*Worlds Enough and Time* - Joe Haldeman  
2014-12-02

By the author of *The Forever War*: In the decades following the ultimate conflict, the last remnants of humanity face extinction on a doomed voyage to a new home in the stars, in the momentous conclusion to Joe Haldeman's acclaimed *Worlds* saga. The Earth is no more, an uninhabitable shell following the one-day war that obliterated the population. In the decades that followed, the surviving *Worlds* orbiting the dead planet have become the last refuge of humankind. With the discovery of a possibly habitable planet in a distant star system, ten thousand brave colonists are preparing to depart from New New York aboard the interstellar vessel *Newhome*. Among them is Marianne O'Hara, who will ultimately control the fate of what remains of the human race. The momentous voyage is plagued from the start by ignorance and sabotage, and by the dark tenets of a nihilistic religion dedicated to ultimate destruction. But despite the many trials and tragedies, the spacefarers—and particularly Marianne and her loved ones—will be forced to endure. There is no turning back once the journey begins . . . for soon there will be nowhere left to return to. With *Worlds Enough and Time*, Hugo and Nebula Award-winning author Joe Haldeman completes his magnificent story of humankind's destruction and rebirth, capping off his acclaimed trilogy with a truly transcendent tale of destiny, courage, selflessness, dedication, and the resilience of

humankind. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

**Camouflage** - Joe Haldeman 2013-03-18  
Winner of the Nebula Award for best novel, 2005  
Winner of the James Tiptree, Jr. Award 2004  
Unknown to anyone, two creatures have wandered the Earth for generations. The aliens have no knowledge of each other, but share a residual memory of a mysterious, sunken relic - and an affinity for deep water. One, the changeling, has survived by adaptation, taking the shapes of many different organisms. The other, the chameleon, has survived solely by destroying anything or anyone that threatens it. Now, finally brought up from the bottom of the sea by marine biologist Russell Sutton, the relic calls to them both . . . to come home. For all these generations there have been two invincible creatures on Earth. But the chameleon has decided there's only room for one . . .

Starbound - Joe Haldeman 2010-01-05  
Carmen Dula and her husband spent six years travelling to the distant home of the powerful race known as "The Others," in the hopes of forging a truce. But by the time Carmen returns to Earth, fifty years have passed-and the Earthlings have built a flotilla of warships to defend Earth against The Others. But The Others have more power than anyone could imagine-and they will brook no insolence from the upstart human race.

*Infinite Dreams* - Joe Haldeman 2014-12-02  
Short stories, including a Hugo Award winner,

from the author of *The Forever War*. Joe Haldeman burst onto the science fiction scene with *The Forever War*, an unforgettable novel that marked the arrival of an exciting, original new voice. Smart, creative, and acutely socially aware, Haldeman is an author whose work has all of the greatest qualities associated with the genre. *Infinite Dreams* collects Haldeman's short stories from the early days of his career. There's the poignant "26 Days, On Earth," which follows a boy from the moon as he writes a journal about his time on Earth and falls for a local girl. Then there's the humorous "All The Universe in a Mason Jar," chronicling the experience aliens have with a moonshine-drunk farm boy. In the satirical "A Time to Live," a frozen billionaire wakes up in the future, only to get returned to his own time in a different body. Also included is the Hugo Award-winning "Tricentennial," about a trip to gather antimatter from a mysterious binary system. Haldeman's whip-smart tales prove to be as much a treat now as they were when they were written. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

War looms over Sanctuary in the fifth *Thieves' World*® anthology compiled by the New York Times-bestselling author of the *Phule's Company* series. The invasion by the Beysibs, an amphibious humanoid race, brings unusual prosperity to the city of Sanctuary. But underneath the glittering façade lies a ticking time bomb, for the nefarious residents of Sanctuary don't take kindly to an invasion—well-meaning or otherwise . . . Join Janet Morris, C. J. Cherryh, Robert Lynn Asprin, Lynn Abbey, David Drake, and Diana L. Paxson as their stories unravel the fates of Sanctuary's favorite liars, thieves, assassins, and warriors. "Abbey . . . understands Sanctuary and its characters. She

also knows how to write a short story with a strong main character, a riveting plot that contains twists and turns, and a satisfying resolution. Best story in the book . . . Lalo is the most interesting of all of the characters in *Thieves' World* and his stories are always interesting. Paxson . . . spins an interesting and well written yarn that closes the book nicely."

[The Forever War](#) - Joe Haldeman 2014-12-02

Winner of the Hugo and Nebula Awards: A futuristic masterpiece, "perhaps the most important war novel written since Vietnam" (Junot Díaz). In this novel, a landmark of science fiction that began as an MFA thesis for the Iowa Writers' Workshop and went on to become an award-winning classic—inspiring a play, a graphic novel, and most recently an in-development film—man has taken to the stars, and soldiers fighting the wars of the future return to Earth forever alienated from their home. Conscripted into service for the United Nations Exploratory Force, a highly trained unit built for revenge, physics student William Mandella fights for his planet light years away against the alien force known as the Taurans. "Mandella's attempt to survive and remain human in the face of an absurd, almost endless war is harrowing, hilarious, heartbreaking, and true," says Pulitzer Prize-winning novelist Junot Díaz—and because of the relative passage of time when one travels at incredibly high speed, the Earth Mandella returns to after his two-year experience has progressed decades and is foreign to him in disturbing ways. Based in part on the author's experiences in Vietnam, *The Forever War* is regarded as one of the greatest military science fiction novels ever written,

capturing the alienation that servicemen and women experience even now upon returning home from battle. It shines a light not only on the culture of the 1970s in which it was written, but also on our potential future. "To say that *The Forever War* is the best science fiction war novel ever written is to damn it with faint praise. It is . . . as fine and woundingly genuine a war story as any I've read" (William Gibson). This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

**The Eternity War: Pariah** - Jamie Sawyer  
2017-09-26

The first novel in a brand-new series from rising SF star Jamie Sawyer, *The Eternity War: Pariah* is an action-packed adventure set in the same universe as his acclaimed *Lazarus War* novels. The soldiers of the Simulant Operations Programme are mankind's elite warriors. Veterans of a thousand battles across a hundred worlds, they undertake suicidal missions to protect humanity from the insidious Krell Empire and the mysterious machine race known as the Shard. Lieutenant Keira Jenkins is an experienced simulant operative and leader of the Jackals, a team of raw recruits keen to taste battle. They soon get their chance when the Black Spiral terrorist network seizes control of a space station. Yet no amount of training could have prepared the Jackals for the deadly conspiracy they soon find themselves drawn into -- a conspiracy that is set to spark a furious new war across the galaxy.

**The Coming** - Joe Haldeman 2016-09-27

A dystopian future Earth is thrown into turmoil by the imminent arrival of extraterrestrials in this alien-contact novel by the author of *The Forever War*. With *The Coming*, multiple Hugo and Nebula Award-winning science fiction Grand Master Joe Haldeman ingeniously combines a troubling dark vision of a dystopian near-future with an alien first-encounter tale as thrilling and thought-provoking as Carl Sagan's *Contact* and Steven Spielberg's *Close Encounters of the Third Kind*. Despite technological advancements designed to alleviate the stress of everyday life, Earth at the midpoint of the twenty-first century is plagued by environmental crisis and manmade catastrophe. Tensions among the nations of

Europe bring the threat of World War III closer by the hour as their lands are also ravaged by devastating climatic upheaval, the result of centuries of unchecked ozone depletion and global warming. Meanwhile, in an America whose population has been sedated by DNA-specific drugs and virtual porn, homosexuality and free sexual expression have been outlawed by a repressive federal government led by an inept media-star president. But everything changes on October 1, 2054, when Professor Aurora Bell, an astrophysicist at the University of Florida, picks up a message from deep space: "We're coming . . ." Ingeniously told from the viewpoints of a diverse cast of characters ranging from scientists, artists, and ordinary citizens to criminals, con men, and politicians, *The Coming* is a shockingly prescient work of speculative fiction from the multiple award-winning author of *The Forever War* and the acclaimed *Worlds* series, taking the alien invasion story to places it has never gone before.

**Bringing Out the Dead** - Joe Connelly 2010-09-22

Perhaps only someone who has worked for almost a decade as a medic in New York City's Hell's Kitchen--as Joe Connelly has--could write a novel as riveting and fiercely authentic as *Bringing Out the Dead*. Like a front-line reporter, Connelly writes from deep within the experience, and the result is a debut novel of extraordinary power and intensity. In Frank Pierce, a brash EMS medic working the streets of Hell's Kitchen, Connelly gives us a man who is being destroyed by the act of saving people. Addicted to the thrill ("the best drug in the world") and the mission of the job, Frank is nevertheless drowning in five years' worth of grief and guilt--his own and others': "my primary role was less about saving lives than about bearing witness." His wife has left him, he's drinking on the job, and just a month ago he "helped to kill" an eighteen-year-old asthmatic girl. Now she's become the waking nightmare of all his failures: hallucination and projection ("the ghosts that once visited my dreams had followed me out to the street and were now talking back"), and as real to him as his own skin. And in reaction to her death, Frank has desperately resurrected a patient back into a life now little better than death. In a narrative that moves with the furious energy of an ambulance run, we

follow Frank through two days and nights: into the excitement and dread of the calls; the mad humor that keeps the medics afloat; the memories, distant and recent, through which Frank reminds himself why he became a medic and tries, in vain, to convince himself to give it up. And we are with him as he faces his newest ghost: the resurrected patient, whose demands to be released into death might be the most sensible thing Frank has heard in months, if only he would listen. *Bringing Out the Dead* is a stunning novel.

Old Venus - George R. R. Martin 2015-03-03  
Sixteen all-new stories by science fiction's top talents, collected by bestselling author George R. R. Martin and multiple-award-winning editor Gardner Dozois From pulp adventures such as Edgar Rice Burroughs's *Carson of Venus* to classic short stories such as Ray Bradbury's "The Long Rain" to visionary novels such as C. S. Lewis's *Perelandra*, the planet Venus has loomed almost as large in the imaginations of science fiction writers as Earth's next-nearest neighbor, Mars. But while the Red Planet conjured up in Golden Age science fiction stories was a place of vast deserts and ruined cities, bright blue Venus was its polar opposite: a steamy, swampy jungle world with strange creatures lurking amidst the dripping vegetation. Alas, just as the last century's space probes exploded our dreams of Mars, so, too, did they shatter our romantic visions of Venus, revealing, instead of a lush paradise, a hellish world inimical to all life. But don't despair! This new anthology of sixteen original stories by some of science fiction's best writers—edited by #1 New York Times bestselling author George R. R. Martin and award-winning editor Gardner Dozois—turns back the clock to that more innocent time, before the hard-won knowledge of science vanquished the infinite possibilities of the imagination. Join our cast of award-winning contributors—including Elizabeth Bear, David Brin, Joe Haldeman, Gwyneth Jones, Mike Resnick, Eleanor Arnason, Allen M. Steele, and more—as we travel back in time to a planet that never was but should have been: a young, rain-drenched world of fabulous monsters and seductive mysteries. **FEATURING ALL-NEW STORIES BY Eleanor Arnason • Elizabeth Bear • David Brin • Tobias S. Up the Walls of the World - James Tiptree 2020-08-25

The first novel from the award-winning author of *Brightness Falls from the Air*, a writer "known for gender-bending, boundary-pushing work" (Tor.com). *Up the Walls of the World* is the 1978 debut novel of Alice Sheldon, who had built her reputation with the acclaimed short stories she published under the name James Tiptree Jr. A singular representation of American science fiction in its prime, Tiptree's first novel expanded on the themes she addressed in her short fiction. "From telepathy to cosmology, from densely conceived psychological narrative to the broadest of sense-of-wonder revelations, the novel is something of a tour de force" (The Science Fiction Encyclopedia). Known as the Destroyer, a self-aware leviathan roams through space gobbling up star systems. In its path is the planet Tyree, populated by telepathic wind-dwelling aliens who are facing extinction. Meanwhile on Earth, people burdened with psi powers are part of a secret military experiment run by a drug-addicted doctor struggling with his own grief. These vulnerable humans soon become the target of the Tyrenni, whose only hope of survival is to take over their bodies and minds—an unspeakable crime in any other period of the aliens' history . . . Praise for James Tiptree Jr. "[Tiptree] can show you the human in the alien and the alien in the human and make both utterly real." —The Washington Post "Novels that deal with the mental gymnastics of superminds, or with concepts like eternity and infinity, are doomed to fall short of the mark. But Tiptree's misses are more exciting than the bulls-eyes of less ambitious authors." —The New York Times

War Year - Joe Haldeman 2014-12-02

A tour of duty through the worst that the world has to offer Before his time as a professor of writing at the Massachusetts Institute of Technology, before penning multiple Nebula and Hugo Award-winning novels and stories, Joe Haldeman was a soldier in Vietnam, an experience that changed him and colored much

of what he has written. War Year is Haldeman's first novel and his first attempt to describe what he saw in Vietnam and give insight into what happened for the benefit of those who weren't there. The minimalist War Year follows the life of John Farmer, a combat engineer, over the course of a year in Vietnam. John undergoes training, and then, along with his fellow soldiers, does whatever it takes to survive in unforgiving conditions. Powerful and affecting, War Year reaches its highest peaks as it describes with enduring truth the sights and experiences of what it was like to be in the humid jungles of Vietnam in 1968. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

*The Hemingway Hoax* - Joe Haldeman 2012-12-07

The hoax proposed to John Baird by a two-bit con man in a seedy Key West bar was shady but potentially profitable. With little left to lose, the struggling, middle-aged Hemingway scholar agreed to forge a manuscript and pass it off as Papa's lost masterpiece. But Baird never realized his actions would shatter the history of his own Earth . . . and others. Now the unsuspecting academic is trapped out of time - propelled through a series of grim parallel

worlds - and pursued by an interdimensional hitman with a literary license to kill.

Camouflage - Joe Haldeman 2005-07-26

Two aliens have wandered Earth for centuries. The Changeling has survived by adapting the forms of many different organisms. The Chameleon destroys anything or anyone that threatens it. Now, a sunken relic that holds the key to their origins calls to them to take them home—but the Chameleon has decided there's only room for one.

*Directive 51* - John Barnes 2011-02-22

The first book in a new post-apocalyptic trilogy from "a master of the genre" Heather O'Grainne is the Assistant Secretary in the Office of Future Threat Assessment, investigating rumors surrounding something called "Daybreak." The group is diverse and radical, and its members have only one thing in common—their hatred for the "Big System" and their desire to take it down. Now, seemingly random events simultaneously occurring around the world are in fact connected as part of Daybreak's plan to destroy modern civilization—a plan that will eliminate America's top government personnel, leaving the nation no choice but to implement its emergency contingency program...Directive 51.

The Accidental Time Machine - Joe Haldeman 2008-07-29

NOW IN PAPERBACK-FROM THE AUTHOR OF MARSBOUND Grad-school dropout Matt Fuller is toiling as a lowly research assistant at MIT when he inadvertently creates a time machine. With a dead-end job and a girlfriend who left him for another man, Matt has nothing to lose in taking a time-machine trip himself—or so he thinks.

*LoveStar* - Andri Snaer Magnason 2012-11-20  
2013 Philip K. Dick Award Special Citation of Excellence "Orwell, Vonnegut, and Douglas Adams are felt on every page, though Magnason is never derivative. His satire and insightful social commentary sweeten the pot and the sheer wackiness of Magnason's oversized imagination is invigorating."—Publishers Weekly, starred review LoveStar, the enigmatic and obsessively driven founder of the LoveStar corporation, has unlocked the key to transmitting data via birdwaves, thus freeing mankind from wires and devices, and allowing consumerism, technology, and science to run

rampant over all aspects of daily life. Cordless modern men and women are paid to howl advertisements at unsuspecting passers-by, REGRET machines eliminate doubt over roads not taken, soul mates are identified and brought together (while existing, unscientifically validated relationships are driven remorselessly asunder), and rocketing the dead into the sky becomes both a status symbol and a beautiful, cathartic show for those left behind. Indridi and Sigrid, two blissfully happy young lovers, have their perfect worlds threatened (along with Indridi's sanity) when they are "calculated apart" and are forced to go to extreme lengths to prove their love. Their journey ultimately puts them on a collision course with LoveStar, who is on his own mission to find what might become the last idea in the world. Steeped in influences ranging from Italo Calvino, Jorge Luis Borges, and Kurt Vonnegut to George Orwell, Douglas Adams, and Monty Python, Andri Snær Magnason has created a surreal yet uncomfortably familiar world, where the honey embrace of love does its utmost to survive amid relentless and overpowering controls.

Tehanu - Ursula K. Le Guin 2004-11-23

A young prince joins forces with a master wizard on a journey to discover a cause and remedy for the loss of magic in Earthsea.

*There Is No Darkness* - Joe Haldeman  
2017-02-28

A young man must fight—literally—for the opportunity to escape his backwater home planet and journey to the stars. A towering young giant growing up on a high-gravity world of perilous plants and savage creatures, Carl Bok is thrilled when he's offered a one-year scholarship to Starschool. As a new student aboard the space-traveling institution, Carl will get the opportunity to visit and learn from sixteen colonized worlds. Best of all, he'll finally escape the dangerous and grueling life of his home planet. A poor "country boy" cast among rich children of privilege, Carl perseveres as he and his classmates prepare to rocket from world to world. While he's still on Earth, however, an unexpected and desperate need for funds forces him to become a professional fighter, a job that well suits his massive size and experience. Carl hopes to earn the money he needs to continue with Starschool by battling a slew of human and

bestial adversaries for the entertainment of others. But there are forces behind the scenes with an alien agenda that Carl can neither see nor comprehend—as he and a cadre of young companions undertake an educational odyssey that carries them from Earth to the astonishing artificial planet Construct to a war-torn world called Hell. A Science Fiction Grand Master, the acclaimed author of *The Forever War*, and the winner of numerous awards including the Hugo and Nebula, Joe Haldeman collaborated with his brother, biologist and science fiction writer Jack C. Haldeman II, to create this gripping tale of a young man's self-discovery and remarkable intergalactic adventures.

**Camouflage** - Joe W. Haldeman 2018

**All My Sins Remembered** - Joe Haldeman  
2014-12-02

In this powerful, provocative SF classic from the award-winning author of *The Forever War*, a young man of peace is transformed into an intergalactic killer. Once Otto McGavin was a kind and gentle soul; then he was recruited by the all-powerful Confederación. An ultrasecretive, government-linked organization, the Confederación's stated mission of protecting threatened life, both human and alien, throughout the galaxy greatly appeals to the Anglo-Buddhist McGavin as he eagerly prepares to embark on a career of diplomacy and selfless works. But Otto's new masters have other plans for the idealistic young recruit. Through a process of immersion therapy and hypnosis, and by encasing him in temporary bodies of plastiflesh, scientists can overlay Otto's true persona with other ones, transforming him completely—body, mind, and soul—into the ruthlessly effective prime operator the Confederación wants him to be. But decades of interstellar subterfuge and violence, and years spent wearing the personae of spies and cold-blooded killers, must ultimately take their toll—and before he leaves behind the lives that have been cruelly thrust upon him, Otto McGavin will have to somehow come to terms with who he really is and the monstrous things he has done. One of the most powerful and thought-provoking stories from the Hugo and Nebula Award-winning author of *Worlds* and *The Forever War*, Joe Haldeman's *All My Sins*

Remembered is a stunning work of speculative fiction. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

**Marsbound** - Joe Haldeman 2008-08-05

Young Carmen Dula and her family are embarking on the adventure of a lifetime—they're going to Mars. But Carmen's rebellious streak leads her to venture out into the bleak Mars landscape alone, where she is saved by an angel. An angel with too many arms and legs, a head that looks like a potato gone bad—and a message for the humans on Mars: We were here first...

Mindbridge - Joe Haldeman 2014-12-02

A remarkable alien technology could have devastating consequences for humanity in this novel by the Hugo and Nebula Award-winning author of *The Forever War*. In the far future, the accidental scientific breakthrough known as the Levant-Meyer Translation changes everything. Suddenly people can leap instantaneously across the universe, albeit temporarily, enabling teams of Tamers to explore far-flung worlds and prepare them for possible human habitation. But one expedition doesn't make it back alive.

Jacque Lefavre achieves his lifelong dream of becoming a Tamer when he joins the Agency for Extraterrestrial Development. On his first exploratory mission to a planet known as Groombridge, Lefavre and his team encounter something truly extraordinary: a small, nonsentient creature that, when joined with another of its kind, creates a telepathic "bridge." But exploiting this psychic link could bring unanticipated perils, for it is about to bring Lefavre and his team into dangerously close contact with the L'vrai, an ancient, advanced, and hostile race of star travelers—an encounter that could prove to be the first step in humankind's salvation . . . or its doom. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

*Buying Time* - Joe Haldeman 2017-12-05

The Nebula Award-winning author of *The Forever War* explores a world where time is money—and for some, both are running out . . . The Stileman Process is a medical miracle: Every ten years or so, you can restore youth and health to your aging, ailing body—as long as you can pay the enormous fee. The scientific

advancement has altered the twenty-first-century world even more than space travel.

Dallas Barr is one of the oldest men on Earth, and now he needs to repeat the procedure. But while scrambling desperately for his next essential million, he meets Maria, a woman from a previous life—and makes two chilling discoveries: Not all Stileman "immortals" were created the same. And their days may be more numbered than they think . . . From the author of *The Hemingway Hoax* and *Camouflage*, and the recipient of multiple science fiction honors including the Hugo, John W. Campbell, and Robert A. Heinlein Awards, *Buying Time* is "a mystery/SF hybrid that exhibits the author at his most inventive. . . . The action is fast and furious" (Publishers Weekly).

**The Forever War #4** - Joe Haldeman

2017-05-17

Life on Earth is much harder and more confusing than either Marygay or William could have possibly imagined. Humanity has progressed in ways that seem barbaric and strange, and the two veterans must find their place in this new society, and conform to its norms or face the consequences. Faced with such an unpalatable choice, they realise they will never again be at home on the planet they were born on and head, once more, for the stars...

*Keepers of the Peace* - Keith Brooke 2018-07-09

Jed Brindle is an alien. At least, that's what they call him on Earth. He's really a colony-bred soldier - augmented with cyborg implants - with the Extraterran Peacekeeping Force, fighting for control of what used to be the United States. When he and his squad are sent behind enemy lines on a kidnap operation, it isn't long before things start to go wrong. Marooned in the desert with two wounded comrades and his quarry, Jed's mission becomes not just a struggle for survival but also a journey to rediscover the quiet, reliable farm boy he was before he became a machine for killing. "...should be required reading for anyone who still subscribes to the popular, dangerous fantasy of the nobility of war." (Lisa Tuttle, *Time Out*) "It has been several years since a first novel has grabbed me the way Keith Brooke's *Keepers of the Peace* did.

It's a well-crafted, very personal look at the way war changes (and doesn't change) a kid from the sticks ... It is smooth, clean and elegant; a very straightforward book whose writing recalls the 1950s Heinlein, telling the tale without getting in the way." (Tom Whitmore, Locus) "This is a very fine debut novel ... Recommended both for the vision of the future and the excellent characterisation." (Paul Brazier, Nexus) "Brooke balances action with introspection, the lyrical with a gritty documentary 'realism' in stark contrast to the usual shoot-'em-up adventure. Anyone who has thrilled to the exploits of lunar rebels or others among sf's doughty warriors should read *Keepers of the Peace* - as an antidote. It's a gripping story of challenge and skin-of-the-teeth survival, but it's also much more: an anti-war testament with a direct power that requires no preaching." (Faren Miller, Locus)

Work Done for Hire - Joe Haldeman 2014-01-07  
Joe Haldeman's "adept plotting, strong pacing, and sense of grim stoicism have won him wide acclaim" (The Washington Post) and numerous honors for such works as *The Forever War*, *The Accidental Time Machine*, and the *Marsbound* trilogy. Now, the multiple Hugo and Nebula award-winning author pits a lone war veteran against a mysterious enemy who is watching his every move—and threatens him with more than death unless he kills for them. Wounded in combat and honorably discharged nine years ago, Jack Daley still suffers nightmares from when he served his country as a sniper, racking up sixteen confirmed kills. Now a struggling author, Jack accepts an offer to write a near-future novel about a serial killer, based on a Hollywood script outline. It's an opportunity to build his writing career, and a future with his girlfriend, Kit Majors. But Jack's other talent is also in demand. A package arrives on his doorstep containing a sniper rifle, complete with silencer and ammunition—and the first installment of a \$100,000 payment to kill a "bad man." The twisted offer is genuine. The people behind it are dangerous. They prove that they have Jack under surveillance. He can't run. He can't hide. And if he doesn't take the job, Kit will be in the crosshairs instead.

A Separate War and Other Stories - Joe Haldeman 2006-08-01

6 years of stories from the Hugo and Nebula Award-winning author. Here are fifteen stories—never before collected—that tread upon familiar Haldeman territory, as well as explore the outer reaches of his phenomenal imagination.

**Vietnam and Other Alien Worlds** - Joe Haldeman 2014-12-02

The author of *The Forever War* presents a collection of writings ranging from our past in Southeast Asia to our future among the stars. Nebula and Hugo Award-winning author Joe Haldeman burst onto the literary scene with the hugely popular novel *The Forever War*, but his career also took off on the strength of his short fiction. This brilliant collection brings together examples of his science fiction as well as his writing on Vietnam—and reveals the inexorable connections between the two. The works included in *Vietnam and Other Alien Worlds* are united by its title essay, in which Haldeman explains how his past informs his envisioned futures. One of these futures is a grouping of four stories from the *Confederación* universe, which includes his novels *All My Sins Remembered* and *There Is No Darkness*. An anthropological expedition goes awry as a research team's subjects become murderous, and trade negotiations fall apart, comically lost in translation. The collection closes with one of Haldeman's most affective works about Vietnam—the moving narrative poem "DX." *Vietnam and Other Alien Worlds* proves to be an anthology as versatile and multifaceted as the author who wrote it. This ebook features an illustrated biography of Joe Haldeman including rare images from the author's personal collection.

*Forever Free* - Joe Haldeman 2016-09-27

"A well-written and worthy sequel to one of SF's enduring classics"—the Nebula Award winner *The Forever War*—now with a bonus story, "A

Separate War” (Publishers Weekly). On virtually every list of the greatest military science fiction adventures ever written, Joe Haldeman’s Hugo and Nebula Award-winning classic, *The Forever War*, is ranked at the very top. In *Forever Free*, the Science Fiction Writers of America Grand Master and author of the acclaimed *Worlds* series returns to that same volatile universe where human space marines once engaged the alien Taurans in never-ending battle. While loyal soldier William Mandella was fighting for the survival of the human race in a distant galaxy, thousands of years were passing on his home planet, Earth. Then, with the end of the hostilities came the shocking realization that humanity had evolved into something he did not recognize. Offered the choice of retaining his individuality or becoming part of the genetically modified shared Human hive-mind, Mandella chose exile, joining other veterans of the *Forever War* seeking a new life on a wasteland world they called Middle Finger. Making a home for

themselves in this half-frozen hell, Mandella and his life partner, Marygay, have survived into middle age, raising a son and a daughter in the process. Now, the dark truth about the colonists’ ultimate role in the continuation of the Human group mind will force Mandella and Marygay to take desperate action as they hijack an interstellar vessel and set off on a frantic escape across space and time. But what awaits them upon their return is a mystery far beyond all human—or Human—comprehension . . . In *Forever Free*, Joe Haldeman’s stunning vision of humankind’s far future reaches its enthralling conclusion in a masterwork of speculation from the mind and heart of one of the undisputed champions of hard science fiction. And in the bonus story included in this volume, “A Separate War,” Marygay, reassigned and separated from her lover, Mandella, continues fighting in military engagements across the stars—all the while planning how she and Mandella can reunite despite the time and space between them.
