Constitutionalism and the Rule of Law - Maurice Adams 2017-02-02
Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order. Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters from leading international scholars cover a diverse range of topics and case studies to test the hypothesis that the best normative theories, including those regarding the role of constitutions, constitutionalism and the rule of law, conceive of the ideal and the real as mutually regulating.

The Militarisation of Peacekeeping in the Twenty-First Century - James Sloan 2011-11-01

Since the end of the last century, UN peacekeeping has undergone a fundamental and largely unexamined change. Peacekeeping operations, long expected to use force only in self-defence and to act impartially, are now increasingly relied upon by the Security Council as a means to maintain and restore security within a country. The operations are established under Chapter VII of the UN Charter and some are empowered to use 'all necessary measures', language traditionally reserved for enforcement operations. Through a close examination of these twenty-first century peacekeeping operations - including operations in Sierra Leone, the Democratic Republic of the Congo, Liberia, Côte d'Ivoire, Haiti and the Darfur region of the Sudan - the book shows that they are, for the most part, fundamentally ill-suited to the enforcement-type tasks being asked of them. The operations, which are under-funded, under-equipped and whose troops are under-trained, frequently lurch from crisis to crisis. There is scant evidence, some 10 years on, that matters are likely to improve. The book argues that bestowing enforcement-type functions on a peacekeeping operation is misconceived. Such operations are likely to be unsuccessful in their enforcement-type tasks, thereby causing serious damage to the excellent reputation of UN peacekeeping, and the UN more broadly. In addition, because such operations are more likely to be perceived as partial, their ability to carry out traditional (non-forceful) peacekeeping tasks may be impeded. Finally, the Security Council's practice of charging peacekeeping operations with enforcement functions lessens the

pressure on the Council to work to establish genuine enforcement operations - ie, operations that are considerably better suited to restoring peace and security. '...Dr Sloan is able to show, in knowledgeable detail, not only what has changed over the years, but also what has brought these changes about. His analysis leads him to offer not only well-informed insights, but critical observations, too...This book is a pleasing combination of detailed scrutiny of topics already familiar (provisional measures, consent, so-called 'Chapter VI1/2' action, implied powers) and a rigorous questioning as to their place in - or indeed, relevance at all to - militarised peacekeeping. The reader will find much new terrain traversed, and plenty of out-of-the-box thinking.' From the foreword by Dame Rosalyn Higgins

Merkin and Flannery on the Arbitration Act 1996 - Robert Merkin QC 2019-11-21

This book is an essential resource for anybody involved in arbitration. It is an updated section-by-section commentary on the Arbitration Act 1996, split into a separate set of notes for each section, and subdivided into the relevant issues within that section. It contains elements of

international comparative law, citing authorities from many other common law and civil law jurisdictions. Beyond the development of law since the last edition, this sixth edition contains new practical features to aid the reader. Each section now has a new contents table, with each separate topic set out clearly and in a logical order, which acts as reminder for the reader. Further, each separate topic now has a specific individual reference, and the topics are grouped in a more systematic and logical way within each section, to improve readability. The book is primarily aimed at practitioners of arbitration both in the UK and abroad, including solicitors, barristers, arbitrators and judges who are involved in the practice of arbitration (whether domestic or international). It is also aimed at UK and international students of international arbitration, especially in relation to the sections with comparative legal analysis and comprehensive discussions on the interaction between the Arbitration Act 1996 and institutional arbitration rules. Erratum: The authors regret that the new version of the LCIA Rules will not now be published (or be applicable) until early 2020, due to unexpected circumstances. It is understood that those Articles referred to in the text as the 2019 Rules will remain unchanged, albeit that the Rules when in force should be and will be cited as the 2020 LCIA Rules. The authors accept responsibility for and apologise for this error.

This book is intended to be a comprehensive treatise of Guernsey trust law providing answers for practitioners advising on Guernsey trusts and trustees administering them. In particular, it provides a detailed analysis of the provisions of the Trusts (Guernsey) Law 2007 (as amended), a consideration of Guernsey trust cases as well as relevant cases in Jersey and in other jurisdictions, and analysis of the legal principles underpinning Guernsey trust law. Where there is no clear Guernsey authority on a particular point of law it gives a reasoned view, drawing on relevant legal principles, together with a broad assessment of the confidence of which the authors hold that view.
