Business Result Second Edition offers business professionals more communication and language practice than ever before, so they develop business English skills to use immediately. Relevant, personalized practice for people at work With Business Result Second Edition, students practise language that is relevant to their work context, so they can use what they learn in real work situations. NEW Talking Point discussion lessons are based on an interesting business concept, process or approach that is relatable for any student in any business profession. The personalized Talking Point tasks allow students to apply the concept to their own working contexts, and provide the opportunity to use language from the unit. NEW Viewpoints integrate video into the lesson to bring business English to life - and build communication skills for business. Each video lesson relates to content in the units and builds up to a communicative task. NEW Language Points provide explicit focus on the meaning and form of the target language applied in a business context. EXTENDED Practically Speaking sections help students put language to use immediately. In every unit, Practically Speaking relates clearly to the unit content, and includes input, analysis and practice. Easily adapt Business Result Second Edition to fit your teaching context The IMPROVED modular structure of Business Result Second Edition means it can be easily adapted to fit your teaching context. Each section within a unit works in a modular way - they can be completed as standalone activities according to your needs. You can choose lessons that are most relevant for your students. The Teacher's Book provides support for using the course flexibly in 1 to 1 lessons and with pre-work students. For those working through the book in order, continuity is maintained throughout the book to provide natural progression. Enrich your lessons with ready-to-go resources to pick up and teach in class NEW photocopiable worksheets for each unit provide more practice for the main sections of each unit: Working with Words, Language at Work and Business Communication. NEW online resources for teachers include Viewpoint video files to stream or download, audio files to stream or download, sample emails for each unit, downloadable business cards, and progress tests. Help students advance their career through progress tracking and assessment support Clear Outcomes - 'you can' statements help students monitor their own progress, and downloadable progress tests enable you to track students' progress in language skills and speaking skills. NEW Online Practice provides extra interactive practice activities with instant feedback on answers and automatic grading, allowing students to independently review their learning. Online Practice allows you to easily track and report on your students' progress, keeping you up-to-date with your students' learning. Mathematics for Machine Learning - Marc Peter Deisenroth 2020-04-23

The fundamental mathematical tools needed to understand machine learning include linear algebra, analytic geometry, matrix decompositions, vector calculus, optimization, probability and statistics. These topics are traditionally taught in disparate courses, making it hard for data science or computer science students, or professionals, to efficiently learn the mathematics. This self-contained textbook bridges the gap between mathematical and machine learning texts, introducing the mathematical concepts with a minimum of prerequisites. It uses these concepts to derive four central machine learning methods: linear regression, principal component analysis, Gaussian mixture models and support vector machines. For students and others with a mathematical background, these derivations provide a starting point to machine learning texts. For those learning the mathematics for the first time, the methods help build intuition and practical experience with applying mathematical concepts. Every chapter includes worked examples and exercises to test understanding. Programming tutorials are offered on the book's web site.

[Forecasting: principles and practice](#) - Rob J Hyndman 2018-05-08
Forecasting is required in many situations. Stocking an inventory may require forecasts of demand months in advance.

Telecommunication routing requires traffic forecasts a few minutes ahead. Whatever the circumstances or time horizons involved, forecasting is an important aid in effective and efficient planning. This textbook provides a comprehensive introduction to forecasting methods and presents enough information about each method for readers to use them sensibly.

The Business Result DVD Edition Teacher's Book supports the

teacher in every aspect of business English teaching. Notes, activities, and supplementary material in the Teacher's Book provide teachers with extra ideas and support. The tests for each unit at the end of the book allow teachers to give students extra practice, and help to track their progress. The Class DVD features all the video material that can also be found on the Student's Interactive Workbook DVD-ROM. Each unit includes a video clip that can be used as a focal point of discussion, to develop students' listening skills, introduce new vocabulary and teach the business communication skills that students need in context. The Class DVD also includes a downloadable DVD worksheet for every clip, ready to print off and use immediately in class. The worksheets include listening and speaking practice, video script, and answer key. The Teacher Training DVD helps to put teaching theory into practice. It includes classroom footage and author commentary, and shows teachers how BusinessResult works in the classroom. The Teacher Training DVD gives practical tips and help for teaching business English. 15 pedagogical areas are covered across the five levels, such as social English, needs analysis, and business writing. The Teacher Training DVD can be used for introducing new teachers to business English teaching, giving in-

house teacher training, or familiarizing teachers with Business Result material.
