

Chapter 17 Section 2 Communists Take Power In China Workbook Answers

Recognizing the way ways to acquire this book **Chapter 17 Section 2 Communists Take Power In China Workbook Answers** is additionally useful. You have remained in right site to begin getting this info. get the Chapter 17 Section 2 Communists Take Power In China Workbook Answers link that we present here and check out the link.

You could purchase lead Chapter 17 Section 2 Communists Take Power In China Workbook Answers or get it as soon as feasible. You could speedily download this Chapter 17 Section 2 Communists Take Power In China Workbook Answers after getting deal. So, once you require the books swiftly, you can straight get it. Its for that reason enormously easy and for that reason fats, isnt it? You have to favor to in this space

[China On The Eve Of Communist Takeover](#) - A. Doak Barnett 2019-04-17

This book attempts to illuminate some of the trends and conditions in China just prior to, and

at the time of the Communist takeover. The conditions that existed just prior to 1949 provided the immediate starting point, the base line, from which the Chinese Communists, once

in power, embarked upon their tremendous political, economic, and social t

The Librarian Spies - Rosalee McReynolds 2009

In 1950, Senator Joseph McCarthy declared that the State Department was a haven for communists and traitors. Among famous targets, like Alger Hiss, the senator also named librarian Mary Jane Keeney and her husband Philip, who had been called before the House UnAmerican Activities Committee to account for friendships with suspected communists, memberships in communist fronts, and authorship of articles that had been published in leftist periodicals.

Conservative journalists and politicians had seized the occasion to denounce the pair as communist sympathizers and spies for the Soviet Union. If the accusations were true, the Keeneys had provided the Soviets with classified information about American defense and economic policies that could alter the balance of power between those rival nations. If false, the Keeneys had been shamefully wronged by their

own government, for the accusations tumbled them into grief and poverty. In 1950, Senator Joseph McCarthy declared that the State Department was a haven for communists and traitors. Among famous targets, like Alger Hiss, the senator also named librarian Mary Jane Keeney and her husband Philip, who had been called before The House UnAmerican Activities Committee to account for friendships with suspected communists, memberships in communist fronts, and authorship of articles that had been published in leftist periodicals. Conservative journalists and politicians had seized the occasion to denounce the pair as communist sympathizers and spies for the Soviet Union. If the accusations were true, the Keeneys had provided the Soviets with classified information about American defense and economic policies that could alter the balance of power between those rival nations. If false, the Keeneys had been shamefully wronged by their own government, for the accusations tumbled

them into grief and poverty. This book draws on a wide range of archival materials, especially FBI files, interviews, and extensive reading from secondary sources to tell the story of Philip Olin Keeney and his wife Mary Jane, who became part of the famed Silvermaster Spy Ring in the 1940s. It paints a picture of two ordinary people who took an extraordinary path in life and, while they were never charged and tried as spies, were punished through blacklisting. It also reveals the means by which the FBI investigated suspected spies through black bag jobs, phone tapping, and mail interceptions. Spies compromise national security by stealing secrets, but secrets can be defined to suit individual political designs and ambitions. Philip and Mary Jane Keeney constantly tested the boundaries of free access to information - to the point of risking disloyalty to their country - but the American government responded in a manner that risked its democratic foundations.

The Stalinist Era - David L. Hoffmann

2018-11-15

Placing Stalinism in its international context, *The Stalinist Era* explains the origins and consequences of Soviet state intervention and violence.

Liberty, Equality, Power: A History of the American People, Volume 2: Since 1863 - John M. Murrin 2011-01-01

A highly respected, balanced, and thoroughly modern approach to US History, *LIBERTY, EQUALITY, POWER*, uses these three themes to show how the United States was transformed from hunter-gatherer and agricultural Native American societies into the most powerful industrial nation on earth. This approach helps students understand the impact of the notions of liberty and equality, which are often associated with the American story, and also how dominant and subordinate groups have affected and been affected by the ever-shifting balance of power. The text integrates the best of recent social and cultural scholarship -- including fun material on

music and movies -- into a political story, offering students the most comprehensive and complete understanding of American history available. Available in the following split options: LIBERTY, EQUALITY, POWER, Sixth Edition (Chapters 1-32), ISBN: 978-0-495-90499-1; Volume 1: To 1877 (Chapters 1-17), ISBN: 978-0-495-91587-4; Volume 2: Since 1863 (Chapters 17-32), ISBN: 978-0-495-91588-1. 1979

Vietnam's Communist Revolution - Tuong Vu
2016-12-22
By tracing the evolving worldview of Vietnamese communists over 80 years as they led Vietnam through wars, social revolution, and peaceful development, this book shows the depth and

resilience of their commitment to the communist utopia in their foreign policy. Unearthing new material from Vietnamese archives and publications, this book challenges the conventional scholarship and the popular image of the Vietnamese revolution and the Vietnam War as being driven solely by patriotic inspirations. The revolution not only saw successes in defeating foreign intervention, but also failures in bringing peace and development to Vietnam. This was, and is, the real tragedy of Vietnam. Spanning the entire history of the Vietnamese revolution and its aftermath, this book examines its leaders' early rise to power, the tumult of three decades of war with France, the US, and China, and the stubborn legacies left behind which remain in Vietnam today.

A Philosophy for Communism - Panagiotis Sotiris 2020-05-18
In *A Philosophy for Communism: Rethinking Althusser* Panagiotis Sotiris reconstructs Althusser's quest for a new practice of

philosophy that would enable a new practice of politics for communism, through a reading of the tensions and dynamics running through his work.

American Odyssey - Gary B. Nash 2001

A history of the United States in the twentieth century, featuring sociological and cultural events, as well as strictly historical, and using many pertinent literary excerpts.

Red Star Over China - Edgar Snow 1978

Beating the Fascists? - Eve Rosenhaft
1983-08-25

In this book Eve Rosenhaft examines the involvement of Communists in political violence during the years of Hitler's rise to power in Germany (1929-33). Specifically, she aims to account for their participation in 'street-fighting' or 'gang-fighting' with National Socialist storm-troopers. The origins of this conflict are examined at two levels. First Dr Rosenhaft analyses the official policy of the Communist

Party towards fascism and Nazism, and the special anti-fascist and self-defence organizations which it developed. Among the aspects of Communist policy that are explored are the relation between the international confrontation between Communists and Social Democrats as claimants to lead the left, and the implications of this dispute in German politics; the ideological difficulties in the implementation of Communist policy in a period of economic dislocation; and the organizational problems posed by the fight against fascism. Dr Rosenhaft then explores the attitudes and experience of the Communist rank and file engaged in the struggle against fascism, concentrating on the city of Berlin, where a fierce contest for control of the streets was waged.

Manifesto - Ernesto Che Guevara 2015-04-10
"If you are curious and open to the life around you, if you are troubled as to why, how and by whom political power is held and used, if you sense there must be good intellectual reasons

for your unease, if your curiosity and openness drive you toward wishing to act with others, to 'do something,' you already have much in common with the writers of the three essays in this book." — Adrienne Rich With a preface by Adrienne Rich, *Manifesto* presents the radical vision of four famous young rebels: Marx and Engels' *Communist Manifesto*, Rosa Luxemburg's *Reform or Revolution* and Che Guevara's *Socialism and Humanity*.

The Long Game - Rush Doshi 2021-06-11

For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades

worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his

proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

The Age of Eisenhower - William I Hitchcock
2018-03-20

A New York Times bestseller, this is the “outstanding” (The Atlantic), insightful, and authoritative account of Dwight Eisenhower’s presidency. Drawing on newly declassified documents and thousands of pages of unpublished material, *The Age of Eisenhower* tells the story of a masterful president guiding the nation through the great crises of the 1950s, from McCarthyism and the Korean War through civil rights turmoil and Cold War conflicts. This is a portrait of a skilled leader who, despite his conservative inclinations, found a middle path through the bitter partisanship of his era. At home, Eisenhower affirmed the central elements of the New Deal, such as Social Security; fought

the demagoguery of Senator Joseph McCarthy; and advanced the agenda of civil rights for African-Americans. Abroad, he ended the Korean War and avoided a new quagmire in Vietnam. Yet he also charted a significant expansion of America’s missile technology and deployed a vast array of covert operations around the world to confront the challenge of communism. As he left office, he cautioned Americans to remain alert to the dangers of a powerful military-industrial complex that could threaten their liberties. Today, presidential historians rank Eisenhower fifth on the list of great presidents, and William Hitchcock’s “rich narrative” (The Wall Street Journal) shows us why Ike’s stock has risen so high. He was a gifted leader, a decent man of humble origins who used his powers to advance the welfare of all Americans. Now more than ever, with this “complete and persuasive assessment” (Booklist, starred review), Americans have much to learn from Dwight Eisenhower.

Between Reform and Revolution - David E. Barclay 1998-05-30

The powerful impact of Socialism and Communism on modern German history is the theme which is explored by the contributors to this volume. Whereas previous investigations have tended to focus on political, intellectual and biographical aspects, this book captures, for the first time, the methodological and thematic diversity and richness of current work on the history of the German working class and the political movements that emerged from it. Based on original contributions from U.S., British, and German scholars, this collection address a wide range of themes and problems.

Chinese Education Since 1949 - Theodore Hsi-en Chen 1981

Chinese Education Since 1949: Academic and Revolutionary Models covers the developments in the education in China. This book is composed of 11 chapters that discuss the contrasting models of education: Academic Model and

Revolutionary Model. It addresses the effectiveness of combining these models.

The Penguin History of Modern China - Jonathan Fenby 2019-03-19

In 1850, China was the 'sick man of Asia'. Now it is set to become the most powerful nation on earth. The Penguin History of Modern China shows how turbulent that journey has been. For 150 years China has endured as victim of oppression, war and famine. This makes its current position as arguably the most important global superpower all the more extraordinary. Jonathan Fenby's comprehensive account is the definitive guide to this remarkable transformation. 'His book is a miracle of thoroughness, truthfulness and readability - the perfect primer for a time when China is about to enter all our lives' Sunday Telegraph 'Jonathan Fenby's ... illuminating book [is] the first major history that looks at the country with the eyes of the 21st century rather than the 20th' Rana Mitter, Financial Times 'Reads like a novel and is

never less than thoughtful and compassionate for the fate of a much-abused people ... [Fenby has] a journalist's eye for telling detail' Herald 'Taut, anecdote-studded ... a great introduction for a general audience, with vivid scene setting and character sketches' Michel Sheridan, Sunday Times 'For an accessible, authoritative, fair and comprehensive and well written account, this would be hard to better' BBC History 'A wonderful history of modern China and a cracking good read' Chris Patten Jonathan Fenby, CBE, has been the editor of the Observer and the South China Morning Post. His books include Generalissimo: Chiang Kai-shek and the China He Lost and Dealing with the Dragon: A Year in the New Hong Kong. He is currently Editor-in-Chief and China Editor of the analytical service, Trusted Sources.

Revelations from the Russian Archives -

Diane P. Koenker 2011-03-01

The Logic of Persecution - Martin H. Redish

2005

Introduction : logic, history and the McCarthy era -- The legal topography of the McCarthy era -
- McCarthyism, free expression and the role of pathology in American history -- Unlawful advocacy, free speech, and the McCarthy era -- HUAC, the Hollywood Ten, and the First Amendment right of non-association -- Public education, free speech, and the McCarthy era -- Conclusion : the McCarthy era as a First Amendment laboratory.

German Writers in Soviet Exile, 1933-1945 -
David Pike 1982

German Writers in Soviet Exile, 1933-1945 explores the lives and work of several dozen German Communist writers and cultural functionaries who were given asylum in Stalin's Russia when Hitler came to power in Germany. Based on extensive research in the archives of Moscow, East Berlin, and Budapest, and on interviews with survivors of the German Communist emigration to the USSR, David Pikes'

account of the life of political exiles during the Stalin years describes the conditions under which German Communists were compelled to live and their public and private feelings toward their "second fatherland." He discusses Soviet immigration policy and the travel restrictions placed on the Germans, takes an inside look at the German Section of the Soviet Writers' Union, and provides the first full account of the arrest of thousands of German Communists during the Stalinist purges. Other chapters center on the exiles' involvement in the Communist International's efforts to mobilize a particular form of pro-Soviet antifascism (and the effect upon it of the Moscow show trials), the Communists' perception of National Socialism, and the quality of their opposition to it. In this context Pike uses the nature of their commitment to Hitler's overthrow to question the motives, attitudes, and ambitions of men whose outlook had been molded by their Soviet experience when they returned in 1945 to

assume proxy control of East Germany. Another important chapter adds significantly to our knowledge of Soviet literary politics under Stalin. Drawing on unpublished material, as well as on the contemporary Soviet daily and periodical press, Pike examines the evolution of Georg Lukacs's literary and cultural-political theories in their relation to Soviet socialist realism. He shows for the first time how the realism debates of 1937 to 1939 between Lukacs, Bertolt Brecht, Hanns Eisler, Walter Benjamin, Ernst Bloch, and others were manipulated in Moscow, and he suggests reasons for the downfall of the Lukacs-Lifshits "Trend" in Soviet literary criticism. Twenty-five eventful years are drawn together in this study. Because Pike sets his subject matter within a broad political and historical context, his book must be regarded as a meaningful contribution to several disciplines -- Soviet and German history, Communist studies in general, Soviet Russian literary politics, German exile studies,

and the prehistory of the German Democratic Republic. Originally published in 1982. A UNC Press Enduring Edition -- UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print. These editions are published unaltered from the original, and are presented in affordable paperback formats, bringing readers both historical and cultural value.

Left Transnationalism - Oleksa Drachewych
2020-01-16

In 1919, Bolshevik Russia and its followers formed the Communist International, also known as the Comintern, to oversee the global communist movement. From the very beginning, the Comintern committed itself to ending world imperialism, supporting colonial liberation, and promoting racial equality. Coinciding with the centenary of the Comintern's founding, *Left Transnationalism* highlights the different approaches interwar communists took in

responding to these issues. Bringing together leading and emerging scholars on the Communist International, individual communist parties, and national and colonial questions, this collection moves beyond the hyperpoliticized scholarship of the Cold War era and re-energizes the field. Contributors focus on transnational diasporic and cultural networks, comparative studies of key debates on race and anti-colonialism, the internationalizing impulse of the movement, and the evolution of communist platforms through transnational exchange. Essays further emphasize the involvement of communist and socialist parties across Canada, Australia, India, China, Japan, Southeast Asia, Latin America, South Africa, and Europe. Highlighting the active discussions on nationality, race, and imperialism that took place in Comintern circles, *Left Transnationalism* demonstrates that this organization - as well as communism in general - was, especially in the years before 1935, far more heterogeneous,

creative, and unpredictable than the rubber stamp of the Soviet Union described in conventional historiography. Contributors include Michel Beaulieu (Lakehead University), Marc Becker (Truman State University), Anna Belogurova (Freie Universität Berlin), Oleksa Drachewych (University of Guelph), Daria Dyakonova (Université de Montréal), Alastair Kocho-Williams (Clarkson University), Andrée Lévesque (McGill University), Lars T. Lih (Independent Scholar), Ian McKay (McMaster University), Sandra Pujals (University of Puerto Rico), John Riddell (Ontario Institute of Studies in Education), Evan Smith (Flinders University), S.A. Smith (All Souls College, Oxford), Xiaofei Tu (Appalachian State University), and Kankan Xie (Peking University).

On Guerrilla Warfare - Mao Tse-tung
2012-03-06

The first documented, systematic study of a truly revolutionary subject, this 1937 text remains the definitive guide to guerrilla warfare. It concisely

explains unorthodox strategies that transform disadvantages into benefits.

Fully Automated Luxury Communism - Aaron Bastani 2020-06-16

A different kind of politics for a new kind of society--beyond work, scarcity and capitalism In the twenty-first century, new technologies should liberate us from work. Automation, rather than undermining an economy built on full employment, is instead the path to a world of liberty, luxury and happiness—for everyone. Technological advance will reduce the value of commodities—food, healthcare and housing—towards zero. Improvements in renewable energies will make fossil fuels a thing of the past. Asteroids will be mined for essential minerals. Genetic editing and synthetic biology will prolong life, virtually eliminate disease and provide meat without animals. New horizons beckon. In Fully Automated Luxury Communism, Aaron Bastani conjures a vision of extraordinary hope, showing how we move to energy

abundance, feed a world of 9 billion, overcome work, transcend the limits of biology, and establish meaningful freedom for everyone.

Rather than a final destination, such a society merely heralds the real beginning of history.

The Cambridge History of Communism -

Norman Naimark 2017-09-21

The second volume of The Cambridge History of Communism explores the rise of Communist states and movements after World War II.

Leading experts analyze archival sources from formerly Communist states to re-examine the limits to Moscow's control of its satellites; the de-Stalinization of 1956; Communist reform movements; the rise and fall of the Sino-Soviet alliance; the growth of Communism in Asia, Africa and Latin America; and the effects of the Sino-Soviet split on world Communism. Chapters explore the cultures of Communism in the United States, Western Europe and China, and the conflicts engendered by nationalism and the continued need for support from Moscow. With

the danger of a new Cold War developing between former and current Communist states and the West, this account of the roots, development and dissolution of the socialist bloc is essential reading.

Transitions and Non-Transitions from Communism -

Steven Saxonberg 2013-02-14

A unique comparative study examining why some communist regimes remain in power, whilst others have fallen.

The Conquest of Bread - Peter Kropotkin 2013-04-10

Written by a Russian prince who renounced his title, this work promotes an anarchist market economy — a system of autonomous cooperative collectives. A century after its initial publication, it remains fresh and relevant.

Mexico's Cold War - Renata Keller 2015-07-28

This book examines Mexico's unique foreign relations with the US and Cuba during the Cold War.

The Commanding Heights - Daniel Yergin

2008-12-26

The most powerful force in the world economy today is the redefinition of the relationship between state and marketplace - a process that goes by the name of privatization though this term is inadequate to express its far-reaching changes. We are moving from an era in which governments sought to seize and control the 'commanding heights' of the economy to an era in which the idea of free markets is capturing the commanding heights of world economic thinking. Basic views of how society ought to be organized are undergoing rapid change, trillions of dollars are changing hands and so is fundamental political power. Great new wealth is being created - as are huge opportunities and huge risks. Taking a worldwide perspective, including Britain, where the process began with Mrs Thatcher, Europe and the former USSR, China, Latin America and the US, **THE COMMANDING HEIGHTS** shows how a revolution in ideas is transforming the world

economy - why it is happening, how it can go wrong and what it will mean for the global economy going into the twenty-first century.

Return to Diversity - Joseph Rothschild 1993
Written by one of the world's foremost authorities on East Central Europe, Return to Diversity has proven to be an invaluable guide for readers of modern European history and politics. This third edition introduces a new co-author, Nancy M. Wingfield, and has been fully updated to take into account recent and ongoing developments in the region.

China's Grand Strategy - Andrew Scobell
2020-07-27

To explore what extended competition between the United States and China might entail out to 2050, the authors of this report identified and characterized China's grand strategy, analyzed its component national strategies (diplomacy, economics, science and technology, and military affairs), and assessed how successful China might be at implementing these over the next

three decades.

The Black Book of Communism - Stéphane Courtois 1999

This international bestseller plumbs recently opened archives in the former Soviet bloc to reveal the accomplishments of communism around the world. The book is the first attempt to catalogue and analyse the crimes of communism over 70 years.

The Rise and Demise of World Communism - George W. Breslauer 2021-08-04

A concise, readable, and novel interpretation of the history of communist states. Sixteen states came to be ruled by communist parties during the 20th century. One, the Soviet Union, was geographically the largest nation in the world and a superpower. Another, China, had the world's largest population. At communism's high point, its adherents envisioned global triumph. Today, however, only five communist regimes remain in power. Why? In *The Rise and Demise of World Communism*, George Breslauer, a

specialist who has spent decades observing the evolution of communist states, provides a sweeping history of the world communist movement, focusing in particular on what communist states shared in common and why they began to differ from each other over time. Throughout, Breslauer explores the relations among communist states as well as the relations between those states and the world of increasingly affluent, and militarily formidable, democratic-capitalist powers. He finds that these regimes all came to power in the context of warfare or its aftermath, followed by the consolidation of power by a revolutionary elite that valued "revolutionary violence" as the preferred means to an end, based upon Marx's vision of apocalyptic revolution and Lenin's conception of party organization. As Breslauer shows, all these regimes went on to "build socialism" according to a Stalinist template and were initially dedicated to "anti-imperialist struggle" as members of a world communist

movement. But their common features gave way to diversity, difference, and defiance after the death of Joseph Stalin in 1953. For many reasons, and in many ways, those differences soon blew apart the world communist movement and eventually led to the collapse of European communism. Even though a few communist regimes still remain in power, the dream of world communism is dead. But the future of the remaining communist regimes is uncertain. An accessible history of one of the most important political phenomena of the past 150 years, *The Rise and Demise of World Communism* provides readers with a crisp account of the entire movement--from the theories of Marx and Lenin to the on-the-ground policies of Stalin, Mao, Gorbachev, Deng, and other communist leaders--that culminates in our own era.

Massacres and Morality - Alex J. Bellamy
2012-09-27

Most cultural and legal codes agree that the intentional killing of civilians, whether in

peacetime or war, is prohibited. Yet despite this fact, the deliberate killing of large numbers of civilians remains a persistent feature of global political life.

Communism and Nationalism - Roman Šporlûk
1988

Compares the philosophies of Marx and List, discusses the implications of loyalty to nation versus social class, and looks at communism's role in developing countries

Masters Of Deceit: The Story Of Communism In America And How To Fight It - J. Edgar Hoover 2015-11-06

The Director of the Federal Bureau of Investigation explains the startling facts about the major menace of our time, communism: what it is, how it works, what its aims are, the real dangers it poses, and what loyal American citizens must know to protect their freedom. *MASTERS OF DECEIT* is a powerful and informative book—a firsthand account of American communism from its beginnings to the

present, written by a man more intimately familiar with the complete story than any other American. Mr. Hoover shows the day-to-day operations of the Communist Party, USA: who the communists are, what they claim, why people be-come communists and why some break away. He describes life within the Party, communist strategy and tactics, methods of mass agitation and underground infiltration, espionage, sabotage, and its treatment of minorities. The picture of what life in this country would be under communism (toward which thou-sands of misguided Americans actually are working now!) is vivid and shocking. The forceful, driving message of this book is clarified with many incidents and anecdotes, definitions of communist terms, key dates, and a list of international communist organizations and publications which illustrate the communist Trojan horse in action. And it concretely outlines just what you can do now to combat the evils of the “false religion” of communism, so that you

can stay free. *MASTERS OF DECEIT* is one of the most important books of our time—a warning of the clear and present danger to our way of life.

Political Warfare - Kerry Gershaneck 2020-10

The Rise and Fall of Communism - Archie Brown 2009-10-13

Published to coincide with the twentieth anniversary of the fall of the Berlin Wall — a definitive and ground-breaking account of the revolutionary ideology that changed the modern world. The inexorable rise of Communism was the most momentous political phenomenon of the first half of the twentieth century. Its demise in Europe and its decline elsewhere have produced the most profound political changes of the last few decades. In this illuminating book, based on forty years of study and a wealth of new sources, Archie Brown provides a comprehensive history as well as an original and highly readable analysis of an ideology that has

shaped the world and still rules over a fifth of humanity. A compelling new work from an internationally renowned specialist, *The Rise and Fall of Communism* promises to be the definitive study of the most remarkable political and human story of our times.

Communism: A Very Short Introduction - Leslie Holmes 2009-08-27

The collapse of communism was one of the most defining moments of the twentieth century. This *Very Short Introduction* examines the history behind the political, economic, and social structures of communism as an ideology.

The Science and Passion of Communism - Amadeo Bordiga 2020-08-10

Amadeo Bordiga was one of the greatest figures of the Third Communist International. *The Science and Passion of Communism* presents his Soviet and internationalist battles in the revolutionary post-WWI period until that against Stalinism, and those in the post-WWII period against the triumphant U.S. capitalism and for

an original, updated re-presentation of Marxist critique of political economy.

Perestroika and the Party - Francesco Di Palma 2019-08-01

Countless studies have assessed the dramatic reforms of Mikhail Gorbachev, but their analysis of the impact on European communism has focused overwhelmingly on the Soviet Union and Eastern bloc nations. This ambitious collection takes a much broader view, reconstructing and evaluating the historical trajectories of glasnost and perestroika on both sides of the Iron Curtain. Moving beyond domestic politics and foreign relations narrowly defined, the research gathered here constitutes a transnational survey of these reforms' collective impact, showing how they were variably received and implemented, and how they shaped the prospects for "proletarian internationalism" in diverse political contexts.

Voyages in World History, Volume 2 - Valerie Hansen 2016-01-01

The authors of VOYAGES IN WORLD HISTORY never forget that history is made up of the stories of people. Each chapter of the text centers on a story -- a traveler's account that highlights the book's main theme, the constant movement of people, goods, and ideas. The travelers include merchants, poets, rulers, explorers, soldiers, missionaries, and scholars, and their voyages provide a framework for each chapter that will capture students' interest and draw them into the stories of the people, places,

and events crucial to understanding world history. Special features highlight connections across chapters, societies, and periods, helping students understand historical events in a global context. Available in the following split options: VOYAGES IN WORLD HISTORY, Third Edition Complete, Volume 1: To 1600, and Volume 2: Since 1500. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
