The Manny - Holly Peterson 2007-06-19
What's a Park Avenue working mom to do when her troubled son desperately needs a male role model and her husband is a power workaholic? If she's like the gutsy heroine of Holly Peterson's astute new comedy of manners among the ill-mannered elite, she does what every other

woman on the block does. She hires herself a "manny." A solid middle-class girl from Middle America, Jamie Whitfield isn't "one of them" but she lives in "the Grid," the wealthiest acre of real estate in Manhattan, where big money and big media collide. And she has most everything they have—a big new apartment, full-time help with her three children, as well as her very own detached Master of the Universe attorney husband. What she doesn't have, however, is a full-time father figure for their struggling nine-year-old son, Dylan. But the rich haven't yet encountered a problem they can't hire someone else to solve. Enter the manny. At first the idea of paying a man to provide a role model for Dylan sounds too crazy to be true. But one look at Peter Bailey is enough to convince Jamie that the idea may not be quite so insane after all. Peter is calm, cool, competent, and so charmingly down-to-earth, he's irresistible. And with the political sex scandal of the decade propelling her career as a news producer into overdrive, and her

increasingly erratic husband locked in his study with suspicious files, Jamie is in serious need of some grounding. Peter reminds her of everything she once was, still misses, and underneath all the high-society glitz, still is. But will the new manny in her life put the ground back beneath her feet, or sweep her off them?

Einstein on Race and Racism - Fred Jerome
2005-07-11

Nearly fifty years after his death, Albert Einstein remains one of America's foremost cultural icons. A thicket of materials, ranging from scholarly to popular, have been written, compiled, produced,

and published about his life and his teachings. Among the ocean of Einsteinia-scientific monographs, biographies, anthologies, bibliographies, calendars, postcards, posters, and Hollywood films-however, there is a peculiar void when it comes to the connection that the brilliant scientist had with the African American community. Nowhere is there any mention of his close relationship with Paul Robeson, despite Einstein's close friendship with him, or W.E.B. Du Bois, despite Einstein's support for him. This unique volume is the first to bring together a wealth of writings by the scientist on the topic of race. Although his activism in this area is less well known than his efforts on behalf of international peace and scientific cooperation, Einstein spoke out vigorously against racism both in the United States and around the world. Fred Jerome and Rodger Taylor suggest that one explanation for this historical amnesia is that Einstein's biographers avoided "controversial" topics, such as his friendships with African

Americans and his political activities, including his involvement as co-chair of an antilynching campaign, fearing that mention of these details may tarnish the feel-good impression his image lends topics of science, history, and America. Combining the scientist's letters, speeches, and articles with engaging narrative and historical discussions that place his public statements in the context of his life and times, this important collection not only brings attention to Einstein's antiracist public activities, but also provides insight into the complexities of antiracist culture in America. The volume also features a selection of candid interviews with African Americans who knew Einstein as children. For a man whose words and reflections have influenced so many, it is long overdue that Einstein's thoughts on this vital topic are made easily accessible to the general public.

Walls of Paper - Pamela Ingrey 2015-07-30

The past does not go away. Time moves on and the past goes to another place. And waits. Bad

times, memories and falsehoods are all locked away until a key releases them. Very often that key is curiosity and the past is suddenly there, in the present, demanding to be recognised. The death in a car accident of Robert and Sarah is a tragedy for the Williams family. Their son, Paul, has to take over the running of the family textile business and although he receives support from most, not least his loving wife, Monica, there is tension with Rachael, Robert's scheming, self-centred sister. Paul and Monica move into the family home and Monica discovers a hidden safe which contains a terrible secret about Paul's grandfather, Jack, and Paul's curiosity will not be satisfied until he finds out more. The past is suddenly amongst them, exposing family secrets long buried away and threatening their future.
