

Cancer Can Be Cured

This is likewise one of the factors by obtaining the soft documents of this **Cancer Can Be Cured** by online. You might not require more times to spend to go to the ebook establishment as without difficulty as search for them. In some cases, you likewise accomplish not discover the broadcast **Cancer Can Be Cured** that you are looking for. It will very squander the time.

However below, once you visit this web page, it will be therefore categorically simple to get as well as download lead **Cancer Can Be Cured**

It will not recognize many epoch as we notify before. You can attain it though operate something else at house and even in your workplace. thus easy! So, are you question? Just exercise just what we find the money for under as capably as review **Cancer Can Be Cured** what you in the manner of to read!

The Only Cancer Patient Cure - Leonard Coldwell 2017-08-30

Dr. Leonard Coldwell has seen 66,000 patients, with 35,000 of them having cancer. He has the highest known cancer patient cure rate of over 92.3%. This figure is based on the clinical and scientific research of the Schmargendorf Health Institute, Berlin, under the scientific leadership of Dr. Med. Thomas Hohn (MD). After you understand the IBMS® System and the message Dr. C, provides here in this book, you will finally be able to comprehend and use the tools and knowledge that Dr. C accumulated to define the ONLY way cancer Patients can be cured. No one else has a proven Cancer Patient Cure

Rate. His IBMS® System is the only way back to Health for cancer patients. Dr. C has the knowledge of 45 Years and the cured patients to show how to eliminate the Root Cause of Cancer so that it never comes back. Dr. C is the founder of the Cancer Patient Advocate Foundation, and the Foundation for Drug and Crime Free Schools, and Health for Children. He is on the board of the American Anti-Cancer Society and is a consultant for large organizations and companies, actors, as well as the largest health insurance company in Europe, and a keynote speaker for Medical Congresses (Doctors and

Nurses). Dr. C. is the educator of educators. The doctor who doctors go to for advice and help.

Cancer Rehabilitation - Michael O'Dell, MD 2009-04-22

A Doody's Core Title 2012 This new comprehensive reference provides a state-of-the-art overview of the principles of cancer care and best practices for restoring function and quality of life to cancer survivors.

Authored by some of the world's leading cancer rehabilitation experts and oncology specialists, the principles section provides primer level discussions of the various cancer types and their assessment and management.

The practice section thoroughly explores the identification, evaluation, and treatment of specific impairments and disabilities that result from cancer and the treatment of cancer. This groundbreaking volume enables the entire medical team to provide superior care that results in a better quality of life for cancer survivors. Features include: Multi-specialty editorship and authorship from psychiatry, oncology, physical therapy, occupational therapy, and related disciplines. Focus on therapeutic management of cancer-related impairments and complications. In-depth treatment of the medical,

neurologic, musculoskeletal, and general rehabilitation issues specific to this patient population.

Three Daughters, Three

Journeys - Jill Charles

2017-05-18

Cancer threatens the lives of people around the world.

Women, in particular, are at risk of certain cancers with a genetic cause. Certain mutations in the BRCA1 and BRCA2 genes put mothers and daughters at risk of breast and ovarian cancers. Unlike many cancers that most commonly occur after age 60, these inheritable cancers threaten women's lives, health and fertility even when they are

young, before most would even begin to go for annual mammogram screenings to check for breast cancer. *Three Daughters, Three Journeys* takes on the biggest health issue of our time from a global perspective with three heroines fighting for their lives against cancer. Marzena, a Polish oncology nurse, has spent her life treating child patients with cancer. Then, she confronts it in her own family and her own body. Kamola, a rural Indian girl, knows she has symptoms of the same disease that took her mother, but feels afraid to discuss it with her father and brothers, knowing her family cannot afford medical treatment.

Kamola confides in Dr Rini Mishra, a doctor testing a new treatment called Neelazin, using a bacterial anticancer protein in food, to destroy cancer cells. Selena, a wealthy woman of color in Chicago, finds out about her genetic risks of breast and ovarian cancer. She has a choice of preventative surgery that will save her life but remove any chance of having children. As she meets women who struggle to afford cancer treatment, Selena dedicates her life to providing affordable homes and counseling to families affected by the disease. Although the drug Neelazin is fictional, the possibility of new cancer treatments using

bacterial anticancer proteins is being researched now. A problem with the current chemotherapy for cancer treatment is the high toxicity of most of these drugs, as these drugs can enter both normal and cancer cells, though preferably cancer cells, causing the death of normal cells as well that are important in maintaining health. Another problem is that current chemotherapeutic drugs mostly target a single or few key steps that are important for cancer growth and proliferation and inhibit the growth of cancer cells. The cancer cells respond by quickly changing these single targets, thereby

becoming resistant to the drugs, as is reflected in stage IV cancer patients. An alternative to chemotherapy would be to exploit the bacterial evolutionary wisdom and use certain proteins that can have preferential entry to cancer cells in order to minimize normal cell toxicity and multiple targets in cancer cells through protein-protein complex formation, thus reducing resistance development in cancer cells. An interesting advantage of protein drugs is to express them as part of food, and some recent research seems to suggest that oral consumption of such foods may allow the therapeutic protein to

reach the blood stream to target the cancer. Women with the genetic risk factors could soon have the choice of taking a pill or such anticancer protein-expressing food to treat or prevent cancer, rather than removing the healthy tissue of the breasts and ovaries. Hopefully, they would not have to choose between fertility and survival, as is the implied message in this book, fictional as it is at this time.

Marijuana As Medicine? -

Institute of Medicine 2000-12-30

Some people suffer from chronic, debilitating disorders for which no conventional treatment brings relief. Can marijuana ease their

symptoms? Would it be breaking the law to turn to marijuana as a medication? There are few sources of objective, scientifically sound advice for people in this situation. Most books about marijuana and medicine attempt to promote the views of advocates or opponents. To fill the gap between these extremes, authors Alison Mack and Janet Joy have extracted critical findings from a recent Institute of Medicine study on this important issue, interpreting them for a general audience. *Marijuana As Medicine?* provides patientsâas well as the people who care for themâwith a foundation for

making decisions about their own health care. This empowering volume examines several key points, including: Whether marijuana can relieve a variety of symptoms, including pain, muscle spasticity, nausea, and appetite loss. The dangers of smoking marijuana, as well as the effects of its active chemical components on the immune system and on psychological health. The potential use of marijuana-based medications on symptoms of AIDS, cancer, multiple sclerosis, and several other specific disorders, in comparison with existing treatments. *Marijuana As Medicine?* introduces readers to

the active compounds in marijuana. These include the principal ingredient in Marinol, a legal medication. The authors also discuss the prospects for developing other drugs derived from marijuana's active ingredients. In addition to providing an up-to-date review of the science behind the medical marijuana debate, Mack and Joy also answer common questions about the legal status of marijuana, explaining the conflict between state and federal law regarding its medical use. Intended primarily as an aid to patients and caregivers, this book objectively presents critical information so that it can be

used to make responsible health care decisions. *Marijuana As Medicine?* will also be a valuable resource for policymakers, health care providers, patient counselors, medical faculty and studentsâin short, anyone who wants to learn more about this important issue.

Cure Cancer Naturally - Michelle Pham 2020-09-12

Cure Cancer Naturally A step by step guide on how to beat cancer naturally using diet and the best herbs Hurry up and get YOUR copy today for 5.99 only! Regular price at 7.99! Cancer, of all chronic illnesses, is the most curable. Today, the goal is not only to preserve the

best life that could be wished for in the past but to cure the disease patient. Everyone cannot defeat cancer. Some people are likely to succumb to it. If you try to combat it, however, you have a chance of beating it. This book is not written to delight or lecture. It is composed as briefly as possible by a layperson in layman's language to help the person with cancer have the best possible opportunity to beat it. The only function in composing this book is to see that you have the very best chance of defeating cancer as quickly as possible. Absolutely nothing is put in this book to fill the area. You obtained it to aid you in

dealing with cancer cells, not to maintain your hectic reading. It is not feasible to emphasize enough how essential every item revealed is to the assurance of recovery. Don't rationalize that little product can be overlooked without jeopardizing your opportunities for healing. That single variable that you have never come across and most likely question the validity of and may feel like an annoyance can be the secret to healing. Let me guarantee you that each idea has been stemmed by a person apart from me. They have been talked about over as well as over by many individuals. They have been attempted by

countless cancer cells people before you and are thought to be a favorable recovery factor. Also, nothing included herein is believed to have any downside risk. Many other points could have been put in; however, it might pose a potential danger. It is thought that absolutely nothing in this book has any adverse opportunity if properly applied. As the author of this book, I believe that this book will be an indispensable reference and trusted guide for you who may want to reuse the information of the original text or passage naturally. Don't delay any more seconds, scroll back up, DOWNLOAD your copy NOW for only \$5.99 and

Immunotherapy Hyperthermia

utilized to cure cancer

Radiofrequency ablation

How to Cure Cancer Fast With

No Side Effects - Vanessa

Fairchild Parker 2016-08-15

Is there a cure for cancer?

Definitely! The cure for cancer

is not as complicated to be

found as we have been made

to think. You have to step

outside the box and cure your

cancer with anticancer remedies

within a month or maybe within

a week. The cancer therapies in

this book are the ones your

medical doctor will not mention to you and yet, they have been scientifically proven to work (many of them work much better than any chemotherapy drug out there). Many of those cancer therapies have helped millions of people to cure cancer and many other diseases once and forever. They go way beyond good nutrition and diet and there are scientific studies done on each of them. Many of the therapies in this book are completely free, some cost pennies, others cost a few dollars a day, but all of them are based on science and are thousands of times cheaper than any chemotherapy, and most importantly - they have

NO side effects (unless you have certain allergies or a specific pre-existing condition). For some of the cancer therapies in this book you don't need to interact with a medical practitioner, for others you do. I believe in treating cancer with anything that works and doesn't make things worse. But it goes without saying that surgery and poisoning shouldn't be acceptable ways to treat a disease, which is curable in other ways. Medical doctors and Bio Med Companies are doing their jobs. They do what is expected from them to be done and what they are paid for. You have to do your job. And your job is to take your

own health in your own hands and not to trust anyone, but yourself when it comes to your body. You hold the power to cure yourself and you should not give that power away to anyone, who makes profits out of your disease, as when that is the case, it is very likely that their intentions might not be quite sincere. If you are reading this, most probably you or a loved one is sick. You will learn what to do after you notice your first cancer symptoms, you will learn what are the best anticancer foods and substances for melanoma, lymphoma, lung cancer, breast cancer, pancreatic cancer, liver cancer, prostate cancer,

testicular cancer, skin cancer, colon cancer, leukemia, colorectal cancer, cervical cancer, bone cancer, bowel cancer, thyroid cancer, ovarian cancer, stomach cancer, throat cancer, esophageal cancer, and all other types of cancer. You will learn about tumors and what substances can melt them.

This book costs less than a meal in a restaurant in New York City and the knowledge you will get on how you could get your health and your life back in return is priceless. You decide whether your health is worth that price or not

Treating Cancer with Immunotherapy and Targeted Therapy - David A. Olle

2022-03-30

Treating cancer has always been a major challenge. Although great strides in treatment have taken place in recent years, all too often current treatments are less than effective, or patients relapse. Newer methods of cancer treatment, namely targeted therapy and immunotherapy have generated great excitement in the scientific community. These newer methods of cancer treatment hold promise for patients who otherwise may have few options. Using the principles of health literacy, this updated edition includes many new therapies and describes the

essential features of cancer treatments available to the general public in an engaging and stimulating manner. A simple, question/answer format and the use of illustrations, tables, charts, and boxes that highlight definitions, facts, and website links provide more detailed information. Features: Provides questions and answers about the characteristics of cancer, diagnosis, classifications, surgery, chemotherapy, radiation therapy, targeted therapy, adoptive cell therapy, new developments, and more Cites many new therapies and includes numerous in-text Web links to information at the

National Institutes of Health, the National Cancer Institute, journals, and other online sources Uses animations, practical tips, charts and tables, figures, and photos to explain topics under discussion.

Doctors Who Cure Cancer -

Artour Rakhimov 2013-06-22

The book is based on a therapy used by more than 170 Soviet and Russian medical doctors. According to their clinical observations and hundreds of Western studies, low body oxygenation is the key factor that promotes cancer. These observations resulted in a unique clinical trial on cancer patients organized by one of the Ukrainian physicians who

applied the Buteyko method on 120 people with metastatic cancer. The book "Doctors Who Cure Cancer" provides detailed analysis of the method since this is the most successful clinical trial in the whole history of cancer research. The tested cancer therapy was based on breathing retraining or teaching patients who to breathe in accordance with medical norms days and nights. Here are some details of this trial. Early metastatic cancers are deadly, but even these cancers can be cured For early stages of metastasis, the typical 3- or 5-year survival rate is usually about 70-80%. In this astonishing published clinical

trial, the survival rate in the control group was about 76%. But 96% of people in the main group, which practiced breathing exercises (to increase body oxygenation), in addition to standard medical therapies, survived. Therefore, this self-oxygenation technique naturally reduced mortality almost 6 times! There were only 2 people in the experimental group who died, but both had serious additional heart problems (heart disease and diabetes). But all those who had only cancer survived. This can be the most powerful natural cancer cure used by doctors. Can we cure cancer naturally? The trial was published in Ukrainian Oncology

Journal (Kiev). This self-oxygenation method has been used by more than 160 Soviet and Russian medical doctors on over 200,000 patients, many of whom had cancers. Prior to this clinical trial, these Soviet and Russian MDs tested hundreds of people with cancers and found that all of them had heavy breathing pattern with low results for the DIY body oxygen test. These doctors discovered that dynamic of cancer (stalemate, metastasis or regression of tumors) depends on breathing patterns and body oxygenation. They developed a program for cancer treatment that is based on simple breathing exercises and

lifestyle changes. Breathing parameters in people with cancer Several Western studies (described in this book) measured minute ventilation, respiratory frequency and end-tidal CO₂ in people with cancer. All these medical publications found that virtually each and every person with cancer: breathed about 2 times more air per minute than the medical norm had very low exhaled CO₂ content (about 2 times less for people with metastasis) had increased respiratory rate at rest (up to 30-40 breaths/min instead of normal 10-12 breaths/minute). This is called "hyperventilation" or breathing more than the medical norm.

Overbreathing, according to hundreds of clinical studies, reduces O₂ levels in body cells. Review of other breathing therapies for treatment of cancer Apart from the Buteyko breathing method used by more than 150 doctors, this book reviews other self-oxygenation techniques and breathing exercises that increase body oxygenation. The book suggests that people can cure cancer naturally if they normalize their automatic breathing and achieve about 40 seconds for the simple DIY body oxygen test. *You Can Conquer Cancer* - Ian Gawler 2015-02-05 This edition originally published:

South Yarra, Vic.: Michelle Anderson Publishing, 2013.

Cancer Can Be Cured - Father Romano Zago 2015-08-18

Father Romano Zago, a Franciscan Friar and scholar, wrote the book *Cancer Can Be Cured* to reveal to the world an all-natural Brazilian recipe that contains the juice made from the whole leaf plant of *Aloe arborescens* and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande do Sul, Brazil, that he and the provincial father Arno Reckziegel witnessed the

healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy, where this aloe species grows naturally, he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next twenty years in researching the science behind this aloe species and the publication of that research in this book along with his numerous firsthand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole

leaf Aloe arborescens juice, honey, and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and AIDS. There has been much publicized scientific research and literature

on the synergistic benefits of the three hundred phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little-known potency.

Dr. Sebi Cure for Cancer -

Torireh Hayebless 2021-04-26

Are you suffering from cancer disease and it seems like all hope is lost? Do you believe that there are certain medicinal alkaline diets and herbs that can cure cancer? If you belong to the above categories, then, this Dr Sebi Book to cure cancer is perfectly prepared for you. More so, with the use of

this Dr. Sebi Alkaline Diets and Herbs for Cancer you can be cured of your cancer disease. This book will enlighten and give you hope for a brighter future that you can still live and enjoy life to the fullest. Dr. Sebi is a medical traditionalist and an herbalist during his life. He had cured a lot of diseases such as diabetes, herpes, cancer, fibroid, high blood pressure, and many others. He succeeded in fighting against diets that are harmful and capable of damaging cells in the body. He made self-research on medicinal alkaline diets and delightful smoothies that can fight against any level of cancerous cells in the breast,

prostate, skin, pancreas etc. which include Sea Moss, Pao Pereira, Anamu, Soursop, Cannabidiol oil and many others to completely treat Cancer without recurrence. Amazingly, in this Dr. Sebi cure for Cancer Book you will learn the following: The general use of Dr Sebi Alkaline diets and herbal medicine methodology. General symptoms of cancer such as change in the skin, fever, body pain, unexplained weight loss, Anemia and others. The use of the Dr Sebi approved alkaline diets and herbs to detox, cleanse and nourish electric body. Breast cancer symptoms and diets that can prevent breast cancer. General Causes

of Cancer. Dr Sebi's methods of curing Cancer. The Dr Sebi's nutritional food list that effectively serve as body cell food products for quick recovery. List of Dr. Sebi delicious healing diets and how to prepare them. Dr Sebi therapy or treatment for curing cancer... and several others This book serve as a detailed and self-explanatory tool that helps to guide and monitor your health. Your health is your wealth, and your happiness is your dream. This book is the tool you need to make your dream come through. To achieve that click on "BUY NOW Button" for your own Copy of this Dr. Sebi alkaline

diets & herbs for Cancer Book. *I Cure Cancer* - Chris Wark 2019-05-30 "I cure cancer," say it, because only you can cure your cancer. Say, "I cure cancer!" How do you cure cancer? Cure your acidosis and kill your pathogens. Dr. Bernardo was treating cancer patients for 50 years with this alkaline balancing protocol with a 90% success rate. This book has his protocol and many experts to back it up. *I Cure Cancer*, debuted in 2006 as a movie in NY. It explains for curing cancer, natural healing is the only way. Go holistic. Get alkaline. You don't die of cancer. You die of Acidosis. My

info isn't to replace your Doctors
it's to add to your arsenal. I'm
just a filmmaker. That being
said these days, going to your
doctor is not enough due to the
fact that the medical business is
just that: a business. Therefore,
it offers only those treatments
that are lucrative for the medical
industry. Those treatments have
a dismal long-term remission
rate, and they are only a tiny
slice of what's available for
treating cancer and what has
worked for other people.
Therefore, if you want to make
sure you are doing everything
you can to cure your cancer,
and if you are willing to take
responsibility for your own life,
you must not only go to your

doctor but also do your own
research in order to learn about
options that could either
complement or replace
conventional, Western methods
(chemotherapy, radiation and
surgery). These methods work
for some but also have serious
and sometimes fatal side
effects. I am not a Doctor, nor
am I offering a cure to anyone.
The "i" in I Cure Cancer refers
to 'you', the person who is
logging on to the site in search
of information regarding what
other fellow human beings have
done in battling this horrendous
disease. In short as with any
matter of importance dealing
with one's well being, the first
step is in taking responsibility

for one's self. To gather as much information on the subject as possible in order to make educated assessments on what would work best for them. I made the film because as an actor in Hollywood it was the next viable venue for me to express what I had to say as a spirit on this planet. Regular movies weren't cutting it. Reading someone else's lines weren't my thing. I wanted to say my own lines. So I did through other people. I interviewed them to tell my story. In this documentary, it was that cancer was curable if you went holistic. I realized the movie had to be made into a book. I had to show the world

what I found and include a basic do it at home holistic health program via Dr. Bernardo Majalca. So here you go. Everything in one book for your cancer healing journey. If you are in a hurry skip to Chapter 6. Read Dr. B's story then do the protocol in chapter 7. It takes 3 months to a year and a half sometimes to get your pH balanced. Once you do, the cancer dies. Bernardo would say if your pH is 7 to 7.4 for 3 months straight you are cancer free. Because cancer can not live in an oxygenated body. Disclaimer: We are not doctors! Just regular people not trusting Rockefeller Western Medicine. Sharing our insights. Only you

can cure your cancer so say it.
Say iCureCancer. I hope this
book helps you. I worked hard
on it. Good luck and God bless.
Peace. Ian Jacklin

**Cancer Cured: Victory Over the
War on Cancer - Mark Sloan**

2020-02-10

What if I told you that all the
research needed to end the
disease of cancer forever has
already been completed? Would
you believe it? Well now you
don't have to! Cancer Cured is
a 2-book Special Edition
including two internationally #1
bestselling books titled The
Cancer Industry and Cancer:
The Metabolic Disease
Unravalled. Backed by evidence
from over 2400 scientific and

clinical studies, Cancer Cured
takes you on a comprehensive
scientific investigation into
cancer treatments, cancer
screening programs and the
cancer industry - and then you'll
find out what cancer is, what it
isn't, and the most efficient
ways to heal it, without causing
any harm in the process.

Knockout - Suzanne Somers

2010-10-05

In Knockout, Suzanne Somers interviews doctors who are successfully using the most innovative cancer treatments—treatments that build up the body rather than tear it down. Somers herself has stared cancer in the face, and a decade later she has conquered her fear and has emerged confident with the path she's chosen. Now she shares her personal choices and outlines an array of options from doctors across the country:

EFFECTIVE ALTERNATIVE TREATMENTS •without chemotherapy •without radiation •sometimes, even without

surgery **INTEGRATIVE**

PROTOCOLS •combining

standard treatments with therapies that build up the immune system **METHODS FOR MANAGING CANCER**

•outlining ways to truly live with the disease Since prevention is the best course, Somers' experts provide nutrition, lifestyle, and dietary supplementation options to help protect you from getting the disease in the first place.

Whichever path you choose,

Knockout is a must-have

resource to navigate the life-

and-death world of cancer and

increase your odds of survival.

After reading stunning

testimonials from inspirational

survivors using alternative treatments, you'll be left with a feeling of empowerment and something every person who is touched by this disease needs...HOPE.

Beating Cancer Can Be Fun -

John W. Hall 2011-08-24

How John Hall's book is different from others **John was diagnosed with Melanoma Cancer IV, had surgery to remove 10 metasticized tumors, but afterwards was informed by his Oncologist M.D. that there was little or no hope for recovery-- since Chemo and Radiation Therapy do not work on Melanoma, John felt like he was facing immediate death in the next few months. However

under the guidance of a Holistic Nutritionist he was able to rebuild his Immune System. As a result, 2 years later, has conquered his cancer. **As an ex Premedical student, John had studied Inorganic and Organic Chemistry so that he has been able to do research on the causes, preventions, and possible cures for cancers.

**John is currently a Family Therapist in Roseville, Ca, and for the past 30 years has counseled the emotional and psychological issues of his clients. He now also counsels cancer patients related to their emotional and relationship problems.

www.starlite@roguelink.us **His

major goal is to help others build up their Immune System. He believes, from experience, cancer can be cured with proper nutrition. The book cover is a microscopic image of a neutrophil swallowing the anthrax bacteria, as the best proof of EVIDENCE-BASED NUTRITION IN SCIENCE TODAY(an example of how the human immune system's defenses are what prevent diseases and cancers). Further explained in Chapter 3 of the book. **The material he presents is brief, in summary form, and is easy to read. He makes suggestions of the best foods to eat, supplements, and healthy waters to consider.

**John learned doctors are not gods, don't have the answers to what cures cancers, and patients need to become aware that a healthy nutritional approach for their condition is a viable and doable program. He did it and won. He hopes you will too.

The Cure for All Advanced Cancers - Hulda Regehr Clark
1999-10-01

Cancer can now be cured, not only the early stages, but also advanced cancer, stages four and five, including imminent death. We are not accustomed to thinking about a cure. We think of remission as the only possibility. But this book is not about remission. It is about a

cure. This is possible because the true cause of cancer has been found. The cause of the malignancy is explained in the earlier book, "The Cure For All Cancers" (1890035009, £14.50). But removing the malignancy left behind the tumours as they were, prior to the malignant development. So, eliminating tumours became the focus of additional research, and is the subject of this book. The 21 Day Program described in this book does both. Once you win this battle, even advanced cancer can be cured. The success rate for advanced cancer is about 95%. So you can count on this method, not merely hope it will work for you.

It is a total approach that not only shrinks tumours, but also normalises your blood chemistry, lowers your cancer markers, and returns your health. The small failure rate (5%) is due to clinical emergencies that beset the advanced cancer sufferer. However, if you combine the advice in this book with access to hospital care, even 'hopeless' patients can gain the time necessary to become well again.

The Death of Cancer - Vincent T. DeVita, Jr., M.D. 2015-11-03
Cancer touches everybody's life in one way or another. But most of us know very little about how the disease works, why we treat

it the way we do, and the personalities whose dedication got us where we are today. For fifty years, Dr. Vincent T. DeVita Jr. has been one of those key players: he has held just about every major position in the field, and he developed the first successful chemotherapy treatment for Hodgkin's lymphoma, a breakthrough the American Society of Clinical Oncologists has called the top research advance in half a century of chemotherapy. As one of oncology's leading figures, DeVita knows what cancer looks like from the lab bench and the bedside. The *Death of Cancer* is his illuminating and deeply personal

look at the science and the history of one of the world's most formidable diseases. In DeVita's hands, even the most complex medical concepts are comprehensible. Cowritten with DeVita's daughter, the science writer Elizabeth DeVita-Raeburn, *The Death of Cancer* is also a personal tale about the false starts and major breakthroughs, the strong-willed oncologists who clashed with conservative administrators (and one another), and the courageous patients whose willingness to test cutting-edge research helped those oncologists find potential treatments. An emotionally compelling and informative

read, *The Death of Cancer* is also a call to arms. DeVita believes that we're well on our way to curing cancer but that there are things we need to change in order to get there. Mortality rates are declining, but America's cancer patients are still being shortchanged—by timid doctors, by misguided national agendas, by compromised bureaucracies, and by a lack of access to information about the strengths and weaknesses of the nation's cancer centers. With historical depth and authenticity, DeVita reveals the true story of the fight against cancer. *The Death of Cancer* is an ambitious, vital book about a life-and-death

subject that touches us all.

Molecular Biology of the Cell -
Bruce Alberts 2004

Cure Your Cancer - Bill
Henderson 2003

Proven gentle, non-toxic remedies Praised by readers in 42 countries, Bill Henderson's "Cure Your Cancer" book describes exactly how you can take control of your cancer and overcome it. Eighty-one treatments, each of which has cured thousands of cancer patients, including "terminal" cases, are covered in this book. Bill has spent the last three years in intense study of the Internet resources, clinics, doctors, supplements and

support groups now available to you. Augmented by his vibrant network of cancer crusaders doctors, researchers and cancer survivors he guides you every step of the way to vibrant health. When his former wife, Marjorie, died on November 1st, 1994 after a four-year bout with ovarian cancer, Bill vowed that "there must be a better way" to treat cancer. Six years later, he published the first edition of this book. This second edition of "Cure Your Cancer," published in January 2003, incorporates all the knowledge he gained from the many doctors and cancer researchers who contributed to his 35 newsletters and from his

thousands of readers all over the world. This is "how-to" book. It encourages you to take charge of your health and gives you the guidance you need to do just that.

Chris Beat Cancer - Chris Wark
2021-01-05

Now in paperback, the Wall Street Journal best-selling guide to charting a path from cancer to wellness through a toxin-free diet, lifestyle, and therapy-- created by a colon cancer survivor. Millions of readers have followed Chris Wark's journey on his blog and podcast **Chris Beat Cancer**, and in his debut work, he dives deep into the reasoning and scientific foundation behind the approach

and strategies that he used to successfully heal his body from stage-3 colon cancer. Drawing from the most up-to-date and rigorous research, as well as his deep faith, Wark provides clear guidance and continuous encouragement for his healing strategies, including his Beat Cancer Mindset; radical diet, and lifestyle changes; and means for mental, emotional, and spiritual healing. Packed with both intense personal insight and extensive healing solutions, the Wall Street Journal best-selling *Chris Beat Cancer* will inspire and guide you on your own journey toward wellness.

How Cancer Cured Me - David

Gira 2020

Breast Cancer Basics and Beyond - Delthia Ricks 2005

Having breast cancer can be devastating for the woman affected - and for her family and loved ones. It can also be confusing, because there are many variations of the disease and at least as many treatments. By bringing together comprehensive information on the subject, *Breast Cancer Basics and Beyond* helps women better understand their illness and participate in making decisions about all aspects of their treatment and care. In this book, award-winning medical writer Delthia Ricks tells you all

about: common and rare types of breast cancer, their causes and symptoms, diagnosis, including mammography and different kinds of biopsies, treatment options, including lumpectomy, mastectomy, chemotherapy, radiation and hormone therapy, benefits and side effects of the most commonly used drugs, your risk factors, including ethnicity, genetics, hormones and diet, life after cancer, follow-up care and dealing with recurrence, reasons for hope: breast cancer research and treatments in development.

The Cure for Cancer - Terry Cooksey 2012-07

The Cure For Cancer is proven

science. There are no gimmicks, nothing to harm you and nothing expensive you must buy to cure yourself of cancer. Cancer is caused by poisons damaging DNA in the nucleus of the cell and preventing those cells from natural program death called apoptosis. All cancers are caused by poisons, toxins, drugs, chemicals. 100% of all cancers. This book is about recognizing those poisons and how to avoid them; as well as teaching you safe alternatives to the poison foods and drinks that are the core of what is called the American diet . You can cure yourself of cancer and any other disease WHILE you

still listen to your doctors, except the parts about death, dying and no cures. And for those who are not cured, the worst you will do is significantly improve your health and add precious time to your lives. And to be quite honest, you will actually save money as you stop the excessive eating out and learning to get your food addictions under control. And yes, I said get your food addictions under control. Your mind is where those addictions are. Those foods and drinks give you sensations. But it was the sting of death and disease; as you now know. This book empowers YOU with the knowledge you need to cure

yourself. Much of this knowledge has been around for centuries. Doctors turned their backs on this healing medical science in the past 75-100 years. The rest of the knowledge has to do with guiding you out of your current diet of poison saturated foods and drinks; a big part of what you call food, is only pure poison. Doctors know most of this medical science but wont tell you. Find out about a common household item that will stop your cancer and prevent it from existing in your body. A months supply costs \$1 anywhere. Just mix with water. Its science we all use to know and share, but abandoned

starting in the 1940s and 50s. Get science working for you, significantly improving your health, on your way to what very likely will cure you. The only miracle about The Cure For Cancer is how this book teaches you the natural science mankind used for the entire history of the world until the mid 1900s And guides you away from the saturation of disease causing poisons in our entire nations food, drinks and water supplies. The author of The Cure for Cancer has Published other books such as: How to Avoid Dialysis and Cure Kidney Disease Self-Care HealthCare Guide - BOOK of CURES The Author is an expert in cures,

natural healing, herbs, vitamins and Organic Gardening. Cancer Can Be Cured! - Ofm
Romano Zago 2000-09

Cancer Can Be Cured! - Father
Romano Zago 2008-11-24

Father Romano Zago, a
Franciscan Friar and scholar,
wrote the book **Cancer Can Be
Cured** to reveal to the world an
all natural Brazilian Recipe that
contains the juice made from
the whole leaf plant of Aloe
Arborescens and honey that
has been shown to rapidly
restore the body's health so it

heals itself of all types of
cancer. The book tells how it
was while administering to the
poor in the shantytown of Rio
Grande dol Sul , Brazil that he
and the provincial Father Arno
Reckziegel, witnessed the
healing of simple people of
cancer who used this recipe.
Later, when he had
assignments in Israel and Italy
where this aloe species grows
naturally he continued to see
great success in the chronically
ill being cured when he
recommended they use this
recipe. This inspired for him to
spend the next 20 years in
researching the science behind
this aloe species and the
publication of that research in

this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve;

the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency *The Emperor of All Maladies* - Siddhartha Mukherjee 2011-08-09 An assessment of cancer addresses both the courageous

battles against the disease and the misperceptions and hubris that have compromised modern understandings, providing coverage of such topics as ancient-world surgeries and the development of present-day treatments. Reprint. Best-selling winner of the Pulitzer Prize.

Includes reading-group guide.

Constructions of Cancer in Early Modern England - Alanna Skuse 2015-11-11

This book is open access under a CC-BY licence. Cancer is perhaps the modern world's most feared disease. Yet, we know relatively little about this malady's history before the nineteenth century. This book provides the first in-depth

examination of perceptions of cancerous disease in early modern England. Looking to drama, poetry and polemic as well as medical texts and personal accounts, it contends that early modern people possessed an understanding of cancer which remains recognizable to us today. Many of the ways in which medical practitioners and lay people imagined cancer – as a 'woman's disease' or a 'beast' inside the body – remain strikingly familiar, and they helped to make this disease a byword for treachery and cruelty in discussions of religion, culture and politics. Equally, cancer treatments were among

the era's most radical medical and surgical procedures. From buttered frog ointments to agonizing and dangerous surgeries, they raised abiding questions about the nature of disease and the proper role of the medical practitioner.

The Cure for All Cancers -

Hulda Regehr Clark 1993

"Learn how to identify and remove what causes your cancer - your body will do the rest. Read how over 100 others recovered from all kinds of cancer. It doesn't matter what kind of cancer you have or your prognosis. You can even test yourself and discover what helps you the most."--Back cover.

Apricot Seeds - Cancer Cure with Vitamin B17? - Marcus D.

Adams 2021-03-23

Cancer is an ever-growing problem, stealing lives worldwide at an alarming rate.

A World Health Organization report stated that every year 1.6 million new cases are reported in the United States alone and that over 600,000 will die from the disease. Unfortunately, cancer isn't just one thing or one disease, it is an umbrella term that encapsulates any condition where abnormal cells grow at an abnormal rate. Currently, every organ and system of the body can be attacked by some form of cancer, some of which can

spread to other areas of the body or even into the blood itself. Medical Science is working furiously to find a cure, exploring avenues both modern and obscure. Natural Medicine has also lent a hand in the search, looking at cures and remedies presented to us today and those from the distant past. Vitamin B-17 is a half-natural, half-man made substance known as Laetrile. Created from raw nuts and the pips of many fruits like apricot, this amygdalin has an enzyme that interacts within the body, and within cancerous cells that actively fight the invaders. Chemistry works in the lab and in the body, and these compounds, in

conjunction with a healthy diet and proper medical care, may be paving the way to cancer treatments - and even a cure. This guide explains how Vitamin B-17 works, how to incorporate it into your diet, the benefits and possible drawbacks as well as addressing common questions or concerns. If you, or someone you know, is suffering the debilitating effects of cancer, you owe it to yourself to read this book today.

[Novel Approach to Curing Cancer](#) - Ping Zha 2019-01-08

In this book, we disclose a completely new methodology for fighting cancer. In this book, we(1) disclose a systematic methodology for curing cancer

in confidence;(2) extensively discuss how to do right things to win a speed contest in fighting cancer;(3) extensively discuss how to do right things to control cancer cell population, a critical measure to survive;(4) provides detailed analysis of fatal common mistakes that have take nine of ten cancer patient lives; and(5) expose flaws in cancer treatment model and foundation of medicine.The approach used to similar to one we used in Health Optimization Engineering, a new branch of health art. The soul of our methodology is a two-way optimization methodology in fighting diseases. The book

teaches the decisive roles of SPEED, NUMBER and MULTIPLE FACTORS. Those three terms are not mentioned in medical books, cancer research articles, and are not part of the language used in hospitals. That is why "cancer" has become a term that shocks people. A false diagnosis of cancer can take the lives of some fragile people. Any treatment without using cancer dynamics is unsuccessful. President Nixon declared a war on cancer in 1971 with his signing of The National Cancer Act. This war has been all but lost as no cure has been found. We have heard time and again that researchers have found "a

cure to cancer." No real cure has been found. No single drug can cure cancer. We have heard again and again about "ground-breaking cancer research." One thing that has never be changed is the approach to using drugs and the basic treatment model used in hospital. Those two things determine such promises will forever be empty promises. We show in our book that as long as drugs have side effects and are administered periodically, such drugs cannot be real cures. One reason is that the cancer dynamic nature determines that no drug can root out all cancer cells in the human body by a brief

application. Another obvious reason is that cancer cells can generate a massive numbers of new cells in any 24 hour window, which are ample in each of drug break periods. Patients are often told their cancers are "in remission" or they are "cancer-free in a time window that is absolutely impossible. This kind of ignorance places cancer patients in a definitive course to lose their lives. The stories about Steve Jobs, Farrah Fawcett, William Rehnquist, John McCain, Ted Kennedy, Sydney Pollack, etc. reveal one or more obvious reasons for their lost fights. None of those who lost their lives are taught

with multiple factor approach. Any of several combinations can cure cancer in perhaps 80% to 90% of chances. By understanding the three most important terms, nearly all cancer patients can survive.

Stop Fighting Cancer and Start Treating the Cause - Kevin

Connors 2013-02-05

3rd Edition - Twice the content as the original! An eye-opening exposé on modern vs. alternative cancer treatments.

Dr. Kevin Connors of Connors Clinic approaches sickness from an integrative perspective, blending holistic and modern practices, to help people's bodies move towards health and healing, especially as it

relates to cancer. Cancer is a very scary word; but it doesn't have to be. Conventional approaches are aimed at debulking a growing cancer, never addressing what drives it. Why do I have cancer? Is there a cause that needs to be addressed? This book will help answer these questions and give hope for those dealing with a cancer diagnosis, beyond standard medical approaches, using holistic, natural, alternative cancer practices. Dr. Kevin Connors does not treat cancer; he treats the cause. Focusing on what creates disease in your body will allow you to empower your immune system to do what it was

designed to do: kill! Cancer cells, bacteria, viruses, all these are constantly battling your immune system. Through proper detoxification you are able remove dangerous toxins from your body. However, if you have genetic defects on select detox pathways you have these biotoxins/chemotoxins/etc. creating a homestead in your cells. This is the beginning of sickness and disease. In this expanded edition you will get information on many non-toxic nutraceuticals (herbs, vitamins, supplements) such as Medicinal Mushrooms, Enzyme Therapy, Gerson Therapy and Coffee Enemas, Bloodroot products, Cannabis (CBD, THC), Turmeric

and Curcumin, Essiac Tea, Laetrile, IP-6, Hoxsey, Protocol, Budwig Diet, Fenbendazole, and tons more!

Rudolf Breuss Cancer Cure

Correctly Applied - Juergen H.

R. Thomar 2016-01-14

In 2001 Jürgen H.R. Thomar, who was born in 1938, was diagnosed with prostate cancer.

In 2002, after undergoing conventional medical treatment at a university hospital, he was diagnosed with recurrent cancer. After numerous tests and examinations, he was offered a therapy that had not been scientifically documented, so J. Thomar was to become a "guinea pig". Realizing this, the author of the book lost faith in

conventional medicine and turned to naturopathy. He found assistance and advice in the book "Natural Treatment of Cancer, Leukemia and Other Seemingly Incurable Diseases" by Rudolf Breuss, a well-known healer, naturopath and folk medicine expert from the city of Bludenz (Austria). R. Breuss, who died in 1990 at the age of 91, developed a remarkably effective treatment method based on therapeutic fasting and consumption of vegetable juices. Using this method, which has already been practiced for decades, many cancer patients manage to regain their health. Undertaking the Breuss cancer cure requires from patients

determination, endurance and self-discipline. Although this method of treatment cannot guarantee complete success, it is viewed as a supportive therapy with prospects in treating a wide variety of cancers. In spring 2004 the author himself completed this course of treatment, which had been repeatedly and successfully used by Breuss; this resulted in complete recovery, which was confirmed by all subsequent tests and examinations. After completing the course of treatment Jürgen Thomar, as a mark of gratitude to Rudolf Breuss, created the website www.breuss-kur.de, which has generated immense

interest worldwide: so far, this site has received over 300,000 visitors. That started Mr. Thomar's literary activity. Mr. Thomar, with his book "Rudolf Breuss Cancer Cure Correctly Applied", deserves credit for providing a practical and reader-friendly systemic description of the Breuss treatment, thus developing a guide to the Breuss Cancer Cure. This book should be seen as a fundamental manual to successful application of the Breuss cancer cure. Mr. Thomar is the author of several other books, including: "Heilfasten nach Rudolf Breuss ... einfach genial" ("Rudolf Breuss Fasting Therapy -

Simply Ingenious" - in German), "Pratique de la Cure Breuss: Expériences, conseils et recommandations" ("The Practice of the Breuss Cancer Cure: Experience, Advice and Recommendations" - in French), and his autobiography "Das war's" («How it was" - in German) in pocket book size format, covering the same topic of defeating cancer using the Breuss cancer cure.

The Truth about Cancer - Ty M. Bollinger 2018-10-09

Cancer touches more lives than you may think. According to the World Health Organization, one out of three women alive today, and one out of two men, will face a cancer diagnosis in their

lifetime. To Ty Bollinger, this isn't just a statistic. It's personal. After losing seven members of his family to cancer over the course of a decade, Ty set out on a global quest to learn as much as he possibly could about cancer treatments and the medical industry that surrounds the disease. He has written this book to share what he's uncovered—some of which may shock you—and to give you new resources for coping with cancer in your life or the life of someone you love. As Ty explains, there are many methods we can access to treat and prevent cancer that go well beyond chemotherapy, radiation, and surgery; we just

don't know about them. The Truth about Cancer delves into the history of medicine—all the way back to Hippocrates's credo of "do no harm"—as well as cutting-edge research showing the efficacy of dozens of unconventional cancer treatments that are helping patients around the globe. You'll read about the politics of cancer; facts and myths about its causes (a family history is only part of the picture); and the range of tools available to diagnose and treat it. If you're facing a cancer diagnosis right now, this book may help you and your health-care provider make choices about your next steps. If you're already

undergoing conventional treatment, it may help you support your health during the course of chemo or radiation. If you're a health-care provider and want to learn all you can to help your patients, it will expand your horizons and inspire you with true stories of successful healing. And if you just want to see cancer in a new light, it will open your eyes.

Alternatives in Cancer Therapy -

Ross Pelton 2009-09-29

Alternatives in Cancer Therapy offers help for all patients coping with cancer. The therapies discussed in this book are primarily non-toxic, have few, if any, side effects, and tend to strengthen the immune

system. They can be used as supplemental regimens that help maximize the effectiveness of traditional therapies such as surgery, radiation, and chemotherapy. Patients have a right to know all of their treatment options, and Dr. Ross Pelton presents dozens of choices, including: * Shark Cartilage * Gerson Therapy * Mistletoe * Isoprinosine * Laetrile * Selenium * Beta-Carotene * Hydrogen Peroxide * Vitamins C and E * The Hoxsey Treatment Non-traditional therapies can enhance the quality of life, and improve overall health while treating the disease. Alternatives in Cancer Therapy provides information on

the research, efficacy, potential side effects, and availability of each treatment.

Cured My Cancer - William

Trucks 2011-10-19

I was rapidly dying from stage 4 Liver Cancer Metastasized into my Pancreas and Left Kidney.

My body was shutting down and

I was sick and weak. Faced

with a certain death, my wife

and I were researching to find

something... anything to get this

mess out of me! We researched

all over the world, examining

each treatment and mainly the

cure claim percentage rate! We

bought books and books but

most were simply repeats of

various alternative protocols

and no doubt many worked.

However, the highest survival rate of anything we found for me at my late stage 4 multi-

organ cancer was a strong

combination of SALVES - an

amazing Drawing Salve and a

powerful Antibiotic salve. These

salves were used with an

astounding success rate in

some societies and were

available in the USA through

American Indian formulas. We

read everything we could on the

Salves and weighed this against

all other treatment methods.

Since the salves were used in

some countries as a cancer

treatment and we had

networked with many that used

the salves with success, we

prayerfully considered all

information and were convinced we had the right thing, so - my wife and I went forward uncertain and somewhat fearful. We applied the Salve on a spot on my back that had itched for years. The next day I had a black opening that was nickel size. The photo on the left is about 3 1/2 weeks into my cancer extraction using the salves. The Salve advanced into my body drawing pints of dissolved cancer cells in just 7 weeks. The right photo was the start of the 7th week and some dead cellular sludge was still seeping but healing had begun! Although the opening looks horrendous, the discomfort was tolerable and I had no pain

management. I basically continued a low level normal life during the process. Tissue and skin took an additional time to grow in, but finally did resulting in complete healing as you'll see in our booklet. Since extracting my cancer, CT scans and 'live blood analysis' with Darkfield scope all show... MY CANCER IS GONE! I am gaining strength back slowly since my organ damage was extensive but I'm alive and well. We kept a record of everything and decided to share our healing experience since people who knew about what we did were amazed and encouraged us to do this story - as an educational tool. Our booklet

tells what we learned and where we got our information so you can research it yourself. Our story is incredible and simply to demonstrate there is another side of the Cancer issue unknown to most people. We learned that our living the 'American Dream' exposed me to foods saturated with chemicals and preservatives, death dealing fast food, poisons everywhere and incredible mental and emotional stresses. The toxic medications I took for these lifestyle problems never addressed the root 'causes'. I suspected the war on cancer was lost by standard medicine but didn't know I was pushing myself to the very thing that

killed family members and dear friends. This EDUCATIONAL booklet should be of great interest since so many lives and families are devastated by this apparent life-style triggered epidemic. Nearly everyone can learn the answers we did and make informed and knowledgeable decisions about what to believe - but it's your business. We offer little criticism of standard Oncology practice - since others do a better job - but show you my personal story and that of others who are cancer free by taking charge of our personal health. PLEASE READ THE BOOKLET since we've found some things you may want to know. My Personal

story with progress photos about surviving major multi-organ cancer. Some reference of verified world-wide use of the treatments I used and protocols others used. Why some societies treat cancer as a routine health issue. See why this educational booklet is so unique. Some photos of Breast and other cancer extraction - they are amazing.

Cancer's Cause, Cancer's Cure: The Truth About Cancer, Its Causes, Cures, and Prevention - Morton Walker, D.P.M.

2013-09-17

Cancer is an illness we all dread simply because it is very difficult to cure. Massive amounts of money have been

spent not only trying to find a cure but to help potential victims prevent the disease from occurring in the first place.

Following on the heels of the discovery of DNA's double helix, Dr. Mirko Beljanski, a microbiologist at the Pasteur Institute, discovered some fundamental truths about cancerous DNA and how carcinogens act on DNA. In the course of his discoveries, he also discovered highly powerful and scientifically proven botanical agents that kill cancer cells. Beljanski found that his botanicals were selective—they only harmed the cancerous cells but didn't harm healthy cells. In the process, Dr.

Beljanski was vilified by the French government, but he continued on with his research and found that when his botanical agents are coupled with traditional chemo and radiation cancer therapies, each becomes more effective, thus finding a highly viable integrative cancer solution.

Current studies on Dr. Beljanski's products have been conducted through the Cancer Treatment Centers of America and the Center for Holistic Urology at Columbia University. There is more research that needs to be done to confirm Dr. Mirko Beljanski's major breakthroughs in cancer treatments. There is a way to

make this most feared of diseases manageable. The war on cancer is winnable, but only if we all band together and demand that the research be done so that anyone who ever hears the dreaded words, "you have cancer" doesn't feel like they've been handed a death sentence.

Cancer: 100 Ways to Fight -

John Roberts 2010-03-29

Cancer: 100 Ways to Fight Your own attitude is your brightest guiding star. Some of success is doing what you like to do.

But, more of it is doing the things you don't like to do, but must. It is too easy to make an excuse, and not do it, and fail.

–John Roberts As this book

goes to press early in 2010, I am 75 and into my fifth year with incurable metastatic prostate cancer, which had already spread to the bones before cancer was diagnosed and the prostate removed. The statistical prognosis for the current treatments of choice is that one-half of these patients will die within three years, 75% within five. This usually happens after the standard treatments and chemotherapy fail and must be discontinued due to harmful side effects or weakening effectiveness, resumed cancer growth, and the failure of bones or key organs. I am still feeling fine, no pain, living a normal life, and I

have completed eight months of chemotherapy with a 63% drop in my PSA (prostate cancer blood test) without major side affects or rising PSA. I have fought this cancer and its personal consequences in more than a hundred ways as described here. Above all, a lifetime of fitness, and my current excellent physical and mental condition, supplemented by great medical care and everything else I can learn or think of, is partially responsible for my success in living beyond the average life span for my particular fatal disease. We cannot know which weapon or how much each one contributes to the extension of life, so we

must use them all. The doctors all say that cancer survival is very unpredictable, and I figured that many of the positive outcomes must depend on how comprehensively and how hard the individual fights. So, I immediately started this book and organized my fight. I was extremely unfortunate: most prostate cancer either is so slow growing, or eliminated by removal, that survivors live for many years. In my case, it had already spread, or metastasized, to the bones prior to the operation, and that cancer is inoperable and incurable. But, some people in that condition die very early, while others, like me, live much

longer. This is highly unpredictable in individual cases due to variation in patient condition, treatment effectiveness, and other unknowns. More than half of all people newly diagnosed with cancer will be cured or given extended remission. They will die of something else. Of the other half, a large number have treatable cancer and they still have many years to live. The remainder, probably including me, have learned that they have incurable cancer that has grown too strong or spread and taken root in such places that it cannot be killed or removed and death is likely in the next few months or years. Nevertheless,

normally incurable cancer and conventional predictability sometimes fail, and others may prolong life by fighting with strong mental and physical effort. As the disease progresses and is treated, and science advances, sometimes in great leaps, we are rarely sure of which group we are in. That uncertainty, that hope, and the dreadful power of cancer, call for great strength of character and effort in both patients and those around them. This book is about that. The animal instinct to survive is, in humans alone, expanded in our unique cortex to something much greater—the intelligent understanding of self-

awareness and an intense desire to prolong the experience, growth, and emotion of life. The human spirit, beyond the mere motivation of existence, is largely responsible for all that our species has conquered and achieved. It is an essential quality to be trained, treasured, and put to use, and one of the finest ways is to survive, continue, and improve our exceptional life through our collective and individual intellect. In the last century, medical science, the visibility of living in distant years, and the recognition that we are, and can be, responsible for increasing our own longevity have ad

Novel Approach to Curing

Cancer - Jianqing Wu

2019-08-11

In this book, the authors make extensive comparison between medical treatments and health optimization methods (an improved mind-body model) in order to determine their relative and TRUE benefits for cancer patients. For the health optimization method, they examine its use history, acceptance, and performance throughout its history; and for medicine, they examine medical treatment history, leading cancer theories, standard of care formation, formation of legal frameworks, and overwhelming performance data

we could find from the massive medical literature. We can show with irrefutable evidence why medicine cannot cure cancer and what role it is actually playing. The book (1) discloses a systematic methodology for curing cancer in confidence; (2) extensively discusses how to do right things to win a speed contest in fighting cancer; (3) extensively discusses how to do right things to control cancer cell population, a critical strategy for survival; (4) provides detailed analysis of fatal common mistakes that have taken nine of ten cancer patient lives; (5) exposes flaws in the cancer treatment models, medical research model, the

foundation of medicine; and (6) conduct a detailed analysis of four killer factors which are routinely found in nearly all cancer care. The approach used to similar to one used in Health Optimization Engineering, a new branch of health art. The book teaches the decisive roles of SPEED, NUMBER and MULTIPLE FACTORS and how to fight cancer by using a two-way optimization methodology. Those three terms and optimization method are not mentioned in medical books, cancer research articles, and are not part of the language used in hospitals. Our simulation and our kinetic

studies show that both cancer development and reversal processes would take many years. The rates of reversals for cancer and all chronic diseases are so slow that medicine cannot accurately evaluate. This is why medicine cannot recognize or refuses to acknowledge any cure that requires half a year to several years to accomplish. The approach we use in this book is directly in conflict with three core concepts in medicine: dualism, reductionism, and population-based approach. Moreover, we found that medical treatments can partially neutralize and totally nullify the curative benefits of our

optimization method. Based on our own findings and the results from reanalyzing massive existing medical publications, we inevitably found that medical treatments are primarily responsible for creating the cancer panic and the treatments shorten lives in a super majority of cases. We try to analyze every issue in the most comprehensive way. Our analysis covers medical model and its legal framework, leading cancer theories, treatment

development histories, formation of standard of care, control selections in drug trials, the massive cancer controversies, and mountains of actual performance data. The most convincing evidence is the performance verdicts by recent medical studies and latest meta reviews. We try to built a watertight case that precludes any of those arguments that have been made by proponents of the reductionist medical model.
