

# Compliant Logistics For The Oil Gas Industry

If you ally infatuation such a referred **Compliant Logistics For The Oil Gas Industry** book that will present you worth, acquire the totally best seller from us currently from several preferred authors. If you want to entertaining books, lots of novels, tale, jokes, and more fictions collections are then launched, from best seller to one of the most current released.

You may not be perplexed to enjoy every book collections **Compliant Logistics For The Oil Gas Industry** that we will completely offer. It is not on the order of the costs. Its just about what you habit currently. This **Compliant Logistics For The Oil Gas Industry** , as one of the most functional sellers here will totally be in the course of the best options to review.

## **Spatial Analysis of Liberia's Transport Connectivity and Potential Growth -**

Atsushi Iimi 2018-10-18

Liberia has been influenced by the Ebola crisis since 2014, but the economy is now recovering quickly. Still, significant challenges lie ahead. Agriculture, an important sector that employs approximately half of the labor force, still has a weak growth trajectory. Many rural people are not well connected to markets and live below the poverty line. To use limited resources effectively, strategic planning and prioritization of public investment are essential. Particularly, the Ebola crisis revealed the vulnerability of the country's transport connectivity and health systems. This book analyzes the country's transport connectivity, identifying the existing bottlenecks and possible economic potentials. By taking advantage of the country's first-ever georeferenced road network data, the analysis casts light on various aspects of connectivity, such as rural accessibility, market access, access to port and health facilities and multimodal connectivity, including cabotage. It is shown that transport connectivity is crucial to increasing agricultural production, stimulating agglomeration economies, and supporting people's access to health care services. Significant resources are likely to be required to meet the existing gap. The book estimates the financial needs by development objective and discusses important policy issues, including the possibility of public-private partnerships to finance transport infrastructure.

## **Improving Supply Chains in the Oil and Gas Industry -**

Sanchay Roy 2022-05-27

This book analyses and proposes solutions to one of the core challenges faced in the Maintenance, Repair and Operations (MRO) supply chains in the oil and gas industry, a field that is currently impacted by low oil prices, emerging technologies and a societal transition to cleaner energies. It describes the end-to-end nature of the oil and gas supply chain, and challenges paradigms and accepted ways of working within the industry – such as wastes driven by broken interfaces, naivete regarding supply chains, and the practice that considers re-organisation to be the answer to these challenges – and identifies opportunities to shift this paradigm towards reliability and value. Moreover, the book shares the authors' front-line experience and encourages readers to consider deploying the solutions presented in their own contexts. The insights from the book's 12 modules are based on personal experiences and are industry-generic, allowing them to be transferred to other MRO supply chains. Readers are encouraged to use this book as a reference for their own supply chain transformations. The book is primarily intended for practitioners, including chief operating officers, chief financial officers, chief supply chain officers, engineers and heads of

procurement, purchasing, operations, and materials management.

## **Handbook of Research on the Applications of International Transportation and Logistics for World Trade -**

Ceyhun, Gökçe Çiçek 2019-12-06

In today's developing world, international trade is a field that is rapidly growing. Within this economic market, traders need to implement new approaches in order to satisfy consumers' rising demands. Due to the high level of competition, merchants have focused on developing new transportation and logistics strategies. In order to execute effective transportation tactics, decision makers need to know the fundamentals, current developments, and future trends of intercontinental transportation. The Handbook of Research on the Applications of International Transportation and Logistics for World Trade provides emerging research exploring the effective and productive solutions to global transportation and logistics by applying fundamental and in-depth knowledge together with current applications and future aspects. Featuring coverage on a broad range of topics such as international regulations, inventory management, and distribution networks, this book is ideally designed for logistics authorities, trading companies, logistics operators, transportation specialists, government officials, managers, policymakers, researchers, academicians, and students.

## **Petroleum Waste Treatment and Pollution Control -**

Shahryar Jafarinejad 2016-10-18

Petroleum Waste Treatment and Pollution Control combines state-of-the-art and traditional treatment and control methods for removing, controlling, and treating problems, such as groundwater contamination, aromatics, oil, grease, organic removal, and VOCs. The book is divided into seven chapters, with the first briefly introducing readers to the petroleum industry. The second and third chapters explain wastes in the petroleum industry and focus on its environmental impact, its regulations, and protection options. Chapters four, five, and six discuss the treatment of air emissions, oily wastewater, solid wastes, and disposal methods. The final chapter provides remediation processes. Presents the latest methods for treating, controlling, and eliminating pollutants from air, water, and land that are a byproduct of petroleum industry operations. Covers the environmental impact of the petroleum industry and its regulations, explaining protection options. Includes treatment methods for both air, water, and solid waste disposal. Discusses remediation processes, including natural processes, pump and treat, soil flushing, soil vapor extraction (SVE), bioremediation, and excavation.

**Integration in Energy and Transport** - Alexandros Petersen 2016-06-16

The South Caucasus region has established itself as a corridor for transporting energy from Azerbaijan to Georgia, Turkey, and on to Europe. This book examines the capacity of this new east-west "Eurasian bridge" to change the relations among these countries and analyzes the role of transnational extra-regional actors. Federal Energy Regulatory Commission Reports - United States. Federal Energy Regulatory Commission 1993

**The Oil & Gas Year Gabon 2019** - The Energy Year 2019-05-18

"We have been working to transform our organisation and operations to position ourselves for the current national and global challenges in the hydrocarbons sector." Patrichi Christian Tanasa, CEO, Gabon Oil Over the past five years, Gabon has been severely impacted by the drop in oil prices and declines in hydrocarbons production. However, the adoption of a new hydrocarbons code is poised to make all the difference in attracting new investment to the country for its 12th bidding round. While challenges remain, the outlook is positive for the country with newcomers entering the market. "We in the industry have always believed that Rabi cannot be alone. There must be something else, but you need money and technology to find it." Charles Tchen, General Manager of Independent Petroleum Consultants The Oil & Gas Year Gabon 2019 is focused on Gabon Oil's upstream and downstream development plan, designed to support the growth of the national hydrocarbons industry and to ensure the NOC becomes a major African player. This seventh edition of The Oil & Gas Year Gabon provides foresight to investors and companies looking at strategic growth opportunities in the country, at a time when new policies and public policy changes are reshaping an important African energy industry.

**EPA Office of Compliance Sector Notebook Project** - 1997

**The Oil & Gas Year Ghana 2020** - The Energy Year 2020-08-21

"Given the number and calibre of the companies that expressed interest in our maiden oil and gas licensing round, it suffices to say that Ghana's oil and gas industry is attractive and promising." Hon. John Peter Amewu, Minister of Energy The Oil & Gas Year Ghana 2020 delves into the country's developments a decade after first oil. This year's edition covers a range of topics, including the country's first-ever licensing round, measures aimed at boosting investor confidence, the government's plans to turn Ghana into a regional logistics and petroleum hub, the increasing role gas is playing in the country's energy mix and the achievements of the local content law since its enactment in 2013. "The exciting aspect about this achievement [the Afina-1x well discovery] is that it's not just for Springfield, but is for the entire continent - to say that Africans can do things and we do them very well once we put our minds to it. We think that this will unleash the potential of Africa." Kevin Okyere, Founder and CEO of Springfield Group, TOGY Ghana 2020 Indigenous Company of the Year Ghana is putting the pieces in place to increase its energy profile on the African continent, such as expanding E&P activities to reach 500,000 bopd by 2024, initiating policies to increase transparency in the awarding of blocks and ultimately creating a regional hub for the hydrocarbons industry. Produced in partnership with the Ministry of Energy, this fourth edition of The Oil & Gas Year Ghana provides insight to investors and companies looking at strategic opportunities in the country at a time when Ghana's oil and gas industry is aiming to double production.

One CD-ROM disc in pocket.

Corporate Success Stories In The UAE - Prakash Vel 2021-03-11

Corporate success differs by company, sector and industry. Thirteen case studies document the corporate growth of companies from different industries in the UAE, a progressive and innovative nation in the Middle East. Examining key indicators of success of each company, capturing the strategic drivers behind them and assessing the best practices.

*Logistic Core Operations with SAP* - Jens Kappauf 2012-02-29

"Logistic Core Operations with SAP" not only provides an overview of core logistics processes and functionality—it also shows how SAP's Business Suite covers logistic core operations, what features are supported, and which systems can be used to implement end-to-end processes in the following logistic core disciplines: Procurement, Distribution, Transportation, Warehouse Logistics and Inventory Management, and Compliance and Reporting. In this context the authors not only explain their integration, the organizational set-up, and master data, but also which solution fits best for a particular business need. This book serves as a solid foundation for understanding SAP software. No matter whether you are a student or a manager involved in an SAP implementation, the authors go far beyond traditional function and feature descriptions, helping you ask the right questions, providing answers, and making recommendations. The book assists you in understanding SAP terminology, concepts and technological components as well as their closed-loop integration. Written in a clear, straight-forward style and using practical examples, it contains valuable tips, illustrative screenshots and flowcharts, as well as best practices—showing how business requirements are mapped into software functionality.

**The Oil & Gas Year Qatar 2019** - The Energy Year 2019-12-11

The Oil & Gas Year and the Qatar Chamber of Commerce and Industry partnered to produce the TOGY Qatar 2019 edition, highlighting Qatar's attractive business environment, the country's resilience and QP's ambitious local and international expansion plans, and covering major projects and services in the industry. This edition includes insights from Qatar's most influential players and provides in-depth articles that offer market intelligence on the country's entire value chain, from exploration and production to midstream, downstream and oilfield services, as well as the engineering and construction, marine and logistics, and others sectors. The edition also provides detailed and exclusive coverage of dynamic developments such as the North Field Expansion project as well as the Hamad Port. This edition of The Oil & Gas Year's Qatar series aims to raise the global profile of Qatar's hydrocarbons and related industries, showcase its industries accomplishments, and promote its future development plans.

**The Oil & Gas Year Ghana 2019** - The Energy Year 2019-11-12

TOGY is proud to present the The Oil & Gas Year Ghana 2019, published in collaboration with Ghana Oil Club. This third edition covers the lessons learned from the global oil price downturn and the opportunities that are becoming available as commodity prices recover. The book also provides readers with a complete perspective of the country's main energy projects and steps the government is taking to draw in more foreign investment. Due to a prospective upswing in oil and gas activity, Ghana's offshore industry continues to expand, with capacities being renovated at the main ports of Tema and Takoradi. Meanwhile, companies continue bringing in new technologies to advance Ghana's E&P and renewables potential as the country modernises. Moreover, Ghana's downstream

sector is hugely competitive. As Ghana works to promote investment in its oil and gas industry, surrounding sectors are being hit with massive changes. Ensuring the competence of next generations, major firms and universities have launched courses or research chairs in petroleum studies. Extensive in-depth analysis is supported by comprehensive maps, illustrations and graphs to create a market guide essential for players seeking to either expand their operations or enter the Ghanaian oil and gas market.

#### The Energy Year - Uganda 2022 - The Energy Year

"Now is the time. Uganda is the right destination for investment" H.E. Yoweri Kaguta Museveni, President of the Republic of Uganda The Energy Year Uganda 2022 is a special edition celebrating Uganda's 60th anniversary of independence and covering the unlocking of the country's hydrocarbons and power sectors. This edition has been produced in partnership with Uganda's State House, the Ministry of Energy and Mineral Development, and the Petroleum Authority of Uganda. Following Uganda's FID announcement in February 2022, The Energy Year Uganda 2022 analyses the latest developments and future prospects of the country's nascent oil and gas sector, as well as its linkages with the power sector and wider economy, and portrays the projects championed by the key players of the Ugandan energy value chain. "Uganda is well on the road for its oil and gas resources to generate value for the country. The key drivers for the country's value from these resources are through the participation of its people and its enterprises in the provision of goods and services, enhancing the linkages between oil and gas and other sectors of the economy, and the revenues to be generated when production of oil starts." Ernest Rubondo, Executive Director, Petroleum Authority of Uganda The Energy Year Uganda 2022 also includes a map featuring Uganda's planned oil and gas infrastructure and licences, as well as the East African Crude Oil Pipeline (EACOP) infrastructure. This second edition of The Energy Year's Uganda series is the most updated in-depth analysis and comprehensive guide on the evolving Ugandan energy market – it underlines the key projects that will shape the Ugandan oil and gas value chain of the future, and identifies the country's potential and untapped opportunities.

#### **The Oil & Gas Year Guyana 2019** - The Energy Year 2019-07-08

TOGY is pleased to present The Oil & Gas Year Guyana 2019, our first edition on the country. This booklet covers Guyana's fast-moving developments, including recent hydrocarbons discoveries, increasing interest from international investors and preparations the government is making to ensure proper oversight and sustainable development of the local oil and gas industry, as well as opportunities for local and regional businesses. With 10 oil and gas discoveries in the Stabroek block and new exploration and development plans being set by a number of players, Guyana is a rising star in the global oil and gas arena. As of December 2018, 5 billion boe of recoverable resources have already been identified and there is excitement about the country's further hydrocarbons potential. Government institutions and local companies have much work to do before first production is reached in 2020 and Guyana's economy is forever transformed. So far, several significant milestones have been achieved, including the establishment of the Department of Energy in August 2018 to oversee and facilitate the industry's development. Additionally, the World Bank and IMF have both contributed to the review and drafting of key oil and gas legislation. In-depth analysis is supported by comprehensive maps, illustrations and graphs to create a market guide essential for players seeking to enter the Guyanese market.

#### **Supply Chain Management and Logistics in Latin America** - Hugo T. Y. Yoshizaki

2018-11-12

Latin America is a fast-growing market, but its poor infrastructure, explosive urbanization, expensive and inefficient logistics, and multiple social problems continue to pose major problems to logistics professionals and academics. Here leading scholars across Brazil, Colombia, Cuba, Ecuador, Peru, Panama, and the USA address these issues.

#### Tax Administration 2015 Comparative Information on OECD and Other Advanced and Emerging Economies - OECD 2015-08-11

Tax Administration 2015 is a comprehensive survey of tax administration systems, practices and performance across 56 advanced and emerging economies (including all OECD, EU, and G20 members).

#### Daily Graphic - Ransford Tetteh 2010-07-15

#### Connecting with Upstream Oil and Gas: A Sales and Marketing Resource Guide - J. Denver Smart 2019-03-14

Sales and marketing professionals in the upstream oil and gas sector want to know their customer, but in an industry so complicated, that is not always easy. J. Denver Smart, who has worked in the upstream oil and gas sector for a leading global automation solutions provider, provides a consolidated overview of upstream processing, key operations, and business drivers that are relevant to day-to-day operator challenges in this reference guide. Topics covered include: - the primary market drivers and business parameters that affect the short- and long-term economic viability of upstream operators; - market indicators used to assess current and regional industry trends; - various lifecycle stages of an oilfield and how they influence primary business objectives; and - basic elements, principles, operations, and procedures to understand the diverse concepts associated with finding, extracting, and producing oil and gas reserves.

#### **Antitrust Compliance** - 2005

An extensive resource manual for outside and in-house counsel charged with developing or updating their clients' antitrust compliance program, this volume contains detailed essays that explore specific compliance issues from the perspective of experienced practitioners. Includes a CD-ROM containing most of the compliance presentations and other resources.

#### **The Oil & Gas Year Nigeria 2020** - The Energy Year 2020-04-24

"While we focus on growing production and reserves in the coming months and years, as well as in reducing the cost of producing in Nigeria, we remain convinced that gas represents a way to the future of the energy industry in Nigeria." Muhammadu Buhari, President of the Federal Republic of Nigeria The Oil & Gas Year Nigeria 2020 is a special Nigerian Content Development and Monitoring Board (NCDMB) 10th anniversary edition, and has been produced in partnership with the NCDMB and the Department of Petroleum Resources. The Oil & Gas Year Nigeria 2020 highlights the impact of the first 10 years of local content policy in Nigeria and the outlook for future capacity-building, as well as the oil and gas industry reforms targeted by President Muhammadu Buhari's new administration and the projects championed by the key players of the Nigerian oil and gas value chain. "Today, we are no longer spectators; we have developed capacity. We are operating at the epicentre of the oil industry." Chief Timipre Marlin Sylva, Minister of State for Petroleum Resources The Oil & Gas Year Nigeria 2020 also features a pull-out map with updated ownership and operatorship data for Nigeria's onshore and offshore Oil Mining Licences and Oil Prospecting Licences, the map is available separately here. This seventh edition of TOGY's Nigeria series provides the most updated in-

depth analysis and comprehensive guidance on the Nigerian energy market. It underlines the key ongoing projects shaping the Nigerian energy value chain of the future and identifies the country's untapped opportunities.

**Local Content Policies in the Oil and Gas Sector** - Silvana Tordo and Yahya Anouti 2013

A number of countries have recently discovered and are developing oil and gas reserves. Policy makers in such countries are anxious to obtain the greatest benefits for their economies from the extraction of these exhaustible resources by designing appropriate policies to achieve desired goals. One important theme of such policies is the so-called local content created by the sector—the extent to which the output of the extractive industry sector generates further benefits to the economy beyond the direct contribution of its value-added, through its links to other sectors. This paper provides a detailed description of the policy context, objectives, implementation tools, and metrics used in a select group of petroleum-producing countries, including Angola, Brazil, Indonesia, Kazakhstan, Malaysia, and Trinidad and Tobago. The information is further analyzed in the paper on Local Content in the Oil and Gas Sector, World Bank Studies, Washington D.C., 2013.

*Maritime-Port Technology and Development* - Sören Ehlers 2014-10-07

Maritime-Port Technology and Development contains the latest research results and innovations as presented at the 2014 International Maritime and Port Technology and Development Conference (Trondheim, Norway, 27- 29 October 2014). The volume is divided into a wide range of topics: Efficient and environmentally friendly energy use in ships and port

*The Energy Year Nigeria 2021* - The Energy Year 2022-03-07

"There is a lot of competition around Africa, and the only way to make investors more interested in our offerings is by showcasing the real opportunities present in our country and our appetite in technology transfer." Chief Timipre Marlin Sylva, Minister of State for Petroleum Resources. The Energy Year Nigeria 2021 highlights Nigeria's ambitious quest to ramp up production via marginal fields, increase its refining capacity through modular plants, advance gas utilisation with virtual pipelines and revamp its entire power sector to ultimately become Africa's energy powerhouse. "Our strategy and focus for gas in 2021 is to drive the implementation of the country's "Decade of Gas" initiatives and grow the overall importance of the industry via increasing its contribution to Nigeria's GDP." Engr. Sarki Auwalu, Director and CEO, Department of Petroleum Resources The Energy Year Nigeria 2021 elucidates how Nigeria's energy industry has remained resilient while it undergoes a unique reshaping through its recently passed Petroleum Industry Bill, as well as the launch of its "Decade of Gas" initiative and the materialising of its "refining revolution" – all of which are propelling the country on its path towards energy transition and self-sufficiency. Produced in partnership with the Federal Ministry of Power, the Department of Petroleum Resources and the Nigerian Content Development and Monitoring Board, this eighth edition of The Energy Year's Nigeria series provides investors deep insight on the efforts made to push the country's energy sector beyond the Covid-19 crisis. The report gives a detailed picture of the opportunities surrounding crude oil, natural gas and power at a time when Nigeria is driven by its pursuit of greater efficiency and a viable energy transition.

Plunkett's Almanac of Middle Market Companies: Middle Market Research, Statistics & Leading Companies - Jack W. Plunkett 2007-07

Plunkett's Almanac of Middle Market Companies 2008 is designed to be time-saving

business development tool for professionals, marketers, sales directors, consultants and strategists seeking to understand and reach middle market American companies. It will also be of great use to placement, recruiting and human resources professionals, as well as professionals working in economic development, lending and media. It covers competitive intelligence, market research and business analysis--everything you need to identify and develop strategies for middle market corporations. Coverage includes all major business sectors, from InfoTech to health care to telecommunications and much more. (We have intentionally omitted retail companies and banks.) These profiles and details on over 500 middle market firms are pulled from our extensive company and industry databases. We also include a business glossary and a listing of business contacts, such as industry associations and government agencies. Next, we profile hundreds of leading middle market companies. Our company profiles include complete business descriptions and up to 27 executives by name and title. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers and executive names with titles for every company profiled.

*UK Directory of Executive Recruitment* - Executive Grapevine International Limited 2004-07

The UK Directory of Executive Recruitment is a comprehensive source of information on the UK's executive search and selection consultancies.

*Foreign Corrupt Practices Act Compliance Guidebook* - Martin T. Biegelman 2010-04-26

Foreign Corrupt Practices Act Compliance Guidebook shows readers how the Foreign Corrupt Practices Act (FCPA) has grown to critical importance to any U.S. company that does business in a global environment, as well as foreign companies that supply or have agency agreements with U.S. companies. It provides an overview of the business risks and guidance on spotting potential red flags regarding FCPA violation. Business professionals are provided with practical guidance on managing FCPA requirements as part of an overall compliance program.

**Fluid-Solid Interactions in Upstream Oil and Gas Applications** - Ibnelwaleed A. Hussein 2023-01-14

Fluid-Solid Interactions in Upstream Oil and Gas Applications, Volume 78 delivers comprehensive understanding of fluid-rock interactions in oil and gas reservoirs and their impact on drilling, production, and reservoir hydrocarbon management. The book is arranged based on intervals of the oil and gas production process and introduces the basics of reservoir fluids and their properties, along with the rheological behavior of solid-fluid systems across all stages of the reservoir, including drilling processes, acidizing, and fracking. The reference then addresses different application-specific issues, such as solid-fluid interactions in tight reservoirs, the applications of nanoparticles, interactions during the EOR processes, and environmental concerns. Introduces the basics of reservoir fluids and their properties as well as the rheological behavior of solid-fluid systems Discusses the latest advances in molecular simulations and their reliability Highlights the environmental concerns regarding the application of fluid-solid systems

Official Gazette of the United States Patent and Trademark Office - 2007

**Governmental Intervention in the Market Mechanism: the Petroleum Industry** - United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Antitrust and Monopoly 1969

Reviews economic impact of Federal regulations on the petroleum industry. Focuses on crude oil supplies, domestic competition, restrictions on less expensive foreign crude oil imports, the need to maintain higher domestic prices as development incentive and regional allocation inequities, especially in the Northeast.

*Preventing Corporate Corruption* - Stefano Manacorda 2014-04-28

This book presents the results of a two-year international research project conducted for the United Nations Office on Drugs and Crime (UNDOC) to investigate and provide solutions for reducing bribery and corruption in corporations and institutions. It starts with an empirical case study on the effectiveness of a set of self-regulation rules adopted by multinational companies in the energy sector. Second, it explores the context and factors leading to corruption internationally (and the relationships between domestic criminal law and self-regulation). Third, it examines guidelines for the adoption of compliance programs developed by international institutions, to serve as models for the future. The principle result of the book is a three-pronged Anti-Bribery Corruption Model (so called ABC Model), endorsed by the United Nations, intended as a corruption prevention tool intended to be adopted by private corporations. This work provides a common, research-based standard for anti-bribery compliance programs, with international applications. This work will be of interest to researchers studying Criminology and Criminal Justice, particularly in the areas of organized crime and corruption, as well as related areas like Business Ethics and Comparative International Law. Federal Register - 2014

The Oil & Gas Year Indonesia 2020 - The Energy Year 2020-05-23

"To attain energy security and the ability to supply natural gas to a domestic market with an increasing demand, infrastructure development is key." Fanshurullah Asa, Chairman, BPH Migas The Oil & Gas Year Indonesia 2020 highlights Indonesia's ambitious goals to ramp up exploration and production activities, advance the development of natural gas and LNG, and pioneer renewables projects – all together making the archipelago a key energy hub in Southeast Asia. "There are positive projections in Indonesia for natural gas, which will transform into the energy resource of the future." Jamsaton Nababan, President-Director, Pertamina EP Cepu The Oil & Gas Year Indonesia 2020 paints a detailed picture of Indonesia's energy scene under Jokowi's renewed administration, focusing on the varied efforts the country is undertaking to enhance its oil and gas production, upgrade its refining capacity and push for an energy transition. Produced in partnership with the Indonesian Chamber of Commerce and Industry (KADIN), this fifth edition of TOGY's Indonesia series provides insight to investors on the government's efforts to push the energy industry forwards, providing a clear picture of Indonesia's opportunities at a time when gas is the new oil and Indonesia is driven by its pursuit of the energy transition.

The Oil & Gas Year Russia 2020 - The Energy Year 2020-09-22

"We ask Europeans to more carefully assess the potential for co-operation with Russia." Yuri Shafranik, Chairman, Union of Oil & Gas Producers of Russia The Oil

& Gas Year Russia 2020 highlights the country's latest milestones in bolstering its position on the global energy market. The Russian oil and gas industry has been moving further east to boost its hydrocarbons production, launching the Power of Siberia pipeline and continuously exploring the potential of Arctic regions and the Northern Sea Route. "Tatarstan has been the country's scientific and practical training ground for developing bituminous oil production technologies." Rustam Minnikhanov, President of the Republic of Tatarstan The Oil & Gas Year Russia 2020 spotlights the Republic of Tatarstan, one of Russia's powerful oil bases. Tatarstan's dynamic local industry has maintained and even increased its oil production over recent years. Produced in partnership with the Union of Oil & Gas Producers of Russia, this edition of The Oil & Gas Year Russia series provides foresight to investors and companies looking at strategic growth opportunities in the country, at a time when major fiscal regulatory changes and public policies to support import substitution are reshaping one of the world's largest energy-producing markets. This product is also available in Russian.

**Qatar 2022** -

The Business Year has charted the course of the Qatari economy for the best part of a decade, including every development since it won the right to host the 2022 FIFA World Cup. As the first Middle Eastern country to host the tournament, Qatar has focused much effort on making sure it not only puts on a good show, but that its legacy extends well into the future. It is in this atmosphere that we carried out research for this publication, The Business Year: Qatar 2022, World Cup Special Edition.

*Container Logistics and Maritime Transport* - Dong-Ping Song 2021-05-05

This book provides a coherent and systematic view of the key concepts, principles, and techniques in maritime container transport and logistics chains including all the main segments: international maritime trade and logistics, freight logistics, container logistics, vessel logistics, port and terminal management, and sustainability issues in maritime transport. Container Logistics and Maritime Transport emphasizes analytical methods and current optimization models to tackle challenging issues in maritime transport and logistics. This book takes a holistic approach to cover all the main segments of the container shipping supply chains to achieve an efficient and effective logistics service system across the entire global transport chain. Sustainability issues such as social concern and carbon emissions from shipping and ports are also discussed. Each maritime transport segment is addressed using an approach from qualitative/descriptive analytics to quantitative/prescriptive analytics. Cutting-edge optimization models are presented and explained to tackle various strategic, tactical, and operational planning problems. The book will help readers better understand operations management in global maritime container transport chain. It will also provide practical principles and effective techniques and tools for researchers to push forward the frontiers of knowledge and for practitioners to implement decision support systems. It will be directly relevant to academic courses related to maritime transport, maritime logistics, transport management, international shipping, port management, container shipping, container logistics, shipping supply chain, and international logistics.
