ELT - Christoph Haase 2011-05-25

This volume represents an outgrowth of the 7th international ATECR conference, which brought together researchers and educators from fields as diverse as language teaching in a

variety of contexts, corpus linguistics and literary studies. The contributions in this volume show—despite their diversity—a strong common denominator: an aim to bundle efforts and unify parameters in order to optimize English Language Teaching as a world-wide endeavor. Thus, for our teaching it can only be beneficial when linguists talk to literary-minded teachers or methodology specialists investigate whether their theoretical underpinnings make their way into practice by talking to language instructors or language service providers. In general, the authors present a multifaceted picture of the English Language Teaching context with themselves as practitioners but also as investigators and researchers at the same time. The research that reflects back on their teaching thus creates a force-feedback loop not only for the investigating scholar but also for the practicing

instructor who reapplies his/her knowledge after failed or suboptimal attempts as evidenced by the data. [The Advanced English Collection: 3 Books in 1 Bundle - How to Improve Your Spoken English Fast](#) - Whitney Nelson 2018-08-18

E-Learning and Business Plans -

Elaina Norlin 2008-07-25

With the invention of desktop computers, electronic learning or e-learning has become a convenient learning tool of choice for individuals with busy schedules. For the past several years, there has been a continuous stream of much needed innovation in the use of e-learning and these have now become second nature to both e-learning providers and users. But just as e-learning has enhanced and enriched our lives, challenges have increased as the creation of courses and e-learning material evolve. Technology, although it makes our lives easier, can come with a 'not so affordable' price tag. As creators of e-learning content, after raising money to provide a costly e-learning initiative, how do we know if our customers or target audience are really learning? Who is going to

maintain the technology? Who will subsidize the upkeep costs? How do we know if there is a better product on the horizon that can do it more cheaply and with more advanced technology infrastructure? E-learning and Business Plans: National and International Case Studies provides a comprehensive view on how to develop non-profit business plans for both small and large-scale e-learning projects. Editors Tiffini Travis and Elaina Norlin present both national and international case studies covering many elements of a typical non-profit business plan and reveal the experiences individuals have had while developing their project. This book will be useful to professionals, non-profit organizations, and academic researchers who are currently considering working on large-scale e-learning or high cost/high risk projects. While many issues are library-related, the book is relevant to non-librarians as

well.

Dare to Lead - Brené Brown 2018-10-09
#1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders,

change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries Brené Brown: Atlas of the Heart! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits

that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown

uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read Daring Greatly and Rising Strong or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.

Start with Why - Simon Sinek 2011-12-27

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of

the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY

behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.
