Threshold Time - Lene Johannessen 2008-01

Threshold Time provides an introductory survey of the cultural, social and political history of Mexican American and Chicano literature, as well as a new in-depth analyses of a selection of works that between them span a hundred years of this particular branch of American literature. The book begins its explorations of the "passage of crisis" with Maria Amparo Ruiz de Burton's *The Squatter and the Don*, continues with Americo Paredes' *George Washington Gomez*, Tomas Rivera's *And the Earth Did Not Devour Him*, Richard Rodriguez's *Hunger for Memory*, and ends with Helena Maria Viramontes' *Under the Feet of Jesus* and Benjamin Alire Saenz' *Carry Me Like Water*. In order to do justice to the idiosyncrasies of the individual texts and the complexities they embrace, the analyses refer to a number of other texts belonging to the tradition, and draw on a wide range of theoretical approaches. The final chapter of *Threshold Time* brings the various readings together in a discussion circumscribed by the negotiations of a temporality that is strongly aligned with a sense of memory peculiar to the history of the Chicano presence in the United States of America.

Eagles in the Dust - Adrian Coombs-Hoar 2015-01-30

In AD376 large groups of Goths, seeking refuge from the Huns, sought admittance to the Eastern Roman Empire. Emperor Valens took the strategic decision to grant them entry, hoping to utilize them as a source of manpower for his campaigns against Persia. The Goths had been providing good warriors to Roman armies for decades. However, mistreatment of the refugees by Roman officials led them to take up arms against their hosts. The resultant battle near Adrianopolis in AD378, in which Valens lost his life, is regarded as one of the most significant defeats ever suffered by Roman arms. The Roman historian Ammianus Marcellinus called it the worst massacre since Cannae, nearly six hundred years previously. Modern historians have accorded it great significance both at a tactical level, due to the success of Gothic cavalry over the vaunted Roman infantry, and in strategic terms, often citing it as the beginning of the end for the Empire. Adrian Coombs-Hoar untangles the debate that still surrounds many aspects such claims with

an insightful account that draws on the latest research.

Humanitarian Intervention and Safety Zones - C. McQueen 2016-02-25

Neither willing to engage in a meaningful way to save targeted civilians in Iraq, Bosnia and Rwanda nor to stand entirely aside as massive violations of humanitarian law occurred, states embraced safety zones as a means to 'do something' whilst avoiding being drawn into open warfare. *Humanitarian Intervention and Safety Zones: Iraq, Bosnia and Rwanda* explores why and how effectively safety zones were implemented as a way to protect civilians and displaced persons in three of the most important conflicts of the 1990s. It shows how states consistently sought to reconcile their political and humanitarian interests, a process which often led to problematic and ambiguous

outcomes, and assesses in fascinating detail the difficulties and controversies surrounding the use of such zones, variously called safe havens, safe areas, secure humanitarian areas, and zones humanitaires sûres . The book also asks whether or not such zones could serve as precedents for possible future attempts to ensure the safety of civilians in complex humanitarian emergencies.

Unions and Communities Under Siege - Gordon L. Clark 1989-07-13

The essential argument of this book is that the current crisis of US unions ought to be considered in terms of the local context of labor-management relations; that is, the communities in which men and women live and work. Whether by design or necessity, the structure of New Deal national labor legislation has sustained, and maintained, distinctive local labor-management practices.

Things Fall Apart - Chinua Achebe 2009-06-05

THINGS FALL APART tells two overlapping, intertwining stories, both of which center around Okonkwo, a "strong man" of an Ibo village in Nigeria. The first of these stories traces Okonkwo's fall from grace with the tribal world in which he lives, and in its classical purity of line and economical beauty it provides us with a powerful fable about the

immemorial conflict between the individual and society. The second story, which is as modern as the first is ancient, and which elevates the book to a tragic plane, concerns the clash of cultures and the destruction of Okonkwo's world through the arrival of aggressive, proselytizing European missionaries. These twin dramas are perfectly harmonized, and they are modulated by an awareness capable of encompassing at once the life of nature, human history, and the mysterious compulsions of the soul. THINGS FALL APART is the most illuminating and permanent monument we have to the modern African experience as seen from within.

American Dreams, Rural Realities - Peggy F. Barlett 1993-01-01

Into the Wild - Jon Krakauer 2009-09-22

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of *Into the Wild*. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank

spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality.

Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Pain Management and the Opioid Epidemic - National Academies of Sciences, Engineering, and Medicine 2017-09-28

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

The Civil War as a Theological Crisis - Mark A. Noll 2006

This book tells how most Americans were radically divided in their interpretations of what God was doing in and through the Civil War.

Small Nations in Times of Crisis and Confrontation - Yohanan Cohen 1989-01-01

The question is, how should small states behave under pressure? The analysis is of three cases: Czechoslovakia in 1938, Poland from 1939 to 1945, and Finland in 1940 and 41. The author is scrupulous in not drawing too many general lessons from these cases, but the imprudence of overreliance on great power protection and of ceding to justifications for surrender based on self-determination are made clear.

Merleau-Ponty and Modern Politics After Anti-humanism - Diana H. Coole 2007

"In this book, Diana Coole shows how existential phenomenology illuminates and enlivens our understanding of politics. With breadth of vision and penetrating insight, Coole demonstrates that political questions were always central to Merleau-Ponty's philosophical project. She also shows how Merleau-Ponty's concern with contingency anticipated arguments by thinkers such as Derrida, Foucault, and Deleuze, while sustaining a robust sense of politics as the domain of collective life"--Jacket.

"Readers who choose the book for the attraction of Navajo code talking and the heat of battle will come away with more than they ever expected to find."—Booklist, starred review Throughout World War II, in the conflict fought against Japan, Navajo code talkers were a crucial part of the U.S. effort, sending messages back and forth in an unbreakable code that used their native language. They braved some of the heaviest fighting of the war, and with their code, they saved countless American

lives. Yet their story remained classified for more than twenty years. But now Joseph Bruchac brings their stories to life for young adults through the riveting fictional tale of Ned Begay, a sixteen-year-old Navajo boy who becomes a code talker. His grueling journey is eye-opening and inspiring. This deeply affecting novel honors all of those young men, like Ned, who dared to serve, and it honors the culture and language of the Navajo Indians. An ALA Best Book for Young Adults "Nonsensational and accurate, Bruchac's tale is quietly inspiring..."—School Library Journal Common Sense - Thomas Paine 2011-06-01

Hip Hop Generation - Bakari Kitwana 2002-04-17

Young blacks born between 1965 and 1984 belong to the first generation to have grown up in post-segregation America. Their historical significance is tremendous, but until now there has been no in-depth study of the African American youth who are making this important chapter in our nation's history. Bakari Kitwana, one of black America's sharpest young cultural critics, offers a sobering look at his generation's disproportionate incarceration and unemployment rates, as well as the collapse of its gender relations, and gives his own provocative social and political analysis. He finds the pain of his generation buried in tough, slick gangsta movies, and their voice in the lyrics of rap music, "the black person's CNN." By turns scathing, funny, and analytic, *The Hip Hop Generation* will stand as the testament of black youth culture at the turn of the century. With extraordinary insight and understanding, Bakari

Kitwana has combined the culture and politics of his generation into a pivotal work in American studies.

Uncertain Perceptions - Robert B. McCalla 1992

In contrast with previous studies, McCalla's work provides evidence that decision makers are not necessarily firmly wedded to their views. He refines the concept of misperception by identifying two types: "situational misperception," which stems from the ambiguities and uncertainties that can surround another state's actions, and "dispositional misconception," which has to do with the attitudes and images that a particular decision maker holds. Crises rooted in situational misperceptions will tend toward resolution when more information is provided to the decision maker, while crises that originate from dispositional misperceptions will be less affected by additional information. With the end of the Cold War, historians and political scientists are reexamining the history of U.S.-Soviet relations away from the glare of Cold War politics and rhetoric, and in doing so advancing new ways of understanding past conflicts.

On the Shoulders of Giants - Kareem Abdul-Jabbar 2007-02-05

From 1920 to 1940, the Harlem Renaissance produced a bright beacon of light that paved the way for African-Americans all over the country. The unapologetic writings of W. E. B. Du Bois and Marcus Garvey, the fervent fiction and poetry of Zora Neale Hurston and Langston Hughes, the groundbreaking art of Aaron Douglas and William H. Johnson, and the triumphant music of Duke Ellington and Louis Armstrong gave voice and expression to the thoughts and emotions that Jim Crow segregation laws had long sought to stifle. In On the Shoulders of Giants, indomitable basketball star and bestselling author and historian Kareem Abdul-Jabbar invites the reader on an extraordinarily personal journey back to his birthplace, through one of the greatest political, cultural, literary, and

artistic movements in our history, revealing the tremendous impact the Harlem Renaissance had on both American culture and his own life. Beginning with the rise of the Harlem Renaissance as pioneers of professional basketball, Kareem traces the many streams of historical influence that converged to create the man he is today -- the NBA's all-time leading scorer and a veritable African-American icon. Travel deep into the soul of the Renaissance -- to the night clubs, restaurants, basketball games, and fabulous parties that have made footprints in Harlem's history. Meet the athletes, jazz musicians, comedians, actors, politicians, entrepreneurs,

and writers who not only inspired Kareem's rise to greatness but an entire nation's. Kareem Abdul-Jabbar was born in the midst of a cultural reawakening, carried on the shoulders of athletes trying to prove there was a lot more at stake than a ball game, men and women who made music that could break your heart, and writers and intellectuals who gave voice to not just the ideals of a movement but the raw emotions. Kareem tells what it took to get these revolutionaries to Harlem and how they changed the world. A world that is still riding on the shoulders of giants.
