Wilderness Hunting and Wildcraft - Townsend Whelen 1927

Hatcher's Notebook - Julian S. Hatcher 1962

Handgun enthusiasts, gun-owning do-it-yourself, law enforcement officials, and gunsmiths here is the ultimate one-volume guide to acquiring and developing all the necessary skills for making pistol repairs at home, from helpful hints on work space and setting up a small shop, to the tools needed and how to use them properly, to welding, hardening, and gun finishing. All this valuable information, plus much more, is contained in this easy-to-use reference for handgun aficionados.

[The Writer's Guide to Weapons](#) - Benjamin Sobieck 2015-07-09

When it comes to writing weapons, most authors shoot from the hip--and miss. The Writer's Guide to Weapons will help you hit your target every time. Firearms and knives have starring roles in a wide range of genres--crime, thriller, war, mystery, Western, and more. Unfortunately, many depictions of weapons in novels and film are pure fiction. Knowing the difference between a shotshell and a slug, a pistol and a revolver, or a switchblade and a butterfly knife is essential for imbuing your story with authenticity--and gaining popularity with discerning readers. Inside you'll find:

- An in-depth look at the basics of firearms and knives: how they work, why they work, what they look like, and how to depict them accurately in your stories.
- The biggest weapons myths in fiction, TV, and film.
- A surefire guide for choosing the correct weapon for your characters, no matter their skill level, strength, or background.
- A review of major gun and knife laws, weapons safety tips, and common police tactics.
- "The Hit List," showcasing the most popular weapons for spies, detectives, gunslingers, gangsters, military characters, and more.
- Examples highlighting inaccurate vs. accurate weapons depictions.
- An insightful foreword by David Morrell, the award-winning creator of Rambo. Equal parts accessible, humorous, and practical, The Writer's Guide to Weapons is the one resource you need to incorporate firearms and knives into your fiction like a seasoned professional.

The Sources of Innovation - Eric von Hippel 1988

It has long been assumed that new product innovations are typically developed by product manufacturers, an assumption that has inevitably had a major impact on innovation-related research and activities ranging from how firms organize their research and development to how governments measure innovation. In this synthesis of his seminal research, von Hippel challenges that basic assumption and demonstrates that innovation occurs in different places in different industries. Presenting a series of studies showing that end-users, material suppliers, and others are the typical sources of innovation in some fields, von Hippel explores why this variation in the "functional" sources of innovation occurs and how it might be predicted. He also proposes and tests some implications of

replacing a manufacturer-as-innovator assumption with a view of the innovation process as predictably distributed across users, manufacturers, and suppliers. Innovation, he argues, will take place where there is greatest economic benefit to the innovator.

Professional Guide's Manual - George Leonard 1911-1994 Herter 2021-09-09

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Big-Bore Revolvers - Max Prasac 2012-08-31

Is bigger better? You bet it is, when it's a big-bore revolver! Big-Bore Revolvers offers a one-stop resource for the wheelgun novice to the hardened veteran and everyone in between. With in-depth coverage of commercial and wildcat calibers and their effectiveness, theoretical and actual application of terminal ballistics and a detailed look at today's available revolver platforms, this is the most comprehensive book ever published on the topic. Inside you'll find: A one-stop resource for everything you want and need to know about big-bore revolvers Foreword by Dick Casull, modern big-bore revolver pioneer and father of the cartridge that carries his name--the famous .454 Casull A comprehensive look at dozens of oversized cartridges, their designers and ballistics Detailed descriptions of the power-house revolvers that can handle big-bore loads--even if you can't! More than 250 full-color photos, highlighting cartridge comparisons, the revolvers themselves, and the big and dangerous game that are no match for the devastating power of these firearms. And much, much more! With a special look at the pioneers behind the big-bore revolution, and hunt stories as giant as the guns and cartridges themselves, this is one book every handgun lover and hunter will want to read cover to cover. Authored by big-bore revolver aficionado Max Prasac, and with collaboration from John Parker and Jack Huntington, two of the most authoritative names in big-bore revolver circles, this compendium of facts, history and first-hand experiences behind the sights fills a long-vacant niche.

Handgun Stopping Power - Evan Marshall 1992-01-01

Dramatic first-hand accounts of the results of handgun rounds fired into criminals by cops, storeowners, cabbies and others are the heart and soul of this long-awaited book. This is the definitive methodology for predicting the stopping power of handgun loads, the first to take into account what really happens when a bullet meets a man.

Kidnapping and Abduction - Brian John Heard 2014-12-01

Terrorist groups and organized crime cartels pose an increasing threat of kidnapping throughout many regions in the world. At the same time, international travel has become more commonplace for both business and leisure purposes. *Kidnapping and Abduction: Minimizing the Threat and Lessons in Survival* provides a practical guide on the precautions taken

Repeating and Multi-Fire Weapons - Gerald Prenderghast 2018-03-23

From the very earliest days of organized warfare, combatants have wanted to develop weapons with more firepower. This has inevitably led to a wide variety of repeating weapons, capable of a degree of sustained fire without reloading. Based largely upon new research, this book explores the history of repeating and multi-fire weapons, beginning with the Chinese repeating crossbow in the 4th century BCE, and ending with the world's most common firearm, the Kalashnikov AK-47. The author describes the potency of the machine gun in World War I, the development of the semiautomatic pistol and the role of the submachine gun in improving the effectiveness of the infantryman.

Educational Research - John W. Creswell 2015

"Educational Research: Planning, Conducting, and Evaluating Quantitative and Qualitative Research offers a truly balanced, inclusive, and integrated overview of the processes involved in educational research. This text first examines the general steps in the research process and then details the procedures for conducting specific types of quantitative, qualitative, and mixed methods studies. Direct guidance on reading research is offered throughout the text, and interactive features provide opportunities for practice."--Publisher's description.

Handgun Training for Personal Protection - Richard Allen Mann 2013-04-22

The handgun is no longer a product purchased and used in an unaltered state. A vast assortment of accessories, including high performance sights, weapon lights and laser aiming devices have not only enhanced the handgun, they have changed the methodology and mindset of personal protection. In *Handgun Training for Personal Protection: How to Choose & Use the Best Sights, Lights, Lasers & Ammunition*, the first comprehensive book of its kind, shooting expert Richard A. Mann explores the world of these exciting advances and what they mean to your self-defense practices. Inside you'll find: How lasers, lights and sights are valuable in a defensive situation. Techniques for training with lasers, lights and sights that develop and reinforce effective use of the handgun in a defensive situation. A comprehensive explanation of sighting tool functionality. Information on the latest equipment options. "This book belongs in every shooter's library. Mann provides a practical, hands-on guide to working with your handgun and the equipment that goes with it. Along the way, common misconceptions are corrected, and often neglected topics are explained. This book will become your go-to reference." ~Il Ling New, Gunsite Instructor "You will read it again and again, as your defensive ability and understanding grow. Take it to heart; it just might save your life." ~Sheriff Jim Wilson, Senior Field Editor, NRA Publications

The Sailor's Word-book - William Henry Smyth 1867

Rifle Bullets for the Hunter - 2006-01-01

History of Woman Suffrage: 1900-1920 - Elizabeth Cady Stanton 1922

Maneuver and Firepower - John B. Wilson 1998

Gun Violence in America - Alexander DeConde 2003

An in-depth analysis of the folklore surrounding gun use and the state of the debate in today's political climate.

The Doolittle Family in America - William Frederick Doolittle 2016-04-22

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. Hell, I was There! - Elmer Keith 1979

Unburied Lives - Laurie A. Wilkie 2021-09-01

According to the accounts of two white officers, on the evening of November 20, 1872, Corporal Daniel Talliafero, of the segregated Black 9th cavalry, was shot to death by an officer's wife while attempting to break into her sleeping apartment at the military post of Fort Davis, Texas. Historians writing about Black soldiers serving in the West have long accepted the account without question, retelling the story of Daniel Talliafero, the thwarted "rapist." In *Unburied Lives* Wilkie takes a different approach, demonstrating how we can "listen" to stories found in things neglected, ignored, or disparaged—documents not consulted, architecture not studied, material traces preserved in the dirt. With a focus on Fort Davis, Wilkie brings attention to the Black enlisted men and non-commissioned officers. In her archaeological accounting, Wilkie explores the complexities of post life, racialized relationships, Black masculinity, and citizenship while also exposing the structures and practices of military life that successfully obscured these men's stories for so long.

Under Orion - 2015-10-24

We hunt for many reasons. Maybe the most cherished thing we get from hunting are the memories. *Under Orion* is a collection of one hunter's memories made while hunting from the hills of Appalachia where he was born, to the green hills of Africa. All are told in Richard Mann's simple campfire fashion. Maybe Adam Heggenstaller, the Executive Editor of the National Rifle Association's *American Hunter* magazine explained this book best when he commented, "Under Orion confirms the most treasured things we bring home from the field are measured not in pounds or inches, but instead by moments forever lodged in our memories. Here are one man's trophies from a lifetime of hunting, richly recounted in stories that stir you to reflect on your own experiences outdoors and encourage you to gather more." *Under Orion* makes for great bed time reading. You'll put it down, close your eyes, and your own hunting memories will take over.

Antifa - Mark Bray 2017-08-29

The National Bestseller "Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers

past and present.”—THE NEW YORKER "Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists."—Carlos Lozada, THE WASHINGTON POST "[Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street...Antifa: The Anti-Fascist Handbook couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment."—SAN FRANCISCO CHRONICLE In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the "antifa" opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, "The anti-fascists saved our lives.") Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, Antifa details the tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

A Cruising Voyage round the World - Woodes Rogers 2018-05-15

Reproduction of the original: A Cruising Voyage round the World by Woodes Rogers

A Voyage Round the World, in the Years 1740-44 - George Anson 1781

Manalive - G. K. Chesterton 2013-01-16

Light-hearted work introduces Innocent Smith, a bubbly, eccentric gentleman of questionable character, into the lives of a group of young disillusioned people — and the result is inspired, high-spirited nonsense.

Cartridges of the World - Frank C. Barnes 2012-10-05

The Essential Guide to Ammunition from Around the World! Every serious firearms enthusiast, cartridge collector and handloader will benefit from our completely revised and updated Cartridges of the World, 13th Edition, most widely read cartridge reference book of its kind on the subject. From the latest introductions in commercial cartridges and wildcats, to the fresh, authoritative articles on current ammunition trends, this book contains everything the active cartridge collector and firearms enthusiast needs to know. IT'S ALL HERE! 50 new cartridges Full-color feature story section Trendsetting wildcats Updated spec and reference charts Expert advice on handloads and cartridge selection

The Book of the Lion - Alfred E. Pease 1913

On Safari, B.E.A., 16th October 1909. To Sir Alfred E. Pease. Dear Sir Alfred,—I am very much pleased that you are to write a book about lion-hunting. Very, very few people have an experience which better justifies such a book.

It is the king of all sports when carried on as you have carried it on, especially when you gallop the lion, and then kill him on foot as he charges or prepares to charge as a lion thus rounded up will generally do. I am peculiarly pleased to have you write the book, for it was under your guidance that I first tried lion-hunting. Sincerely yours, Theodore Roosevelt. This hunting classic contains the following chapters: Foreword by Theodore Roosevelt I. Lions and Lion Land II. About Courage III. Of the Courage of Lions IV. Of Dangerous Game V. Of Sport VI. The Lion VII. The Distribution of Lions VIII. Lion Cubs and Tame Lions IX. The Haunts of Lions X. The Lion's Voice and the Lion's Eye XI. Some Ways of Lions XII. In the Lion's Jaw XIII. The Food and Drink of Lions XIV. Lion-Hunting XV. Hunting with Dogs and Hunting with Horses XVI. Night-Shooting XVII. Hints for the Beginner

The Scout Rifle Study - Richard Mann 2018-02-21

This book is the definitive study of the enigma known as the Scout Rifle. The Scout Rifle, as conceived by Jeff Cooper, is one of the most misunderstood firearms of all time. The Scout Rifle Study examines the factors that influenced Cooper's Scout Rifle Concept, examines the practicality of the Scout Rifle, looks at the various attempts to achieve Scout Rifle nirvana, and explores the feasibility of the Scout Rifle in the modern world. Whether you're already a Scout Rifle enthusiast or if you're considering a Scout Rifle for the first time, The Scout Rifle Study is the ultimate guide to what many believe is a rifle that can do everything well or possibly, the only rifle you will ever need.

[A Book of Remarkable Criminals](#) - Henry Brodribb Irving 1918

Learning to be - Edgar Faure 1972-01-01

Pre-Incident Indicators of Terrorist Incidents - Brent L. Smith 2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism

relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

[The Wonderful Father Book](#) - Richard Mann 1985

Offers magic tricks, pantomime, clown tricks, and funny faces parents can share with their children

The Gun Digest Book of Modern Gun Values - Phillip Peterson 2011-09-16

Learn to identify the firearms, evaluate their condition and determine value. The Gun Digest Book of Modern Gun Values features detailed specifications and current values from specialized experts for domestic and imported handguns, rifles, shotguns and commemorative firearms. 25,000 gun values 8,500 different guns 4,000 photos

Gun Digest Shooter's Guide to the AR-15 - Richard A. Mann 2014

Welcome to the world of the AR-15! Without a doubt, the AR-15 and AR-10 rifles are two of America's most popular semi-auto long guns. Every day, new shooters are exploring these durable, reliable, and accurate rifles and finding new and fun ways to use them. Now, in the Gun Digest Shooter's Guide to the AR-15, author Richard Mann examines what has truly become the most versatile rifle in America. Inside you'll find: Gas impingement vs. piston systems--which one's right for you? Competition, security and hunting--how the AR does it all. Optics and sights, uppers and lowers, handguards and stocks. A full breakdown of AR-15 and AR-10 cartridges. Plus how to build your own AR and much, much more! Whether you're brand new to the world of ARs or you're a veteran owner with a safe full of ARs in a dozen configurations, Mann brings the goods and offers something for everyone. Truly, the Gun Digest Shooter's Guide to the AR-15 is the one reference every AR aficionado will reach for time and time again.

Strategic Management and Business Policy - Thomas L. Wheelen 1998
