Doing Good Business In China: Case Studies In International Business Ethics

- Stephan Rothlin 2021-06-08

The 46 original case studies featured in this book demonstrate that in many business sectors, local people and foreigners are responding to the challenges of achieving business success while competing with integrity. Cases are divided into

eight sub-topics discussing internet and social media issues, labor issues, corporate social responsibility, product and food safety, Chinese suppliers and production, environmental issues, corporate governance, as well as business and society in China. Each case is followed by a discussion section, with questions to prompt

reflection. This book is a valuable resource for students of International Business and Management, as well as entrepreneurs and business managers working and doing business in China.

Answers for Ethical Marketers -

Deirdre K. Breakenridge 2021-04-22
With recent changes in technology, media, and the communication landscape, the journey to ethics has become more complicated than ever before. This book aims to answer ethical questions, from applying ethics and sound judgment through your organization and communication channels to taking your ethics and values into every media interview. With the understanding of how personal and professional ethics align, business leaders, managers, and students will maneuver their way around this new landscape showcasing their values in ethical conduct. This book is divided into eight important areas based on where and why a

breakdown in ethical behavior is likely to occur, and delivers advice from experts on the frontlines of business communications who know what it means to face the inherent changes and challenges in this field. With more than 80 questions and answers focused on guiding marketing, PR and business professionals, readers will uncover situations where ethics are challenged, and their values will be tested. This straightforward Q&A guidebook is for professionals who realize ethics are a crucial part of decision-making in their communications and who want to maintain trust with the public and their positive brand reputations in business. Readers will receive answers to pressing ethical questions to help them apply best practice guidelines and good judgment in their own situations, based on the stories, theories, and practical instruction from the author's 30 years of experience as well as the thought

leaders featured in this book.
Cambridge Handbook of Research
Approaches to Business Ethics and
Corporate Responsibility - Patricia
H. Werhane 2017-11-16

While there is a large and ever-expanding body of work on the fields of business ethics and corporate social responsibility (CSR), there is a noted absence of a single source on the methodology and research approaches to these fields. In this book, the first of its kind, leading scholars in the fields gather to analyse a range of philosophical and empirical approaches to research in business ethics and CSR. It covers such sections as historical approaches, normative and behavioural methodologies, quantitative, qualitative and experimental perspectives, grounded theory and case methodologies, and finally a section on the role of the researcher in research projects. This book is a valuable and essential read for all

researchers in business ethics and CSR, not only for those starting out in the fields, but also for seasoned scholars and academics.
Contemporary Issues in Business Ethics - Joseph R. DesJardins
2014-04-08

CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E introduces readers to business ethics by focusing on the influence of market mechanisms and social values on workplace norms. And because business is increasingly a global enterprise, this edition emphasizes the role of ethics both at home and abroad. CONTEMPORARY ISSUES IN BUSINESS ETHICS, 6E also takes time to look at ethics from the unique perspectives of either employee or employer. Along the way, readers also learn about such topics as ethical relativism, ethics and the law, virtue ethics, and ethical decision-making. Business Ethics IPCC.
Business Ethics - Dr. Rupa Jajoo
Gilda 2020-06-18
This book is a part of the course by
S.R.T.M University of Nanded. This
book contains the course content for
Business Ethics. Ethics is about
determining value; it's deciding
what's worth doing and what doesn't
matter so much. Business ethics is
the way we decide what kind of career
to pursue, what choices we make on
the job, which companies we want to
work with, and what kind of economic
world we want to live in and then
leave behind for those coming after.
There are no perfect answers to these
questions, but there's a difference
between thinking them through and
winging it. The Business Ethics
Workshop provides a framework for
identifying, analyzing, and resolving
ethical dilemmas encountered through
working life.

Project Report : General Model, 4. Case Study, 5. Project Analysis, Viva-Voce Value Based Questions (with Answers) Examination Papers.

Activist Business Ethics - Jacques Cory 2012-10-05

Jacques Cory's second book Activist Business Ethics expands upon the theoretical concepts developed in his first book Business Ethics: The Ethical Revolution of Minority

Shareholders published by Kluwer Academic Publishers in March 2001. Activist business ethics is needed in order to remedy the wrongdoing committed to stakeholders and minority shareholders. This will be achieved by cooperation between ethical businessmen, activist academics, stakeholders and minority shareholders. We should treat others as we would want others to treat us, not through interest, but by conviction. Yet this principle is not the guideline of many companies in the modern business world, despite the fact that most religions and philosophers have advocated it in the last 3,000 years. How can we convince or compel modern business to apply this principle? And is it essential to the success of economy? In order to answer these questions this book examines the evolution of activist business ethics in business, in democracies, in Christianity, Judaism, Islam, Buddhism, in

philosophy and psychology. The book examines international aspects, the personification of stakeholders, the predominance of values and ethics for CEOs and the inefficient safeguards of the stakeholders' interests. The book presents new vehicles for the safeguard of those interests, such as the Internet, Transparency, Ethical Funds and Activist Associations, and future activist vehicles, such as the Supervision Board and the Institute of Ethics. Today everybody is a stakeholder and a minority shareholder of a company, directly or through our pension funds, or as a client, a supplier, a member of a community and a citizen. The principal premise of the book is, therefore, that ultimately the wrongdoers act against themselves. The book is woven with many references on ethics and business ethics from the professional and classic world literature, the Bible and other religious texts, poetry,

maxims, and folk tales; showing that ethical problems are similar throughout the ages and cultures, but some of the solutions given in this book are new and original. Activist Business Ethics is primarily intended for the academic market and is particularly appropriate for academics in business administration, ethics and finance. It should also appeal strongly to the professional business/finance market, and to stakeholders and minority shareholders as well, who are aware of the wrongdoing committed to them and who want to remedy the situation by activist conduct.

Business Studies Class XI -by Dr. S. K. Singh, Sanjay Gupta (SBPD Publications) - Dr. S. K. Singh

2021-07-05

Strictly according to the latest syllabus prescribed by Central Board of Secondary Education (CBSE), Delhi and State Boards of Bihar, Jharkhand, Uttarakhand, Rajasthan, Haryana, H.P.

Leadership and Business Ethics – Gabriel Flynn 2022-01-24

This book offers new and challenging approaches to business ethics that successfully link theory and practice thereby overcoming lacunae and inadequacies in much of the literature concerning ethics and governance, a theme that recurs with remarkable frequency in the history of business ethics as an academic

discipline. This work provides imaginative and innovative proposals for the indispensable coupling of virtue, integrity, and character with global business, finance, and banking. The volume seeks to overcome the marginal status of business ethics in universities, business, and enterprise by demonstrating that virtue ethics is an important step in the direction of an adequate response to the leadership issue. This new edition of a popular work points to new ways of achieving an ever more urgent coalescence of ethics and business. It proposes practical advice and viable suggestions to business people on what is right and wrong in business. The volume makes a vital contribution in the area of education that should serve the ongoing development of top leaders. In the important domain of women in leadership, the volume provides new solutions that break boundaries on the global stage. The work challenges

unethical marketing of human images with important implications for citizenship and society. The volume contains creative suggestions for the use of spirituality and human development for the enhancement of business and society. The significantly extended second edition includes an exciting line up of leading academics and practitioners in the audacious hope that something may change for the better in the realms of business and banking.
Business Ethics - Stephen M. Byars
2018-09-24

Business Ethics - 2004

The ABCs of Ethics - Michael L. Buckner 2010-02-17

The ABCs of Ethics is designed for leaders, managers, professionals, students, and other people interested in improving ethical behavior within themselves, inside organizations, and throughout society. Michael L.

Buckner answers the age-old question: "Does the end justify the means?" Using stories and anecdotes from his work as an attorney and a private investigator, Buckner concisely defines the issues surrounding this topic while encouraging contemplation regarding common questions of ethics and integrity. By using examples of corporate piracy, privacy issues, and commonplace dilemmas, he shows us how to create a newer, more modern definition of ethics for use in today's society. The chapters in The ABCs of Ethics use the framework of the English alphabet to stimulate and facilitate the discussion of ethics. The ABCs of Ethics provides an understanding of both the legal and the philosophical foundations of ethics, while keeping the discussion relevant to today's business, political, and legal environment. By discussing the role that "gray areas" play in ethics violations, and how the active pursuit of character

development leads to more ethical behavior, this invaluable guide will help leaders and managers assess and successfully navigate potentially unethical situations in their business and personal lives.

A Catechism For Business - Andrew V. Abela 2014-03-03

A Catechism for Business presents the teachings of the Catholic Church as they relate to more than one hundred specific and challenging moral questions that have been asked by business leaders. Andrew V. Abela and Joseph E. Capizzi have assembled the relevant quotations from recent Catholic social teaching as responses to these questions. Questions and answers are grouped under major topics such as marketing, finance, and investment. Business ethics questions can be too subtle for definitive yes / no answers, so the book offers no more and no less than church teaching on each particular question. Where the church has

offered definitive answers, the book provides them. When the church has not, the book offers guidelines for reflection and insights into what one should consider in given situations.

You've Got To Be Kidding! - Nan DeMars 2011-05-25

What to do when you're caught in the middle of an ethical dilemma at work In today's super-stressed workplace, an ethical dilemma can come at you when you least expect it. Here's how to do the right thing without losing your integrity or your job. You've GOT To Be Kidding will help you create an ethics-based workplace that's a joy to work in. This isn't the usual top-down, executive-only manual, but an approach to workplace ethics that's as relevant and accessible to employees as it is to managers and executives. From renowned workplace educator and author of You Want Me To Do What?, this book is filled with recognizable examples ripped from today's headlines that put ethical

principles in concrete terms. Filled with recognizable examples that put ethical principles in concrete terms Covers such topics as topics as loyalty, confidentiality, security, office romance, harassment, social networking at work, harassment, workplace bullying, lying for your boss, and even Internet mischief A practical manual for assessing, discussing, and resolving ethical dilemmas in the workplace With employees at all levels being held more accountable than ever before, You've GOT To Be Kidding gives businesses of all types and sizes a winning set of principles and practices to do business at the highest ethical level and serves as a guide for anyone who wants to do the right thing without losing their integrity or their job.

Corporate Codes of Ethics - Christian
Bacher 2006-03-06
Essay from the year 2005 in the
subject Business economics - Business

Ethics, Corporate Ethics, grade: A+, University of Otago (Department of Management), course: International Management, 45 entries in the bibliography, language: English, abstract: As long as human societies exist, the life of man has been based on norms, rules, values and practices that governed human behaviour. Individual and communal-shared ethics even make life within society possible as we know it. Part of this social life is doing business, in form of exchanging goods to fulfil basic needs and to achieve higher levels of satisfaction for oneself and for others. However, to combine moral thinking and acting with today's business activities in a free market economy seems to be counterintuitive. Somehow both notions do not really fit together. Still, Corporate Codes of Ethics exist. This essay consist of two parts. Each part reflects one question or problem that I found

worthy of having more light shed on it. The first part answers the question "Why do corporate Codes of Ethics exist?" or "Why do corporations establish corporate Codes of Ethics?" under the basic assumptions, that ethics are 'costly' and therefore against the idea of maximising profit which is predominant in the market ideology. Proving these assumptions is not so easy. First the term ethics will be defined and selected theories which could be the basis for Codes of Ethics will be portrayed. Then it is important to know what kind of morality is underlying the modern market ideology as we know it. Following that a correlation is sought between the market morality and corporate ethics, ending in the insight that corporate morality is costly and, therefore, is against economic intuition. Part one finishes then with a surprisingly simple answer to the question why codes

exist. The second part brings the findings of the first part in a broader context. The considered corporation of part one now 'grows' beyond borders and begins to conduct business globally, as a multinational corporation. Its existing set of corporate Codes of Ethics are now confronted with other nations, societies and cultures and, possibly, other ethnicities. Whether the company should 'do as the Romans do' or not is the major question of the second part, closely connected to the keywords relativism and universalism. The problems revealed by each approach, and possible solutions to them, will be shown in part two. The conclusion, finally, summarises the findings of the essay briefly, but, moreover, shows further questions and problems that would be worth to explore in the overlapping areas of applied ethics and international management.

The Book of Questions - Gregory Stock

1991-01-01

A collection of more than three hundred primary and follow-up questions focuses on commerce and politics, probing the conflicts that arise between ideals and reality and sounding morals along the way

Cases in Business Ethics - David J. Sharp 2006

Cases in Business Ethics provides the opportunity for students not only to discuss the application of ethical theories in managerial situations, but also to apply judgment and make decisions in a real-world context. This collection of cases focuses on business decision-making, and includes both short and long, more complex cases that highlight the practicalities of business practice and ethical theory. A beneficial feature of Cases in Business Ethics is the variety of ways in which the cases can be organized to fit the course curriculum.

Business Ethics - Gael McDonald
2014-10-29

Business Ethics introduces students to ethical issues and decision-making in a variety of contemporary contexts. It develops an awareness of the many ways in which ethical considerations can manifest in commercial domains, thereby helping prepare students for their professional careers. Business Ethics

shows how theory works in practice. It includes hundreds of real-world examples that will help engage students. Examples draw on recent and emerging concerns, such as the moral implications of social media and the enforcement of codes of behaviour within industries. The book also addresses corporate social responsibility, stakeholder management and sustainability, reflecting the broad scope of business ethics today. Comprehensive online resources are available at www.cambridge.edu.au/academic/businessethics. Student resources include additional review questions and case studies, with answer guides, to help students reinforce learning and prepare for assessment tasks. Instructor resources include an extensive set of tutorial exercises, PowerPoint slides and a test bank of assessment resources.

Business Ethics - James Melvin Lee
1926

Experiences in Teaching Business Ethics - Ronald R. Sims 2011-07-01
The primary purpose of this book is to stimulate dialogue and discussion about the most effective ways of teaching ethics. Contributors to the book focus on approaches and methodologies and lessons learned that are having an impact in leading students to confront with accountability and understanding the bases of their ethical thinking, the responsibilities they have to an enlarged base of stakeholders (whose needs and interests often are conflicting), and their stewardship to use their talents responsibly not only in fulfilling an enterprise's economic goals but also to recognize the impact of their actions on both individuals and larger society. The primary audiences for the book are those individuals responsible for teaching management, especially those with responsibilities for teaching

business ethics. But the book is also designed for practicing managers, for these managers have among their most important responsibilities the development of people in their organizations who have the integrity, values, and competences to be effective managers of economic resources while at the same time to recognize the roles of their enterprise in shaping society.

Business Ethics and Corporate Governance - Fernando A.C. 2010-09

Honest Work - Joanne B. Ciulla 2011
Honest Work: A Business Ethics Reader, now includes 103 readings and 80 cases on such classic topics as honesty and trust in the workplace, whistleblowing, product liability, finance ethics, and conflicts of interest, along with more cutting edge subjects including environmental ethics and ethics and technology. The text was revised in the midst of the worst global financial crisis since

the Great Depression, which reaffirms the convictions that led the authors to develop this text: first, that business ethics is primarily about the ethics of individuals; second, that business itself is a morally sensitive endeavor as it directly or indirectly harms or benefits other people. *Honest Work* assumes that the goal of a business ethics course is to help students become successful as human beings so that they can go on to invent, run, and rebuild sustainable businesses. Unlike most texts, it brings ethical questions back to the reader, and challenges students to think about the relationship between the way they do business and the kind of life they want to live. questions, and suggested readings and web links. An Instructor's Manual with Test Bank is available to adopters.

Teaching Business Ethics for Effective Learning - Ronald R. Sims 2002

The key to teaching business ethics successfully, says Sims, is to start with clear goals and a sensible expectation of outcomes, and with a true knowledge and appreciation of how people actually learn. Seems obvious enough, he says, but the surprise is that so few understand this. Thus, the teaching of business ethics is often an unproductive, frustrating exercise in futility. Sims hopes to change that. Proceeding with the conviction that open communications between teacher and student before, during, and after the teaching experience is vital, Sims identifies key teaching processes, gives practical advice on designing and planning the curriculum, and offers guidance on how to develop a climate conducive to effective learning. He highlights the importance of creating a classroom climate that encourages open dialogue, good moral conversation, and conversational learning. And

throughout he emphasizes that learning styles and experiential learning theory are cornerstones of teaching business ethics, thus taking an approach unlike any in the literature. An important guide for those who are new to teaching this essential subject, Sims' book will also be helpful for more experienced teachers who are wondering why their own methods do not always work, or do not work as well as they believe they should. Sims identifies important processes that must be managed if business ethics is to be taught and learned successfully--processes such as creating stakeholder commitment to the goals, purposes, and outcomes of the teaching effort, and curriculum design and planning that are attuned to individual differences in learning styles, motivation, and values. Also included in Sims' processes are the development of individual school outcomes, and expectations, and the assessment procedures that can

measure them. He discusses the importance of incorporating debriefing into an experiential learning exercise or discussion, and goes on to give an in-depth discussion of the pedagogical approaches that allow teachers to teach the practical and theoretical components of the subject simultaneously. Well illustrated with examples, such as an interdisciplinary approach to teaching and a way to institutionalize outcomes assessment by means of total quality management, Sims' book returns constantly to his major theme: that to teach business ethics effectively the teacher must first create a climate of trust and sharing within and between students, and between students and teacher, and that the teacher must have a concrete way to measure the impact of the teaching effort's results.

The Business Ethics Workshop -
Anonymous 2012

Ethics is about determining value; it's deciding what's worth doing and what doesn't matter so much. Business ethics is the way we decide what kind of career to pursue, what choices we make on the job, which companies we want to work with, and what kind of economic world we want to live in and then leave behind for those coming after. There are no perfect answers to these questions, but there's a difference between thinking them through and winging it. The Business Ethics Workshop provides a framework for identifying, analyzing, and resolving ethical dilemmas encountered through working life.

Ethics Training for Managers - Logan L. Watts 2020-12-14

Can employees be trained to make more ethical decisions? If so, how? Providing evidence-based and practical answers to these critical questions is the purpose of this book. To answer these questions, the authors—four organizational

psychologists who specialize in the study of ethical decision making—translate insights based on decades of scientific research. Whether you are a student, educator, HR manager, compliance professional, or simply someone interested in the topic of ethics education, this book offers a road map for designing ethics training programs that work.

This is Business Ethics - Tobey Scharding 2018-04-27

Take a seat in the boardroom. What will you decide? Corporations make difficult decisions about the right thing to do every day, but as an organization made up of people with

different perspectives and values, how can a business behave ethically? This is Business Ethics offers a dynamic and engaging introduction to the study of corporate morality. Offers real-world practical advice for navigating ethical dilemmas in business, developed and explained through illustrative high-profile case studies like the Ford Pinto case, Enron, Walmart and British Petroleum. Explores how ethical theory informs business policy and practice. Presents unresolved contemporary case studies for consideration, inviting readers to participate in the decision-making and offer their own recommendations. The latest in the This is Philosophy series, This is Business Ethics features supplemental online resources for instructors and students at www.thisisphilosophy.com. Case Histories in Business Ethics - Chris Megone 2002-01-03
Case Histories in Business Ethics

illustrates and extends the role of case histories in the teaching and study of business ethics. Typically, case histories are used to illustrate assertions or arguments, or to stimulate debate about an issue within business ethics. This volume examines that role, illustrating the link between case histories and more general theoretical approaches to business ethics. It also discusses the role of case histories in engaging the wider cognitive and affective capacities of the student and therefore the development of character.

18. Understanding A Market, 19. Competitive Analysis of the Market, 20. Patents, Trademarks and Copyrights. PRACTICAL 21. Project Work, 22. Project Planning, 23. Project Report-General Model, 24. Case Study, 25. Project Analysis *Business Ethics* - J. S. Nelson 2022 An authoritative and practical guide to business ethics, written in an accessible-question-and answer format In today's turbulent business climate, business ethics are more important than ever. Surveys of employees show that misconduct is on the rise. Cover stories reporting indictments, prosecutions, and penalties imposed for unethical business conduct appear almost daily. Legislatures pass requirements elevating the levels of punishment and their enforcement against corporations and individuals. Organizations face pressure to design and implement effective ethics and compliance programs. As a result,

businesses and businesspeople are increasingly worried that their conduct might cross lines that put their wealth and reputations at risk. **Business Ethics: What Everyone Needs to Know (R)** explains what those lines are, how not to cross them, and what to do when they are crossed. Written for both businesspeople facing real-life dilemmas and students studying ethical questions, this succinct book uniquely surveys materials from moral philosophy, behavioral science, and corporate law, and shares practical advice. Experts J.S. Nelson and Lynn A. Stout cover a wide array of essential topics including the legal status of corporations, major ethical traps in modern business, negotiations, whistleblowing and liability, and best practices. Written in a short question-and-answer style, this resource provides engaging and readable introductions to the basic principles of business ethics, and an invaluable guide for

dealing with ethical dilemmas.

There's No Such Thing as "Business"

Ethics - John C. Maxwell 2007-10-15

There's no such thing as business ethics. How can that be? Because a single standard applies to both your business and personal life—and it's one we all know and trust: the Golden Rule. Now bestselling author John C. Maxwell shows you how this revered ideal works everywhere, and how, especially in business, it brings amazing dividends. **There's No Such Thing As "Business" Ethics** offers: * Stories from history, business, government, and sports that illustrate how talented leaders invoked this timeless principle * Examples of difficult business decisions—layoffs, evaluations, billing clients, expansion—and how the Golden Rule applies to each * The five most common reasons people compromise their ethics—and how you can prevail over such moral obstacles * How applying the Golden Rule to

business builds morale, increases productivity, encourages teamwork, lowers employee turnover, and keeps clients coming back. John C. Maxwell not only reveals the many ways the Golden Rule creates the perfect environment for business success, but does it with great wisdom, warmth, and humor. Backed by flawless research and the ideas of history's best thinkers, this engaging book brilliantly demonstrates how doing the right thing fosters a winning situation for all, with positive results for employees, clients, investors, and even your own state of mind. Business runs much more smoothly, profits increase, and you know that you've set the groundwork for years of future prosperity...and it's all thanks to the tried-and-true Golden Rule.

Business Ethics and Corporate Governance -

Managing Business Ethics - Linda K.

Trevino 1999-02-02

Two experts in the field look at business ethics in a radically new way, stressing the importance of considering ethics as an issue that can be taught and managed much like other cultural characteristics. It provides readers with an understanding of how corporations can positively influence the behavior of employees, and how to improve the ethical decision making capabilities of their employees. Uses easy-to-understand terms to describe ethical dilemmas, concentrating on typical dilemmas businesses encounter, how managers can encourage ethics in their departments and how an organization can manage ethics through its culture. Features actual company examples and advice from managers in organizations who are "doing things right."

Business Ethics for Better Behavior - Jason Brennan 2021-06-21

A clear and concise roadmap for

ethical business behavior using commonsense moral principles Business Ethics for Better Behavior concisely answers the three most pressing ethical questions business professionals face: What makes business practices right or wrong?; Why do normal, decent businesspeople of good will sometimes do the wrong thing?; and How can we use the answer to these questions to get ourselves, our coworkers, our bosses, and our employees to behave better? Bad behavior in business rarely results from bad will. Most people mean well much of the time. But most of us are

vulnerable. We all fall into moral traps, usually without even noticing. Business Ethics for Better Behavior teaches business professionals, students, and other readers how to become aware of those traps, how to avoid them, and how to dig their way out if they fall in. It integrates the best work in psychology, economics, management theory, and normative philosophy into a simple action plan for ensuring the best ethical performance at all levels of business practice. This is a book anyone in business, from an entry-level employee to CEO, can use.
