The Marvelous Toy - 2009-08-01

It's a major publishing event! For nearly half a century, "The Marvelous Toy"--composed by the legendary singer/songwriter Tom Paxton--has enchanted children and adults alike. A simple tale about a mysterious, magical, and mystical toy that a father gives to his son--and that eventually gets passed down to the next generation--it celebrates a child's sense of wonder. The witty, evocative lyrics spark the imagination. No surprise, then, that the song has been recorded by countless major artists, from Peter, Paul, and Mary to the Chad Mitchell Trio to John Denver, and won legions of fans through the years. Paxton's marvelous song has finally become a stunning picture book, featuring incredible and wildly imaginative art by Steve Cox, illustrator of the award-winning PIGS MIGHT FLY. Parents, grandparents, friends, and family worldwide will remember this classic from their own youth--and joyfully share it with their own children.

Teaching What Really Happened - James W. Loewen 2018-09-07

"Should be in the hands of every history teacher in the country."— Howard Zinn
James Loewen has revised Teaching What Really Happened, the bestselling, go-to resource for social studies and history teachers wishing to break away from standard textbook retellings of the past. In addition to updating the scholarship and anecdotes throughout, the second edition features a timely new chapter entitled "Truth" that addresses how traditional and social media can distort current events and the historical record. Helping students understand what really happened in the past will empower them to use history as a tool to argue for better policies in the present. Our society needs engaged citizens now more than ever, and this book offers teachers concrete ideas for getting students excited about history while also teaching them to read critically. It will specifically help teachers and students tackle important content areas, including Eurocentrism, the American Indian experience, and slavery. Book Features: An up-to-date assessment of the potential and pitfalls of U.S. and world history education. Information to help teachers expect, and get, good performance from students of all racial, ethnic, and socioeconomic backgrounds. Strategies for incorporating project-oriented self-learning, having students conduct online historical research, and teaching historiography. Ideas from teachers across the country who are empowering students by teaching what really happened. Specific chapters dedicated to five content topics usually taught poorly in today's schools.

Let It Go - Peter Walsh 2017-02-14

Say goodbye to clutter, reduce stress, and live simply with this easy-to-use guide to downsizing! Whether you are selling your family home, blending households into a new home, or cleaning out your aging parents' home, sorting through a lifetime's worth of accumulated possessions can be a daunting and stressful experience. Decluttering guru Peter Walsh recently went through the process of downsizing his childhood home and dividing his late parents' family possessions. He realized that making these decisions about mementos and heirlooms creates strong emotions and can be an overwhelming chore. In Let It Go, Peter will help you turn downsizing into a rejuvenating life change with his useful tips and practical takeaways, including how to:

- Understand the emotional challenges that accompany downsizing
- Establish a hierarchy of mementos and collectibles
- Calculate the amount of stuff you can bring into your new life
- Create strategies for dividing heirlooms among family members without drama

This new phase brings unexpected freedoms and opportunities, and Peter walks you through every step of the process. You'll feel freer and happier than you ever thought possible once you Let It Go.

The Always War - Margaret Peterson Haddix 2011-11-15

Unending war leads to the discovery of uneasy truths when two teens question the status quo in this riveting thriller. For as long as Tessa can remember, her country has been at war. When local golden boy Gideon Thrall is awarded a medal for courage, it's a rare bright spot for everyone in Tessa's town—until Gideon refuses the award, claims he was a coward, and runs away. Tessa is bewildered, and she can't help but follow Gideon to find out the truth. But Tessa is in for more than she bargained for. Before she knows it, she has stowed away on a rogue airplane and is headed for enemy territory. But all that pales when she discovers a shocking truth that rocks the foundation of everything she's ever believed—a truth that will change the world. Is Tessa strong enough to bring it into the light?

The Book of Iowa Films - Marty Knepper 2014-08-04

This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

Safeguarding the Bioeconomy - National Academies of Sciences, Engineering, and Medicine 2020-05-01

Research and innovation in the life sciences is driving rapid growth in agriculture, biomedical science, information science and computing, energy, and other sectors of the U.S. economy. This economic activity, conceptually referred to as the bioeconomy, presents many opportunities to create jobs, improve the quality of life, and continue to drive economic growth. While the United States has been a leader in advancements in the biological sciences, other countries are also actively investing in and expanding their capabilities in this area.

Maintaining competitiveness in the bioeconomy is key to maintaining the economic health and security of the United States and other nations. Safeguarding the Bioeconomy evaluates preexisting and potential approaches for assessing the value of the bioeconomy and identifies intangible assets not sufficiently captured or that are missing from U.S. assessments. This study considers strategies for safeguarding and sustaining the economic activity driven by research and innovation in the life sciences. It also presents ideas for horizon scanning mechanisms to identify new technologies, markets, and data sources that have the potential to drive future development of the bioeconomy.

Promoting Positive Adolescent Health Behaviors and Outcomes - National Academies of Sciences, Engineering, and Medicine 2020-03-21

Adolescence is a critical growth period in which youth develop essential skills

that prepare them for adulthood. Prevention and intervention programs are designed to meet the needs of adolescents who require additional support and promote healthy behaviors and outcomes. To ensure the success of these efforts, it is essential that they include reliably identifiable techniques, strategies, or practices that have been proven effective. *Promoting Positive Adolescent Health Behaviors and Outcomes: Thriving in the 21st Century* identifies key program factors that can improve health outcomes related to adolescent behavior and provides evidence-based recommendations toward effective implementation of federal programming initiatives. This study explores normative adolescent development, the current landscape of adolescent risk behavior, core components of effective programs focused on optimal health, and recommendations for research, programs, and policies.

The Rural Diaries - Hilarie Burton 2020-05-05

New York Times Bestseller The beloved actress and star of *One Tree Hill*, *White Collar*, and *Lethal Weapon*, Hilarie Burton Morgan, tells the story of leaving Hollywood for a radically different kind of life in upstate New York with her husband Jeffrey Dean Morgan—a celebration of community, family, and the value of hard work in small town America. While Hilarie Burton Morgan's hectic lifestyle as an actress in New York and Los Angeles gave her a comfortable life, it did not fulfill her spiritually or emotionally. After the birth of their first son, she and her husband Jeffrey Dean Morgan, the star of *The Walking Dead*, decided to make a major change: they bought a working farm in Rhinebeck, New York, and began a new chapter in their lives. *The Rural Diaries* chronicles her inspiring story of farm life: chopping wood, making dandelion wine, building chicken coops. Burton looks back at her transition from urban to country living—discovering how to manage a farm while raising her son and making friends with her new neighbors. She mixes charming stories of learning to raise alpacas and buying and revitalizing the town's beloved candy store, Samuel's Sweet Shop, with raw observations on the ups and downs of marriage and her struggles with secondary infertility. Burton also includes delicious recipes that can be made with fresh ingredients at home, as well as home renovation and gardening tips. Burton's charisma, wide eyed attitude, and fortitude—both internal and physical—propels this moving story of transformation and self-discovery. *The Rural Diaries* honors the values and lifestyle of small-town America and offers inspiration for anyone longing to embark on their own unconventional journey.

Artificial Hells - Claire Bishop 2012-07-24

This searing critique of participatory art—from its development to its political ambitions—is “an essential title for contemporary art history scholars and students as well as anyone who has . . . thought, ‘Now that’s art!’ or ‘That’s art?’” (*Library Journal*) Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an audience to take part an artist can promote new emancipatory social

relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as "social practice." Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Pawel Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling, and bolder forms of participatory art and criticism.

The History of "Punch" - Marion Harry Spielmann 1895

The Plague Year - Lawrence Wright 2021-06-08

From the Pulitzer Prize-winning author of *The Looming Tower*, and the pandemic novel *The End of October*: an unprecedented, momentous account of Covid-19—its origins, its wide-ranging repercussions, and the ongoing global fight to contain it "A book of panoramic breadth ... managing to surprise us about even those episodes we ... thought we knew well ... [With] lively exchanges about spike proteins and nonpharmaceutical interventions and disease waves, Wright's storytelling dexterity makes all this come alive." —The New York Times Book Review From the fateful first moments of the outbreak in China to the storming of the U.S. Capitol to the extraordinary vaccine rollout, Lawrence Wright's *The Plague Year* tells the story of Covid-19 in authoritative, galvanizing detail and with the full drama of events on both a global and intimate scale, illuminating the medical, economic, political, and social ramifications of the pandemic. Wright takes us inside the CDC, where a first round of faulty test kits lost America precious time . . . inside the halls of the White House, where Deputy National Security Adviser Matthew Pottinger's early alarm about the virus was met with confounding and drastically costly skepticism . . . into a Covid ward in a Charlottesville hospital, with an idealistic young woman doctor from the town of Little Africa, South Carolina . . . into the precincts of prediction specialists at Goldman Sachs . . . into Broadway's darkened theaters and Austin's struggling music venues . . . inside the human body, diving deep into the science of how the virus and vaccines function—with an eye-opening detour into the history of vaccination and of the modern anti-vaccination movement. And in this full accounting, Wright makes clear that the medical professionals around the country who've risked their lives to fight the virus reveal and embody an America in all its vulnerability, courage, and potential. In turns steely-eyed, sympathetic, infuriated, unexpectedly comical, and always precise, Lawrence Wright is a formidable guide, slicing through the dense fog of misinformation to give us a 360-degree portrait of the catastrophe we thought we knew.

The Anatomy of Fascism - Robert O. Paxton 2007-12-18

What is fascism? By focusing on the concrete: what the fascists did, rather than

what they said, the esteemed historian Robert O. Paxton answers this question. From the first violent uniformed bands beating up "enemies of the state," through Mussolini's rise to power, to Germany's fascist radicalization in World War II, Paxton shows clearly why fascists came to power in some countries and not others, and explores whether fascism could exist outside the early-twentieth-century European setting in which it emerged. "A deeply intelligent and very readable book. . . . Historical analysis at its best." —The Economist *The Anatomy of Fascism* will have a lasting impact on our understanding of modern European history, just as Paxton's classic *Vichy France* redefined our vision of World War II. Based on a lifetime of research, this compelling and important book transforms our knowledge of fascism—"the major political innovation of the twentieth century, and the source of much of its pain."

Going to the Zoo - Tom Paxton 1996-04-26

Daddy's taking us to the zoo tomorrow, zoo tomorrow, zoo tomorrow. Daddy's taking us to the zoo tomorrow. We can stay all day. Now you can go along too, as Tom

Paxton's classic song comes to life in this boisterous picture book. Rhythmic verse leads you through a wild kingdom where animals burst from every page. Monkeys are scritch, scritch, scratchin', and kangaroos are hop, hop, hoppin', making every moment an adventure. Karen Lee Schmidt's lively, irresistible illustrations show the animals up to all sorts of mischief. And with the easily played melodies included, this musical menagerie is every bit as fun as a trip to the zoo. Youngsters will want to "stay all day" -- and come back again and again!

Eavesdropping on Hell - Robert J. Hanyok 2013-04-10

This recent government publication investigates an area often overlooked by historians: the impact of the Holocaust on the Western powers' intelligence-

gathering community. A guide for researchers rather than a narrative study, it explains the archival organization of wartime records accumulated by the U.S. Army's Signal Intelligence Service and Britain's Government Code and Cypher School. In addition, it summarizes Holocaust-related information intercepted during the war years and deals at length with the fascinating question of how information about the Holocaust first reached the West. The guide begins with brief summaries of the history of anti-Semitism in the West and early Nazi policies in Germany. An overview of the Allies' system of gathering communications intelligence follows, along with a list of American and British sources of cryptologic records. A concise review of communications intelligence notes items of particular relevance to the Holocaust's historical narrative, and the book concludes with observations on cryptology and the Holocaust. Numerous photographs illuminate the text.
