pan-Africanist debate is back on the historical agenda. The stresses and strains in the union of Tanganyika and Zanzibar since its formation some forty years ago are not showing any sign of abating. Meanwhile, imperialism under new forms and labels continues to bedevil the continent in ever-aggressive, if subtle, ways. The political federation of East Africa, which was one of the main spin-offs of the Pan-Africanism of the nationalist period, is reappearing on the political stage, albeit in a distorted form of regional integration. It is in this context that the present study is situated. Backgrounding the major dramas of the union of Tanganyika and Zanzibar this book studies the personalities involved and their politics, and includes an account of the Dodoma CCM conference that toppled President Jumbe. It is also a detailed legal analysis of the union incorporating powerful new material.

Sukuma Labor Songs from Western Tanzania - Frank D. Gunderson 2010

This volume is an interpretive analysis of a collection of 335 song texts treated as primary historical sources. The collection highlights the cultural practices that link music with labor in Sukuma communities in northwestern Tanzania. These linkages are evident in the music of the elephant, snake, and porcupine hunting associations that flourished in the precolonial epoch, in the nineteenth-century regional and long-distance porter associations, and in the farmer associations that have proliferated since the beginning of the twentieth century. Acting primarily as an interpretive editor, the author collaborated with several Tanzanian scholars and translators towards fine-tuning the translation of these texts into English, and gathered testimonies in order to create succinct interpretive statements about the songs.

The work reflects Bell's brilliance as both artist and anatomist, and inspired Darwin's own *Expression of the Emotions* (1872), which he described Bell as one of the founders of the subject as a branch of science. Rap Music and Street Consciousness - Cheryl Lynette Keyes 2004

In this first musicological history of rap music, Cheryl L. Keyes traces the genre's history from its roots in West African bardic traditions, the Jamaican dancehall tradition, and African American vernacular expressions to its permeation of the cultural mainstream as a major tenet of hip-hop lifestyle and culture. Rap music, according to Keyes, is a forum that addresses the political and economic disfranchisement of black youths and other groups, fosters ethnic pride, and displays culture values and aesthetics. Blending popular culture with folklore and ethnomusicology, Keyes offers a nuanced portrait of the artists, themes, and varying styles reflective of urban life and street consciousness. Drawing on the music, lives, politics, and interests of figures including Afrika Bambaataa, the "godfather of hip-hop," and his Zulu Nation, George Clinton and Parliament-Funkadelic, Grandmaster Flash, Kool "DJ" Herc, MC Lyte, LL Cool J, De La Soul, Public Enemy, Ice-T, DJ Jazzy Jeff and the Fresh Prince, and The Last Poets, *Rap Music and Street Consciousness* challenges outsider views of the genre. The book also draws on ethnographic research done in New York, Los Angeles, Detroit and London, as well as interviews with performers, producers, directors, fans, and managers. Keyes's vivid and wide-ranging analysis covers the emergence and personas of female rappers and white rappers, the legal repercussions of technological advancements such as electronic mixing and digital sampling, the advent of rap music videos, and the existence of gangsta rap, Southern rap, acid rap, and dance-centered rap subgenres. Also considered are the crossover careers of rap artists in movies and television; rapper-turned-mogul phenomenons such as Queen Latifah; the multimedia empire of Sean "P. Diddy" Combs; the cataclysmic rise of Death Row Records; East Coast versus West Coast tensions; the deaths of Tupac Shakur and Christopher "The Notorious B.I.G." Wallace; and the unification efforts of the Nation of Islam and the Hip-Hop Nation.

The History and Traditions of the Pimbwe - Seel, Sarah-Jane 2014-10-07

The book presents the history, tradition and culture of a small tribe known as the Pimbwe in Tanzania. It describes the life of the Pimbwe from the pre-colonial era, through the arrival of missionaries, colonisation and post independence, right up to the present day. By reading this book, you will discover the origins of the Pimbwe, their traditions and their culture, which although not differing greatly from those of other African tribes, constitute an intriguing and unique story. In 2008 a group of researchers held a workshop in Mpanda to compile a collection of information and various narratives from Pimbwe elders who maintain and highly honour the Pimbwe communities culture and norms. The researchers subsequently used archival and other published historical materials to integrate Pimbwe narrative into known historical events. It should be remembered that this book was written with the aim of preserving in written form a history which has been passed down through generations and held in the memories of the elders. It is also hoped that this book will help new generations, particularly of the Pimbwe community, to understand and honour their culture and traditions in a world in which globalisation

John Magufuli - Ansbert Ngurumo 2019-06-07

While some western media nicknamed him "bulldozer," and one opposition politician in Tanzania called him "petty dictator," some critics have called him the "Trump of East Africa." His bullish and sadistic statements and actions have qualified him as a modern day dictator on the rise. It calls for an immediate local and international action in order to arrest the situation before it worsens and destabilises the whole of Eastern and Southern Africa. In a similar manner that Italy's Benito Mussolini, Germany's Adolf Hitler, Zaire's Mobutu Seseseko and Uganda's Idi Amin rose to power and used it to crash independent thought and crumble their countries, turning their citizens into subjects, John Pombe Magufuli, has made Tanzania infamous for the wrong reasons. In just three years, he has almost successfully attempted to replace democracy with a one-man rule, becoming an embodiment of brutality, nepotism, authoritarianism, grand corruption, diplomatic exclusion-ism, extrajudicial killings, abductions and arbitrary torture of civilians; turning East Africa's most peaceful and stable country into a police state and a "skunk of the world." His distorted approach to leadership and development, and his disregard of democracy, human rights and rule of law have turned him into a bully that seeks religious obedience from everyone, and he uses fear as his main tool of leadership. He terrorises the parliament, the opposition, the media, the diplomatic and international community, his own party, Muslims, journalists, activists, religious leaders, the business community, the judiciary and others - in a bid to establish himself as a leader that must be feared and never dared. This book exposes, through analysis, the root of this sadistic leadership. It digs deep into the dictator's behaviour and leadership style. It encourages everyone to stand firm and overcome threats imposed by this despot. It awakens governance institutions to do their noble and constitutional task, and never allow similar mistakes that paved the way for this situation to prevail. The good news is that the dictator is timid and cowardly. His use of fear as a leadership tool testifies to his cowardice and insecurity. Proactive action from local and international partners in development will help to stop the dictator from causing further damage - putting an end to his autocratic rule as he seeks to extend it. There is every indication that, given a chance, he would never leave power voluntarily. Civilised people do not have to wait for that to happen. The world does not need another Idi Amin in East Africa. There is no need for the world to watch East Africa's most peaceful nation sinking into irreparable, perpetual mess as it did with Rwanda prior to the 1994 genocide. With this book, I am stepping in to offer an informed analysis that may be part of the solution. I am laying a ground for a further follow up and research on the matter.
