

Business Statistics Sp Gupta Problem Solution

Recognizing the pretension ways to get this book **Business Statistics Sp Gupta Problem Solution** is additionally useful. You have remained in right site to start getting this info. acquire the Business Statistics Sp Gupta Problem Solution associate that we give here and check out the link.

You could buy lead Business Statistics Sp Gupta Problem Solution or acquire it as soon as feasible. You could speedily download this Business Statistics Sp Gupta Problem Solution after getting deal. So, following you require the books swiftly, you can straight get it. Its for that reason entirely simple and as a result fats, isnt it? You have to favor to in this reveal

Introduction to Statistical Quality Control - Douglas C. Montgomery 2020-06-23

Once solely the domain of engineers, quality control has become a vital business operation used to increase productivity and secure competitive advantage. Introduction to Statistical Quality Control offers a detailed presentation of the modern statistical methods for quality control and improvement. Thorough coverage of statistical process control (SPC) demonstrates the efficacy of statistically-oriented experiments in the context of process characterization, optimization, and acceptance sampling, while examination of the implementation process provides context to real-world applications. Emphasis on Six Sigma DMAIC (Define, Measure, Analyze, Improve and Control) provides a strategic problem-solving framework that can be applied across a variety of disciplines. Adopting a balanced approach to traditional and modern methods, this text includes coverage of SQC techniques in both industrial and non-manufacturing settings, providing fundamental knowledge to students of engineering, statistics, business, and management sciences. A strong pedagogical toolset, including multiple practice problems, real-world data sets and examples, and incorporation of Minitab statistics software, provides students with a solid base of conceptual and practical knowledge.

Business Law - N.D. Kapoor 2020-01-01

The Sixth Revised Edition of "Business Law" as per CBCS syllabus of Andhra Pradesh, Telangana, Osmania Universities for B.Com

(Hons), B.Com (General) Semester IV, presents the basic principles of Business Law in a way that makes the subject easily intelligible even to a non-specialist. The book has eight units. The chapter on Intellectual Property Rights discusses (i) The Trade Marks Act, 1999; (ii) The Patents Act, 1970; (iii) The Copyright Act, 1957; (iv) The Trade secrets and (v) Geographical Indications. A new chapter on "The Environment Protection Act, 1986". The book has 323 Objective Type Questions; 174 Test Questions; and 253 Practical Problem and solutions. The book "Business Law" as per CBCS syllabus of Andhra Pradesh, Telangana, Osmania Universities for B.Com (Hons), B.Com (General) Semester IV is equipped with 457 Examples, 126 Illustrative Cases and 69 Case Study.

Industrial Relations & Labour Laws, P.C.

Tripathi, C.B. Gupta, N.D. Kapoor - P.C.

Tripathi, C.B. Gupta, N.D. Kapoor 2020-01-01

Industrial Relations & Labour Laws, P.C.

Tripathi, C.B. Gupta, N.D. Kapoor, 6e, 2020 is suitable for post-graduate students of B.Com., MBA, DBA, DPM, MBE and MSW. A Professional Book for Personnel Managers and Executives is divided into two parts and has 11 objective type questions; 179 Test Question and 15 Practical Problems with Hints and Solutions.

Ordinary and Partial Differential Equations -

Dr. CHAITANYA KUMAR 2021-05-28

The primary objective of the textbook is to provide the basic concepts of ordinary and partial differential equations as per the requirement of the students appearing for B.A. (Prog.) Semester-V, B.Sc. (Hons.) (Mathematics

and Physics) under CBCS pattern followed by Central Universities of India including the University of Delhi. This book covers the entire syllabus of the paper Differential Equations — Generic Elective of IIIrd Semester (GE-3) for all Honours courses other than Mathematics and B.Tech. of various Universities. It is also useful for various competitive examinations and the School of Open Learning, University of Delhi. There are Eleven Chapters in this book and in each of them, the concepts are properly supported by illustrations followed by several varied types of examples to provide students an integrated view of theory and applications. There are about 247 examples in this book. A large number of self-practice problems and answers have been added in each chapter to enable students to learn. Most of the questions conform to the examination style followed in the University examinations and professional examinations.

Financial Accounting - R.L. Gupta 2021-12-15
The book has been designed as per the Syllabus prescribed by the University of Madras for Paper on 'Financial Accounting' effective 2020-21 for B.Com. Degree First and Second Semesters Core Course; B.Com. (A & F), B.Com. (CS), B.Com. (BM), B.Com. (MM), B.Com. (CA) & B.Com. (ISM)

Company Law & Secretarial Practice, N.D.

Kapoor - N.D. Kapoor 2020-01-01

The Thirty-first Revised Edition of the book entitled "Company Law & Secretarial Practice" with Companies Act, 2013 (Schedules) for B.Com., B.Com. (Corporate Secretaryship), M.Com., IPCC, CS & LLB. The book is divided into two parts volume I Company Law contains 32 chapters and volume II Secretarial Practice contains 10 chapters having more than 270 Test Questions; 67 Practical Problems (with Hints and Solutions); 79 short Answer & Objective Type Question; 48 Multiple Choice, Presentation of Examples (10); Illustrative cases (12) etc., University Questions Papers have been added at the end of the book to give an idea about the pattern of questions asked.

Encyclopedia of Business Analytics and Optimization - Wang, John 2014-02-28

As the age of Big Data emerges, it becomes necessary to take the five dimensions of Big Data- volume, variety, velocity, volatility, and

veracity- and focus these dimensions towards one critical emphasis - value. The Encyclopedia of Business Analytics and Optimization confronts the challenges of information retrieval in the age of Big Data by exploring recent advances in the areas of knowledge management, data visualization, interdisciplinary communication, and others. Through its critical approach and practical application, this book will be a must-have reference for any professional, leader, analyst, or manager interested in making the most of the knowledge resources at their disposal.

Multi-Asset Investing - Pranay Gupta

2016-03-14

Despite the accepted fact that a substantial part of the risk and return of any portfolio comes from asset allocation, we find today that the majority of investment professionals worldwide are focused on security selection. Multi-Asset Investing: A Practitioner's Framework questions this basic structure of the investment process and investment industry. Who says we have to separate alpha and beta? Are the traditional definitions for risk and risk premium relevant in a multi-asset class world? Do portfolios cater for the 'real risks' in their investment processes? Does the whole Emerging Markets demarcation make sense for investing? Why do active Asian managers perform much poorer compared to developed market managers? Can you distinguish how much of a strategy's performance comes from skill rather than luck? Does having a performance fee for your manager create alignment or misalignment? Why is the asset management transitioning from multi-asset strategies to multi-asset solutions? These and many other questions are asked, and suggestions provided as potential solutions. Having worked together for fifteen years, the authors' present implementable solutions which have helped them successfully manage large asset pools. The Academic Perspective "Multi-Asset Investing asks fundamental questions about the asset allocation investment processes in use today, and can have a substantial impact on the future structure of the finance industry. It clarifies and distills the techniques that investment professionals need to master to add value to client portfolios." —Paul Smith, President & CEO, CFA Institute "Pranay Gupta,

Sven Skallsjo, and Bing Li describe the essential concepts and applications of multi-asset investing. Their treatment is far ranging and exceptionally lucid, and always with a nod to practical application. Buy this book and keep it close at hand.” —Mark Kritzman, MIT Sloane School of Management “Innovative solutions to some of the most difficult investment problems we are faced with today. Multi-asset Investing tackles investment issues which don’t have straight forward solutions, but nevertheless are faced by every investment professional. This book sets the standard for investment processes of all asset managers.” —SP Kothari, MIT Sloane School of Management The Asset Owner Perspective “Multi-asset means different things to different people. This is the first text that details a comprehensive framework for managing any kind of multi-asset investment problem. Further, its explanation of the commercial aspects of managing a multi-asset investment business for an asset manager, private bank or asset owner make it an indispensable tool” —Sadayuki Horie, Dy. Chairman - Investment Advisory Comm., Government Pension Investment Fund, Japan “Multi-Asset Investing shows the substantial scope there is to innovate the asset allocation process. With its novel approaches to allocation, portfolio construction and risk management it demonstrates the substantial value that can be added to any portfolio. The solutions proposed by Multi-Asset Investing are creative, thought provoking, and may well be the way all portfolios need to be managed in the future.” —Mario Therrien, Senior Vice President, Caisse de Depot et Placement du Quebec, Canada The Asset Manager’s Perspective “Never has astute asset allocation and diversification been more crucial than today. Asset Managers which are able to innovate their investment processes and products in this area, are more likely to be the winners. Multi-Asset Investing provides both

Elements of Mercantile Law, N.D. Kapoor, 38th e, 2020 - Kapoor N.D. 2020-01-01
Sultan Chand & Sons present the 38th Revised and Enlarged Edition of the book entitled “Elements of Mercantile Law”. This book is specially written for B. Com, M. Com, CA, CS, CMA, MBA, LLB and Other Commerce Courses of all Indian Universities. The book is divided

into three Volumes. Volume I is Law of Contract, Volume II is Company Law and Volume III is Industrial Law The salient features of the present edition are as follows: A new chapter on ‘Goods and Services Tax (GST)’ has been included in this edition. In order to bring uniformity in Tax rates and to simplify the tax mechanism, Central Government rolled out Goods and Services Tax (GST) from 1st July, 2017. The Insolvency and Bankruptcy Code, 2016’ is the Bankruptcy Law of India has been added. A chapter on ‘Limited Liability Partnership’ popularly known as LLP has been added in the present edition. LLP combines the advantage of both the Company and Partnership into a single form of organization. Volume II of the book on Company Law with Schedules has been thoroughly updated and amended upto 2019.

Introductory Business Statistics - Lex Holmes
Introductory Business Statistics is designed to meet the scope and sequence requirements of the one-semester statistics course for business, economics, and related majors. Core statistical concepts and skills have been augmented with practical business examples, scenarios, and exercises. The result is a meaningful understanding of the discipline, which will serve students in their business careers and real-world experiences.

The Management Accountant - 1988

Business Environment - Dr C B Gupta
2022-10-01

This book has been especially designed and written for B.Com.; BBA and other similar courses of Madras University, GGS Indraprastha University, New Delhi, and other universities in the country. Some of the Distinctive Features of the book are as follows: 1. Lucid, simple, and conversational language. 2. Based on the author’s teaching and writing experience of 35 years. 3. Latest policy guidelines and government regulations. 4. Full coverage of the latest prescribed syllabi 5. Tables and diagrams to illustrate the text. 6. Summary at the end of every chapter for quick revision. 7. Test questions 8. Chapter outline at the beginning of every chapter to provide overview of the chapter contents.

Business Optimization Using Mathematical

Programming - Josef Kallrath 2021-08-31

This book presents a structured approach to formulate, model, and solve mathematical optimization problems for a wide range of real world situations. Among the problems covered are production, distribution and supply chain planning, scheduling, vehicle routing, as well as cutting stock, packing, and nesting. The optimization techniques used to solve the problems are primarily linear, mixed-integer linear, nonlinear, and mixed integer nonlinear programming. The book also covers important considerations for solving real-world optimization problems, such as dealing with valid inequalities and symmetry during the modeling phase, but also data interfacing and visualization of results in a more and more digitized world. The broad range of ideas and approaches presented helps the reader to learn how to model a variety of problems from process industry, paper and metals industry, the energy sector, and logistics using mathematical optimization techniques.

Business Statistics - J. K. Sharma 2012

Introduction to Business Statistics - Ronald M. Weiers 2008

Highly praised for its clarity and great examples, Weiers' INTRODUCTION TO BUSINESS STATISTICS, 6E introduces fundamental statistical concepts in a conversational language that connects with today's students. Even those intimidated by statistics quickly discover success with the book's proven learning aids, outstanding illustrations, non-technical terminology, and hundreds of current examples drawn from real-life experiences familiar to students. A continuing case and contemporary applications combine with more than 100 new or revised exercises and problems that reflect the latest changes in business today with an accuracy you can trust. You can easily introduce today's leading statistical software and teach not only how to complete calculations by hand and using Excel, but also how to determine which method is best for a particular task. The book's student-oriented approach is supported with a wealth of resources, including the innovative new CengageNOW online course management and learning system that saves you time while helping students master the statistical skills

most important for business success.

Review Projector (India). - 1989

Research Methodology & Applications of SPSS in Social Science Research - (Dr) P

Sundara Pandian 2022-02-16

Research methodology is taught as a supporting subject in several ways in many academic disciplines such as education, psychology, social work, library studies and marketing research. The core philosophical base for this book comes from my conviction that, although these disciplines vary in content, their broad approach to a research enquiry is similar. This book, therefore, is addressed to these academic disciplines and business people. This textbook provides the readers with an understanding of the Introduction to Research, types of research, Steps in Research Process, Identification of Research Problems, Importance of Review of Literature, Research Design, Methods of Data Collection, Hypothesis, Sampling Techniques, Introduction to SPSS, Descriptive Statistics, Cross tabulation, One Sample t-Test, Paired Sample t-test, One Way ANOVA, Two Way ANOVA, Factorial ANOVA, MANOVA, Chi-Square Test, Non- Parametric Test, MANN Whitney Test, Wilcoxon Test, Kruskal -Wallis Test, Friedman Test, Correlation Analysis, Multiple Regression Analysis, Factor Analysis, Cluster Analysis, Multi - Dimensional Scaling, Discriminate Analysis , Canonical Correlation, Overview of Structural Equation Model (SEM) and Report Writing. It uses simple examples to demystify complex theories and methodologies. This well-organized book deals with the variety of research methods and tools used in management and social sciences with application of SPSS. A Handbook of Research Methodology is recommended for use in undergraduate and postgraduate courses focusing on research methodologies in various disciplines. The edition contains significant additional input in almost every chapter of the book. It provided enhanced insights into issues from emerging countries' business. The practical examples covers all aspects of parametric and non - parametric test which is relevant for business in these emerging countries. This

edition includes several new cases and examples which would help students comprehend the research methodologies illustrated in each chapter. This edition will equip students with the knowledge of skills involved in this basic research process.

Quantitative Techniques and Operations

Research - Dr S P Gupta 2022-05-06

This book on Quantitative Techniques and Operations Research provides a conceptual understanding of basic quantitative techniques/methods used in solving managerial problems. It discusses comprehensively the essential topics of quantitative decision-making by using illustrations and examples. With revised and updated contents, this edition of the book will be useful to the students pursuing the undergraduate program in Management and Commerce.

Indian Management - 1986

Business Statistics by Dr. B. N. Gupta - Dr. B. N. Gupta 2020-07-02

1. Statistics : Meaning, Nature and Limitations, 2. Statistics : Scope and Importance, 3. Types and Collection of Data Univariate, Bivariate, Multivariate, Time Series and Cross Section Data, 4. Classification and Tabulation of Data, 5. Diagrammatic Presentation of Data, 6. Graphic Presentation of Data, 7. Measures of Central Tendency, 8. Geometric Mean and Harmonic Mean, 9. Partition Values, 10. Measures of Dispersion, 11. Measures of Skewness, 12. Measures of Kurtosis, 13. Probability Theory, 14. Probability Distributions or Theoretical Frequency Distribution, 15. Correlation, 16. Regression Analysis, 17. Index Number, 18. Analysis of Time Series, 19. Sampling Concepts, Sampling Distributions and Estimation, Appendix

Contemporary Research on Business and Management - Siska Noviaristanti 2021-11-24

This book contains selected papers presented at the 4th International Seminar of Contemporary Research on Business and Management (ISCRBM 2020), which was organized by the Alliance of Indonesian Master of Management Program (APMMI) and held in Surabaya, Indonesia, 25-27 November 2020. It was hosted by the Master of Management Program Indonesia University and co-hosts Airlangga

University, Sriwijaya University, Trunojoyo University of Madura, and Telkom University, and supported by Telkom Indonesia and Triputra. The seminar aimed to provide a forum for leading scholars, academics, researchers, and practitioners in business and management area to reflect on current issues, challenges and opportunities, and to share the latest innovative research and best practice. This seminar brought together participants to exchange ideas on the future development of management disciplines: human resources, marketing, operations, finance, strategic management and entrepreneurship.

Statistics by Dr. B. N. Gupta (SBPD Publications) - Dr. B. N. Gupta 2021-07-08

An excellent book for commerce students appearing in competitive, professional and other examinations. 1. Statistics : Meaning, Nature and Limitations, 2. Statistics : Scope and Importance, 3. Statistical Investigation, 4. Types and Collection of Data, 5. Questionnaire and Schedule, 6. Sample Survey, 7. Editing of Collected Data, 8. Classification and Tabulation of Data, 9. Diagrammatic Presentation of Data, 10. Graphic Presentation of Data, 11. Construction of Frequency Distribution, 12. Measures of Central Tendency, 13. Geometric Mean and Harmonic Mean, 14. Partition Values, 15. Measures of Dispersion, 16. Measures of Skewness, 17. Moments, 18. Measures of Kurtosis, 19. Correlation, 20. Index Number, 21. Analysis of Time Series, 22. Interpolations and Extrapolation, 23 . Regression Analysis, 24. Probability Theory, 25. Probability Distributions or Theoretical Frequency Distributions, 26. Association of Attributes, 27 . Sampling Theory and Tests of Significance, 28. Chi-Square Test and Goodness of Fit, 29. Analysis of Variance, 30 . Statistical Quality-Control (SQC).

Business Mathematics and Statistics - Andy Francis 2000

Business Statistics & Operations Research - Dr. S.P. Gupta 2022-08-10

The book entitled "Business Statistics & Operation Research" is designed primarily for B.Com., B.Com. (H) & BBA students of Madras University & other Universities having similar syllabus. Salient features of the book are: 1. The book is written in a very simple and lucid style

and is self-explanatory in character. 2. The book covers the syllabus of Business Statistics and Operations Research for the students of B.Com. and BBA. 3. Sufficient number of solved examples and illustrations are given in each chapter to explain various techniques of Statistics and Operation Research. 4. Unsolved questions are given in the form of exercise followed by their answers for self practice. 5. At the end of each chapter, multiple-choice questions followed by review exercise, based on theoretical questions are given.

Business Statistics & Business Mathematics - Dr S P Gupta 2022-05-06

This textbook covers the complete syllabus in the Business Mathematics & Business Statistics paper of B.Com. 2nd-year students. The Book has been designed strictly according to the latest updated syllabus prescribed by the University of Delhi. Besides revising and simplifying the text, a number of illustrations and examples are added to explain various concepts introduced in the text. Also, new problems mostly from recent university examinations have been added in this edition. At the same time, old stereotype problems have been removed. In fact, the whole book has been rewritten and given a new look altogether.

Salient Features 1. The Book covers the complete syllabus in Business Mathematics & Business Statistics paper of B.Com. examination. 2. There are detailed self-contained chapters on all the syllabus elements. 3. Part I of the book starts with the introduction to Statistics and discusses measures of central tendency and of variation, correlation & regression analysis, index numbers, time series, and interpretation of data. 4. Part II of the book begins by introducing the concept of matrices and determinants. Their applications to business and economic problems are discussed in the chapter. 5. The Concept of differentiation & integration along with their applications are given in chapters 3 & 4 of part II. 6. The language used in the text is simple and the subject matter has been presented in a lucid and straightforward style. 7. Special care has been taken to develop the concepts in an easy-to-understand manner and are self-explanatory.

Indian Books in Print - 2003

English Grammar & Composition - Rajendra

Pal 2022-04-25

The book is divided into three parts comprised of overall 35 chapters. Part one contains Grammar, part two – Aids to Vocabulary, and part three – Writing Skills. • The section dealing with Grammar is in double color. The points given in pink color suggest importance or emphasis, so they need attention and will help you to understand quickly and easily. These points are further highlighted with arrows. • Text printed on-screen suggests points likely to misunderstand. Sometimes they explain subtle distinctions between two apparently similar points. • Grammar items are discussed very systematically – one at a time. Plentiful illustrations are followed by carefully designed exercises. • There is an exhaustive section dealing exclusively with Multiple choice questions covering all the areas of Grammar as well as Vocabulary. It will help to get familiar with the latest evaluation pattern. • The chapter on vocabulary is adequate and it has been kept within manageable proportions. • The chapter on Precis writing under the section Writing Skills contains a large number of solved examples, which fully explain how to analyze a passage, how to prepare a rough draft and then turn out a good readable and adequate final precis. They are followed by passages provided with aids to vocabulary and detailed outlines. The passages selected for precis writing cover a wide range of interests and have been carefully graded. • There is a comprehensive section on letter writing covering personal, business, and official correspondence. While it explains the requisites of the good letter—its style, layout – it also provides a number of model letters for quick guidance

Business Statistics (According to Minimum Uniform Syllabus Prescribed by National Education Policy) - Dr. B.N. Gupta 2022-01-14

Business Statistics has been given an important place in our courses of studies in various social sciences, business management, public administration, etc. No student of these disciplines can afford without knowledge of this important branch of knowledge. The present textbook 'Business Statistics' is designed to introduce students of business economics and management to the method and application of Statistics. This book is of utmost utility for the

students of various courses namely B.Com, M.Com, MBA, etc. For the help of the students, the subject matter of the book is simple, comprehensible and easily understandable. Moreover, wherever required, important facts, examples, tables, graphs, etc. are used for enhancing the quality of the chapters. For a better understanding of various theories and principles in each lesson, Practical Problems And Solutions are also included. In addition to this for self-assessment, at the end of each chapter Long Answer Type Questions, Short Answer Type Questions and Objective Type Questions are given.

Business Statistics - Tulsian P.C. & Jhunjhunwala Bharat 2008

Statistics - An Introduction 2. Classification And Tabulation 3. Diagrammatic And Graphical Presentation 4. Measure Of Central Tendency 5. Measures Of Dispersion 6. Skewness, Moments And Kurtosis 7. Correlation 8. Regression Analysis 9. Analysis Of Time Series 10. Index Numbers

Financial Accounting - Dr. M.P. Gupta 2022-11-05

The present book aims to meet in full measure the requirement of B.Com students opting for Financial Accounting as a textbook. The objective of the textbook is a basic treatment of the main principles of Financial Accounting. The standard set for the book is complete clarity for beginners and such simplicity of exposition to make the text practically the best one. It is for this purpose that a maximum range of examples and illustrations (about 320) form the part of the textbook. Salient Features: 1. Most comprehensive coverage of subject matter. All topics under the syllabus have been explained in detail. 2. Most authentic and elaborate presentation of subject matter in simple and lucid style with a very large numbers of examples and illustrations (about 320). 3. At the beginning of each chapter an outline of chapter is given. Important Aspects of the chapters are given at the end of the chapter. 4. In each chapter Objective and Multiple Choice Questions are given in large number. At the end of each chapter, Assignments containing theoretical and numerical questions are also given for practice and revision. 5. The book also contains GST Accounting as an Appendix of Chapter 2. 6. The book covers latest changes and amendments in

the law. It is based on Accounting Standard (AS) and Indian Accounting Standard (Ind. AS).

Cybersecurity Issues, Challenges, and Solutions in the Business World - Verma, Suhasini 2022-10-14

Cybersecurity threats have become ubiquitous and continue to topple every facet of the digital realm as they are a problem for anyone with a gadget or hardware device. However, there are some actions and safeguards that can assist in avoiding these threats and challenges; further study must be done to ensure businesses and users are aware of the current best practices. *Cybersecurity Issues, Challenges, and Solutions in the Business World* considers cybersecurity innovation alongside the methods and strategies for its joining with the business industry and discusses pertinent application zones such as smart city, e-social insurance, shrewd travel, and more. Covering key topics such as blockchain, data mining, privacy, security issues, and social media, this reference work is ideal for security analysts, forensics experts, business owners, computer scientists, policymakers, industry professionals, researchers, scholars, academicians, practitioners, instructors, and students.

Fundamentals of Mathematical Statistics - S.C. Gupta 2020-09-10

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities. Knowledge updating is a never-ending process and so

Some prominent additions are given below: 1. Variance of Degenerate Random Variable 2. Approximate Expression for Expectation and Variance 3. Lyapounov's Inequality 4. Holder's Inequality 5. Minkowski's Inequality 6. Double Expectation Rule or Double-E Rule and many others

Business Law - As per IP University Syllabus for BBA and B.Com. (Hons.) - N.D. Kapoor
2020-01-01

As per IP University Syllabus for BBA and B.Com. (Hons.)

The Chartered Accountant - 1993

All of Statistics - Larry Wasserman 2013-12-11

Taken literally, the title "All of Statistics" is an exaggeration. But in spirit, the title is apt, as the book does cover a much broader range of topics than a typical introductory book on mathematical statistics. This book is for people who want to learn probability and statistics quickly. It is suitable for graduate or advanced undergraduate students in computer science, mathematics, statistics, and related disciplines. The book includes modern topics like non-parametric curve estimation, bootstrapping, and classification, topics that are usually relegated to follow-up courses. The reader is presumed to know calculus and a little linear algebra. No previous knowledge of probability and statistics is required. Statistics, data mining, and machine learning are all concerned with collecting and analysing data.

International Books in Print, 1995 - Barbara Hopkinson 1995

Fundamentals of Applied Statistics - S. C. Gupta
2007

Corporate Accounting - R.L. Gupta 2021-07-19

The 14th Revised Edition of the book "Corporate Accounting" includes the provision of the Companies Act, 2013, SEBI rules and regulations and Accounting Standards, wherever applicable. The whole book has been updated and corrections made wherever required. Theory and accounting treatment has been revised as per Accounting Standards - 4 (Revised) and Companies (Amendment) Act, 2019. Each aspect of a chapter has been discussed in detail in order to meet the requirements of the syllabus prescribed by different universities and professional institutes. Salient Features of the Book The following features are worth nothing in the present text: • The illustrations and assignment material has been made to conform to the requirements of Schedule III of the Companies Act, 2013. The relevant problems/ solutions has also been revised. • The revised revision of Paragraph 14 of Accounting Standards — 4 concerning Financial Statements

regarding Proposed final dividend has been incorporated at relevant pages and the illustrations amended accordingly. • The relevant provisions of Ind AS — 7: Statements of Cash Flows dealing with Bank Overdraft and Proposed Dividend have also been taken care of in this book. • In the chapter of Redemption of Debentures, the treatment of interest on Debenture Redemption Funds Investments or Profit (or Loss) on the sale of DRFI have been also summarised in the chapter. • All chapters have been revised and adapted. Problem of each chapter have been suitably graded and edited to include questions of topical interest. We are confident that the book in its revised form will be more useful for B.Com (Pass and Hons.),

M.Com, M.B.A., C.A., I.P.C.E, C.A.(Final), I.C.M.A. (Stage II) and Company Secretaries (Executive Programme) Examinations.
