The Developing Canadian Community - S.D. Clark 1962-12-15

Professor Clark's thesis is that the development of Canadian society can only be understood by examining how changes taking place in the underlying structure of the Canadian community. The first part of the book examines the development of forms of social organization in Canada over the years 1600 to 1920. In the second and third sections the focus shifts to the general forces in Canadian society shaping the character of institutions and forms of social life. The book concludes with four essays devoted to an examination of the relationship of sociology to history. This volume demonstrates the mutually enriching value of a sociological-historical approach, and is very useful for those interested in communities, social change and organization, and the structure of Canadian society.

Mining and Communities in Northern Canada - Arn Keeling 2015

This collection examines historical and contemporary social, economic, and environmental impacts of mining on Aboriginal communities in northern Canada. Combining oral history research with intensive archival study, this work juxtaposes the perspectives of government and industry with the perspectives of local communities.

Restorying Indigenous Leadership - Cora Jane Voyageur 2015

Restorying Indigenous Leadership: Wise Practices in Community Development, 2nd edition is a foundational resource of the most recent scholarship on Indigenous leadership. The authors in this anthology share their research through nonfictional narratives, innovative approaches to Indigenous community leadership, and inspiring accounts of success, presenting many models for Indigenous leader development. These engaging stories are followed by a Wise Practices section featuring seven significant contemporary case study summaries. Restorying promotes hope for the future, individual agency, and knowledge of successful community economic development based upon community assets. It is a diverse collection of iterative and future-oriented ways to achieve community growth that acknowledges the centrality of Indigenous culture and identity.

Social Thoughts and Their Implications - Kazi Abdur Rouf 2018-12-18

The book contains social economy and green economy development different concepts, theories, ideas; community development different thoughts, citizenry skills development concepts, poverty eradication and good governance approaches, local living economics propositions and their implications in Bangladesh and in Canada with examples. It narrates different concepts, theories, and approaches to green management development practices for sustainable business development. The book has its roots analysing social development different thoughts and services to identify gaps and to solve environmental degradation problems, employment generation, poverty reduction, and to identify sustainable 'bottom-up' social development approaches. The discussions of the book explore the process of empowerment of gender development, good governance, and raising community solidarity capital development among disadvantaged people in Bangladesh and Canada. Civil society agencies have been working for people's citizenship development, local resource development, ecological development, women

empowerment, and community organizing, thrive to civic education and develop networking among villagers since Bangladesh independence 1972. By reading this book, readers can find latest information on social, economic and green development different schemes and services initiated by NGOs and their implementing strategies and outcomes in Bangladesh and in Canada that are narrated in the book. The book writes in a debate form in order to analyse social development different thoughts with examples to explore appropriate initiatives need to be taken for improving disadvantage people livelihoods in Bangladesh and Canada.

Community Foundations in the United States and Canada, 1914-1961. Second edition. A guide to their organization, development and operation. Prepared by Wilmer Shields Rich - National Council on Community Foundations (NEW YORK) 1961

Impact Evaluation in Practice, Second Edition - Paul J. Gertler 2016-09-12

The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence around what works in development.

Community Development Around the World - Hubert Campfens 1997-01-01

More than forty authors in six countries representing the major regions of the world offer a truly global perspective on the changing nature of the practice and theory of community development.

Community Development and Public Administration Theory - Ashley E. Nickels 2018-04-17

The concept of community development is often misunderstood, holding different meanings across different academic disciplines. Moreover, the concept of community development has been historically abstracted, not only in the way the concept has been conceptualized in academic studies, but also by the way in which practitioners use the term in the vernacular. Departing from traditional definitions of community development, this volume applies the New Public Service (NPS) perspective of Public Administration to community development to

illustrate how public administrators and public managers can engage in community development planning and implementation that results in more equitable and sustainable long-term outcomes. This book will be of interest to practitioners and researchers in public administration/management, public administration theory, community development, economic development, urban sociology, urban politics, and urban planning.

Creating Cohousing - Kathryn McCamant 2011-05-17

The cohousing "bible" by the US originators of the concept.

Community Economic Development in Canada - David James Anthony Douglas 1994

Community Development in Canada - Jason Brown 2011-02-15

Community Development in Canada, Second Edition teaches you how to be successful in working with communities such as seniors clubs, youth centres, First Nations drop-in centres, or employment centres for homeless people. This text features selected case studies from each province and territory to illustrate principles of community practice, and discusses development in Aboriginal and international communities and the future of community development and social welfare in Canada. The Second Edition has been fully updated with current research, statistics, and case studies. It also contains new content on the social determinants of health, the relationship between physical and mental health, and community economic development.

Communities in Action - National Academies of Sciences, Engineering, and Medicine 2017-04-27

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

Communities, Development, and Sustainability across Canada - John T. Pierce 2011-11-01

What is a sustainable community? The pressing need to answer this simple question is what prompted John Pierce and Ann Dale to gather the essays in this volume. *Communities, Development, and Sustainability across Canada* is a timely synthesis of work on how Canadian communities can achieve sustainable development. It bridges the gap between theory and praxis and brings together academics, policy makers, and community activists, all of whom have argued for increased local participation in sustainable community development. Communities have become the weak link in efforts to refashion relations between the environment and the economy. The goal of this book is not simply to describe problems but also to suggest answers, not simply to offer theory but also to promote action, so that Canadian communities can better achieve sustainable development.

Legal Issues on Indigenous Economic Development - Darwin Hanna 2017-02

Northern Communities Working Together - Chris Southcott 2015-05-07

The unique historical, economic, and social features of the Canadian North pose special challenges for the social economy – a sector that includes nonprofits, co-operatives, social enterprises, and community economic development organizations. *Northern Communities*

Working Together highlights the innovative ways in which Northerners are using the social economy to meet their economic, social, and cultural challenges while increasing local control and capabilities. The contributors focus on the special challenges of the North and their impact on the scope of the social economy, including analyses of land claim organizations, hunter support programs, and Indigenous conceptions of the social economy. A welcome resource for scholars and policy-makers studying any aspect of the Canadian North, *Northern Communities Working Together* is a major contribution to the literature on the social economy in Canada.

Extractive Industries - Tony Addison 2018

"A study prepared by the United Nations University World Institute for Development Economics Research (UNU-WIDER)".

Geographical Perspectives on Sustainable Rural Change - 2010

"This book focuses on three multi-faceted aspects of rural sustainability: farms and farming, the remaking of rural communities and rural spaces, and policy and action in rural development. The research is focused on three global regions: North America, the United Kingdom and Ireland, and Australia."--back cover.

Changing Communities, Second Edition - Patricia Spindel 2021-08-24

Experienced community organizer and professor Patricia Spindel provides a practical guide for producing change through community action and social activism in the updated second edition of *Changing Communities*. Spindel explores who has power in society and how communities can mobilize to create positive change by building capacity, developing community structures, and taking direct action to shift power relations. Outlining a practical approach to asset mapping, creating community economic development strategies, and critiquing some current approaches to community development, the chapters cover topics including the impact of corruption and the influence of powerful interests, community strengths and needs assessment, community-based research, various community development strategies, and the principles and some of the tactics used in community organization. Equipped with case studies and practical examples, this fundamental guide is an essential resource for students in community development, social service work, gerontology, and other human services and helping professions. **FEATURES** - Includes a community strengths-based assessment framework developed by the author, referred to as the Strengths, Assets, Challenges, and Opportunities Assessment (SACO) - Offers case studies and practical examples from Canada and the United States - Provides students with practical knowledge on how to build powerful coalitions, raise funds for grassroots projects, and deal with the press and social media, including how to write a press release

Community Conversations - Paul Born 2012

Full of informative and inspiring examples of collaboration, *Community Conversations* captures the essence of creating such conversations and offers ten practical techniques to host conversations in your community."--Pub. desc.

Community Foundations in the United States and Canada, 1914-1961. Second Edition. A Guide to Their Organization, Development and Operation. Prepared by W.S. Rich - Wilmer Shields RICH 1961

Towards a Political Economy of Resource-dependent Regions - Greg Halseth 2017-08-18

This book advances our understanding of resource-dependent regions in developed economies in the 21st Century. It explores how rural and small town places are working to find success in a new economy marked by demographic, economic, social, cultural, political, and environmental change. How are we to understand the changes and transformations working through communities and economies? Where are the trajectories of change leading these resource-dependent places and regions? Drawing upon examples from Canada, USA, UK, Australia, New Zealand, and the Nordic countries, these and other questions are explored and addressed by constructing a critical political economy framework of resource hinterland transition. *Towards a Political Economy of Resource Dependent Regions* is a key resource for students and researchers

in geography, rural and industrial sociology, economics, environmental studies, political science, regional studies, and planning, as well as policy-makers, those in industry and the private sector, and local and regional development practitioners.

The Short Guide to Community Development - Alison Gilchrist 2016-03-30

With the topics of community and how local communities can be supported to take control of their lives, services, and environment still high on the public agenda, this second edition of an invaluable guide provides a timely introduction to community development, its origins, and the different forms it takes. Updated to reflect developments in policy and practices, current trends and challenges, as well as recent debates about the changing nature of community itself, it also shows how community development can be applied in a variety of policy areas. Accessibly written, this guide will remain essential reading for community organizers and students of community development.

13 Ways to Kill Your Community 2nd Edition - Doug Griffiths 2016-10-24

13 Ways to Kill Your Community is lively, full of personality, conversational, breezy, succinct, and fun. One can imagine readers seeking out information on boosting their local community sighing dutifully as they seek out material and then being relieved and delighted when what they find turns out to be as entertaining as it is informative. The information provided is sometimes startling and often positively revelatory. The anecdotes and examples are delivered with wit and a little bit of a dishy factor. But underneath all the fun is a clear breadth of experience, and a no-nonsense, practical approach to community building, which can be easily grasped. 13 Ways to Kill Your Community offers practical, implementable steps that can be taken to bring a moribund community back to life. This book delivers what it promises, and it does so with wit and warmth....

Making Housing Happen, 2nd Edition - Jill Suzanne Shook 2012-09-19

The growing housing crisis cries out for solutions that work. As many as 3.5 million Americans experience homelessness each year, half of them women and children. One in four renters spends more than half of their income on rent and utilities (more than 30 percent is considered unaffordable). With record foreclosures and 28 percent of homes underwater, middle and low-income homeowners are suffering. Many congregations want to address this daunting problem yet feel powerless and uncertain about what to do. The good news is that churches are effectively addressing the housing crisis from Washington State to New York City--where an alliance of sixty churches has built five thousand homes for low-income homeowners, with virtually no government funding or foreclosures. This book not only presents solid theological thinking about housing, but also offers workable solutions to the current crisis: true stories by those who have made housing happen. Each story features a different Christian denomination, geographic area, and model: adaptive reuse, cohousing, cooperative housing, mixed-income, mixed-use, inclusionary zoning, second units, community land trusts, sweat equity, and more. Making Housing Happen is about vision and faith, relationships, and persistence. Its remarkable stories will inspire and challenge you to action. This new edition includes significant new material, especially in light of the ongoing mortgage crisis.

Participatory Practice - Ledwith, Margaret 2010

Ledwith and Springett's innovative approach bridges the divide between ideas and practice and allows the development of the knowledge that is needed to bring about transformative social change. Their ideas are founded on two premises: firstly, that transformative practice begins in the everyday stories that people tell about their lives and that practical theory generated from these narratives is the best way to inform both policy and practice. Secondly, that participatory practice is a tool for examining this knowledge that allows practitioners to examine the way they view the world and to situate their local practice within bigger social issues. The book will be of interest to both academics and community-based practitioners.

[International Solutions to Sustainable Energy, Policies and Applications](#) - Stephen A. Roosa 2020-11-26

Offering an in-depth examination into sustainable energy sources, applications, technologies and policies, this book provides real-world examples of ways to achieve important sustainability goals. Themes include program assessment, energy efficiency, renewables, clean energy and approaches to carbon reduction. Included are a compiled set of chapters discussing the various international strategies and policies being planned and implemented to reduce energy use, impact carbon emissions and shift towards alternative energy sources. Taking an international perspective, contributors from the U.S., Canada, Trinidad and Tobago, Peru, Hungary, Spain, Iran, Ukraine, Jordan, the UAE, Nigeria, South Africa, India, China and Korea, offer their views of energy issues and provide detailed solutions. These can be broadly applied by engineers, scientists, energy managers, policy experts and decision makers to today's critical energy problems.

The Art of Community - Jono Bacon 2009-08-17

Online communities offer a wide range of opportunities today, whether you're supporting a cause, marketing a product or service, or developing open source software. The Art of Community will help you develop the broad range of talents you need to recruit members to your community, motivate and manage them, and help them become active participants. Author Jono Bacon offers a collection of experiences and observations from his decade-long involvement in building and managing communities, including his current position as manager for Ubuntu, arguably the largest community in open source software. You'll discover how a vibrant community can provide you with a reliable support network, a valuable source of new ideas, and a powerful marketing force. The Art of Community will help you: Develop a strategy, with specific objectives and goals, for building your community Build simple, non-bureaucratic processes to help your community perform tasks, work together, and share successes Provide tools and infrastructure that let contributors work quickly Create buzz around your community to get more people involved Track the community's work so it can be optimized and simplified Explore a capable, representative governance strategy for your community Identify and manage conflict, including dealing with divisive personalities

Community Building on the Web - Amy Jo Kim 2006-07-19

What's the point of creating a great Web site if no one goes there-or worse, if people come but never return? How do some sites, such as America Online, EBay, and GeoCities, develop into Internet communities with loyal followings and regular repeat traffic? How can Web page designers and developers create sites that are vibrant and rewarding? Amy Jo Kim, author of Community Building on the Web and consultant to some of the most successful Internet communities, is an expert at teaching how to design sites that succeed by making new visitors feel welcome, rewarding member participation, and building a sense of their own history. She discusses important design strategies, interviews influential Web community-builders, and provides the reader with templates and questionnaires to use in building their own communities.

On Common Ground - John Emmeus Davis 2020-11-08

Land that is owned and managed for the common good is a hallmark of community land trusts. CLTs are locally controlled, nonprofit organizations that steward permanently affordable housing (and other assets) for people of modest means. This book explores the global growth of CLTs in twenty-six original essays by authors from a dozen countries.

Community - Peter Block 2009-09-01

Most of our communities are fragmented and at odds within themselves. Businesses, social services, education, and health care each live within their own worlds. The same is true of individual citizens, who long for connection but end up marginalized, their gifts overlooked, their potential contributions lost. What keeps this from changing is that we are trapped in an old and tired conversation about who we are. If this narrative does not shift, we will never truly create a common future and work toward it together. What Peter Block provides in this inspiring new book is an exploration of the exact way community can emerge from fragmentation. How is community built? How does the transformation occur? What fundamental shifts are involved?

What can individuals and formal leaders do to create a place they want to inhabit? We know what healthy communities look like—there are many success stories out there. The challenge is how to create one in our own place. Block helps us see how we can change the existing context of community from one of deficiencies, interests, and entitlement to one of possibility, generosity, and gifts. Questions are more important than answers in this effort, which means leadership is not a matter of style or vision but is about getting the right people together in the right way: convening is a more critical skill than commanding. As he explores the nature of community and the dynamics of transformation, Block outlines six kinds of conversation that will create communal accountability and commitment and describes how we can design physical spaces and structures that will themselves foster a sense of belonging. In *Community*, Peter Block explores a way of thinking about our places that creates an opening for authentic communities to exist and details what each of us can do to make that happen.

An Introduction to Community Development - Rhonda Phillips 2014-11-26

Beginning with the foundations of community development, *An Introduction to Community Development* offers a comprehensive and practical approach to planning for communities. Road-tested in the authors' own teaching, and through the training they provide for practicing planners, it enables students to begin making connections between academic study and practical know-how from both private and public sector contexts. *An Introduction to Community Development* shows how planners can utilize local economic interests and integrate finance and marketing considerations into their strategy. Most importantly, the book is strongly focused on outcomes, encouraging students to ask: what is best practice when it comes to planning for communities, and how do we accurately measure the results of planning practice? This newly revised and updated edition includes: increased coverage of sustainability issues, discussion of localism and its relation to community development, quality of life, community well-being and public health considerations, and content on local food systems. Each chapter provides a range of reading materials for the student, supplemented with text boxes, a chapter outline, keywords, and reference lists, and new skills based exercises at the end of each chapter to help students turn their learning into action, making this the most user-friendly text for community development now available.

Resources in Education - 1996

The Theory, Practice and Potential of Regional Development - Kelly Vodden 2019-07-04

Canadian regional development today involves multiple actors operating within nested scales from local to national and even international levels. Recent approaches to making sense of this complexity have drawn on concepts such as multi-level governance, relational assets, integration, innovation, and learning regions. These new regionalist concepts have become increasingly global in their formation and application, yet there has been little critical analysis of Canadian regional development policies and programs or the theories and concepts upon which many contemporary regional development strategies are implicitly based. This volume offers the results of five years of cutting-edge empirical and theoretical analysis of changes in Canadian regional development and the potential of new approaches for improving the well-being of Canadian communities and regions, with an emphasis on rural regions. It situates the Canadian approach within comparative experiences and debates, offering the opportunity for broader lessons to be learnt. This book will be of interest to policy-makers and practitioners across Canada, and in other jurisdictions where lessons from the Canadian experience may be applicable. At the same time, the volume contributes to and updates regional development theories and concepts that are taught in our universities and colleges, and upon which future research and analysis will build.

Building Communities from the Inside Out - John P. Kretzmann 2001

Canadian Books in Print 2002 - Edited by Butler Marian 2002-02

CBIP is the complete reference and buying guide to English-language Canadian books currently in print; consequently, the Author and Title Index, Subject Index and microfiche editions are indispensable to the book profession. With submissions from both small and large publishers, CBIP provides access to titles not listed anywhere else. Containing more than 48,000 titles, of which approximately 4,000 have a 2001 imprint, the Author and Title Index is extensively cross-referenced. The Subject Index lists the titles under 800 different subject categories. Both books offer the most complete directory of Canadian publishers available, listing the names and ISBN prefixes, as well as the street, e-mail and web addresses of more than 4,850 houses. The quarterly microfiche service provides updated information in April, July and October. CBIP is constantly referred to by order librarians, booksellers, researchers, and all those involved in book acquisition. In addition, CBIP is an invaluable record of the vast wealth of publishing and writing activity in the scientific, literary, academic and arts communities across Canada. A quarterly subscription service including the annual Author and Title Index (March 2001) plus quarterly microfiche updates (April, July, and October 2001) is also available. ISBN 0802049567 \$220.00 NET.

Community Development - Danesh A. Chekki 1986

Who's Who of Canadian Women, 1999-2000 - Gillian Holmes 1999-06-01

Who's Who of Canadian Women is a guide to the most powerful and innovative women in Canada. Celebrating the talents and achievement of over 3,700 women, *Who's Who of Canadian Women* includes women from all over Canada, in all fields, including agriculture, academia, law, business, politics, journalism, religion, sports and entertainment. Each biography includes such information as personal data, education, career history, current employment, affiliations, interests and honours. A special comment section reveals personal thoughts, goals, and achievements of the profiled individual. Entries are indexed by employment or affiliation for easy reference. Published every two years, *Who's Who of Canadian Women* selects its biographees on merit alone. This collection is an essential resource for all those interested in the achievements of Canadian women.

Research in Education - 1971

The Challenge of Children's Rights for Canada, 2nd edition - Katherine Covell 2018-08-30

More than a quarter of a century has passed since Canada promised to recognize and respect the rights of children under the United Nations Convention on the Rights of the Child. Ratification of the Convention cannot, however, guarantee that everyone will abandon proprietary notions about children, or that all children will be free to enjoy the substance of their rights in every social and institutional context in which they find themselves, including—and perhaps especially—within families. This disconnect remains one of the most important challenges to the recognition of children's rights in Canada. The authors argue that social toxins are as harmful to children's independent welfare and developmental interests as environmental toxins, and that both must be eradicated if Canada is to fulfill its commitments under the Convention. They also argue that if Canada wishes to ensure the substance of the rights outlined in the Convention are socially guaranteed, an attitudinal or cultural shift is required concerning the moral and legal status of children. This revised, expanded, and updated edition of the bestselling *Challenge of Children's Rights for Canada* will be of interest to academics, policymakers, parents, teachers, social workers, and human service professionals—indeed to anyone who cares about and for children.

Community development (second edition) - Ledwith, Margaret 2011-04-27

Community development finds itself in times of unprecedented political, social and economic change, locally and globally, at the same time as divisions between poverty and privilege widen. Building practical approaches to theory and theoretical approaches to practice, this updated and expanded second edition of a bestselling text develops critiques of the changing context and

identifies challenges faced by community development both at community level and as a collective force for a more just, equal and sustainable future. Featuring a range of different

models of community development and illustrative stories from practitioners in the field, the new edition will be essential reading for practitioners, students and educators involved in community development, youth and community work, social work, health and education.
