Mamluk Cairo, a Crossroads for Embassies - Frédéric Bauden 2019-01-07

Mamluk Cairo, a Crossroads for Embassies gathers twenty-eight essays that offer the most up-to-date insight into the diplomacy and diplomatics of the Mamluk sultanate with Muslim and non-Muslim powers. *Why We Fight* - David Churchman

2013-05-09

This book draws on twenty-four academic disciplines to provide a critical analysis of some 100 theories that explain the origins, nature, and management of human conflict. The book treats intellectual, individual, moral, interpersonal, organizational, community, political, and international conflicts. It suggests six criteria for distinguishing good from bad theory and discusses how existing theories may be used and improved.

The U.S.-China Military Scorecard -

Eric Heginbotham 2015-09-14

A RAND study analyzed Chinese and U.S. military capabilities in two scenarios (Taiwan and the Spratly Islands) from 1996 to 2017, finding that trends in most, but not all,

areas run strongly against the United States. While U.S. aggregate power remains greater than China's, distance and geography affect outcomes. China is capable of challenging U.S. military dominance on its immediate periphery—and its reach is likely to grow in the years ahead.

Soviet Union in World War II -

Dhirubhai Patel 2020-06-02

World War II, also known as the Second World War, was a global war that lasted from 1939 to 1945. The vast majority of the world's countries—including all the great powers—eventually formed two opposing military alliances: the Allies and the Axis. Handbook of Indian Defence Policy -
Harsh V. Pant 2015-10-06
India has the world's fourth largest
military and one of the biggest
defence budgets. It asserts its

political and military profile in South Asia and the Indian Ocean region. The nation has been in the midst of an ambitious plan to modernize its largely Soviet-era arms since the late 1990s and has spent billions of dollars on latest high-tech military technology. This handbook: canvasses over 60 years of Indian defence policy and the major debates that have shaped it; discusses several key themes such as the origins of the modern armed forces in India; military doctrine and policy; internal and external challenges; and nuclearization and its consequences; includes contributions by well-known scholars, experts in the field and policymakers; and provides an annotated bibliography for further research. Presented in an accessible

format, this lucidly written handbook will be an indispensable resource for scholars and researchers of security and defence studies, international relations and political science, as well as for government think tanks and policymakers.

The Armed Forces Officer - Richard Moody Swain 2017

In 1950, when he commissioned the first edition of *The Armed Forces Officer*, Secretary of Defense George C. Marshall told its author, S.L.A. Marshall, that "American military officers, of whatever service, should share common ground ethically and morally." In this new edition, the authors methodically explore that common ground, reflecting on the basics of the Profession of Arms, and the officer's special place and distinctive obligations within that

profession and especially to the Constitution.

Iranian Naval Forces: A Tale of Two Navies - Office of Naval Intelligence (U S) 2017-06-21

This updated resource provides a more comprehensive history, including: Iran's Persian imperial past, the spread of Islam, and the Iran-Iraq War The Islamic Revolutionary Guard Corps Navy (IRGCN) emphasizes an asymmetric doctrine to ensure national security in the Persian Gulf against regional neighbors and foreign presence. The Islamic Republic of Iran Navy (IRIN) employs a more conventional doctrine and focuses on forward presence and naval diplomacy. Both navies have considerable equities and are well positioned to influence and leverage the Strait of Hormuz; a vital chokepoint for the

flow of resources and international commerce. Illustrated with organizational charts, and photos of key Iranian leaders, including commanders within the Navy Command and Control Leadership, as well as rank insignia graphics, maps, ships, aircrafts, missile images, and more. Check out our Middle East resources collection for more resources on this topic. You may also be interested in our Foreign Military History collection Other products produced by the United States Navy

The Law of War - William H. Boothby 2018-03-29

In 2015, the United States Department of Defense published its long-awaited Law of War Manual making a significant statement on the position of the US government on important military matters. Whilst readers

recognise the Manual's legal and strategic importance, they may question whether particular statements of law are legally accurate or complete. This book offers a unique in-depth review of the complete Manual, including revisions, on a paragraph-by-paragraph, line-by-line and word-by-word basis. The authors offer their personal assessment of the DoD's declared view as to the law that regulates the conduct of warfare, a subject of unparalleled current importance. William H. Boothby and Wolff Heintschel von Heinegg offer a balanced, articulate and authoritative critique for readers perusing the Manual in whatever capacity.

Imperialism and Progressivism - 2007
"Involving students in real

historical problems that convey powerful lessons about U.S. history, these thought-provoking activities combine core content with valuable practice in decision making, critical thinking, and understanding multiple perspectives. O'Reilly - an experienced, award winning teacher - has students tackle fascinating historical questions that put students in the shoes of a range of people from the past, from the rich and famous to ordinary citizens. Each lesson can be done either as an in-depth activity or as a "quick motivator." Detailed teacher pages give step-by-step instructions, list key vocabulary terms, offer troubleshooting tips, present ideas for post-activity discussions, and furnish lists of related sources. Reproducible student handouts clearly

lay out the decision-making scenarios, provide "outcomes," and present related primary source readings and/or images with analysis questions"--Page 4 of cover

The SAGE Handbook of Diplomacy - Costas M. Constantinou 2016-06-20
The SAGE Handbook of Diplomacy provides a major thematic overview of Diplomacy and its study that is theoretically and historically informed and in sync with the current and future needs of diplomatic practice . Original contributions from a brilliant team of global experts are organised into four thematic sections: Section One: Diplomatic Concepts & Theories
Section Two: Diplomatic Institutions
Section Three: Diplomatic Relations
Section Four: Types of Diplomatic Engagement

Satow's Diplomatic Practice - Ernest Mason Satow 2017

The seventh edition of this classic work revises and examines the diplomatic practice of the last 30 years. It provides a comprehensive analysis of all areas of diplomacy.

The Desperate Diplomat - J. Garry Clifford 2016-12-31

On December 7, 1941, the course of U.S. history changed forever with the bombing of Pearl Harbor. Three weeks prior, Japanese Special Envoy to the United States Saburo Kurusu visited Washington in an attempt to further peace talks between Japan and America and spare his country the loss he knew would occur if a war began. But as he reported, "Working for peace is not as simple as starting a war." For more than seventy years, many have unfairly viewed Kurusu and his visit

as part of the Pearl Harbor plot. Editors J. Garry Clifford and Masako R. Okura seek to dispel this myth with their edition of Kurusu's memoir, *The Desperate Diplomat*. Kurusu published his personal memoir in 1952, in Japanese, describing his efforts to prevent war between the two nations, his total lack of knowledge regarding the Pearl Harbor attack, and what "might have been" had he been successful in his endeavor for peace, while offering an exclusive perspective on the Japanese reaction to the attack. However, the information contained in his memoir was unavailable to most of the world, save those fluent in Japanese, because it had never been published in another language. With the discovery of Kurusu's own English memoir, his story can finally be told

to a wider audience. Clifford and Okura have used both the Japanese and English memoirs and added an introduction and annotations to Kurusu's story, making *The Desperate Diplomat* an essential look at an event that remains controversial in the history of both nations. Anyone who takes interest in the history of Pearl Harbor cannot afford to omit this previously unavailable information from their library.

Monopoly of Force - U. S. Military
2017-11-12

This report thoroughly examines Disarmament, Demobilization, and Reintegration (DDR) and Security Sector Reform (SSR), which have emerged in recent years as promising though generally poorly understood mechanisms for consolidating stability and reasserting state

sovereignty after conflict. Despite the considerable experience acquired by the international community, the critical interrelationship between DDR and SSR and the ability to use these mechanisms with consistent success remain less than optimally developed. The chapters in this book reflect a diversity of field experience and research in DDR and SSR, which suggest that these are complex and interrelated systems, with underlying political attributes. Successful application of DDR and SSR requires the setting aside of preconceived assumptions or formulas, and should be viewed flexibly to restore to the state the monopoly of force. Introduction * The State and the Use of Force: Monopoly and Legitimacy * Part I * The Politics of Disarmament and Security Sector

Reform * Chapter 1 * Nonstate Armed Groups and the Politics of Postwar Security Governance * Chapter 2 * The Relationship Between SSR and DDR: Impediments to Comprehensive Planning in Military Operations * Chapter 3 * Drafting in Doha: An Assessment of the Darfur Peace Process and Ceasefire Agreements * Part II * Challenges of Reintegration * Chapter 4 * Military Integration and War Termination * Chapter 5 * Allies and Assets: Strengthening DDR and SSR Through Women's Inclusion * Chapter 6 * Understanding "Reintegration" within Postconflict Peace-building: Making the Case for "Reinsertion" First and Better Linkages Thereafter * Chapter 7 * The Disarmament, Demobilization, and Reintegration of Former Child Soldiers * Chapter 8 * Consequences of the Forgotten (or

Missing) R * Part III * Managing DDR and SSR Programs * Chapter 9 * Action Amid Chaos: The Ground Truth Imperatives of DDRR and Security * Chapter 10 * Managing DDR and SSR Programs in the Philippines * Chapter 11 * Managing DDR Risks in Sudan: A Field Perspective * Part IV * The Monopoly of Force * Chapter 12 * There's a New Sheriff in Town: DDR-SSR and the Monopoly of Force * Chapter 13 * The DDR-SSR Nexus * Chapter 14 * Afghanistan and the DDR-SSR Nexus * Chapter 15 * Monopoly, Legitimacy, Force: DDR-SSR Liberia * Appendix * DDR and SSR Based on UN Integrated DDR Standards All wars come to an end. Using all means possible, we attempt to end wars as quickly as possible and on the best possible footing for fostering stabilization and preventing (or at

least discouraging) additional conflict. Successful disarmament, demobilization, and reintegration (DDR) are fundamental to enduring and equitable peace. For Afghanistan, the Bonn Conference established them as elements of success. DDR must be taken seriously if military or operational success is to gain strategic outcomes favorable to international order and American interests. Our security sector must embrace this thesis because there will most certainly be a next time, and we need to be ready to disarm, demobilize, and reintegrate combatants to achieve a stable environment for the establishment of economic prosperity and good governance. DDR is not necessarily solely or even primarily a military effort. Once diplomacy or military

force and persuasion have achieved adequate levels of security, a catalyst is required to focus effort and to create a DDR capability. Many actors could possibly play either leading or supporting functions in DDR. Organizations such as the United Nations (UN), the European Union (EU), and the World Bank potentially have parts to play in effective future DDR scenarios. Most importantly, a holistic effort is needed with the efforts of leadership focusing on the civil, political, economic, and diplomatic dimensions as well as the military dimension. The People's Liberation Army and Contingency Planning in China - Andrew Scobell 2016-04-26
How will China use its increasing military capabilities in the future?
China faces a complicated security

environment with a wide range of internal and external threats. Rapidly expanding international interests are creating demands for the People's Liberation Army (PLA) to conduct new missions ranging from protecting Chinese shipping from Somali pirates to evacuating citizens from Libya. The most recent Chinese defense white paper states that the armed forces must "make serious preparations to cope with the most complex and difficult scenarios . . . so as to ensure proper responses . . . at any time and under any circumstances." Based on a conference co-sponsored by Taiwan's Council of Advanced Policy Studies, RAND, Carnegie Endowment for International Peace, and National Defense University, The People's Liberation Army and Contingency Planning in

China brings together leading experts from the United States and Taiwan to examine how the PLA prepares for a range of domestic, border, and maritime...

Rebel Governance in Civil War - Ana Arjona 2015-10-22

This is the first book to examine and compare how rebels govern civilians during civil wars in Latin America, Africa, Asia, and Europe. Drawing from a variety of disciplinary traditions, including political science, sociology, and anthropology, the book provides in-depth case studies of specific conflicts as well as comparative studies of multiple conflicts. Among other themes, the book examines why and how some rebels establish both structures and practices of rule, the role of ideology, cultural, and material

factors affecting rebel governance strategies, the impact of governance on the rebel/civilian relationship, civilian responses to rebel rule, the comparison between modes of state and non-state governance to rebel attempts to establish political order, the political economy of rebel governance, and the decline and demise of rebel governance attempts.

Diplomacy - Henry Kissinger 2012-10-01

'Kissinger's absorbing book tackles head-on some of the toughest questions of our time . . . Its pages sparkle with insight' Simon Schama in the NEW YORKER Spanning more than three centuries, from Cardinal Richelieu to the fragility of the 'New World Order', DIPLOMACY is the now-classic history of international relations by the former Secretary of

State and winner of the Nobel Peace Prize. Kissinger's intimate portraits of world leaders, many from personal experience, provide the reader with a unique insight into what really goes on -- and why -- behind the closed doors of the corridors of power.

'Budding diplomats and politicians should read it as avidly as their predecessors read Machiavelli'

Douglas Hurd in the DAILY TELEGRAPH

'If you want to pay someone a compliment, give them Henry

Kissinger's DIPLOMACY ... It is certainly one of the best, and most enjoyable [books] on international relations past and present ...

DIPLOMACY should be read for the sheer historical sweep, the characterisations, the story-telling, the ability to look at large parts of the world as a whole' Malcolm

Rutherford in the FINANCIAL TIMES

The Law of State Immunity - Hazel

Fox, QC 2013-08-29

The doctrine of state immunity bars national courts from adjudicating or enforcing claims against foreign states. This updated edition of this book provides a thorough analysis of the doctrine, explores high-profile cases, the UN Convention on the Jurisdictional Immunities of States, and provides comparative coverage of UK and US State practice.

The Noncommissioned Officer and Petty Officer - National Defense University Press 2013-12

Full color publication with photographs. A first of its kind, this book-of, by, and for the noncommissioned officer and petty officer-is a comprehensive explanation of the enlisted leader

across the U.S. Armed Services. It complements *The Armed Forces Officer*, the latest edition of which was published by NDU Press in 2007, as well as the Services' NCO/PO manuals and handbooks. Written by a team of Active, Reserve, and retired senior enlisted leaders from all Service branches, this book defines and describes how NCOs/POs fit into an organization, centers them in the Profession of Arms, explains their dual roles of complementing the officer and enabling the force, and exposes their international engagement. As Chairman of the Joint Chiefs of Staff General Martin E. Dempsey writes in his foreword to the book, "We know noncommissioned officers and petty officers to have exceptional competence, professional character, and soldierly grit—they

are exemplars of our Profession of Arms." Aspirational and fulfilling, this book helps prepare young men and women who strive to become NCOs/POs, re-inspires serving enlisted leaders, and stimulates reflection by those who have retired from or left active service. It also gives those who have never worn the uniform a better understanding of who these exceptional men and women are, and why they are properly known as the "Backbone of the Armed Forces."

The Greatest Martial Arts Story Ever Told (Book 3 of 3)* - Jim Wagner

2015-03-30

Jim Wagner's fascinating story concludes with him joining the California State Military Reserve, and his Reality-Based Personal Protection empire expanding. All that had been stripped from him in the

past by god-playing men had not only been restored, but by tenfold. As such, Sergeant Wagner was entrusted with the training of soldiers for the wars in Afghanistan, Iraq, and Kosovo. Once again he was placed back in the fight in the Global War on Terrorism only for it to be renamed by President Barak Obama the "Overseas Contingency Operation," and along with the name change from the administration came the painful financial gutting and troop reductions of the U.S. Armed Forces. Yet, this national crisis at home actually elevated Sergeant First Class (CA) Wagner to the equivalent of a "chief of police," and the drama that followed was a repeat of the good ol' boys club that he had experienced before with the Costa Mesa Police Department, the Orange

County Sheriff's Department, and the U.S. Federal Air Marshal Service. Only this time around Jim was wiser, stronger, and standing firmly on the promises of God. After fifteen years since his pen first touched paper, Jim Wagner's autobiography was finally finished, but not until he saved room at the end for a chapter where he helped save the entire Canadian government from a terrorist attack. Some family members, friends, and associates said that the title, The Greatest Martial Arts Story Ever Told, matched Jim's "big ego," but the title could have been named nothing else, for it is actually two titles in one, two stories in one, and the meaning of "greatness" becomes evident. The book starts with Chapter 14 inside the Canadian parliament with Prime Minister

Stephen Harper addressing the various ministers and Members of Parliament. One of those MPs was Ryan Leef, a former Mixed Martial Arts competitor who switched to the Reality-Based Personal Protection system and became a certified instructor under Jim Wagner. On the morning of October 22, 2014 Canada experienced a horrific terrorist attack. What people don't know about the events that unfolded is that the training that Jim Wagner had given Ryan Leef in 2009 kicked in immediately, which contributed to SAVING THE ENTIRE CANADIAN GOVERNMENT, and "entire" means just that. It's an inside story that the news media never covered. Chapter 15 is titled DARK NIGHT, because it was another dark period in Jim Wagner's career. The enemy was not only ISIS at the time, threatening to slaughter

him and his family, but once again evil men who wanted Jim's position, and the glory they thought they could obtain. Chapter 16 is all about the political and spiritual fight to make things right again. It also exposes the weaknesses of the State Militia system, and how inexperienced, unknowledgeable, ambitious "men without honor" would put soldiers at risk. Although the Costa Mesa Police Department S.W.A.T. team forced Officer Jim Wagner off the team back in 1997, taking away something from him that he loved doing, 16 years later Sergeant First Class Jim Wagner makes California State Military Reserve history by being authorized to form and deploy a Special Response Team (SRT) for real world missions as Active Shooters and terrorism becomes a looming threat in the United

States. After a decade Jim Wagner's martial arts techniques and training methods had permeated self-defense schools, police academies, and military units all over the world. His books, DVDs, and YouTube videos are even popular in hostile countries like Venezuela and the Islamic Republic of Iran. By the time the reader has finished this final book in the trilogy a vast wealth of knowledge has been gained about modern martial arts, about law enforcement, the Global War on Terrorism, the United States military, and having an upright character in a world of compromise. It was also a "travel guide" going into corners of the world that few will ever see, except on the pages of this incredible book.

American Military History, Volume II

- 2010

From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library.

China's Civilian Army - Peter Martin
2021-05-13

The untold story of China's rise as a global superpower, chronicled through the diplomatic shock troops that connect Beijing to the world. China's

Civilian Army charts China's transformation from an isolated and impoverished communist state to a global superpower from the perspective of those on the front line: China's diplomats. They give a rare perspective on the greatest geopolitical drama of the last half century. In the early days of the People's Republic, diplomats were highly-disciplined, committed communists who feared revealing any weakness to the threatening capitalist world. Remarkably, the model that revolutionary leader Zhou Enlai established continues to this day despite the massive changes the country has undergone in recent decades. Little is known or understood about the inner workings of the Chinese government as the country bursts onto the world stage,

as the world's second largest economy and an emerging military superpower. China's Diplomats embody its battle between insecurity and self-confidence, internally and externally. To this day, Chinese diplomats work in pairs so that one can always watch the other for signs of ideological impurity. They're often dubbed China's "wolf warriors" for their combative approach to asserting Chinese interests. Drawing for the first time on the memoirs of more than a hundred retired diplomats as well as author Peter Martin's first-hand reporting as a journalist in Beijing, this groundbreaking book blends history with current events to tease out enduring lessons about the kind of power China is set to become. It is required reading for anyone who wants to understand China's quest for

global power, as seen from the inside.

The Reader of Gentlemen's Mail -

David Kahn 2008-10-01

One of the most colorful and controversial figures in American intelligence, Herbert O. Yardley (1889-1958) gave America its best form of information, but his fame rests more on his indiscretions than on his achievements. In this highly readable biography, a premier historian of military intelligence tells Yardley's story and evaluates his impact on the American intelligence community. Yardley established the nation's first codebreaking agency in 1917, and his solutions helped the United States win a major diplomatic victory at the 1921 disarmament conference. But when his unit was closed in 1929 because

"gentlemen do not read each other's mail," Yardley wrote a best-selling memoir that introduced-and disclosed-codemaking and codebreaking to the public. David Kahn de-scribes the vicissitudes of Yardley's career, including his work in China and Canada, offers a capsule history of American intelligence up to World War I, and gives a short course in classical codes and ciphers. He debunks the accusations that the publication of Yardley's book caused Japan to change its codes and ciphers and that Yardley traitorously sold his solutions to Japan. And he asserts that Yardley's disclosures not only did not hurt but actually helped American codebreaking during World War II.

The Long Game - Rush Doshi 2021-06-11

For more than a century, no US

adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to

displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath of populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's

own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

The Routledge Handbook of American Military and Diplomatic History -

Christos Frentzos 2013-08-29

The Routledge Handbook of U.S. Military and Diplomatic History provides a comprehensive analysis of the major events, conflicts, and personalities that have defined and shaped the military history of the United States in the modern period. Each chapter begins with a brief introductory essay that provides context for the topical essays that follow by providing a concise narrative of the period, highlighting some of the scholarly debates and interpretive schools of thought as

well as the current state of the academic field. Starting after the Civil War, the chapters chronicle America's rise toward empire, first at home and then overseas, culminating in September 11, 2001 and the War on Terror. With authoritative and vividly written chapters by both leading scholars and new talent, maps and illustrations, and lists of further readings, this state-of-the-field handbook will be a go-to reference for every American history scholar's bookshelf.

United States Code - United States 1995

The Russian Way of War - Department of the Army 2019-07-17
PRINTED IN COLOR - The Russian Way of War - Force Structure, Tactics, and Modernization of the Russian Ground

Forces Published by the U.S. Army Training and Doctrine Command G2's Foreign Military Studies Office in 2016, this book picks up where the FM 100-2 series left off and discusses Russian military structure, capabilities, and future development. Includes July 2019 BONUS materials on the following: *1K17 Szhatie (1K17 Сжатие) Russian "Stiletto" Laser Tank *Combat Laser System (Peresvet) Russian Laser Cannon *T-14 Armata Main Battle Tank *T-15 Heavy Infantry Combat Vehicle *Kurganets-25 Light Tracked Armored Vehicle *2S35 Koalitsiya-SV 152-mm Self-Propelled Howitzer *VPK-7829 Bumerang Modular Infantry Wheeled Fighting Vehicle Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make

sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact,

tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB.

The Anatomy Of A Little War - Bernard S Bachrach 1994

In the late sixth century Gundovald, a Frank of royal blood, returned from a lengthy exile in Italy and Constantinople to establish a regnum in the southwestern part of Gaul. His half brother, Guntram, who ruled the neighboring Burgundian region, vigorously opposed this intrusion. In this fascinating narrative, Bernard Bachrach provides a comprehensive reinterpretation of the dramatic attempt by Gundovald to succeed to the Merovingian throne with the help of the Byzantine Empire. Gundovald, a Merovingian prince, was rejected by

his father, King Chlotar I, and declared not to be of royal blood. His association with the Byzantine Empire led Guntram to regard him as an "imperial puppet". In addition to examining the highly controversial diplomatic machinations behind Gundovald's bid for power, Bachrach breaks new ground with a thorough assessment of the strategy, tactics, and military technology of the "little war" fought between Gundovald's supporters and the armies of King Guntram. This conflict ended with the siege of the old Roman fortress city of Convenae in the foothills of the Pyrenees.

Intelligence Community Legal Reference Book - 2009

From the Book's Introduction:
Expanded and updated of Intelligence Community Legal Reference book. The

Intelligence Community draws much of its authority and guidance from the body of law contained in this collection. Proves to be a useful resource to professionals across the federal government.

The Routledge Handbook of American Military and Diplomatic History -

Christos G. Frentzos 2014-09-15

The Routledge Handbook of American Military and Diplomatic History provides a comprehensive analysis of the major events, conflicts, and personalities that have defined and shaped the military history of the United States. This volume, The Colonial Period to 1877, illuminates the early period of American history, from the colonial warfare of the 17th century through the tribulations of Reconstruction. The chronologically organized sections each begin with an

introductory chapter that provides a concise narrative of the period and highlights the scholarly debates and interpretive schools of thought in the historiography, followed by topical chapters on issues in the period. Topics covered include colonial encounters and warfare, the French and Indian War, the American Revolution, diplomacy in the early American republic, the War of 1812, westward expansion and conquest, the Mexican-American War, the Civil War, and Reconstruction. With authoritative and vividly written chapters by both leading scholars and new talent, this state-of-the-field handbook will be a go-to reference for every American history scholar's bookshelf.

The Pity of War - Niall Ferguson
2008-08-05

In *The Pity of War*, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in

the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no sharper nor more stimulating guide than Niall

Ferguson's The Pity of War.

The United States and Coercive Diplomacy - Robert J. Art 2003

"As Robert Art makes clear in a groundbreaking conclusion, those results have been mixed at best. Art dissects the uneven performance of coercive diplomacy and explains why it has sometimes worked and why it has more often failed."--BOOK JACKET.

Diplomatic Law in a New Millennium - Paul Behrens 2017

Diplomatic Law in a New Millennium provides a critical examination of the principal fields of contemporary diplomatic law including: diplomatic asylum, immunities, and diplomatic actors not sent by states. The book brings together serving and former diplomats as well as academic experts

Routledge Handbook of Public Diplomacy - Nancy Snow 2008-11

The Routledge Handbook of Public Diplomacy provides a comprehensive overview of public diplomacy and national image and perception management, from the efforts to foster pro-West sentiment during the Cold War to the post-9/11 campaign to "win the hearts and minds" of the Muslim world. Editors Nancy Snow and Philip Taylor present materials on public diplomacy trends in public opinion and cultural diplomacy as well as topical policy issues. The latest research in public relations, credibility, soft power, advertising, and marketing is included and institutional processes and players are identified and analyzed. While the field is dominated by American and British research and developments, the book also includes international research and

comparative perspectives from other countries. Published in association with the USC Center on Public Diplomacy at the Annenberg School based at the University of Southern California.

Customary International Humanitarian

Law - Jean-Marie Henckaerts

2005-03-03

Customary International Humanitarian Law, Volume I: Rules is a comprehensive analysis of the customary rules of international humanitarian law applicable in international and non-international armed conflicts. In the absence of ratifications of important treaties in this area, this is clearly a publication of major importance, carried out at the express request of the international community. In so doing, this study identifies the

common core of international humanitarian law binding on all parties to all armed conflicts.

Ukraine's Revolt, Russia's Revenge -

Christopher M. Smith 2022-03-15

"This firsthand account of contemporary history is key to understanding Russia's latest assault on its neighbor."—USA Today An eyewitness account by a U.S. diplomat of Russia's brazen attempt to undo the democratic revolution in Ukraine Told from the perspective of a U.S. diplomat in Kyiv, this book is the true story of Ukraine's anti-corruption revolution in 2013–14, Russia's intervention and invasion of that nation, and the limited role

played by the United States. It puts into a readable narrative the previously unpublished reporting by seasoned U.S. diplomatic and military professionals, a wealth of information on Ukrainian high-level and street-level politics, a broad analysis of the international context, and vivid descriptions of people and places in Ukraine during the EuroMaidan Revolution. The book also counters Russia's disinformation narratives about the revolution and America's role in it. While focusing on a single country during a dramatic three-year period, the book's universal themes—among them, truth versus lies, democracy versus autocracy—possess a broader urgency for our times. That urgency burns particularly hot for the United States and all other countries that

are the targets of Russia's cyber warfare and other forms of political skullduggery. From his posting in U.S. Embassy Kyiv (2012–14), the author observed and reported firsthand on the EuroMaidan Revolution that wrested power from corrupt pro-Kremlin Ukrainian autocrat Viktor Yanukovich. The book also details Russia's attempt to abort the Ukrainian revolution through threats, economic pressure, lies, and intimidation. When all of that failed, the Kremlin exacted revenge by annexing Ukraine's territory of Crimea and fomenting and sustaining a hybrid war in eastern Ukraine that has killed more than 13,000 people and continues to this day. Ukraine's Revolt, Russia's Revenge is based on the author's own observations and the multitude of reports of his Embassy

colleagues who were eyewitnesses to a crucial event in contemporary history.

Space Capstone Publication Spacepower
- Us Government United States Space Force 2020-08-11

This book, *Space Capstone Publication Spacepower: Doctrine for Space Forces*, is capstone doctrine for the United States Space Force and represents our Service's first articulation of an independent theory of spacepower. This publication answers why spacepower is vital for our Nation, how military spacepower is employed, who military space forces are, and what military space forces value. In short, this capstone document is the foundation of our professional body of knowledge as we forge an independent military Service committed to space operations. Like

all doctrine, the SCP remains subject to the policies and strategies that govern its employment. Military spacepower has deterrent and coercive capacities - it provides independent options for National and Joint leadership but achieves its greatest potential when integrated with other forms of military power. As we grow spacepower theory and doctrine, we must do so in a way that fosters greater integration with the Air Force, Army, Navy, Marine Corps, and Coast Guard. It is only by achieving true integration and interdependence that we can hope to unlock spacepower's full potential.

Political Warfare - Kerry Gershaneck
2020-10

Digest of United States Practice in International Law - 1975
