Contract Law and Economics - Gerrit de Geest 2010-10

This unique and timely book offers an up-to-date, clear and comprehensive review of the economic literature on contract law. The topical chapters written by leading international

scholars include: precontractual liability, misrepresentation, duress, gratuitous promises, gifts, standard form contracts, interpretation, contract remedies, penalty clauses, impracticability and foreseeability. Option contracts, warranties, long-

term contracts, marriage contracts, franchise contracts, quasi-contracts, behavioral approaches, and civil contract law are also discussed. This excellent resource on contract law and economics will be particularly suited to contract law scholars, law teachers, policy makers, and judges. For experts in and practitioners of contract law this will be a key book to buy.

Hospitality Law - Stephen C. Barth
2017-05-10

Hospitality Law: Managing Legal Issues in the Hospitality Industry, Fifth Edition takes an applied approach to the study of hospitality law with its touchstone of compliance and prevention. The book is highly pedagogical and includes many interactive exercises and real world cases that help students focus on the practical application of hospitality laws and model their decision process to avoid liability. As a result, this book does look different than others

on the market as the legal information contained is carefully selected to specifically correlate with helping students understand how to do the right thing, i.e., it is not a comprehensive book on the laws. Barth immediately helps readers learn about the legalities of situations and work through exercises - both individually and in groups -- to effectively apply them to hospitality management situations. Many instructors teach their course from a very applied perspective, which aligns with Barth's approach.

The Entrepreneur's Guide to Law and Strategy - Constance E. Bagley 2017-02-21
Business Insider calls The

ENTREPRENEUR'S GUIDE "perhaps the most useful business book you can ever read" and lists it among twenty-five must-read books for entrepreneurs. THE ENTREPRENEUR'S GUIDE TO LAW AND STRATEGY, 5E examines stages of starting a business -- from start-up and growth to public offering, while highlighting legal preparations and pitfalls. Cutting-edge examples show how legally astute entrepreneurs can strategically increase realizable value, deploy resources, and manage risk. The book discusses leaving a job, hiring former coworkers, competing with a former employer, workplace legislation, product liability, and bankruptcy. You examine current issues including today's workforce in the "gig" economy, "crowdsourcing" capital and social media, computer hacking and identity theft. Legal discussion integrates with core strategic concepts, such as Porter's Five

Forces, the resource-based view of the firm, the value proposition, activities in the value chain and more. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Teaching the World - Merrill Distad 1996-04

This book catalogues an exhibition of textbooks by authors from the University of Alberta. Each finished textbook contains its own story of challenges and victories. And each has its own power as a record of knowledge, a teaching tool, and an object of permanence and beauty.

Bookkeepers' Boot Camp - Angie Mohr 2016-05-15

"You can't know how your business is doing until you record it."

Bookkeepers' Boot Camp is the first book in the Numbers 101 for Small Business series. It shows small business owners the essentials of record keeping, and why it's crucial to a business's success to track financial data. The book gives business owners a greater understanding of the purpose and process of record keeping and a deeper understanding of their businesses. Mohr has helped hundreds of small business owners who didn't understand the importance of record keeping and always put it off until "later." These business owners were almost literally buried under a pile

of papers, overwhelmed by the immensity of the task at hand. Mohr shows business owners how to sort through the masses of information and paperwork, record what is important, and how to use that information to grow a business for success! Eighty percent of all small businesses started this year will be gone in 5 years. As Mohr says, starting a small business can be "like driving a car in a foreign country where you don't know what the road signs are telling you." Numbers 101 for Small Business is a new series of easy-to-understand guides for small business owners, covering such topics as bookkeeping, analyzing and tracking financial information, starting a business, growing a business, and exiting a business. Using real life examples, Mohr teaches small business owners how to beat the odds and turn their ideas into successful, growing companies.

The Law of the European Union and the European Communities - Pieter Jan Kuijper 2018-09-28

The Law of the European Union is a complete reference work on all aspects of the law of the European Union, including the institutional framework, the Internal Market, Economic and Monetary Union and external policy and action. Completely revised and updated, with many newly written chapters, this fifth edition of the most thorough resource in its field provides the most comprehensive and systematic account available of the law of the European Union (EU). Written by a new team of experts in their respective areas of European law, its coverage incorporates and embraces many current, controversial, and emerging issues and provides detailed attention to historical development

and legislative history of EU law. Topics that are constantly debated in European legal analysis and practice are touched on in ways that are both fundamental and enlightening, including the following: .powers and functions of the EU law institutions and relationship among them; .the principles of equality, loyalty, subsidiarity, and proportionality; .free movement of persons, goods, services, and capital; .mechanisms of constitutional change - treaty revisions, accession treaties, withdrawal agreements; .budgetary principles and procedures; .State aid rules; .effect of Union law in national legal systems; .coexistence of EU, European Convention of Human Rights (ECHR), and national fundamental rights law; .migration and asylum law; .liability of Member States for damage suffered by individuals; .competition law - cartels, abuse of dominant position, merger control; .social policy, equal

pay, and equal treatment; .environmental policy, consumer protection, public health, cultural policy, education, and tourism; .nature of EU citizenship, its acquisition, and loss; and .law and policy of the EU's external relations. The fifth edition embraces many new, ongoing, and emerging European legal issues. As in the previous editions, the presentation is notable for its attention to how the law relates to economic and political realities and how the various policy areas interact with each other and with the institutional framework. The many practitioners and scholars who have relied on the predecessors of this definitive work for years will welcome this extensively revised and updated edition. Those coming to the field for the first time will instantly recognize that they are in the presence of a masterwork that can always be turned to with profit and

that helps in understanding the rationale underlying any EU law provision or principle.

The Law of Libel in Canada - Peter A. Downard 2017-11

Genetics - Lori B. Andrews 2006
This is the revised edition of the casebook, *Genetics: Ethics, Law, and Policy*, which has been used successfully in law schools in both

the seminar and course context. It is authored by three of the nation's leading experts on genetic ethics, law and policy. Students enjoy the course because of the topicality of the subjects, many of which they hear about in the news (gene discoveries, embryo stem cell research). Faculty members enjoy teaching from the book because of the excellent teaching manual and because they can link it to other topics ? the casebook covers issues in health law, employment law, insurance law, criminal law, family law, and other fields. The casebook is supplemented regularly on the TWEN website, so that it is always current. A background in genetics is not required for either students or teachers. The casebook and teachers? manual are written so that the casebook can be used for undergraduate courses or courses for the health professions, for public health, or for public policy.
