A Good Neighborhood - Therese Anne Fowler 2020-03-10

INSTANT NEW YORK TIMES BESTSELLER *
One of NPR's Best Books of 2020 "A provocative, absorbing read." – People "A feast of a read... I finished *A Good Neighborhood* in a single sitting. Yes, it's that good."
–Jodi Picoult, #1 New York Times bestselling author of *Small Great Things* and *A Spark of Light In Oak Knoll*, a verdant, tight-knit North Carolina neighborhood, professor of forestry and ecology Valerie Alston-Holt is raising her bright and talented biracial son, Xavier, who's headed to college in the fall. All is well until the Whitmans—a family with new money and a secretly troubled teenage daughter—raze the house and trees next door to build themselves a showplace. With little in common except a property line, these two families quickly find themselves at odds: first, over an historic oak tree in Valerie's yard, and soon after, the blossoming romance between their two teenagers. *A Good Neighborhood* asks big questions about life in America today—what does it mean to be a good neighbor? How do we live alongside each other when we don't see eye to eye?—as it explores the effects of class, race, and heartrending love in a story that's as provocative as it is powerful.

Jesus Land - Julia Scheeres 2019-06-11
"A page turner . . . heart-stopping and enraging . . . focused, justified, and without a trace of self-pity. Shot through with poignancy." –The New York Times Book Review
Over a decade after its first publication, *Jesus Land* remains deeply resonant with readers. This New York Times bestselling memoir is a gripping tale of rage and redemption, hope and humor, morality and malice—and most of all, the truth: that being a good person takes more than just going to church. Julia and her adopted brother, David, are sixteen years old. Julia is white. David is black. It is the mid-1980s and their family has just moved to rural Indiana, a landscape of cottonwood trees, trailer parks, and an all-encompassing racism. At home are a distant mother—more involved with her church's missionaries than her own children—and a violent father. In this riveting and heartrending memoir Julia Scheeres takes us from the Midwest to a place beyond imagining. Surrounded by natural beauty, Escuela Caribe—a religious reform school in the Dominican Republic—is characterized by a disciplinary regime that extracts repentance from its students by any means necessary. Julia and David strive to make it through these ordeals and their tale is relayed here with startling immediacy, extreme candor, and wry humor.
Freedom in the World 2009 - Arch Puddington 2009-10
Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group

of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

Obedience to Authority - Stanley Milgram 2017-07-11

A part of Harper Perennial's special "Resistance Library" highlighting classic works that illuminate our times: A special edition reissue of Stanley Milgram's landmark examination of humanity's susceptibility to authoritarianism. "The classic account of the human tendency to follow orders, no matter who they hurt or what their consequences." – Washington Post Book World In the 1960s, Yale University psychologist Stanley Milgram famously carried out a series of experiments that forever changed our perceptions

of morality and free will. The subjects—or "teachers"—were instructed to administer electroshocks to a human "learner," with the shocks becoming progressively more powerful and painful. Controversial but now strongly vindicated by the scientific community, these experiments attempted to determine to what extent people will obey orders from authority figures regardless of consequences. "Milgram's experiments on obedience have made us more aware of the dangers of uncritically accepting authority," wrote Peter Singer in the New York Times Book Review. With an introduction from Dr. Philip Zimbardo, who conducted the famous Stanford Prison Experiment, *Obedience to Authority* is Milgram's fascinating and troubling chronicle of his classic study and a vivid and persuasive explanation of his conclusions.

Darwin on Trial - Phillip E. Johnson 2015-12-01

Darwin's theory of evolution is accepted by most educated Americans as simple fact. This easy acceptance, however, hides from us the many ways in which evolution—as an idea—shapes our thinking about a great many things. What if this idea is wrong? Berkeley law professor Phillip E. Johnson looks at the evidence for Darwinistic evolution the way a lawyer would—with a cold dispassionate eye for logic and proof. His discovery is that scientists have put the cart before the horse. They prematurely accepted Darwin's theory as fact and have been scrambling to find evidence for it. *Darwin on Trial* is a cogent and stunning tour de force that not only rattles the cages of conventional wisdom, but could provide the basis for a fundamental change in the way educated Americans regard themselves, their origins, and their fate.

Moral Empowerment is a groundbreaking recommendation that education systems and students can benefit from a new approach in learning - the development of the students capacity to pursue their own intellectual and

spiritual growth, as well as the students active engagement in the long-term transformation of their communities. This illuminating idea is carried out on the basis of two central premises that we live in an age of transition from humanity's childhood to its maturity, and that a fundamental characteristic of this age is the growing consciousness of the oneness of humankind. *Arbab* explores the philosophical framework capable of guiding educational programs seeking the moral empowerment of students. Ethical Particularism - Ulrik Kihlbom 2002

This is a PhD dissertation. Ethical particularism claims that any non-moral feature that in one situation is a reason why something is, for example, morally wrong, may in another situation be morally irrelevant or have an opposite moral valence. Ethical particularism entails, in other words, the non-existence of true or sound moral principles. Actions, persons, and situations acquire their moral features contextually in a way that escapes codification in principled terms. Particularism comes in this way in conflict with a classical approach to moral philosophy
