**Summer House with Swimming Pool** - Herman

Koch 2014-06-03

The blistering, compulsively readable new novel from Herman Koch, author of the instant New York Times bestseller *The Dinner*. When a medical procedure goes horribly wrong and famous actor Ralph Meier winds up dead, Dr. Marc Schlosser needs to come up with some answers. After all, reputation is everything in this business. Personally, he's not exactly upset that Ralph is gone, but as a high profile doctor to the stars, Marc can't hide from the truth forever. It all started the previous summer. Marc, his wife, and their two beautiful teenage daughters agreed to spend a week at the Meier's extravagant summer home on the Mediterranean. Joined by Ralph and his striking wife Judith, her mother, and film director Stanley Forbes and his

much younger girlfriend, the large group settles in for days of sunshine, wine tasting, and trips to the beach. But when a violent incident disrupts the idyll, darker motivations are revealed, and suddenly no one can be trusted. As the ultimate holiday soon turns into a nightmare, the circumstances surrounding Ralph's later death begin to reveal the disturbing reality behind that summer's tragedy. Featuring the razor-sharp humor and acute psychological insight that made *The Dinner* an international phenomenon, *Summer House with Swimming Pool* is a controversial, thought-provoking novel that showcases Herman Koch at his finest.

Healthy Aging - Ping-Chung Leung 2011  
Recent advances in modern medicine have

contributed to a longer lifespan for human beings. However, this does not directly translate to healthy living. Modern medicine's major success lies in specifically targeting orientated pathologies. It, however, does not promise healthy longevity. Healthy longevity requires an absence of life-threatening diseases and maintenance of good quality of life. Oriental medicine emphasizes on the promotion of physiological balance and internal harmony, which are integral for longevity in life. This book defines aging, approaching from the perspective of the frontier bioscientist as well as that of the traditional practitioner. On the international front, Oriental practices are

extensively recommended, including herbal supplements and specific training exercises. This book, compiled with the aim of offering solutions to healthy aging, provides an excellent reference for both the elderly and their carers.

**The Rise and Fall of  
Human Rights** - Lori  
Allen 2013-04-24  
The Rise and Fall of  
Human Rights provides a  
groundbreaking  
ethnographic  
investigation of the  
Palestinian human rights  
world—its NGOs,  
activists, and

"victims," as well as  
their politics,  
training, and  
discourse—since 1979.  
Though human rights  
activity began as a  
means of struggle  
against the Israeli  
occupation, in failing  
to end the Israeli  
occupation, protect  
basic human rights, or  
establish an accountable  
Palestinian government,  
the human rights  
industry has become the  
object of cynicism for  
many Palestinians. But  
far from indicating  
apathy, such cynicism  
generates a productive  
critique of domestic  
politics and Western  
interventionism. This  
book illuminates the  
successes and failures  
of Palestinians' varied  
engagements with human  
rights in their quest  
for independence.

Renate Dorrestein

The Darkroom of Damocles  
- Willem Frederik Hermans 2009-10-27

By the acclaimed Dutch author of *Beyond Sleep*: a thriller set in Nazi occupied Holland: "fast-moving, frighteningly real yet verging on the incredible" (Milan

Kundera, author of *The Unbearable Lightness of Being*). During the German occupation of Holland, tobacconist Henri Osewoudt is visited by a mysterious man named Dorbeck—a man who bears a strangely striking resemblance to Osewoudt himself.

Dorbeck recruits him to perform simple, but top-secret missions on orders from London. But as the assignments keep coming, they get increasingly dangerous. Soon Osewoudt is being asked to commit murder in the name of Gestapo resistance. After the war, Osewoudt is taken for a traitor and captured. To prove his sacrifices for the Resistance, he must find the untraceable doppelgänger in an existential thriller "crackling with tension . . . bringing to mind Camus and the Sartre of *Les Chemins de la*

Liberté" (The Telegraph). "Striking, suspenseful . . . Brilliant." –The Observer

A blisteringly powerful classic war story from one of the Netherlands' greatest writers WITH AN AFTERWORD BY CEES NOOTEBOOM 'The Dutch have hailed him as their

greatest novelist, and now, slowly, Europe is getting to know him' Milan Kundera, Le Monde 'Bleak, hilarious, angry, ruthless...

Hermans is as alarming as a snake in the breadbin... hugely entertaining' Scotsman Towards the end of the Second World War, a weary partisan fighting with the Red Army in Germany comes across a grand, abandoned house, seemingly untouched by the devastation sweeping the country. Exhausted, he falls asleep in the living room, but wakes to find a German patrol marching up the garden path. His only hope is to pose as the house's owner, but how will he keep up the pretence when the real owner returns? Dazzling, dark and scorchingly violent, with the breakneck pace of a thriller, this timeless classic is a vivid depiction of what

happens when the mask of decency is cast aside in the savagery of war. 'A literary tour de force' Frankfurter Allgemeine Zeitung 'A violent climax without equal in modern literature' Cees Nooteboom Willem Frederik Hermans (1921–1995) was one of the most prolific and versatile Dutch authors of the twentieth century. In 1977 he received the Dutch Literature Prize – the most prestigious literary prize in the Netherlands. #### Developmental

Neuropsychology - Vicki  
Anderson 2018-07-17

This fully updated  
edition of Developmental  
Neuropsychology: A  
Clinical Approach  
addresses key issues in  
child neuropsychology  
with a unique emphasis  
on evidence-informed  
clinical practice rather  
than research issues.  
Although research  
findings are presented,  
they are described with  
emphasis on what is  
relevant for assessment,  
treatment and management  
of paediatric  
conditions. The authors

focus on a number of areas. First, the text examines the natural history of childhood central nervous system (CNS) insult, highlighting studies where children have been followed over time to determine the impact of injury on ongoing development. Second, processes of normal and abnormal cerebral and cognitive development are outlined and the concepts of brain plasticity and the impact of early CNS insult discussed. Third, using a number of common childhood CNS disorders as examples, the authors develop a model which describes the complex interaction among biological, psychosocial and cognitive factors in the brain-injured child. Finally, principles of evidence-based assessment, diagnosis and intervention are discussed. The text will

be of use on advanced undergraduate courses in developmental neuropsychology, postgraduate clinical training programmes and for professionals working with children in clinical psychology, clinical neuropsychology and educational and rehabilitation contexts. The text is also an important reference for those working in paediatric research.

**Evolving Cosmos** - Govert Schilling 2004-11-18

Mankind is a child of the cosmos. The atoms in our bodies originate in the interiors of other stars, and we cannot regard our existence separately from the evolution of the universe. Without the Big Bang and the formation of galaxies, planets and organic molecules, we simply would not have happened. In this fascinating book, science journalist Govert Schilling takes the reader on a whirlwind journey through time. He describes the evolution of the cosmos, from the beginning of space and time fourteen billion years ago, to the creation of the Earth and mankind. The book ends with a glance into the distant future of

the universe, because the here and now are only fleeting moments in its biography. A combination of compelling text and breathtaking photographs provide an impressive vision of the place of man in the cosmos.

**Childhood** - Jona Oberski 2014-11-25

A rediscovered masterpiece: an unblinking view of the Holocaust through a child's eyes Told from the perspective of a child slowly awakening to the atrocities surrounding him, Childhood is a searing story of the Holocaust that no reader will soon forget. As five-year-old Jona waits with his mother and father to emigrate from Nazi-occupied Amsterdam to Palestine, they are awakened at night, put on a train, and eventually interred in the camps at Bergen-

Belsen. There, what at first seems to be a merely dreary existence soon reveals itself to be one of the worst horrors humanity has ever created. A triumph of heartrending clarity and dispassionate amazement, *Childhood* stands tall alongside such monuments of Holocaust literature as *The Diary of Anne Frank*, *Elie Wiesel's Night*, and *Primo Levi's Survival in Auschwitz*. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines.
