Soul Shift - Mark Ireland 2011-03-15

Businessman Mark Ireland's father was Richard Ireland, a deeply spiritual minister and renowned psychic and medium who counted Mae West among his famous clients. While he loved his father, Mark followed a more conventional path in pursuit of mainstream success—until the wrenching death of his youngest son. This unexpected tragedy plunges Mark into the spiritual world of psychics and mediums in a frantic attempt to communicate with the dead. His defenses and pragmatic mindset begin to fade as he remembers premonitions on the day of his son's death. He consults a number of well-known mediums and is struck by the remarkably accurate information their readings provide. Mark first meets with Allison Dubois, the subject of NBC's hit show *Medium*, and later participates in a single-blind lab experiment with medium Laurie Campbell, filmed for a Discovery Channel feature. He then enters a new dimension of personal paranormal experience, as his own psychic awareness begins to unfold. This dramatic story of a father's unbearable loss and his discovery of life after death offers hope to the bereaved and compelling evidence that death may not be the end. From the Trade Paperback edition.

Mind, Value, and Reality - John McDowell 2001-12-21

This volume collects some of John McDowell's influential papers, written at various times over the last two decades. One group of essays deals mainly with issues in the interpretation of the ethical writings of Aristotle and Plato. A second group of papers contains more direct treatments of questions in moral philosophy that arise naturally out of reflection on the Greek tradition. Some of

the essays in the second group exploit Wittgensteinian ideas about reason in action, and they open into the third group of papers, which contains readings of central elements in Wittgenstein's difficult later work. A fourth group deals with issues in the philosophy of mind and with questions about personal identity and the special character of first-personal thought and speech.

Financial Shock - Mark Zandi 2008-07-09

"The obvious place to start is the financial crisis and the clearest guide to it that I've read is Financial Shock by Mark Zandi. ... it is an impressively lucid guide to the big issues." – The New York Times "In Financial Shock, Mr. Zandi provides a concise and lucid account of the economic, political and regulatory forces behind this binge." – The Wall Street Journal "Aggressive builders, greedy lenders, optimistic home buyers: Zandi succinctly dissects the mortgage mess from start to (one hopes) finish." – U.S. News and World Report "A more detailed look at the crisis comes from economist Mark Zandi, co-founder of Moody's Economy.com. His "Financial Shock" delves deeply into the history of the mortgage market, the bad loans, the globalization of trashy subprime paper and how homebuilders ran amok. Zandi's analysis is eye-opening. ... he paints an impressive, more nuanced picture." – Kiplinger's Personal Finance Magazine "If you wonder how it could be possible for a subprime mortgage loan to bring the global financial system and the U.S. economy to its knees, you should read this book. No one is better qualified to provide this insight and advice than Mark Zandi." –Larry Kudlow, Host, CNBC's Kudlow & Company "Every once in a while a book comes along that's so important, it commands recognition. This is one of them. Zandi provides a rilliant blow-by-blow account of how greed, stupidity, and recklessness brought the first major economic crises of the 21st entury and the most serious since the Great Depression."

–Bernard Baumohl, Managing Director, The Economic Outlook Group and best-selling author, The Secrets of Economic Indicators "Throughout the financial crisis Mark Zandi has played two important roles. He has insightfully analyzed its causes and thoughtfully recommended steps to alleviate it. This book continues those tasks and adds a third—providing a comprehensive and comprehensible explanation of the issues that is accessible to the general public and extremely useful to those who specialize in the area." –Barney Frank, Chairman, House Financial Services Committee The subprime crisis created a gigantic financial catastrophe. What happened? How did it happen? How can we prevent similar crises from happening again? Mark Zandi answers all these critical questions—systematically, carefully, and in plain English. Zandi begins with a fast-paced overview and then illuminates the deepest causes, from the psychology of homeownership to Alan Greenspan's missteps. You'll see the home "flippers" at work and the real estate agents who cheered them on. You'll learn how Internet technology and access to global capital transformed the mortgage industry, helping irresponsible lenders drive out good ones. Zandi demystifies the complex financial engineering that enabled lenders to hide deepening risks, shows how global investors eagerly bought in, and explains how flummoxed regulators failed to prevent disaster, despite crucial warning signs. Most important, Zandi offers indispensable advice for investors who must recognize emerging bubbles, policymakers who must improve oversight, and citizens who must survive whatever comes next. Bavinck - James Eglinton 2020-09-29

Dutch Calvinist theologian Herman Bavinck, a significant voice in the development of Protestant theology, remains relevant many years after his death. His four-volume Reformed Dogmatics is one of the most important theological works of the twentieth century. James Eglinton is widely considered to be at the forefront of contemporary interest in Bavinck's life and thought. After spending considerable time in the Netherlands researching Bavinck, Eglinton brings to light a wealth of new insights and previously unpublished documents to offer a definitive biography of this renowned Reformed thinker. The book follows the course of Bavinck's life in a period of dramatic social change, identifying him as an orthodox Calvinist challenged with finding his feet in late modern culture. Based on extensive archival research, this critical biography presents numerous significant and previously ignored or unknown aspects of Bavinck's person and life story. A black-and-white photo insert is included. This volume complements other Baker Academic offerings on Bavinck's theology and ethics, which together have sold 90,000 copies.

Costly Obedience - Mark A. Yarhouse 2019-06-25

Though we often hear about the "gay problem" today, there is an even deeper problem in the church today--one that we often overlook. The call to follow Christ is a call to costly obedience for all, not just for gay Christians. Far too often, the church has elevated homosexuality above other sins and required a costly obedience from gays that it is unwilling to demand of others. And yet, the answer is not to weaken the demands of obedience. Instead, gay Christians who make the difficult choice to align their lives with the biblical view of sexuality are a gift to the church, reminding all of us that spiritual growth and maturity is costly. There is a price to pay in following Christ and devoting our lives to the

call of the gospel, and it is one that we all must pay--gay and straight Christians alike. Through the stories and struggles of gay Christians who are reorienting their lives around the costly obedience required to follow Christ, Mark Yarhouse and Olya Zaporozhets call the church to reorient as well, leaving behind the casual morality that is widespread today to pursue the path of radical discipleship. Unlike any other book on homosexuality and the church, this is a call to examine your life and consider what God is asking you to lay down to take up your cross and follow him.

Liberty and Tyranny - Mark R. Levin 2009-03-24

Don't miss syndicated radio host and author Mark Levin's #1 New York Times acclaimed and longtime bestselling manifesto for the conservative movement. When nationally syndicated radio host Mark R. Levin's Liberty and Tyranny appeared in the early months of the Obama presidency, Americans responded by making his clarion call for a new era in conservatism a #1 New York Times bestseller for an astounding twelve weeks. As provocative, well-reasoned, robust, and informed as his on-air commentary, with his love of our country and the legacy of our Founding Fathers reflected on every page, Levin's galvanizing narrative provides a philosophical, historical, and practical framework for revitalizing the conservative vision and ensuring the preservation of American society. In the face of the modern liberal assault on Constitution-based values, an attack that has resulted in a federal government that is a massive, unaccountable conglomerate, the time for reinforcing the intellectual and practical case for conservatism is now. In a series of powerful essays, Levin lays out how conservatives can counter the tyrannical liberal corrosion that has filtered into every timely issue affecting our daily lives, from the economy to health care, global warming to immigration, and more.

Weep with Me - Mark Vroegop 2020-06-19

Gospel unity creates racial harmony. However, Martin Luther King Jr. once said that the most segregated hour in America is eleven o'clock on Sunday morning. Equipped with the gospel, the church should be the catalyst for reconciliation, yet it continues to ignore immense pain and division. In an effort to bridge the canyon of misunderstanding, insensitivity, and hurt, Mark Vroegop writes about the practice of lament, which he defines as "the biblical language of empathy and exile, perseverance and protest." Encouraging you to "weep with those who weep" (Rom. 12:15), Vroegop invites you to mourn with him over the brokenness that has caused division and to use lament to begin the journey toward a diverse and united church. The Fate of the Apostles - Sean McDowell 2016-03-09

The Book of Martyrs by John Foxe written in the 16th century has long been the go-to source for studying the lives and martyrdom of the apostles. Whilst other scholars have written individual treatments on the more prominent apostles such as Peter, Paul, John, and James, there is little published information on the other apostles. In The Fate of the Apostles, Sean McDowell offers a comprehensive, reasoned, historical analysis of the fate of the twelve disciples of Jesus along with the apostles Paul, and James. McDowell assesses the evidence for each apostle's martyrdom as well as determining its significance to the reliability of their testimony. The question of the fate of the apostles also gets to the heart of the reliability of the kerygma: did the apostles really believe Jesus appeared to them after his death, or did they fabricate the entire story? How reliable are the resurrection accounts? The willingness of the apostles to die for their faith is a popular argument in resurrection studies and McDowell offers insightful scholarly analysis of this argument to break new ground within the spheres of New Testament studies, Church History, and apologetics.

Reasons for Faith (Foreword by Lee Strobel) - Norman L. Geisler 2007-10-26

Many Christians want to witness for their faith, but they are afraid they will not be able to answer questions that others may ask of them. First Peter 3:15 reminds believers to always be prepared to "make a defense to anyone who asks you for a reason for the hope that is in you." Norman Geisler and Chad Meister realize the fear of facing questions about the Christian faith. Their book Reasons for Faith gives believers grounded biblical apologetics to help them defend their faith. By covering the importance of apologetics and then applying apologetics to popular

culture and theological issues, these authors give all Christians the tools they need to stand firm in their faith and to be able to share that faith in today's society.

101 Good Reasons to Believe - James D. Sideras 2018-01-04

This book presents a strong case for the Christian faith by using scientific evidence and philosophical reasoning. Although an abundance of Christian apologetic textbooks exist, most are not easily accessible because they offer long and scholarly treatments of subject matter that may not appeal to lay readers. This book differs in two ways. First, it presents the case for Christianity in a friendly scholarly prose, which enables readers to plainly understand each reason to believe. Second, these reasons are concisely structured so that within minutes, readers can quickly examine each argument in light of the evidence presented. 101 Good Reasons to Believe is essential reading for theists who wish to strengthen their faith in God and for nontheists who desire to critically investigate the truth claims of the Bible. This book includes topics such as: astronomical evidence for the existence of God, evidence for creation and intelligent design, refutation of Darwinian evolution, the historicity of Jesus, why there is human suffering if God exists, the accuracy of the Bible, and evidence for heaven and hell. The 101 reasons presented make thought-provoking and compelling reading for scholars and non-scholars alike.
