From negotiating the price of a used car to closing a multimillion-dollar merger, Korobkin meticulously explains how to answer the following questions that arise in every negotiation: Should you make the first offer or let the other side go first? What makes some proposals seem more fair than others? How do you decide whether to accept an offer, reject it, or make a counteroffer? When should you propose an unusual agreement structure? What steps can you take to make a bluff believable? Readers will come away with a roadmap to becoming a truly complete negotiator, able to understand bargaining as both a strategic and social activity. What does it take to succeed? This question has fueled a long-running debate. Some have argued that humans are fundamentally competitive, and that pursuing self-interest is the best way to get ahead. Others claim that humans are born to cooperate and that we are most successful when we collaborate with others. In *FRIEND AND FOE*, researchers Galinsky and Schweitzer explain why this debate misses the mark. Rather than being hardwired to compete or cooperate, we have evolved to do both. In every relationship, from co-workers to friends to spouses to siblings we are both friends and foes. It is only by learning how to strike the right balance between these two forces that we can improve our long-term relationships and get more of what we want. Here, Galinsky and Schweitzer draw on original, cutting edge research from their own labs and from across the social sciences as well as vivid real-world examples to show how to maximize success in work and in life by deftly navigating the tension between cooperation and competition. They offer insights and advice ranging from: how to gain power and keep it, how to build trust and repair trust once it's broken, how to diffuse workplace conflict and bias, how to find the right comparisons to motivate us and make us happier, and how to succeed in negotiations - ensuring that we achieve our own goals and satisfy those of our counterparts. Along the way, they pose and offer surprising answers to a number of perplexing puzzles: when does too much talent undermine success; why can acting less competently gain you status and authority, where do many gender differences in the workplace really come from, how can you use deception to build trust, and why do you want to go last on *American Idol* and in many interview situations, but make the first offer when negotiating the sale of a new car. We perform at our very best when

we hold cooperation and competition in the right balance. This book is a guide for navigating our social and professional worlds by learning when to cooperate as a friend and when to compete as a foe—and how to be better at both.

Ask for More - Alexandra Carter 2020-05-05

An instant Wall Street Journal bestseller and "a joy to read" (Douglas Stone and Sheila Heen, authors of *Difficult Conversations*), *Ask for More* shows that by asking better questions, you get better answers—and better results from any negotiation. Negotiation is not a zero-sum game. It's an essential skill for your career that can also improve your closest relationships and your everyday life. Still, people often shy away from it, feeling defeated before they've even started. In this groundbreaking new book on negotiation, Alexandra Carter—Columbia law professor and mediation expert who has helped students, business professionals, the United Nations, and more—offers a straightforward accessible approach anyone can use to ask for and receive more. We've been taught incorrectly that the loudest and most assertive voice prevails in any negotiation, or otherwise, both sides compromise, ending up with less. Instead, Carter shows that you get far more value by asking the right questions of the person you're negotiating with than you do from arguing with them. She offers a simple yet powerful ten-question framework for successful negotiation where both sides emerge victorious. Carter's proven method extends far beyond one "yes" and instead creates value that lasts a lifetime. *Ask for More* is "like having a negotiation coach in your corner" (Linda Babcock, author of *Women Don't Ask*) and gives you the tools to bring clarity and perspective to any critical discussion, no matter the topic.

Making Peace - George J. Mitchell 2012-08-08
Fifteen minutes before five o'clock on Good Friday, 1998, Senator George Mitchell was informed that his long and difficult quest for an Irish peace accord had succeeded--the Protestants and Catholics of Northern Ireland, and the governments of the Republic of Ireland and the United Kingdom, would sign the agreement. Now Mitchell, who served as independent chairman of the peace talks for the length of the process, tells us the inside story of the grueling road to this momentous accord. For more than two years, Mitchell, who was Senate majority leader under Presidents Bush and Clinton, labored to bring together parties whose mutual hostility--after decades of violence and mistrust--seemed insurmountable: Sinn Fein, represented by Gerry Adams; the Catholic moderates, led by John Hume; the majority Protestant party, headed by David Trimble; Ian Paisley's hard-line unionists; and, not least, the governments of the Republic of Ireland and the United Kingdom, headed by Bertie Ahern and Tony Blair. The world watched as the tense and dramatic process unfolded, sometimes teetering on the brink of failure. Here, for the first time, we are given a behind-the-scenes view of the principal players--the personalities who shaped the process--and of the contentious, at times vitriolic, proceedings. We learn how, as the deadline approached, extremist violence and factional intransigence almost drove the talks to collapse. And we witness the intensity of the final negotiating session, the interventions of Ahern and Blair, the late-night phone calls from President Clinton, a last-ditch attempt at disruption by Paisley, and ultimately an agreement that, despite subsequent inflammatory acts aimed at destroying it, has set Northern Ireland's future on track toward a more lasting peace.

Then it helps you figure out your unique passions and capabilities, so you can focus more on what gives meaning and excitement to your life, and less on what you are "supposed" to want.

Negotiating for Success: Essential Strategies and Skills - George J. Siedel 2014-10-04

We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders.

Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract’s legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: “Life is negotiation!” No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

The Art and Science of Negotiation - Howard Raiffa 1985-03-15

Whether you are selling a house, closing a business deal, settling a divorce, arbitrating a labor dispute, or trying to hammer out an international treaty, Howard Raiffa's new book will measurably improve your negotiating skills. Although it is a sophisticated self-help book—directed to the lawyer, labor arbitrator,

business executive, college dean, diplomat—it is not cynical or Machiavellian: Raiffa emphasizes problems and situations where, with the kinds of skills he aims to develop, disputants can achieve results that are beneficial to all parties concerned. Indeed, he argues that the popular “zero-sum” way of thinking, according to which one side must lose if the other wins, often makes both sides worse off than they would be when bargaining for joint mutual gains. Using a vast array of specific cases and clear, helpful diagrams, Raiffa not only elucidates the step-by-step processes of negotiation but also translates this deeper understanding into practical guidelines for negotiators and “intervenorers.” He examines the mechanics of negotiation in imaginative fashion, drawing on his extensive background in game theory and decision analysis, on his quarter-century of teaching nonspecialists in schools of business and public policy, on his personal experiences as director of an international institute dealing with East/West problems, and on the results of simulated negotiation exercises with hundreds of participants. There are popular books on the art of winning and scholarly books on the science of negotiation, but this is the first book to bridge the two currents. Shrewd, accessible, and engagingly written, it shows how a little analysis sprinkled with a touch of art can work to the advantage of any negotiator.

Negotiation is fundamental to our lives; whether it's getting your kids to eat their greens, making your case for a pay rise, or trying to secure a multi-million pound deal for your company. However, negotiation has changed. It's no longer about confrontation where there are winners and losers. Collaboration is now the name of the game. YouGov research commissioned for this book shows UK PLC is losing £9 million per hour from poor negotiating - £17 billion per year. Can you afford to be without a modern framework for deal-making? In *The Yes Book*, Clive Rich provides a method for generating success based on years of experience working for or with major organisations and super brands including Sony, Yahoo, Apple, the BBC, Tesco, and Simon Cowell's Syco, during a negotiating career in which he has brokered more than £10 billion worth of deals. By breaking negotiation into its three key elements of Attitude, Behaviour and Process, he helps you learn how to shape, create and close deals. You will discover what your negotiating style is, and how you can apply it to influence others and give yourself the edge. Bring Yourself - Mori Taheripour 2020-03-24

A look at how relationships can drive successful negotiation, from an award-winning faculty member at the Wharton School of Business. Contrary to conventional wisdom about what makes a good negotiator - namely, being aggressive and unemotional - in *Bring Yourself*, Taheripour offers a radically different perspective. In her own life, and in her more than 15 years of experience teaching negotiation, she's found that the best negotiators are empathetic, curious, and present. The essence of bargaining isn't the transaction, but the conversation and human connection. It is when we bring our whole, authentic selves to the table that we can advocate for ourselves fearlessly and find creative solutions that benefit everyone. Taheripour has seen the power of this mindset shift firsthand. In her consulting, her classes at Wharton, and in her work teaching negotiation for the Goldman Sachs 10,000 Small Businesses program, her students and clients experience personal breakthroughs as they face the fears and false narratives that held them back. *Bring Yourself* explains how our pressure points, personal experience, and even our cultural expectations can become roadblocks to finding common ground, and it offers essential

strategies to move beyond them and open our minds. Taheripour argues that regardless of our own perceived ability to negotiate, we must have the courage to engage because bargaining plays a crucial role in every aspect of our lives. We negotiate boundaries with our parents and partners, bedtimes with our kids, and even with ourselves every time we make a pros and cons list to weigh a major decision. Negotiation is how we problem solve and how we find our voice. With eye-opening and empowering stories throughout, *Bring Yourself* helps readers gain the confidence they need to achieve their goals in work and in life. Timely and provocative, this paradigm-shifting book can transform our world and the way we work together.
