**Takeoff** - John R. Hull 2000-10-13

These are MEMOIRS OF A GREAT AVIATION CAREER presented as a life flight adventure. Each chapter is a series of interesting, informative, and easy reading, short stories. Many are airborne adventures from which pilots may learn from the authors mistakes as well as his many achievements. The Author John Hull is a depression reared, color-blind, high school dropout who beat the odds by diligently pursuing a career as a pilot and mechanic. He worked concurrently as an A&P mechanic with inspection authorization, a shop foreman, a flight instructor, air taxi pilot and chief pilot. He was an FAA Designated Pilot Examiner and Designated Aircraft maintenance Inspector. John became the general manager of an FAA approved flight school before reaching his goal as a General Aviation Fixed Base Operator. He then worked as an FAA Airworthiness Inspector and climbed the FAA career ladder of success to become a highly awarded San Diego FAA Flight Standards District Office Manager. John is now successfully pursuing a career as a Freelance Aviation Writer. Many of his adventures have been published in AOPA PILOT, CUSTOM PLANES, FLYING, PRIVATE PILOT, AND WOMAN PILOT Magazines, and PACIFIC FLYER Aviation News. Here are sample excerpts from the book PREFACE and TWO STORIES.

My Life in Aviation - Jerry A. Burton 2016-06-07

In this writing you will find the life story of one army aviator from high school to retirement. It begins with a young Iowa farm boy searching for a career field and finding a life long association with the U S Army Aviation Branch. I had the opportunity to get into the farming business with my father, but finding all the

hard work that is involved, I decided to enlist in the army and attend the flight training program and work at a career in aviation. This life story begins with enlistment, basic training, flight school, and a life in the flying world. It covers two deployments to Vietnam, each was one year in length, a segment with the Iowa and Alabama Army National Guard, and sixteen years of being stationed at the home of army aviation, Fort Rucker, Alabama. I was a ground and flight simulator instructor for a civilian contractor, Flight Safety International, following my retirement from the military. I also worked with a FAR part 135 Charter company in Iowa. With that company I flew Piper Azetec, Navaho, Cessna 182, 210, 340, 402, and 414. I also flew a Skymaster part-time. I was assigned duties as chief pilot for them. My last assignment was with Simcom Training Centers in Scottsdale, Arizona; Miami, Florida; and Orlando, Florida. While I worked with them, I had duties of ground, flight simulator, and aircraft flight instruction. I was also selected as assistant training center manager, ultimately ending up my career as the director of business of Jet Training in Miami, Florida. Simcom was a FAR Part 142 Training Center. After leaving them in 2002, I moved to Iowa for a life of retired living. Some of the photos have dates of 2015 on them. This was when I made copies of the originals. All the dates, places, and facts are accurate, to the best of my memory.

**The Naked Pilot** - David Beaty 2011-09-16

Investigations into the causes of aircraft accidents have for decades focused on what happened and who did it -- very rarely Why? It is the question Why? that David Beaty has addressed here, fighting the misnomer of 'pilot error' and propounding that the cause should be sought deeper inside human beings who make apparently simple human errors. The Naked Pilot makes fascinating and compulsive reading. It should be compulsory reading for all trainee and experienced pilots alike, as well as air traffic controllers, corporate managers and aircraft manufacturers. -- Business Aviation

Cessna 172 Training Manual - Danielle Bruckert 2012-03-27

The Cessna 172 Training Manual is a detailed guide to the popular Cessna 172 aircraft. The book provides straight forward easy to understand explanations of the aircraft systems, flight operations, and performance, illustrated with a variety of photographs, diagrams, schematics and tables. The information has been compiled from a vast number of engineering manuals and operating handbooks for the C172 series, and from the authors' in depth personal experience as commercial pilots, instructors and examiners on the aircraft. The book is ideal for type transition training or for learning to fly, as a supplement to the information provided by a qualified flight instructor, and a companion to a structured training program through an approved provider. Experienced pilots will also find useful tips and information to improve their flight standards, and the book is a great instructional aid for C172 instructors. The book is aimed at Cessna 172 pilots, however enthusiasts, virtual pilots, and engineers can also enjoy the information provided. Other books available in the series: Cessna 152 Training Manual Cessna 182 Training Manual Cessna 206 Training Manual Cessna 210 Training Manual About the Authors: Both authors are professional pilots, with a variety of experience from military jets to airliners. Both have experience as charter pilots

on a variety of Cessna aircraft, and are also qualified instructors and examiners on the Cessna single engine aircraft they write about. Visit <http://www.redskyventures.org> for more information about the authors and other books published by Red Sky Ventures.

Idaho Aviation - Crista Videriksen Worthy 2021-11-08

Since the dawn of aviation, Idahoans have employed aircraft to carry people, groceries, mail, freight, and livestock over inhospitable terrain. Idaho's airstrips are the stuff of dreams, offering pilots, anglers, hikers, and river-rafters access to deep wilderness less than an hour from the city. Aerial firefighting was born--and is based--in Idaho. Flight instructors in Idaho prepared thousands of pilots to fight in World War II. As the birthplace of United Airlines, with its famed "friendly skies," Idaho is one of the country's most aviation-friendly states. Government officials, private landowners, and volunteers have worked together to create and then preserve an infrastructure of big-city, small-town, and backcountry airstrips that are the envy of pilots worldwide.
