The Greatest Game - Greg Rajaram 2021-04-15

Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet: when does intelligence transcend to become consciousness?

His Reluctant Omega - L. C. Davis 2017-01-28

Mitchell is an alpha among alphas in the brutal Mountain Ridge Pack. He rules with equal parts fear and respect, but his pack is growing restless after decades without an heir to his proverbial throne. Only an alpha and an omega pair can sire another alpha to lead the pack, but Mitchell's not-so-secret shame is the fact that he hasn't been able to impregnate any of his female omegas. Unlike the other weaker packs, the Mountain Ridge wolves have always kept their omegas in line and at a safe distance through the infamous yet efficient Breeding Program. On the recommendation of an old rival turned tentative friend, Mitchell decides to try his hand--among other things--in a last-ditch effort at siring an heir with a rare male omega. When a transfer request for one of the only male omegas in the pack uncovers unspeakable abuse and corruption within the Breeding Program, the very future of the pack is thrown into question. -Angel's heart has turned to stone after a lifetime of abuse at the hands of the alpha shifters who oversee the Breeding Program in his pack unit. The only love he has left belongs to the three other omegas he shares his little corner of hell with. Angel will do whatever it takes to protect them, even if it means becoming the mate of the top alpha himself. Angel knows better than to believe the gruff Mitchell when he claims that he's not like the others. Despite his best attempts to steel himself against the strange bond that forms between them, Angel discovers that Mitchell is the most dangerous alpha of all because he wants the one thing Angel has sworn never to give--his heart. With war looming on the horizon, a pack in chaos and two hardened hearts melted by an unlikely spark of love, only one outcome is certain. The Mountain Ridge Pack will never

be the same. Disclaimer: See inside cover for content warnings. This is the second book in The Mountain Shifters series. Reading His Unclaimed Omega may provide context, but this book can be read as a standalone.

With guidance from her parents, coworkers, and sister, along with a newborn filled with the wisdom of elders, Maya navigates her perceptions, looking for answers to unknown questions. Deviant Desires - Katharine Gates 2017-12-19

Can there still be anything new to say about the erotic, sexy play, and desire? YES, because what drives each of us to any sexual fixation-from feet or fat to latex or ponyplay-may hold mysteries, but can never be inexplicable. YES, because even the most seemingly unusual kinks and fetishes, like trample and crush, cannibal play, quicksand and male pregnancy, derive from such universal themes as power and transformation. YES,

because when some taboos crumble, others emerge, with often surprising, delightful, and even disturbing consequences for our psyches and libidos. YES, because as human culture evolves, we newly discover sexual excitement and fulfillment from scenarios (such as car accidents) and objects (like gas masks and medical equipment) that never existed before. YES, because wherever there is darkness, secrecy, and silence, what's most essential is light, revelation, and ever better communication.

Beaver Street - Robert Rosen 2011-04-18

After spending 16 years working behind the x-rated scenes of porn magazines High Society, Stag and D-Cup, Robert Rosen's controversial commentary lifts the lid on two lucrative decades of mainstream pornography, from the conception of free phone sex and glossy erotica to the economic devastation wrought by the growth of the internet. Rosen points fingers, names names and offers sophisticated analysis alongside his vivid and fascinating personal recollections. Beaver Street is funny and dark, salacious and insightful and never less than completely compelling.

Also on View - David Maljković 2019

Throughout an ever-shifting body of work, David Maljković returns to "the question of form," asking how considerations of form itself might illuminate the ebb and flow of ideologies, for example, or the overlaying of past, present, and future. While embracing a wide range of media - including photography, painting, video, sculpture, and various hybrids - the Croatian artist has developed distinctive methods of incorporating, and refiguring, his own earlier works in new installations. Along with every exhibition, Maljković translates his work into the form of a book, which becomes another

lively medium for the artist. For Also on View, he collaborated with designer Toni Uroda to channel the queries of his solo exhibition at The Renaissance Society, which brought together elements from different projects to create a new presentation tailored to the architectural space. The publication features a dynamic array of images, a rendition of the artist talk Maljković delivered on opening night, and an essay by curator Karsten Lund.
