The World Come of Age - Lilian Calles Barger 2018-07-02

On November 16, 2017, Pope Francis tweeted, "Poverty is not an accident. It has causes that must be recognized and removed for the good of so many of our brothers and sisters." With this statement and others like it, the first Latin American pope was associated, in the minds of many, with a stream of theology that swept the Western hemisphere in the 1960s and 70s, the movement known as liberation theology. Born of chaotic cultural crises in Latin America and the United States, liberation theology was a trans-American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race, class, or sex. Led by such revolutionaries as the Peruvian Catholic priest Gustavo Gutiérrez, the African American theologian James Cone, or the feminists Mary Daly and Rosemary Radford Ruether, the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism. It combined theology with strands of radical politics, social theory, and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society. Praised by some as a radical return to early Christian ethics and decried by others as a Marxist takeover, liberation theology has a wide-ranging, cross-sectional history that has previously gone undocumented. In *The World Come of Age*, Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology, demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo.

What is Enlightenment? - Samuel Fleischacker 2013-02-11

"Have the courage to use your own understanding! - that is the motto of enlightenment." - Immanuel Kant The Enlightenment is one of the most important and contested periods in the history of philosophy. The problems it addressed, such as the proper extent of individual freedom and the challenging of tradition, resonate as much today as when they were first debated. Of all philosophers, it is arguably Kant who took such questions most seriously, addressing them above all in his celebrated short essay, *An Answer to the Question: What is Enlightenment?* In this engaging and lucid book, Samuel Fleischacker first explains and assesses Kant's philosophy of Enlightenment. He then considers critics of Kant's views - from Burke and Hegel to Horkheimer and Adorno - and figures he regards as having extended Kant's notion of enlightenment, such as Feuerbach, Marx, Habermas, Foucault, and Rawls. Throughout, he demonstrates how Kant holds two distinct theories of enlightenment. On the one hand, Kant proposes a 'minimal' view, where to be enlightened is simply to engage in critical public discussion, allowing diversity of opinion to flourish. On the other, he argues that Kant elsewhere calls for a 'maximal' view of enlightenment, where, for example, an enlightened person cannot believe in a traditional religion. With great skill Fleischacker shows how these two views are taken in a multitude of directions by both critics and advocates of Kant's philosophy. Arguing that Kant's minimal enlightenment is a precondition for a healthy proliferation of cultures, religious faiths and political movements, *What is Enlightenment?* is a fascinating introduction to a key aspect of Kant's thought and a compelling analysis of philosophical thinking about the Enlightenment. Including helpful chapter summaries and guides

to further reading, it is ideal for anyone studying Kant or the philosophy of the Enlightenment, as well as those in related disciplines such as politics, history and religious studies.

Let There Be Enlightenment - Anton M. Matytsin 2018-09-14

Challenging the triumphalist narrative of Enlightenment secularism. According to most scholars, the Enlightenment was a rational awakening, a radical break from a past dominated by religion and superstition. But in *Let There Be Enlightenment*, Anton M. Matytsin, Dan Edelstein, and the contributors they have assembled deftly undermine this simplistic narrative. Emphasizing the ways in which religious beliefs and motivations shaped philosophical perspectives, essays in this book highlight figures and topics often overlooked in standard genealogies of the Enlightenment. The volume underscores the prominent role that religious discourses continued to play in major aspects of seventeenth- and eighteenth-century thought. The essays probe a wide range of subjects, from reformer Jan Amos Comenius's quest for universal enlightenment to the changing meanings of the light metaphor, Quaker influences on Baruch Spinoza's theology, and the unexpected persistence of Aristotle in the Enlightenment. Exploring the emergence of historical consciousness among Enlightenment thinkers while examining their repeated insistence on living in an enlightened age, the collection also investigates the origins and the long-term dynamics of the relationship between faith and reason. Providing an overview of the rich spectrum of eighteenth-century culture, the authors demonstrate that religion was central to Enlightenment thought. The term "enlightenment" itself had a deeply religious connotation. Rather than revisiting the celebrated breaks between the eighteenth century and the period that preceded it, *Let There Be Enlightenment* reveals the unacknowledged continuities that connect the Enlightenment to its various antecedents. McMahon, James Schmidt, Céline Spector, Jo Van Cauter

Western Civilization from 1500 - Ahmed Ibrahim 2011-09-27

The Collins College Outline for Western Civilization from 1500 covers all major political, social, and cultural events from the beginning of the "Modern Age" in 1492 through the Reformation, the Age of Enlightenment, Napoleon, the Depression, the World Wars, and the Cold War, continuing up through history's most recent crises and developments in the early twenty-first century.

Completely revised and updated by Dr. Ahmed Ibrahim, Western Civilization from 1500 includes practical "test yourself" sections with answers and complete explanations at the end of each chapter. Also included are bibliographies for further reading, as well as maps, timelines, and illustrations. The Collins College Outlines are a completely revised, in-depth series of study guides for all areas of study, including the Humanities, Social Sciences, Mathematics, Science, Language, History, and Business. Featuring the most up-to-date information, each book is written by a seasoned professor in the field and focuses on a simplified and general overview of the subject for college students and, where appropriate, Advanced Placement students. Each Collins College Outline is fully integrated with the major curriculum for its subject and is a perfect supplement for any standard textbook.

Renaissance Magic and the Return of the Golden Age - John S. Mebane 1992-01-01

For all their pride in seeing this world clearly, the thinkers and artists of the English Renaissance were also fascinated by magic and the occult. The three greatest playwrights of the period devoted major plays (*The Tempest*, *Doctor Faustus*, *The Alchemist*) to magic, Francis Bacon often referred to it, and it was ever-present in the visual arts. In *Renaissance Magic and the Return of the Golden Age* John S. Mebane reevaluates the significance of occult philosophy in Renaissance thought and literature, constructing the most detailed historical context for his subject yet attempted.

E-Discovery Tools and Applications in Modern Libraries - de Smet, Egbert 2016-07-13

A Cultural History of the Modern Age - Egon Friedell 2009

This is the second volume of Friedell's monumental *A Cultural History of the Modern Age*. A key figure in the flowering of Viennese culture between the two world wars, this three volume work is considered his masterpiece. The centuries covered in this second volume mark the victory of the scientific mind: in nature-research, language-research, politics, economics, war, even morality, poetry, and religion. All systems of thought produced in this century, either begin with the scientific outlook as their foundation or regard it as their highest and final goal. Friedell claims three main streams pervade the eighteenth century: Enlightenment, Revolution, and Classicism. In ordinary use, by "Enlightenment" we mean an extreme rationalistic tendency of which preliminary stages were noted in the seventeenth century. The term "Classicism", is well understood. Under the term "Revolution" Friedell includes all movements directed against what has been dominant and traditional. The aims of such movements were remodeling the state and society, banning all esthetic canons, and dethronement of reason by sentiment, all in the name of the "Return to Nature." The Enlightenment tendency might be seen as laying the ground for an age of revolution. This second volume continues Friedell's dramatic history of the driving forces of the twentieth century.

Radical Neo-Enlightenment - Mark Manolopoulos 2018-11-21

Radical Neo-Enlightenment is a spirited response to the multiple and accelerating crises we face today. The provocative and ambitious work contends that we require a "radical neo-Enlightenment" to counter these systemic crises. The driving idea is that Reason must now be reclaimed as a powerful force for positive social change. Along the way, the book criticizes philosophy's failings and restores its noble compulsion to change the world. Radical Neo-Enlightenment then criticizes conventional religion and advances a reconstructed faith that would be an ally of socially-transformative Reason. It then marks out practical core steps that would lead to rational global transformation. While the book is introductory and accessible in scope and style, it confronts and develops the thought of some of the most important subversive thinkers of the past and present.

The Jewish Enlightenment - Shmuel Feiner 2011

This text reconstructs the intellectual and social revolution of the Haskalah as it gradually gathered momentum throughout the 18th-century.

Summary of Enlightenment Now - Alexander Cooper 2021-11-21

Summary of Enlightenment Now - The Case for Reason, Science, Humanism, and Progress - A Comprehensive Summary Chapter 1: Dare to Understand! Enlightenment, according to Immanuel Kant, is "humankind's emergence from its self-incurred immaturity." It is a dare for us to understand the world around us because if we dare to understand, (as per physicist David Deutsch), progress is possible in all fields: scientific, political, and moral. But even this definition is not always fixed. The era that Immanuel Kant refers to in his essays about Enlightenment was situated in the last two-thirds of the 18th century. It was a period that challenged conventional wisdom. It was also a period that raised four themes: REASON, SCIENCE, HUMANISM, and

PROGRESS. To be continued... Here is a Preview of What You Will Get: - A Full Book Summary - An Analysis - Fun quizzes - Quiz Answers - Etc. Get a copy of this summary and learn about the book.

Multilateral Theology - Timothy T.N Lim 2021-04-19

This book introduces a new "multilateral" methodology for the contemporary study of theology. It bases this methodology on the idea that there are too many materials contributing as sources for theologizing to sustain the "one method fits all" approach found in many systematic theologies within Christianity. What is needed instead is something that reflects the various and varied natures, purposes, and tasks of theologians' theologizing for their respective contexts. Engaging materials from a range of Christian traditions, including Evangelicalism, the Catholic Magisterium, and a limited range of pan-Orthodox resources, the book analyzes and assesses major factors that have shaped different streams of theology. Addressing doctrinal development, scripture and revelation, historical tradition and creeds, philosophy and truth, sciences and interdisciplinarity, experience, religious pluralism, and culture, it demonstrates how these various streams can form a multilateral whole. The book concludes by examining the centers and peripherals of methodologies in theologization for a spectrum of theological traditions/streams, both across and beyond Christianity. By offering an approach that keeps in step with the increasingly interconnected and pluralistic world in which we live, this book provides a vital resource for any scholar of Christian theology, constructive theology, contextual theologies, and systematic theology, as well as religious studies.

Always Reforming - Craig D. Atwood 2001

"Always Reforming highlights the fact that in the modern era the notion of heresy has fallen apart. Every church has been declared heretical at some time or other by another church, and it is not the role of the historian to decide who is right or wrong on doctrinal issues. Christians have adapted to sweeping social changes, including scientific discoveries and changing world-views." "This volume attempts to uncover some of the hidden dynamics of faith within the many ways in which other Christians have tried to live out the gospel in an uncertain world. It also demonstrates that all human institutions, including churches, change over time."--Jacket.

Treasury of the True Dharma Eye - Kazuaki Tanahashi 2013-05-14

Treasury of the True Dharma Eye (Shobo Genzo, in Japanese) is a monumental work, considered to be one of the profoundest expressions of Zen wisdom ever put on paper, and also the most outstanding literary and philosophical work of Japan. It is a collection of essays by Eihei Dogen (1200-1253), founder of Zen's Soto school. Kazuaki Tanahashi and a team of translators that represent a Who's Who of American Zen have produced a translation of the great work that combines accuracy with a deep understanding of Dogen's voice and literary gifts. This eBook includes a wealth of materials to aid understanding, including maps, lineage charts, a bibliography, and an exhaustive glossary of names and terms—and, as a bonus, the most renowned of all Dogen's essays, "Recommending Zazen to All People."

A History of Eastern Europe 1740-1918 - Ian D. Armour 2012-11-22

A History of Eastern Europe 1740-1918: Empires, Nations and Modernisation provides a comprehensive, authoritative account of the region during a troubled period that finished with the

First World War. Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period - empire, nationhood and modernisation - whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place. Detailed coverage is given to the Habsburg, Ottoman, German and Russian Empires that struggled for dominance during this time. In this exciting new edition, Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties as well as concepts of empire. Armour's insightful guide to early Eastern Europe considers the important figures and governments, analyses the significant events and discusses the socio-economic and cultural developments that are crucial to a rounded understanding of the region in that era. Features of this new edition include: * A fully updated and enlarged bibliography and notes * Eight useful maps * Updated content throughout the text A History of Eastern Europe 1740-1918 is the ideal textbook for students studying Eastern European history.

New Age Christianity in an Age of Spiritual Starvation - C. E. White 2020-06-09

Tap into the Ultimate Spirit Guide. When Jesus Christ died on the cross, he enabled a Helper who lives inside all of us. This Helper is the Holy Spirit, who lives inside of you and can guide you through every difficulty you face if you let him. New Age Christianity in an Age of Spiritual Starvation reveals a 2,000-year-old truth that has been buried by centuries of Christian dogma. Packed with scripture references and practical prayer, this book takes you on an amazing journey towards enlightenment and inner peace the moment you start reading. Author C.E. White describes how his own journey took him through multiple New Age Spiritual paths that ultimately led him to the one he had been avoiding his whole life: Christianity. Turned off by Catholic, fundamentalist and conservative Christian churches and ministries, he avoided the Helper who has been with him all along. When you read this book you'll discover what the author learned: That Christianity isn't about the imposition of a strict set of laws and codes but is actually all about love and forgiveness, themes that dominate every chapter of the Bible but have been largely forgotten by many Christian evangelists. Chapters include: Chapter 1 - A New Age of Christianity Chapter 2 - In Defense of Christ Chapter 3 - God, Science, and Quantum Mechanics Chapter 4 - Love Chapter 5 - Ascendant Beings and Other Gods Chapter 6 - Eternal Life Chapter 7 - Prosperity and Abundance Chapter 8 - Women and Christ Chapter 9 - Hell and its Alternatives Chapter 10 - Jesus Christ As a Divine Being Chapter 11 - Magic and Paganism Chapter 12 - The Holy Spirit Chapter 13 - Suicide Chapter 14 - Worship and Faith Chapter 15 - The Bible as God's Word Chapter 16 - The Old Testament Chapter 17 - Sex and the final, most important chapter... Chapter 18 - Forgiveness

Liberal Modernity and Its Adversaries - Milan Zafirovski 2007

This is a book about modern liberal society and its adversaries. The book rediscovers and rehabilitates much maligned, especially in America, liberalism as the ideal system of liberty in relation to anti-liberalism as one of un-freedom. It rediscovers liberal modernity as a free, equal and just social system and time, thus most compatible with and enhancing of human civilization ushering in the 21st century. It exposes anti-liberal adversaries, especially conservatism, as ideologies and systems most inappropriate with and destructive of civilization. The book rediscovers liberal modernity as the master process and destination of Western civilization, and its anti-liberal adversaries, notably conservatism, as the ghosts of a dead past. The anti-liberal rumors of the 'death' of liberalism are 'greatly exaggerated'.

Faith and Modern Thought - Timothy Hull 2020-10-29

Get the full picture! Understand the whole story! Faith and Modern Thought is a jargon-busting and engaging introduction providing an imaginative and creative way into the great minds that have forged the modern world, especially Kant and Hegel and the revolutionary philosophies of existentialism and Marxism they inspired. Tim Hull provides the wider intellectual picture, the fuller philosophical story in which modern theology was forged. After an engaging introduction to the European Enlightenment and the cultural crisis it triggered, the stage is set to understand the essence of modern theology. From that essential background the radical faith of many of the most influential of modern theologians and philosophers of religion is explored, exposing a deep-rooted indebtedness to the Enlightenment tradition.

Enlightenment and Revolution - Paschalis M. Kitromilides 2013-11-01

Greece sits at the center of a geopolitical storm that threatens the stability of the European Union. To comprehend how this small country precipitated such an outsized crisis, it is necessary to understand how Greece developed into a nation in the first place. Enlightenment and Revolution identifies the ideological traditions that shaped a religious community of Greek-speaking people into a modern nation-state--albeit one in which antiliberal forces have exacted a high price. Paschalis Kitromilides takes in the vast sweep of the Greek Enlightenment in the eighteenth and nineteenth centuries, assessing developments such as the translation of modern authors into Greek; the scientific revolution; the rediscovery of the civilization of classical Greece; and a powerful countermovement. He shows how Greek thinkers such as Voulgaris and Korais converged with currents of the European Enlightenment, and demonstrates how the Enlightenment's confrontation with Church-sanctioned ideologies shaped present-day Greece. When the nation-state emerged from a decade-long revolutionary struggle against the Ottoman Empire in the early nineteenth century, the dream of a free Greek polity was soon overshadowed by a romanticized nationalist and authoritarian vision. The failure to create a modern liberal state at that decisive moment is at the root of Greece's recent troubles.

The Age of Reason - Thomas Paine 2004-01-01

Paine's years of study and reflection on the role of religion in society culminated with this, his final work. An attack on revealed religion from the deist point of view — embodied by Paine's credo, "I believe in one God, and no more" — its critical and objective examination of Old and New Testaments cites numerous contradictions.

Exploration - Stewart Angas Weaver 2015

This clear, succinct, and elegant contribution to the 'Very Short Introductions' series surveys the history of global exploration and assesses the motives, for good and ill, of those who undertook it. Stewart Weaver traces the history of exploration from the first explorers (including Polynesian and Micronesian peoples, the ancient Greeks, Marco Polo, and Ibn Battūta), to the European discovery of America, the Enlightenment and exploration (focusing on James Cook), and the race to the north and south poles

The Enlightenment - John Robertson 2015

This introduction explores the history of the 18th-century Enlightenment movement. Considering its intellectual commitments, Robertson then turns to their impact on society, and the ways in which Enlightenment thinkers sought to further the goal of human betterment, by promoting economic improvement and civil and political justice.

The Military Enlightenment - Christy L. Pichichero 2017-11-15

The Military Enlightenment brings to light a radically new narrative both on the Enlightenment and the French armed forces from Louis XIV to Napoleon. Christy Pichichero makes a striking discovery: the Geneva Conventions, post-traumatic stress disorder, the military "band of brothers," and soldierly heroism all found their antecedents in the eighteenth-century French armed forces. From Louis XIV through Napoleon, from Canada to the Caribbean and India, the military was one of the few institutions of the Old Regime to transform progressive theories into practice, actually operationalizing the Enlightenment. Pichichero isolates and examines a crisis in consciousness that has characterized attitudes toward war from the eighteenth century until today. The demands of global political power warrant an ever more formidable and efficient fiscal-military state, and at the same time, awareness of the "human factor" generates the desire to minimize the devastation of war on cities and landscapes, and civilians, as well as the mind, body, and heart of the soldier. Readers of The Military Enlightenment will be startled to learn of the many ways in which French military officers, administrators, and medical personnel advanced ideas of human and political rights, military psychology, and social justice.
