Grey Scale Color Chart - Peggy Gabrielson 2018-04

A Gray Scale Color Chart to track your favorite colored pencils! It is so easy to use! There are two sides of rectangle block columns on a page for your favorite coloring pencils, with lines beside them to add your pencil numbers and color names to identify and organize. One column has plain white rectangles for shading your pencils in. Next to it are blocks with dark, mid and light tone gray scale. For best comprehension add same color pencil number to both white and gray tone blocks before going on to a new color. I use the gray scale models to help me choose which pencils works best for defined shading, a darker area in a picture. Why? It helps me get the definition I normally can't achieve unless I color blend several layers together. As an artist I have conditioned my mind to see gray neutral tones in my layers to get the shadows and shapes needed in my composition. Deciding whether to purchase a gray scale coloring book, can be difficult for some people. We are so used to a white canvas to work on. To tell you the truth, I prefer coloring in a gray scale tone myself. I have created this color chart to get you started in this direction. Easy peasy! All you need to do is add the pencil in a block. I added the heavier color on top, then mid to light in order below in each rectangle shape. I recommend my coloring books to get you started on your exploration and developing your artistry skill of coloring to another level! They will guide you with color suggestions for each coloring image, with a color chart for you to use on each page.

IMPORTANT: watercolor and marker pages have black-backed pages to minimize bleed-through. The paper in this book (depending on where it was printed) is fairly tough, but obviously thinner than watercolor paper. Colors can look splotchy until completely dry. We recommend using a sheet of card stock or plastic to help protect the pages underneath from colors bleeding through as well as potential rub-through of pencil pigments while swatching. You can make PERSONAL COPIES of the charts you plan to use onto your favorite paper or card stock if the paper in this book feels too thin for your needs, or, if you just want to put those pages of the charts you are using into a ring binder for safe keeping. You can also deconstruct this book for ease of use, so feel free to take it apart, keep the pages you are using in one binder, and store the rest in case you need them later. Many office supply stores (and FedEx service centers) will remove the spine and even spiral-bind or punch holes in the book for you for a small fee. If you choose to do it yourself, I have a step-by-step tutorial using another book (Creative Companion Book Binding DIY) on my blog at rubycharmcolors.com. Or keep it as is--the choice is yours! It is meant to be a book that grows along with you and your artistic needs! Happy color swatching!

The Zones of Regulation - Leah M. Kuypers 2011

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

Going Gray - Anne Creamer 2007-09-10

Anne Creamer considered herself a youthful 49 until a photo of herself with her teenage daughter stopped her in her tracks. In one unguarded moment she saw herself for what she really was -- a middle-aged woman with her hair dyed much too harshly. In that one moment Creamer realized that she wasn't fooling anyone about her age and decided it was time to get real and embrace a more authentic life. She set out for herself a program to let her hair become its true color, and along the way discovered her true self. *Going Gray* is Creamer's exploration of that experience, and a frank, warm and funny investigation of aging as a female obsession. Through interviews, field experiments, and her own everywoman's chronicle, Creamer probes the issues behind two of the biggest fears aging women face: Can I be sexually attractive as a gray-haired, middle-aged woman? Will I be discriminated against in the work world? Her answers will surprise you. In searching for the balance between attractiveness and authenticity, Creamer's journey of middle-aging illuminates in a friendly, useful, and entertaining way the politics and personal costs of this generation's definition of "aging gracefully".
