## **The Christie File** - Stuart Christie 1980

## Constructionism - Idit Harel 1991

In 1985 the Media Lab was created at MIT to advance the idea that computation would give rise to a new science of expressive media. Within the media lab, the Epistemology and Learning group extends the traditional definition of media by treating as expressive media materials with which children play and learn. The Group's work

follows a paradigm for learning research called Constructionism. Several of the chapters directly address the theoretical formulation of Constructionism, and others describe experimental studies which enrich and confirm different aspects of the idea. Thus this volume can be taken as the most extensive and definitive statement to date of this approach to media and education research and practice. This book is structured around four major themes: learning through designing and programming; epistemological styles in constructionist learning, children and cybernetics; and video as a research tool for exploring and documenting constructionist environments.

2013-06-27

Antonio Negri wrote the two essays that comprise *Time for Revolution* while serving a prison sentence for alleged involvement with radical left-wing groups. In the wake of the global crisis of capitalism heralded by the 2008 crash, the question has never been more relevant and Negri remains an insightful and passionate guide to any attempt to answer it.

**Recondite Harmony** - Deborah Burton 2012

Who is Puccini? Most debates about the composer are focused on his cultural and musical identity: is his music traditional or progressive? The thesis of this volume is that the diametrically opposed forces of the traditional and the progressive live together in Puccini's music, embedded deeply within his harmonic constructs and in many musical parameters. *Recondite Harmony* is a study of all of Puccini's operas examined through a primarily analytic lens. It offers essays on salient aspects of each of the operas while tracing in them both progressive and traditional elements. The volume is divided into two parts: in the first, approaches that inform the entire corpus of Puccini's operas are examined. The second half of the book is devoted to brief essays discussing interesting aspects of each of his operas. Techniques in each opus that merit analytic attention are highlighted and discussed in relation to the drama at hand, individuating more fully musical aspects special to each score. Included are also previously unpublished source material and autograph sketches.

**Critical Multicultural Analysis of Children's Literature** - Maria José Botelho 2009-05-07

"Children's literature is a contested terrain, as is multicultural education. Taken together, they pose a formidable challenge to both classroom teachers and academics.... Rather than deny the inherent conflicts and tensions in the field, in *Critical Multicultural Analysis of Children's Literature: Mirrors, Windows, and Doors*, Maria José Botelho and Masha Kabakow Rudman confront, deconstruct, and reconstruct these terrains by proposing a reframing of the field.... Surely all of us - children, teachers, and academics - can benefit from this more expansive understanding of what it means to read books." Sonia Nieto, From the Foreword  
*Critical multicultural analysis provides a*

philosophical shift for teaching literature, constructing curriculum, and taking up issues of diversity and social justice. It problematizes children's literature, offers a way of reading power, explores the complex web of sociopolitical relations, and deconstructs taken-for-granted assumptions about language, meaning, reading, and literature: it is literary study as sociopolitical change. Bringing a critical lens to the study of multiculturalism in children's literature, this book prepares teachers, teacher educators, and researchers of children's literature to analyze the ideological dimensions of reading and studying literature. Each chapter includes recommendations for classroom application, classroom research, and further reading. Helpful end-of-book appendixes include a list of children's book awards, lists of publishers, diagrams of the power continuum and the theoretical framework of critical multicultural analysis, and lists of selected children's literature journals and online resources.

Aber so ist es doch nicht. Nur daß mir niemand hilft --, sonst wäre lauter niemand hübsch. Ich würde ganz gern -- warum denn nicht -- einen Ausflug mit einer Gesellschaft von lauter Niemand machen. Natürlich ins Gebirge, wohin denn sonst? Wie sich diese Niemand aneinander drängen, diese vielen quer gestreckten und eingehängten Arme, diese vielen Füße, durch winzige Schritte getrennt! Versteht sich, daß alle in Frack sind. Wir gehen so lala, der Wind fährt durch die Lücken, die wir und unsere Gliedmaßen offen lassen. Die Hälse werden im Gebirge frei! Es ist ein Wunder, daß wir nicht singen.

Seventeen Variations on Proposed Themes for a Pure Phonetic Ideology - Emilio Villa 1992

Television Drama in Spain and Latin America - Paul Julian Smith 2018-07

Television Drama in Spain and Latin America addresses two major topics within current cultural, media, and television studies: the question of fictional genres and that of transnational circulation. While much research has been carried out on both TV formats and remakes in the English-speaking world, almost nothing has been published on the huge and dynamic Spanish-speaking sector. This book discusses and analyses series since 2000 from Spain (in both Spanish and Catalan), Mexico, Venezuela, and (to a lesser extent) the US, employing both empirical research on production and distribution and textual analysis of content. The three genres examined are horror, biographical series, and sports-themed dramas; the three examples of format remakes are of a period mystery (Spain, Mexico), a romantic comedy (Venezuela, US), and a historical epic (Catalonia, Spain). Paul Julian Smith is Distinguished Professor at the Graduate Center, City University of New York. He was previously Professor of Spanish at the University of Cambridge. He is the author of twenty books and one hundred academic articles.

Strike One to Educate One Hundred - Reggie Emilia 2019-10-28

When Strike One to Educate One Hundred was written, Italy's Red Brigades were crashing out of our daily newspapers into everyone's awareness. Yet, almost no real information about them was available here. Strike One was written for that need. It was not an academic study. It was written by people who were doing it, and read by people who wanted to do it. Now there are many books and countless papers and articles about the Red Brigades' history, but most are from a police and state point of view. Strike One is still a unique and practically useful work, because it tells the other side, of innovative anti-capitalism. It details how the spectre of urban guerrilla warfare grew at last out of the industrial centers of modern Italy. Showing how this was a political project of a young working class layer that was fed up with reformism's lies. The authors, who were varied supporters who chose to remain anonymous due to Italy and NATO's draconian "anti-terrorist" laws, tell much of this story in the militants' own words: in translations of key political documents, news reports and communiqués. Practical details of the BR's innovative politics are a backbone of this book, and especially about its distinctive fighting style in the early defining battles. These working class rebels were categorically opposed to bombings-which they labeled as the indiscriminate, anti-working class tactics of fascists and right-wingers-opposing any armed violence which couldn't precisely target the ruling class and its active servants. This writing also placed that urban guerrilla project in its context in Italy's large, complex 1960s left. Long circulated by left circles as a photocopy, Strike One is finally published here as a book for the first time.

***Dramatized Societies*** - Paul Julian Smith 2016

Over the last decade Spain and Mexico have both produced an extraordinary wealth of television drama. Drawing on both national practices of production and reception and international theories of textual analysis this book offers the first study of contemporary quality TV drama in two countries where television has displaced cinema as the creative medium that shapes the national narrative. As dramatized societies, Spain and Mexico are thus at once reflected and refracted by the new series on the small screen.

*Project Based Teaching* - Suzie Boss 2018-09-20

It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of

content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in *Setting the Standard for Project Based Learning* and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. A copublication of ASCD and Buck Institute for Education (BIE).

***Politics and Power in the Multinational Corporation*** - Christoph Dörrenbächer 2011-04-14

This book was first published in 2011. The current financial and economic crisis has negatively underlined the vital role of multinational companies (MNCs) in our daily lives. The breakdown and crisis of flagship MNCs, such as Enron, WorldCom, Lehman Brothers, Toyota and General Motors, does not merely reveal the problems of corporate malfeasance and market dysfunction. It also raises important questions, both for the public

and the academic community, about the use and misuse of power by MNCs in the wider society, as well as the exercise of power by key actors within internationally operating firms. This book examines how issues of power and politics affect MNCs at three different levels; the macro-level, the meso-level and the micro-level. This wide-ranging analysis shows not only that power

matters but also how and why it matters, pointing to the political interactions of key power holders and actors within the MNC, both managers and employees.
