

Borderland A Journey Through The History Of Ukraine Anna Reid

As recognized, adventure as well as experience roughly lesson, amusement, as skillfully as promise can be gotten by just checking out a ebook **Borderland A Journey Through The History Of Ukraine Anna Reid** as well as it is not directly done, you could take even more on the subject of this life, as regards the world.

We provide you this proper as capably as simple showing off to get those all. We give Borderland A Journey Through The History Of Ukraine Anna Reid and numerous ebook collections from fictions to scientific research in any way. in the middle of them is this Borderland A Journey Through The History Of Ukraine Anna Reid that can be your partner.

Black Square - Sophie Pinkham 2016-08-25
'When I first lived in Ukraine, I was preoccupied with its ideas of the past and future. Once Maidan started, there was nothing but the present; every hour held the possibility of transformation, and of terrible violence...' After leaving university in 2004, Sophie Pinkham moved to Siberia to

volunteer for the Red Cross, tackling the rising AIDS crisis by folding origami tulips. Over the next decade, she travelled and worked across the post-Soviet world, from Lake Baikal to the Black Sea, at a time when the young countries of the region were struggling to define their new identities. Black Square is a multidimensional portrait of a period of tumultuous change,

and of a generation that came of age after the fall of the USSR, only to see protestors shot on Kiev's main square, Crimea annexed by Russia, and a bitter war in eastern Ukraine. We meet a charismatic doctor fighting the AIDS epidemic even as he struggles with his own drug addiction; an iconoclastic artist with a penchant for public nudity; and a Russian-Jewish clarinetist agitating for Ukrainian liberation. With a deep knowledge of the literature and legends of the region, and a keen outsider's eye for the dark absurdities of post-Soviet society, *Black Square* delivers an indelible impression of a region, and a world, on the brink.

American Confluence -
Professor of History and Vice
Chair for Academic Personnel
Stephen Aron 2006

A bold new history of Missouri--
the region where the American
West begins.

*Russia in the Nineteenth
Century: Autocracy, Reform,
and Social Change, 1814-1914* -
A. I. U. Polunov 2015-02-12

This is a comprehensive

interpretive history of Russia from the defeat of Napoleon to the eve of World War I. It is the first such work by a post-Soviet Russian scholar to appear in English. Drawing on the latest Russian and Western historical scholarship, Alexander Polunov examines the decay of the two central institutions of tsarist Russia: serfdom and autocracy. Polunov explains how the major social groups - the gentry, merchants, petty townspeople, peasants, and ethnic minorities - reacted to the Great Reforms, and why, despite the emergence of a civil society and capitalist institutions, a reformist, evolutionary path did not become an alternative to the Revolution of 1917. He provides detailed portraits of many tsarist bureaucrats and political reformers, complete with quotations from their writings, to explain how the principle of autocracy, although significantly weakened by the Great Reforms in mid-century, reasserted itself under the last two emperors. Polunov stresses the relevance, for Russians in the post-Soviet period, of issues

that remained unresolved in the pre-Revolutionary period, such as the question of private property in land and the relationship between state regulation and private initiative in the economy.

Ukraine - Karl Schlögel

2018-08-15

Ukraine is a country caught in a political tug of war: looking East to Russia and West to the European Union, this pivotal nation has long been a pawn in a global ideological game. And since Russia's annexation of Crimea in March 2014 in response to the Ukrainian Euromaidan protests against oligarchical corruption, the game has become one of life and death. In *Ukraine: A Nation on the Borderland*, Karl Schlögel presents a picture of a country which lies on Europe's borderland and in Russia's shadow. In recent years, Ukraine has been faced, along with Western Europe, with the political conundrum resulting from Russia's actions and the ongoing Information War. As well as exploring this present-day confrontation, Schlögel

provides detailed, fascinating historical portraits of a panoply of Ukraine's major cities: Lviv, Odessa, Czernowitz, Kiev, Kharkov, Donetsk, Dnepropetrovsk, and Yalta—cities whose often troubled and war-torn histories are as varied as the nationalities and cultures which have made them what they are today, survivors with very particular identities and aspirations. Schlögel feels the pulse of life in these cities, analyzing their more recent pasts and their challenges for the future.

Ukraine and Russia - Paul D'Anieri 2019-10-31

D'Anieri explores the dynamics within Ukraine, between Ukraine and Russia, and between Russia and the West, that emerged with the collapse of the Soviet Union and eventually led to war in 2014. Proceeding chronologically, this book shows how Ukraine's separation from Russia in 1991, at the time called a 'civilized divorce', led to what many are now calling 'a new Cold War'. He argues that the conflict has

worsened because of three underlying factors - the security dilemma, the impact of democratization on geopolitics, and the incompatible goals of a post-Cold War Europe. Rather than a peaceful situation that was squandered, D'Anieri argues that these were deep-seated pre-existing disagreements that could not be bridged, with concerning implications for the resolution of the Ukraine conflict. The book also shows how this war fits into broader patterns of contemporary international conflict and should therefore appeal to researchers working on the Russia-Ukraine conflict, Russia's relations with the West, and conflict and geopolitics more generally.

Between East and West -

Anne Applebaum 2017-06-13

In the summer and fall of 1991, Anne Applebaum, Pulitzer Prize-winning author of *Gulag* and *Iron Curtain*, took a three month road trip through the freshly independent borderlands of Eastern Europe. She deftly weaves the harrowing history of the region

and captures the effects of political upheaval on a personal level. An extraordinary journey into the past and present of the lands east of Poland and west of Russia—an area defined throughout its history by colliding empires. Traveling from the former Soviet naval center of Kaliningrad on the Baltic to the Black Sea port of Odessa, Anne Applebaum encounters a rich range of competing cultures, religions, and national aspirations. In reasserting their heritage, the inhabitants of the borderlands attempt to build a future grounded in their fractured ancestral legacies. In the process, neighbors unearth old conflicts, devote themselves to recovering lost culture, and piece together competing legends to create a new tradition. Rich in surprising encounters and vivid characters, *Between East and West* brilliantly illuminates the soul of the borderlands and the shaping power of the past.

The Ukrainian Night - Marci Shore 2018-01-09

A vivid and intimate account of

the Ukrainian Revolution, the rare moment when the political became the existential. What is worth dying for? While the world watched the uprising on the Maidan as an episode in geopolitics, those in Ukraine during the extraordinary winter of 2013–14 lived the revolution as an existential transformation: the blurring of night and day, the loss of a sense of time, the sudden disappearance of fear, the imperative to make choices. In this lyrical and intimate book, Marci Shore evokes the human face of the Ukrainian Revolution. Grounded in the true stories of activists and soldiers, parents and children, Shore's book blends a narrative of suspenseful choices with a historian's reflections on what revolution is and what it means. She gently sets her portraits of individual revolutionaries against the past as they understand it—and the future as they hope to make it. In so doing, she provides a lesson about human solidarity in a world, our world, where the boundary between reality and

fiction is ever more effaced.

Ukraine - Serhy Yekelchuk
2020-09-03

Conventional wisdom dictates that Ukraine's political crises can be traced to the linguistic differences and divided political loyalties that have long fractured the country. However, this theory obscures the true significance of Ukraine's recent civic revolution and the conflict's crucial international dimension. The 2013-14 Ukrainian revolution presented authoritarian powers in Russia with both a democratic and a geopolitical challenge. In reality, political conflict in Ukraine is reflective of global discord, stemming from differing views on state power, civil society, and democracy. Ukraine's sudden prominence in American politics has compounded an already-widespread misunderstanding of what is actually happening in the nation. In the American media, Ukraine has come to signify an inherently corrupt place, rather than a real country struggling in the face of great challenges. Ukraine: What

Everyone Needs to Know® is an updated edition of Serhy Yekelchuk's 2015 publication, *The Conflict in Ukraine*. It addresses Ukraine's relations with the West, particularly the United States, from the perspective of Ukrainians. The book explains how independent Ukraine fell victim to crony capitalism, how its people rebelled twice in the last two decades in the name of democracy and against corruption, and why Russia reacted so aggressively to the strivings of Ukrainians. Additionally, it looks at what we know about alleged Ukrainian interference in the 2016 US presidential election, the factors behind the stunning electoral victory of the political novice Volodymyr Zelensky, and the ways in which the events leading to the impeachment proceedings against President Donald Trump have changed the Russia-Ukraine-US relationship. This volume is essential reading for anyone who wants to understand the forces that have shaped contemporary politics in

this increasingly important part of Europe, as well as the international background of the impeachment proceedings in the US.

The Paradox of Ukrainian Lviv - Tarik Cyril Amar
2015-11-17

The Paradox of Ukrainian Lviv reveals the local and transnational forces behind the twentieth-century transformation of Lviv into a Soviet and Ukrainian urban center. Lviv's twentieth-century history was marked by violence, population changes, and fundamental transformation ethnically, linguistically, and in terms of its residents' self-perception. Against this background, Tarik Cyril Amar explains a striking paradox: Soviet rule, which came to Lviv in ruthless Stalinist shape and lasted for half a century, left behind the most Ukrainian version of the city in history. In reconstructing this dramatically profound change, Amar illuminates the historical background in present-day identities and tensions within Ukraine.

Invisible China - Colin Legerton 2009

Explores the minority peoples on their skiffs and herders on the steppe. Closely observing daily life in these remote regions, they document the many lifestyles and adventures of the Chinese natives, among them the visit of an old Catholic fisherman at a church that has been without a priest for over 40 years.

North Country - Howard Frank Mosher 1998-06-08

In celebration of his first half century of life, Mosher set off on a journey, following America's northern border from coast to coast, to discover a harsh and beautiful region populated by some of the continent's most self-sufficient, independent-minded men and women.

Jews and Ukrainians in Russia's Literary Borderlands - Amelia Glaser 2012-02-22

Studies of Eastern European literature have largely confined themselves to a single language, culture, or nationality. In this highly original book, Glaser shows how

writers working in Russian, Ukrainian, and Yiddish during much of the nineteenth century and the early part of the twentieth century were in intense conversation with one another. The marketplace was both the literal locale at which members of these different societies and cultures interacted with one another and a rich subject for representation in their art. It is commonplace to note the influence of Gogol on Russian literature, but Glaser shows him to have been a profound influence on Ukrainian and Yiddish literature as well. And she shows how Gogol must be understood not only within the context of his adopted city of St. Petersburg but also that of his native Ukraine. As Ukrainian and Yiddish literatures developed over this period, they were shaped by their geographical and cultural position on the margins of the Russian Empire. As distinctive as these writers may seem from one another, they are further illuminated by an appreciation of their common relationship to Russia.

Glaser's book paints a far more complicated portrait than scholars have traditionally allowed of Jewish (particularly Yiddish) literature in the context of Eastern European and Russian culture.

Border - Kapka Kassabova

2017-09-05

"Remarkable: a book about borders that makes the reader feel sumptuously free." —Peter Pomerantsev In this extraordinary work of narrative reportage, Kapka Kassabova returns to Bulgaria, from where she emigrated as a girl twenty-five years previously, to explore the border it shares with Turkey and Greece. When she was a child, the border zone was rumored to be an easier crossing point into the West than the Berlin Wall, and it swarmed with soldiers and spies. On holidays in the "Red Riviera" on the Black Sea, she remembers playing on the beach only miles from a bristling electrified fence whose barbs pointed inward toward the enemy: the citizens of the totalitarian regime. Kassabova discovers a place that has been

shaped by successive forces of history: the Soviet and Ottoman empires, and, older still, myth and legend. Her exquisite portraits of fire walkers, smugglers, treasure hunters, botanists, and border guards populate the book. There are also the ragged men and women who have walked across Turkey from Syria and Iraq. But there seem to be nonhuman forces at work here too: This densely forested landscape is rich with curative springs and Thracian tombs, and the tug of the ancient world, of circular time and animism, is never far off. *Border* is a scintillating, immersive travel narrative that is also a shadow history of the Cold War, a sideways look at the migration crisis troubling Europe, and a deep, witchy descent into interior and exterior geographies.

The Enemy at His Pleasure - S. Ansky 2004-04

"In daily accounts, Ansky details his struggles: to raise funds; to lobby and bribe at the czar's court; and to procure and transport food, medicine, and

money to the ravaged Jewish towns, which, in the course of the war, were conquered and reconquered by Cossacks, Germans, Polish mercenaries, and Russian revolutionaries. Ansky depicts scenes of devastation - convoys of refugees, towns looted and burned to the ground, villagers taken hostage and raped, prey to all comers. Speaking to maids and ministers, farmers and recruits, doctors and profiteers, Ansky hears and sees it all, as the czar's army disintegrates and the winds of revolution sweep across the land."--BOOK JACKET.

Hip Hop Ukraine - Adriana N. Helbig 2014-05-07

In Hip Hop Ukraine, we enter a world of urban music and dance competitions, hip hop parties, and recording studio culture to explore unique sites of interracial encounters among African students, African immigrants, and local populations in eastern Ukraine. Adriana N. Helbig combines ethnographic research with music, media, and policy analysis to examine how

localized forms of hip hop create social and political spaces where an interracial youth culture can speak to issues of human rights and racial equality. She maps the complex trajectories of musical influence—African, Soviet, American—to show how hip hop has become a site of social protest in post-socialist society and a vehicle for social change. A History of Ukraine - Oleksandr Palii 2021

The Shaman's Coat - Anna Reid 2009-05-26

The fascinating history of an unknown people A vivid mixture of history and reporting, The Shaman's Coat tells the story of some of the world's least-known peoples—the indigenous tribes of Siberia. Russia's equivalent to the Native Americans or Australian Aborigines, they divide into two dozen different and ancient nationalities—among them Buryat, Tuvans, Sakha, and Chukchi. Though they number more than one million and have begun to demand land rights and political autonomy since

the fall of communism, most Westerners are not even aware that they exist. Journalist and historian Anna Reid traveled the length and breadth of Siberia-one-twelfth of the world's land surface, larger than the United States and Western Europe combined-to tell the story of its people. Drawing on sources ranging from folktales to KGB reports, and on interviews with shamans and Buddhist monks, reindeer herders and whale hunters, camp survivors and Party apparatchiks, *The Shaman's Coat* travels through four hundred years of history, from the Cossacks' campaigns against the last of the Tatar khans to native rights activists against oil development. The result is a moving group portrait of extraordinary and threatened peoples, and a unique and intrepid travel chronicle.

Leningrad - Anna Reid
2011-09-06

On September 8, 1941, eleven weeks after Hitler launched Operation Barbarossa, his brutal surprise attack on the

Soviet Union, Leningrad was surrounded. The siege was not lifted for two and a half years, by which time some three quarters of a million Leningraders had died of starvation. Anna Reid's *Leningrad* is a gripping, authoritative narrative history of this dramatic moment in the twentieth century, interwoven with indelible personal accounts of daily siege life drawn from diarists on both sides. They reveal the Nazis' deliberate decision to starve Leningrad into surrender and Hitler's messianic miscalculation, the incompetence and cruelty of the Soviet war leadership, the horrors experienced by soldiers on the front lines, and, above all, the terrible details of life in the blockaded city: the relentless search for food and water; the withering of emotions and family ties; looting, murder, and cannibalism- and at the same time, extraordinary bravery and self-sacrifice. Stripping away decades of Soviet propaganda, and drawing on newly available diaries and government

records, Leningrad also tackles a raft of unanswered questions: Was the size of the death toll as much the fault of Stalin as of Hitler? Why didn't the Germans capture the city? Why didn't it collapse into anarchy? What decided who lived and who died? Impressive in its originality and literary style, Leningrad gives voice to the dead and will rival Anthony Beevor's classic *Stalingrad* in its impact.

The Ukrainians - Andrew Wilson 2002-01-01

In this comprehensive, up-to-date guide to the modern Ukraine, Wilson concentrates on the country's complex relationship to Russia and its path to independence in 1991, including the economic collapse under its first president and the attempts at recovery under his successor. 36 b&w, 16 color illustrations.

The Marches - Rory Stewart 2016

'This is travel writing at its best.' Katherine Norbury, *Observer* An *Observer* Book of the Year His father Brian taught Rory Stewart how to walk, and

walked with him on journeys from Iran to Malaysia. Now they have chosen to do their final walk together along 'the Marches' - the frontier that divides their two countries, Scotland and England. Brian, a ninety-year-old former colonial official and intelligence officer, arrives in Newcastle from Scotland dressed in tartan and carrying a draft of his new book *You Know More Chinese Than You Think*. Rory comes from his home in the Lake District, carrying a Punjabi fighting stick which he used when walking across Afghanistan. On their six-hundred-mile, thirty-day journey - with Rory on foot, and his father 'ambushing' him by car - the pair relive Scottish dances, reflect on Burmese honey-bears, and on the loss of human presence in the British landscape. On mountain ridges and in housing estates they uncover a forgotten country crushed between England and Scotland: the Middleland. They cross upland valleys which once held forgotten peoples and languages - still preserved in sixth-century lullabies and

sixteenth-century ballads. The surreal tragedy of Hadrian's Wall forces them to re-evaluate their own experiences in the Iraq and Vietnam wars. The wild places of the uplands reveal abandoned monasteries, border castles, secret military test sites and newly created wetlands. They discover unsettling modern lives, lodged in an ancient land. Their odyssey develops into a history of nationhood, an anatomy of the landscape, a chronicle of contemporary Britain and an exuberant encounter between a father and a son. And as the journey deepens, and the end approaches, Brian and Rory fight to match, step by step, modern voices, nationalisms and contemporary settlements to the natural beauty of the Marches, and a fierce absorption in tradition in their own unconventional lives.

Borderland - Anna Reid
2023-02-07

"A beautifully written evocation of Ukraine's brutal past and its shaky efforts to construct a better future."—Financial Times
Borderland tells the story of

Ukraine. A thousand years ago it was the center of the first great Slav civilization, Kievan Rus. In 1240, the Mongols invaded from the east, and for the next seven centuries, Ukraine was split between warring neighbors: Lithuanians, Poles, Russians, Austrians, and Tatars. Again and again, borderland turned into battlefield: during the Cossack risings of the seventeenth century, Russia's wars with Sweden in the eighteenth, the Civil War of 1918-1920, and under Nazi occupation. Ukraine finally won independence in 1991, with the collapse of the Soviet Union. Bigger than France and as populous as Britain, it has the potential to become one of the most powerful states in Europe. In this finely written and penetrating book, Anna Reid combines research and her own experiences to chart Ukraine's tragic past. Talking to peasants and politicians, rabbis and racketeers, dissidents and paramilitaries, survivors of Stalin's famine and of Nazi labor camps, she reveals the

layers of myth and propaganda that wrap this divided land. From the Polish churches of Lviv to the coal mines of the Russian-speaking Donbass, from the Galician shtetlech to the Tatar shantytowns of Crimea, the book explores Ukraine's struggle to build itself a national identity, and identity that faces up to a bloody past, and embraces all the peoples within its borders.

Texas Blood - Roger D. Hodge
2017-10-10

In the tradition of Ian Frazier's Great Plains, and as vivid as the work of Cormac McCarthy, an intoxicating, singularly illuminating history of the Texas borderlands from their settlement through seven generations of Roger D. Hodge's ranching family. What brought the author's family to Texas? What is it about Texas that for centuries has exerted a powerful allure for adventurers and scoundrels, dreamers and desperate souls, outlaws and outliers? In search of answers, Hodge travels across his home state--which he loves and hates in shifting measure--tracing the

wanderings of his ancestors into forgotten histories along vanished roads. Here is an unsentimental, keenly insightful attempt to grapple with all that makes Texas so magical, punishing, and polarizing. Here is a spellbindingly evocative portrait of the borderlands--with its brutal history of colonization, conquest, and genocide; where stories of death and drugs and desperation play out daily. And here is a contemplation of what it means that the ranching industry that has sustained families like Hodge's for almost two centuries is quickly fading away, taking with it a part of our larger, deep-rooted cultural inheritance. A wholly original fusion of memoir and history--as piercing as it is elegiac--Texas Blood is a triumph.

Ukraine's Revolt, Russia's Revenge - Christopher M. Smith
2022-03-15

"This firsthand account of contemporary history is key to understanding Russia's latest assault on its neighbor."—USA Today
An eyewitness account by a U.S. diplomat of Russia's brazen attempt to undo the

democratic revolution in Ukraine Told from the perspective of a U.S. diplomat in Kyiv, this book is the true story of Ukraine's anti-corruption revolution in 2013—14, Russia's intervention and invasion of that nation, and the limited role played by the United States. It puts into a readable narrative the previously unpublished reporting by seasoned U.S. diplomatic and military professionals, a wealth of information on Ukrainian high-level and street-level politics, a broad analysis of the international context, and vivid descriptions of people and places in Ukraine during the EuroMaidan Revolution. The book also counters Russia's disinformation narratives about the revolution and America's role in it. While focusing on a single country during a dramatic three-year period, the book's universal themes—among them, truth versus lies, democracy versus autocracy—possess a broader urgency for our times. That urgency burns particularly hot

for the United States and all other countries that are the targets of Russia's cyber warfare and other forms of political skullduggery. From his posting in U.S. Embassy Kyiv (2012–14), the author observed and reported first-hand on the EuroMaidan Revolution that wrested power from corrupt pro-Kremlin Ukrainian autocrat Viktor Yanukovich. The book also details Russia's attempt to abort the Ukrainian revolution through threats, economic pressure, lies, and intimidation. When all of that failed, the Kremlin exacted revenge by annexing Ukraine's territory of Crimea and fomenting and sustaining a hybrid war in eastern Ukraine that has killed more than 13,000 people and continues to this day. Ukraine's Revolt, Russia's Revenge is based on the author's own observations and the multitude of reports of his Embassy colleagues who were eyewitnesses to a crucial event in contemporary history.

Midnight's Borders - Suchitra Vijayan 2021-05-25

A Booklist "Top 10 History Book

of 2022" The first true people's history of modern India, told through a seven-year, 9,000-mile journey along its many contested borders Sharing borders with six countries and spanning a geography that extends from Pakistan to Myanmar, India is the world's largest democracy and second most populous country. It is also the site of the world's biggest crisis of statelessness, as it strips citizenship from hundreds of thousands of its people--especially those living in disputed border regions. Suchitra Vijayan traveled India's vast land border to explore how these populations live, and document how even places just few miles apart can feel like entirely different countries. In this stunning work of narrative reportage--featuring over 40 original photographs--we hear from those whose stories are never told: from children playing a cricket match in no-man's-land, to an elderly man living in complete darkness after sealing off his home from the floodlit border; from a woman who

fought to keep a military bunker off of her land, to those living abroad who can no longer find their family history in India. With profound empathy and a novelistic eye for detail, Vijayan brings us face to face with the brutal legacy of colonialism, state violence, and government corruption. The result is a gripping, urgent dispatch from a modern India in crisis, and the full and vivid portrait of the country we've long been missing.

Borderland - Anna Reid
2015-04-30

A classic and vivid history of Ukraine 'A fascinating and often violent odyssey, spanning more than 1,000 years of conflict and culture' Independent on Sunday Centre of the first great Slav civilisation in the tenth century, then divided between warring neighbours for a millennium, Ukraine finally won independence with the collapse of the Soviet Union. Tiring of their own corrupt governments, Ukrainians have since mounted two popular revolutions, taking to the streets to demand fair elections and closer ties to

Europe. In the spring of 2014, Russia responded by invading Crimea and sponsoring a civil war in the Russian-speaking Donbass. Threatened by Moscow, misunderstood in the West, Ukraine hangs once more in the balance. Speaking to pro-democracy activists and pro-Russia militiamen, peasants and miners, survivors of Hitler's Holocaust and Stalin's famine, Anna Reid combines history and travel-writing to unpick the past and present of this bloody and complex borderland.

'Beautifully written and lovingly researched' Daily Telegraph

'Gripping history' The Times

God Save Texas - Lawrence Wright 2019-03-05

A New York Times Notable Book
National Book Critics Circle Award Finalist
An NPR Best Book of the Year
God Save Texas is a journey through the most controversial state in America. It is a red state, but the cities are blue and among the most diverse in the nation. Oil is still king, but Texas now leads California in technology exports. Low taxes and minimal regulation have produced

extraordinary growth, but also striking income disparities. Texas looks a lot like the America that Donald Trump wants to create. Bringing together the historical and the contemporary, the political and the personal, Texas native Lawrence Wright gives us a colorful, wide-ranging portrait of a state that not only reflects our country as it is, but as it may become—and shows how the battle for Texas's soul encompasses us all.

In Wartime - Tim Judah

2016-10-11

From one of the finest journalists of our time comes a definitive, boots-on-the-ground dispatch from the front lines of the conflict in Ukraine.

“Essential for anyone who wants to understand events in Ukraine and what they portend for the West.”—The Wall Street Journal
Ever since Ukraine's violent 2014 revolution, followed by Russia's annexation of Crimea, the country has been at war. Misinformation reigns, more than two million people have been displaced, and Ukrainians fight one

another on a second front—the crucial war against corruption. With *In Wartime*, Tim Judah lays bare the events that have turned neighbors against one another and mired Europe's second-largest country in a conflict seemingly without end. In Lviv, Ukraine's western cultural capital, mothers tend the graves of sons killed on the other side of the country. On the Maidan, the square where the protests that deposed President Yanukovich began, pamphleteers, recruiters, buskers, and mascots compete for attention. In Donetsk, civilians who cheered Russia's President Vladimir Putin find their hopes crushed as they realize they have been trapped in the twilight zone of a frozen conflict. Judah talks to everyone from politicians to poets, pensioners, and historians. Listening to their clashing explanations, he interweaves their stories to create a sweeping, tragic portrait of a country fighting a war of independence from Russia—twenty-five years after the collapse of the USSR.

Borderland - Anna Reid

2022-09-29

FULLY UPDATED 'A fascinating and often violent odyssey, spanning more than 1,000 years of conflict and culture' INDEPENDENT Flat, fertile, and fatally tempting to invaders, for centuries Ukraine was fought over by more powerful neighbours. Though its modern national movement dates back to the early nineteenth century, it did not win real independence until 1991, with the collapse of the Soviet Union. Since then, Ukrainians have proved themselves one of the world's most remarkable nations. In 2014 mass demonstrations forced out a corrupt pro-Russian president. Russia responded by invading, first seizing Crimea and the eastern Donbass, and then in February 2022 marching on Kyiv. With Western help, Ukraine is fighting back. But in what form it will emerge from the war - the bloodiest in Europe since 1945 - remains to be seen. For this fourth edition of her classic history, Anna Reid returns to the scene. Talking to

refugees, politicians and victims of widespread Russian war crimes, she adds a new chapter to the complex biography of a country on the frontline of the conflict between democracy and dictatorship.

On Tyranny - Timothy Snyder
2017-02-28

#1 NEW YORK TIMES

BESTSELLER • A “bracing”

(Vox) guide for surviving and resisting America’s turn towards authoritarianism, from “a rising public intellectual unafraid to make bold connections between past and present” (The New York Times)

“Timothy Snyder reasons with unparalleled clarity, throwing the past and future into sharp relief. He has written the rare kind of book that can be read in one sitting but will keep you coming back to help regain your bearings.”—Masha Gessen

The Founding Fathers tried to protect us from the threat they knew, the tyranny that overcame ancient democracy. Today, our political order faces new threats, not unlike the totalitarianism of the twentieth century. We are no wiser than

the Europeans who saw democracy yield to fascism, Nazism, or communism. Our one advantage is that we might learn from their experience. On Tyranny is a call to arms and a guide to resistance, with invaluable ideas for how we can preserve our freedoms in the uncertain years to come.

Lost Kingdom - Serhii Plokhy
2018-09-06

In 2014, Russia annexed Crimea and attempted to seize a portion of Ukraine. While the world watched in outrage, this violation of national sovereignty was in fact only the latest iteration of a centuries-long effort to expand Russian boundaries and create a pan-Russian nation. In *Lost Kingdom*, award-winning historian Serhii Plokhy argues that we can only understand the merging of imperialism and nationalism in Russia today by delving into its history.

Spanning over two thousand years, from the end of the Mongol rule to the present day, Plokhy shows how leaders from Ivan the Terrible to Joseph Stalin to Vladimir Putin have

exploited existing forms of identity, warfare and territorial expansion to achieve imperial supremacy. A strikingly ambitious book, *Lost Kingdoms* chronicles the long and belligerent history of Russia's empire and nation-building quest.

The Amur River - Colin

Thubron 2021-09-21

"A gripping read with fascinating political insight."

(Sunday Times, London)

"Elegant, elegiac and poignant...Thubron is an intrepid traveler, a shrewd observer and a lyrical guide... to the river, much of it along the border between these two powers at a time of rapid and tense reconfiguration of global geopolitics." (Washington Post)

The most admired travel writer of our time—author of *Shadow of the Silk Road* and *To a Mountain in Tibet*—recounts an eye-opening, often perilous journey along a little known Far East Asian river that for over a thousand miles forms the highly contested border between Russia and China. The Amur River is almost unknown. Yet it

is the tenth longest river in the world, rising in the Mongolian mountains and flowing through Siberia to the Pacific. For 1,100 miles it forms the tense border between Russia and China. Simmering with the memory of land-grabs and unequal treaties, this is the most densely fortified frontier on earth. In his eightieth year, Colin Thubron takes a dramatic journey from the Amur's secret source to its giant mouth, covering almost 3,000 miles. Harassed by injury and by arrest from the local police, he makes his way along both the Russian and Chinese shores, starting out by Mongolian horse, then hitchhiking, sailing on poacher's sloops or travelling the Trans-Siberian Express. Having revived his Russian and Mandarin, he talks to everyone he meets, from Chinese traders to Russian fishermen, from monks to indigenous peoples. By the time he reaches the river's desolate end, where Russia's nineteenth-century imperial dream petered out, a whole, pivotal world has come alive. The Amur River is a

shining masterpiece by the acknowledged laureate of travel writing, an urgent lesson in history and the culmination of an astonishing career.

The Gates of Europe - Serhii Plokhy 2017-05-30

A New York Times bestseller, this definitive history of Ukraine is “an exemplary account of Europe’s least-known large country” (Wall Street Journal). As Ukraine is embroiled in an ongoing struggle with Russia to preserve its territorial integrity and political independence, celebrated historian Serhii Plokhy explains that today’s crisis is a case of history repeating itself: the Ukrainian conflict is only the latest in a long history of turmoil over Ukraine’s sovereignty. Situated between Central Europe, Russia, and the Middle East, Ukraine has been shaped by empires that exploited the nation as a strategic gateway between East and West—from the Romans and Ottomans to the Third Reich and the Soviet Union. In *The Gates of Europe*, Plokhy examines Ukraine’s search for its identity through

the lives of major Ukrainian historical figures, from its heroes to its conquerors. This revised edition includes new material that brings this definitive history up to the present. As Ukraine once again finds itself at the center of global attention, Plokhy brings its history to vivid life as he connects the nation’s past with its present and future.

The Fault Line - Paolo Rumiz 2015-03-03

An award-winning writer travels the eastern front of Europe, where the push/pull between old empires and new possibilities has never been more evident. Paolo Rumiz traces the path that has twice cut Europe in two—first by the Iron Curtain and then by the artificial scaffolding of the EU—moving through vibrant cities and abandoned villages, some places still gloomy under the ghost of these imposing borders, some that have sought to erase all memory of it and jump with both feet into the West (if only the West would have them). In *The Fault Line*, he is a sublime and lively guide

through these unfamiliar landscapes, piecing together an atlas that has been erased by modern states, delighting in the discovery of communities that were once engulfed by geopolitics then all but forgotten, until now. The farther south he goes, the more he feels he is traveling not along some abandoned Eastern frontier, but right in the middle of things: Mitteleuropa wasn't to be found in Viennese cafés but much farther east, beyond even Budapest and Warsaw. As in Ukraine, these remain places in flux, where the political and cultural values of the East and West have stared each other down for centuries. Rumiz gives a human face not just to what the Cold War left behind but to the ancient ties of empire and ethnicity that are still at the root of modern politics in flash-point areas such as this.

Mirrorlands - Ed Pulford 2019

Mirrorlands is a journey through space and time to the meeting points of Russia and China, the world's largest and most populous countries. Charting an unconventional course

southeast through Siberia, Inner Mongolia, the Russian Far East and Manchuria, anthropologist and linguist Ed Pulford sketches a rich series of encounters with people and places unknown not only to outsiders, but also to most residents of the capital cities where his journey begins and ends. What Russia and China have in common goes much deeper than their status as authoritarian post-socialist states or perceived menaces to Western hegemony. Their shared history can only fully be appreciated from an intimately local, borderland perspective. Along remote roads, rivers and railways, in cosmopolitan cities and indigenous villages of the northeast Asian frontiers, Pulford maps the strikingly similar ways in which these two vast empires have ruled their Eurasian domains, before, during and after socialism. With great cultural nuance, Mirrorlands thoughtfully evokes the diverse daily interactions between residents of the Russia-China borderlands, and their resulting visions of

"Europe" and "Asia." It is a vivid portrait of centuries of cross-border encounter, mimicry and conflict, key to understanding the global place and identity of two leading world powers.

Black Dragon River - Dominic Ziegler 2016-11-08

"As the book's subtitle indicates, Mr. Ziegler uses one of the world's great rivers as a vehicle to pursue this story—and what a vehicle it is. . . [He] writes beautifully, and with the fervor of a naturalist." —The Wall Street Journal "The writing is superb . . . a true labour of love, Black Dragon River is a triumph." —The Spectator Black Dragon River is a personal journey down one of Asia's great rivers that reveals the region's essential history and culture. The world's ninth largest river, the Amur serves as a large part of the border between Russia and China. As a crossroads for the great empires of Asia, this area offers journalist Dominic Ziegler a lens with which to examine the societies at Europe's only borderland with east Asia. He follows a journey from the

river's top to bottom, and weaves the history, ecology and peoples to show a region obsessed with the past—and to show how this region holds a key to the complex and critical relationship between Russia and China today. One of Asia's mightiest rivers, the Amur is also the most elusive. The terrain it crosses is legendarily difficult to traverse. Near the river's source, Ziegler travels on horseback from the Mongolian steppe into the taiga, and later he is forced by the river's impassability to take the Trans-Siberian Railway through the four-hundred-mile valley of water meadows inland. As he voyages deeper into the Amur wilderness, Ziegler also journeys into the history of the peoples and cultures the river's path has transformed. The known history of the river begins with Genghis Khan and the rise of the Mongolian empire a millennium ago, and the story of the region has been one of aggression and conquest ever since. The modern history of the river is the story of Russia's push

across the Eurasian landmass to China. For China, the Amur is a symbol of national humiliation and Western imperial land seizure; to Russia it is a symbol of national regeneration, its New World dreams and eastern prospects. The quest to take the Amur was to be Russia's route to greatness, replacing an oppressive European identity with a vibrant one that faced the Pacific. Russia launched a grab in 1854 and took from China a chunk of territory equal in size nearly to France and Germany combined. Later, the region was the site for atrocities meted out on the Russian far east in the twentieth century during the Russian civil war and under Stalin. The long shared history on the Amur has conditioned the way China and Russia behave toward each other—and toward the outside world. To understand Putin's imperial dreams, we must comprehend Russia's relationship to its far east and how it still shapes the Russian mind. Not only is the Amur a key to Putinism, its history is also embedded in an

ongoing clash of empires with the West.

Black Earth - Jens Mühling
2019-10-19

An in-depth exploration of Ukraine through encounters with the many different people who live there. "Will someone pay for the spilled blood? No. Nobody." Mikhail Bulgakov composed this ominous and prophetic phrase in Kiev amid the turmoil of the Russian civil war. Since then, Ukrainian borders have shifted constantly, and its people have suffered numerous military foreign interventions. Ukraine has only existed as an independent state since 1991, and what exactly it was before then is controversial among its people as well as its European neighbors. In *Black Earth: A Journey through the Ukraine*, journalist and celebrated travel writer Jens Mühling takes readers across the country amid the ousting of former president Viktor Yanukovich and the Russian annexation of Crimea. Mühling delves deep into daily life in Ukraine, narrating his encounters with

Ukrainian nationalists and old communists, Crimean Tatars and Cossacks, smugglers, and soldiers. *Black Earth* connects all these stories to convey an unconventional and unfiltered view of Ukraine, a country at the crossroads of Europe and Asia and the center of countless conflicts. In this paperback edition, a new preface is included that takes into account recent developments up to the 2022 war between Russia and Ukraine.

Borderlands - Pradeep Damodaran 2017-02-25

For most residents of India's bustling metros and big towns, nationality and citizenship are privileges that are often taken for granted. The country's periphery, however, is dotted with sleepy towns and desolate villages whose people, simply by having more in common with citizens of neighbouring nations than with their own, have to prove their Indian identity every day. It is these specks on the country's map that Pradeep Damodaran rediscovers as he travels across India's borders for a little more

than a year, experiencing life in far-flung areas that rarely feature in mainstream conversations. In *Borderlands*, he recounts his encounters with the war-weary fishermen of Dhanushkodi at the southernmost tip of Tamil Nadu, who live in fear both of the Indian Coast Guard and the Sri Lankan navy; farmers in Hussainiwala, a village on Punjab's border with Pakistan, who are unwilling to build concrete houses for fear of them being destroyed in the ever looming war; Tamil traders of Moreh, a town straddling the Manipur-Myanmar border, who pay bribes to at least ten different militant organizations so they can safely conduct their business; and ex-servicemen in Campbell Bay who were resettled there three generations ago and have long been forgotten by the mainland. From Minicoy in Lakshadweep to Taki in West Bengal, Tawang in Arunachal Pradesh to Raxaul in Bihar, Damodaran's compelling narrative reinforces the idea that, in India, a land of

contrasts and contradictions, beauty and diversity, conflict comes in many forms.

Frontline Ukraine - Richard Sakwa 2014-12-18

The unfolding crisis in Ukraine has brought the world to the brink of a new Cold War. As Russia and Ukraine tussle for Crimea and the eastern regions, relations between Putin and the West have reached an all-time low. How did we get here? Richard Sakwa here unpicks the context of conflicted Ukrainian identity and of Russo-Ukrainian relations and traces the path to the recent disturbances through the events which have forced Ukraine, a country internally divided between East and West, to choose between closer union with Europe or its historic ties with Russia. In providing the first full account of the ongoing crisis, Sakwa analyses the origins and significance of the Euromaidan Protests, examines the controversial Russian military intervention and annexation of Crimea, reveals the extent of the catastrophe of the MH17

disaster and looks at possible ways forward following the October 2014 parliamentary elections. In doing so, he explains the origins, developments and global significance of the internal and external battle for Ukraine. With all eyes focused on the region, Sakwa unravels the myths and misunderstandings of the situation, providing an essential and highly readable account of the struggle for Europe's contested borderlands.

Bad Mexicans: Race, Empire, and Revolution in the Borderlands - Kelly Lytle

Hernández 2022-05-10

Longlisted for the 2022 National Book Award for Nonfiction One of The New Yorker's Best Books of 2022 A Kirkus Best World History Book of 2022 "Rebel historian" Kelly Lytle Hernández reframes our understanding of U.S. history in this groundbreaking narrative of revolution in the borderlands. Bad Mexicans tells the dramatic story of the magonistas, the migrant rebels who sparked the 1910 Mexican Revolution from the United States. Led by a

brilliant but ill-tempered radical named Ricardo Flores Magón, the magonistas were a motley band of journalists, miners, migrant workers, and more, who organized thousands of Mexican workers—and American dissidents—to their cause. Determined to oust Mexico's dictator, Porfirio Díaz, who encouraged the plunder of his country by U.S. imperialists such as Guggenheim and Rockefeller, the rebels had to outrun and outsmart the swarm of U. S. authorities vested in protecting the Diaz regime. The U.S. Departments of War, State, Treasury, and Justice as well as police, sheriffs, and spies, hunted the magonistas across the country. Capturing Ricardo Flores Magón was one of the FBI's first cases. But the magonistas persevered. They lived in hiding, wrote in secret code, and launched armed raids into Mexico until they ignited the world's first social revolution of the twentieth century. Taking readers to the frontlines of the magonista uprising and the counterinsurgency campaign

that failed to stop them, Kelly Lytle Hernández puts the magonista revolt at the heart of U.S. history. Long ignored by textbooks, the magonistas threatened to undo the rise of Anglo-American power, on both sides of the border, and inspired a revolution that gave birth to the Mexican-American population, making the magonistas' story integral to modern American life.

Why Angels Fall - Victoria Clark 2011-11-21

Compelling, powerful, magnificent' THE TIMES In revealing encounters with monks, nuns, bishops and archbishops, in monasteries ancient and modern Victoria Clark measures the depth and width of the gulf now separating Europe's Orthodox East from the Catholic and Protestant West. Many of the differences in outlook, priorities and even values can be traced back to the 1054 schism between the churches of Rome and Constantinople which created Europe's most durable fault-line. Travelling from Mount Athos to Istanbul and

unravelling the tangled history, Victoria Clark demonstrates a rare sympathy with Eastern Orthodox Europe. 'I finished the book wanting to meet this intelligent, warm-hearted writer, and to follow her to some of the places she visited' LITERARY REVIEW 'A masterful synthesis of vivid and often

humorous travel writing, a series of probing interviews and a pertinent historical context' THE TIMES 'Exhilarating . . . her book will be immensely helpful to anyone occasionally puzzled by events, especially politics, in Eastern Europe' FINANCIAL TIMES
